Oregon Conservation and Recreation Fund and Advisory Committee

**Re: Oregon Water Resources Department's (OWRD) Case #G-18843;
Yamhill County's [Docket No.: SDR-28-19]**

Wildlife and Human Life are being threatened!

I am a very concerned citizen with the issues raised by the thousands of residents of Chehalem Mountain concerning wildfire and water depletion of their wells via the aforementioned case.

I do not live on or have property on Chehalem Mountain.

Please review the information concerning Oregon Water Resources Department's
[Case # G-18843] here:

<https://savechehalemmountain.com/our-mission/>

Yamhill County Board of Commissioners is comprised of good people however, good people still make mistakes.

Please instruct the Representatives of OWRD to inform you of the contents of
Yamhill County's [Docket No.: SDR-28-19].

For your consideration:

Should [OWRD's Case # G-18843] *be approved* and *creeks, streams* and *residential water wells* run dry as a direct and proximate result ***and or*** a conflagration resulting from a foreseeable explosion of the chemical processes referenced and incorporated into Yamhill County's [Docket No.: SDR-28-19]; will State and County Government Officials be held *personally liable* for any and all *preventable damages*?

Respectfully submitted,
David S. Wall
