Chair Fagan, Vice Chair Girod, Members of the Committee,

My name is Edouard Duret and I live in the cully neighborhood of Portland, OR. I am a masters of social work student at Portland State University with a concentration in integrated behavioral healthcare. From my 5 years working for housing non-profits such as Cascadia and Central City concern, I've learned how housing directly impacts health. Please keep this in mind as people with secure housing are better supported in their healthcare goals.

Please vote yes on sb608.

Thank you,
Edouard Duret, QMHA
