I respectfully submit that OR is going down the Communist rathole. As Stalin said, one man with a gun can control 100 without one.

The Jews of Germany, millions of Russians, Pol Pot's Cambodians and others have died from gov'ts removing guns from their populace. Then going after anyone who doesn't share the "leaders" passion for control.

If that doesn't scare anyone, except those in control, you are not paying attention. Case in point, Bernie Sanders agent's comments:

Then there is "the Hunt" movie which has elites hunting conservatives. The ol saying that Hollywood leads the nation with how their movies portray things.

A right, since time immemorial, is the right to self protection and of your family. Be it clubs or rocks. Unless, of course, it is protection from a ruthless gov't. Your proposals under this legislation would prevent a person from protecting themselves, family or home from those who would do them harm. Do you re

ally think that your laws will be followed by criminals or gangs. Ha, makes you a laughing stock, although not funny!
