

This bill is absolutely unacceptable as written. The use of chemical weapons and impact munitions against civilians needs to be banned outright. Please do not support a bill that allows police to continue harming the people they are supposed to be protecting. This will do nothing to stop the police violence in our streets and in fact will likely bolster their use of force by not banning it. Our city is unsafe right now due to violence perpetrated by the police, allowing them to continue using chemical weapons is not an acceptable way forward.

Thank you,
