

RE: Rent LC-18

Hello,

I am a landlord in Oregon and I am very unhappy with our current government. It appears that renters are the only ones with rights in the state of Oregon and landlords are constantly having to take a back seat to the needs of the renters.

Our rent is our income. We use it to pay our health insurance, our mortgages, our insurance, buy our families food. So you have made us wait for our money and now you are suggesting that we don't even get the full amount that is owed to us?

We can't evict our tenants right now so we are stuck. However, we still have to make repairs and do maintenance on the homes that our renters live in. No thought has been given to our side of the story. Why do tenants have all of the rights. We might be struggling just as much if not more than they are.

Please reconsider this decision. It really isn't fair to those of us who are not big corporations.

Sincerely,

Ellie Hubbard
