

Task Force on Universal Health Care in Oregon:

I am submitting a public comment in support of the Health Care for All Oregon Plan. As a nursing student and Oregonian, I believe this plan will help my patients and all Oregonians get access to the health coverage they need. This will reduce barriers to seeking and receiving care for our most vulnerable populations. I personally support this plan as a proud student affiliate member of the Oregon Nurses Association.

Sincerely,

Maryne Dana
