Subject: Written Testimony for LC 38
Date: Tuesday, January 14, 2020 1:48:43 PM

To Oregon Senate Judiciary Committee:

LC 38 is irrational and poorly conceived, just as it was in last year's version. The expectation of liability for two years after a firearm is sold, has no precedent with any sale of property and is obviously intended to penalize and criminalize firearm owners. The fact that the hearings for this legislation is closed to firearm and civil rights supporters is criminally neglectful of civil rights on whole and only demonstrates that the Democratic Majority wishes to abuse their privilege and Oregonians civil rights.

Without any substantiation or evidence, the measures outlined in the legislation are onerous and impede the right to self-defense, and will only create more division.

Do your due process and fulfill your obligation as civil servants to pass logical and rational legislation that is needed, not purely political and punitive bills such as this.

Do not let this legislation proceed and further the lost confidence of Oregonians in your office.
