

Please abolish Qualified Immunity and do not listen to the cops

Hello,

I am a graduate student writing today to say:

Please stop the cops from murdering and abusing us. I have been assaulted twice by police & falsely arrested. They are cruel.

In June, I was shoved by several cops in riot gear then pepper sprayed from less than one foot away. He continued as I retreated. I ended up in the ER.

In July I was flashbanged, gassed, assaulted, hit with a baton, dragged across the ground, thrown, tackled, arrested, held in handcuffs behind my back for 5 hours. I was held overnight in a holding cell in jail with 9 others during a pandemic. No bed, no water.

We NEED to get rid of qualified immunity. Please do not let cops convince you otherwise.

We need this protection. Please.

The people,
Aisling
