

To our elected leaders, who are charged with advocating for human dignity and the common good,

While I am lucky enough not to be impacted by the eviction moratorium personally, I know many people who are and are depending greatly on the moratorium to be extended in order to avoid homelessness. As you are well aware, we are still very much in the midst of the pandemic, and for many of our community members the economic hardships related to the pandemic are worse than ever.

I know there are great costs, but I also know there are great resources. We just have to make the difficult choice to use these resources to help our most vulnerable neighbors. Please, please don't allow thousands of my friends and neighbors, your constituents, to become homeless this winter. Do the right thing and protect their housing, so we can keep helping them get back on their feet.

We are counting on you to act in a bipartisan way to do everything in your power to keep people in their homes. That is why we voted you into office, and the decisions you make regarding this issue will be remembered when it is time to renew your position.

Thank You,
Courtney Haber
