

HOUSE OF REPRESENTATIVES

DATE: 12/17/2020

TO: House Water Committee Members,

This is a summary of the bill concepts that I intend to submit that will likely be introduced in the House Water Committee.

LC #	Summary
1178	Requires persons that have responsibility for or control over packaging and labeling disposable cleaning cloths or similar implements with specified characteristics to comply with certain labeling requirements for product packaging. Punishes failure to comply with or violation of Act as unlawful trade practice under Unlawful Trade Practices Act.
1643	Requires Department of Environmental Quality to approve at least three contractors to provide water quality permit application review services for interested applicants. Requires department to approve or disapprove water quality permit application with report from contractor within 30 days. Provides speedier response to applicants for water permits for those willing to carry the costs of doing so, without changing underlying substantive standards.
808	Provides that the automatic stay is inapplicable to interference with in-stream flow rights held by a government entity or tribe.

If you are interested in sponsoring or have any questions regarding any of these concepts, please feel free to reach out to my office. Thank you for your time and consideration.

Sincerely,

Representative Marty Wilde
