# PPE Surge Kit — For Emergency Management

## NEED:

- Emergency Management planning has identified the need for strategically placed, pre-deployed PPE materials for emergency use.
- A PPE Surge Stock Kit has been developed which in effect is a PPE “*Warehouse and Factory in-a-box*”.
- Each kit contains PPE for immediate use and allows for the production of additional PPE during a crisis.
- Each Kit will be identified by its light blue color and its contents are contained in a sealed steel box which is air / mobile transportable and can be stored long-term until its use is necessary.

## KIT DESCRIPTION / CONFIGURATION:

### MATERIALS

- SOLID STEEL CONSTRUCTION
- 12 GA STEEL TOP AND BASE
- 14 GA WALLS AND SIDES
- 10 GA FORK LIFT GUIDES
- 1-1/2" X 1-1/2" STEEL TUBE FRAME
