To whom it may concern,

I have been in the industrial weighing industry since 1986 and wanted to express my support for the services provided by the metrology Labs operated by ODA. These services are absolutely vital to our industry, we are very fortunate to have what I believe to be the best resource for calibration on the west coast.

The people are professional, the quality of workmanship and price cannot be matched.

It is well known that businesses and service suppliers of the weighing industry from Washington, Idaho and Northern California utilize their services due to quality, workmanship and turnaround time.

We should be proud we have such great service in our own state operated by our state employees.
They should all be recognized supported and thanked.

sincerely
Troy Davidson
