

It's disheartening and disturbing to hear that most impactful provisions in the original LC 742 draft have been cut out of the current version leading it feeling empty and defanged.

It is imperative that we ban the use of Chemical Weapons. That we allocate special rights for medics and press at protests and gatherings, and allow our citizen's to take legal action against the police if necessary.

These stipulations must be put back into LC 742 and LC 17 and let's pave the way for a more just and equitable society.
