

I am a small landlord that retired 6 years ago and depend on the rents from my few rentals to supplement my pension. It is not right nor equitable to ask me to forgive 20% of my rents. Are you as a legislator, willing to give up 20% of your income? My properties are all rented at below market value because I have good tenants and don't raise rents on good tenants. I need every cent I collect to maintain my rentals in good condition.

I propose you send a tenants rent to the landlord made out in both names :

Landlord and Tenant and require both signatures to insure that landlord receives the rent due. The last bailout check to one of my tenants did not come to me in the form of rent. My tenant went out and bought another pickup. I received NOTHING !!

PLEASE DON'T ASK ME TO GIVE UP 20% OF MY RENTS

Sincerely,

Dennis Casady
