

I worked in Umatilla County (Pendleton). I was employed Sept.30, 2019 and because of covid-19 my employer had to close. Because I moved to Oregon in September of last year I did not have enough hours to apply. I applied with N.C. where I moved from. I had resided there for 8 years. N.C. won't help me because I relocated to Oregon. Oregon won't help me because I did not have enough hours even though I worked 30 per week. I have been transferred, hung up on, sat in a queue for 1 1/2 hours and still no help from either State. I have appealed in both States, August 5, 2020 with neither State responding. I gave up even trying. I moved to N.V. in May and have not filed since my move. More than frustrated with both States. You take my money out every paycheck and I get nothing in return!
