

Sustainability Discussion

House Committee on Natural Resources

January 22, 2019

Jim Brown

Oregon State Forester 1986-2003

GNRO Policy Director 2003-2004

Citizens Want A High Quality of Life

- Jobs
- Education
- Public Safety
- Human Resource Services
- Quality Environment

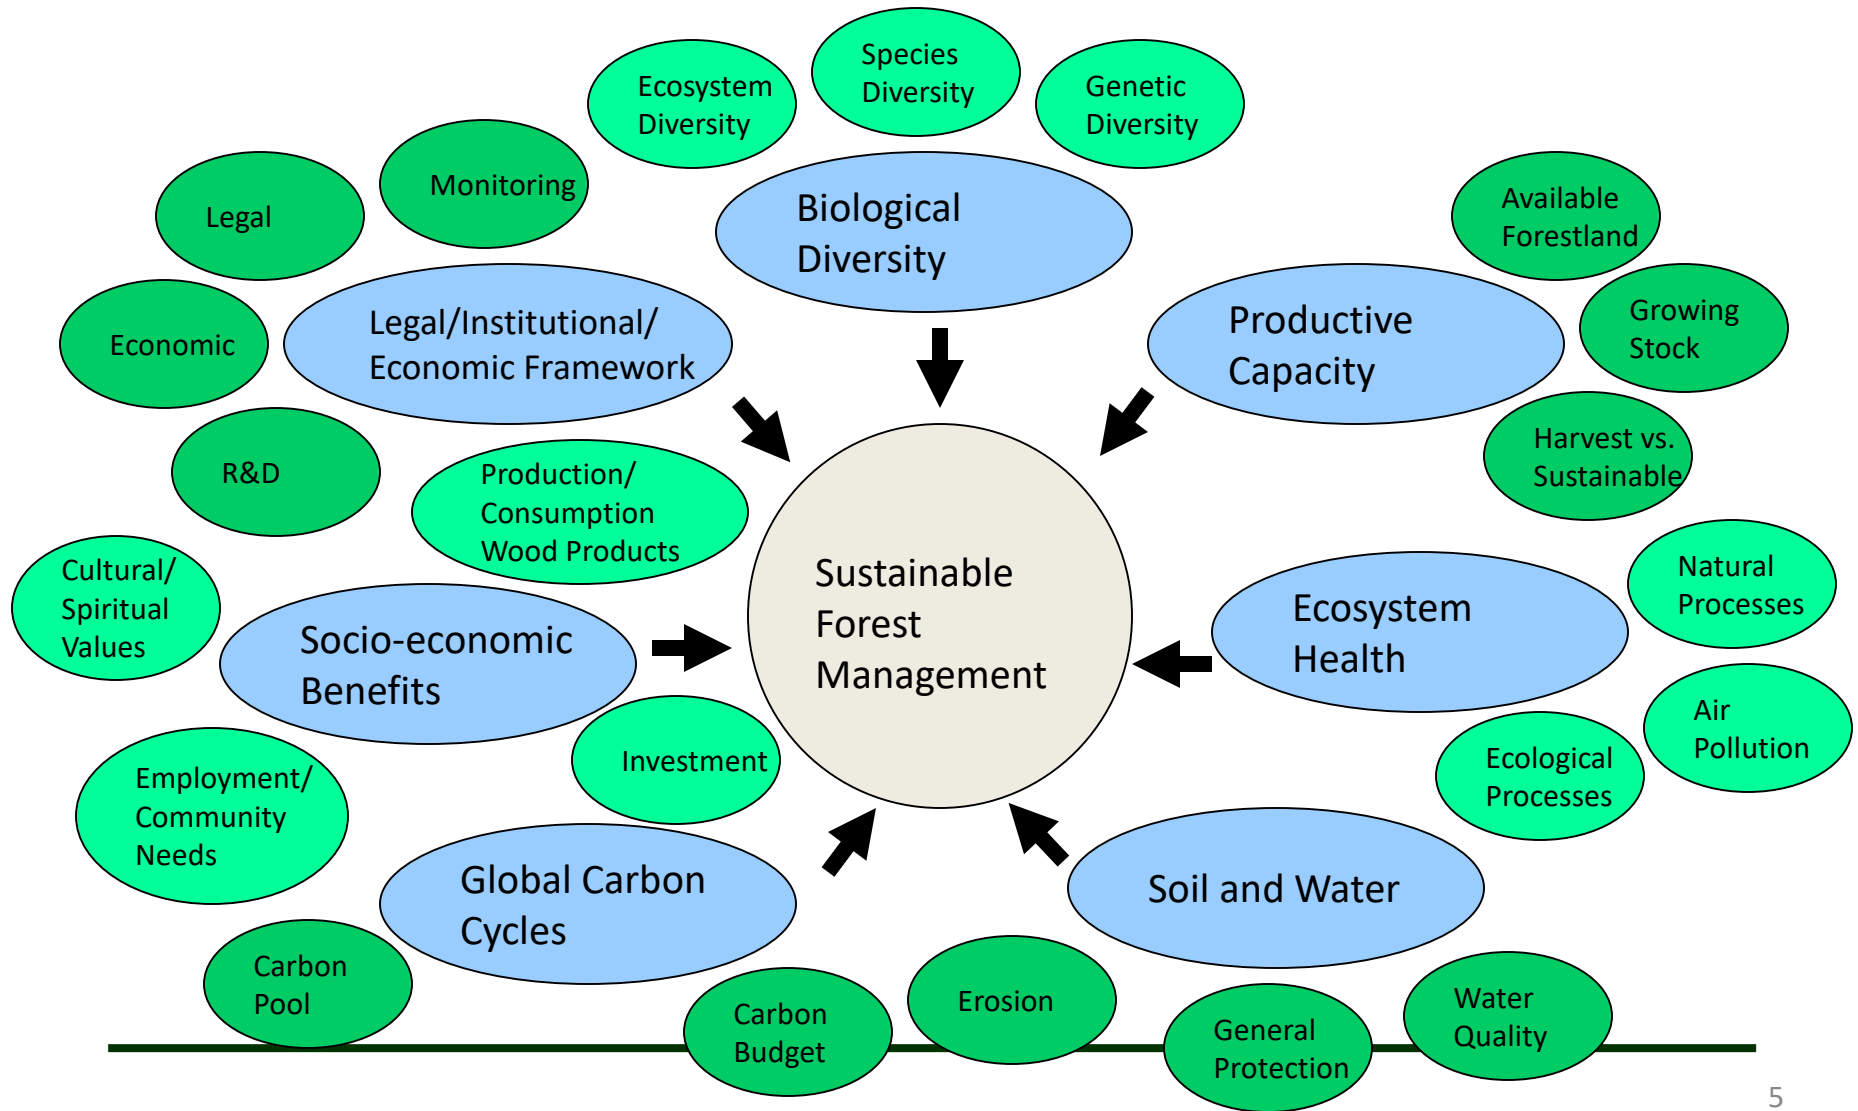

**Our Common Future: The World Commission on
Environment & Development--Forward
Chairman Gro Harlem Brundtland (Norway)**

- The environment does not exist as a sphere separate from human actions, ambitions, needs, and attempts to defend it in isolation from human concerns have given the very word 'environment' a connotation of naivety in some political circles.
- ...the environment is where we all live; and development is what we all do in attempting to improve our lot within that abode.

Our Common Future: Towards sustainable development

- Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs

Montreal Process **Criteria** and **Example Indicators** for Sustainable Forest Management

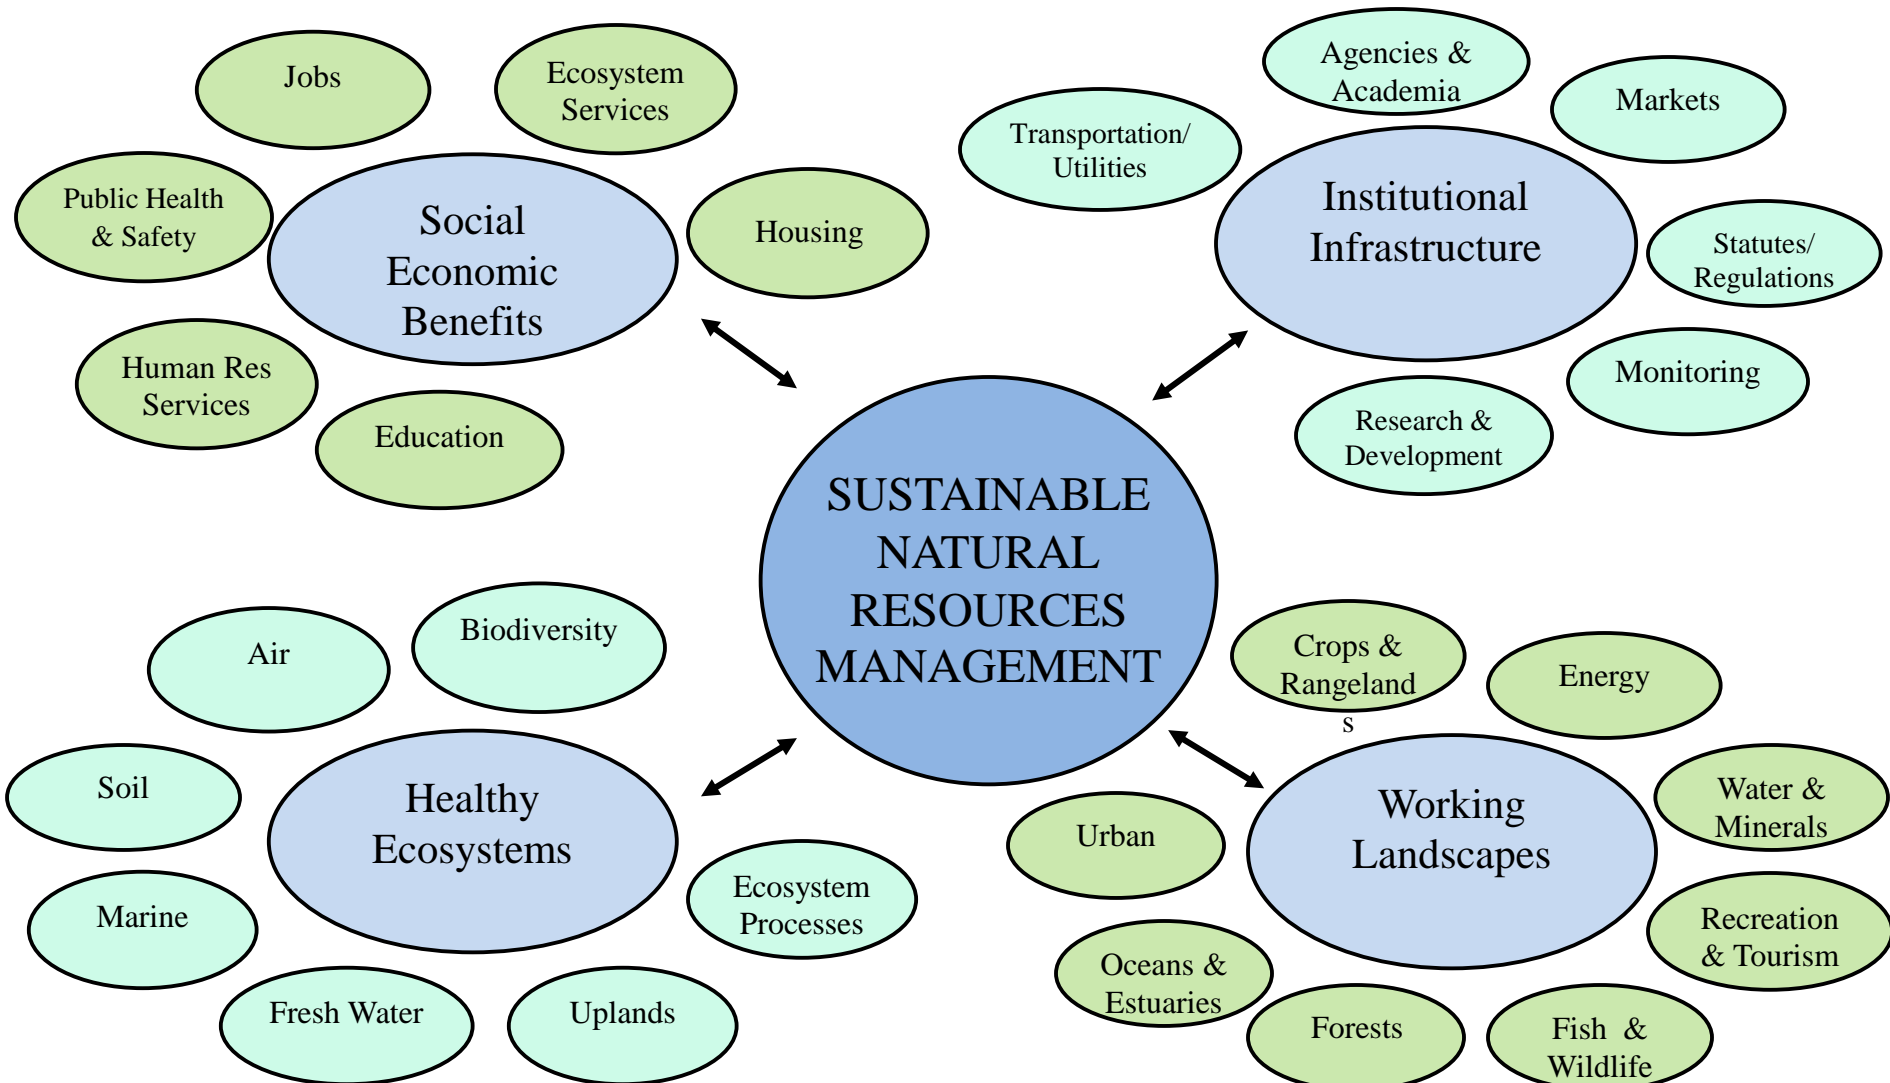

PROGRAM
for
OREGON

Oregon Board of Forestry

2003

SUSTAINABLE NATURAL RESOURCE MANAGEMENT FRAMEWORK

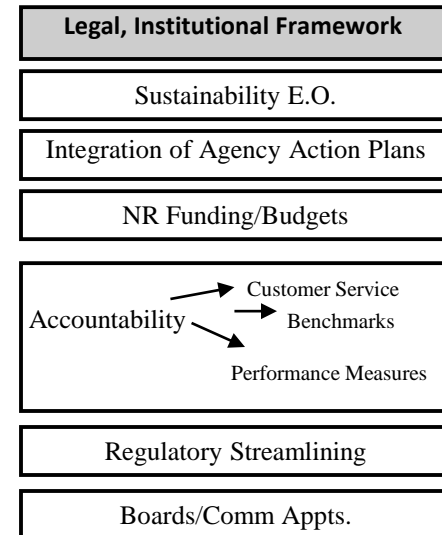

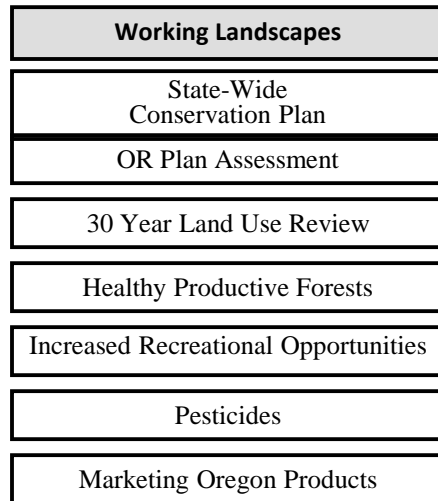

Opportunities for Rebuilding Oregon Together

Mission: A Livable Oregon Through Vibrant Economies Supporting Sustainable Ecosystems.

Vision: State Government as a Leader and Partner.

Goal: Maintenance and enhancement of long-term socio-economic benefits to meet the needs of society from natural resource management through working landscapes, healthy ecosystems, and a supportive legal and institutional framework.

Implementation: Coordination and Integration of Agency Action Plans

Agency: See Agency Action Plans

Different Forest Ownerships Can Play Different Roles In Sustainability

- Private Forestlands
 - Production forests focused on providing economic values
- Federal Forestlands
 - Provides the bulk of environmental and social values (Reserves, wilderness etc.)
- State Forests
 - Integrated multi-value forests with opportunity for innovative management

Summary

The Concept of Sustainability is a useful tool for finding the public's interest—socially, economically, and environmentally
