

To Whom it May Concern,

I am writing to express my support of the legislature passing bills LC 17 through LC 20. It is high time we integrate this level of reform within our police state and work to change the ways in which BIPOC community member are unfairly impacted by current policing tactics. It's also high time that police are held more accountable for this current and past actions. I feel strongly that bills LC 17 to LC 20 need to be passed together. One bill on its own is not sufficient to bring about necessary changes to the system.

Please know that citizens care about the content of these bills and want to see drastic changes, NOW.

Thank you for your time and consideration.
