To whom it may concern.

I am writing to note how much I appreciate the support of the ODA Weights and Measures Metrology Laboratory. I Manage the Field Technicians that repair all scales used in consumer trade in 140 Safeway and Albertsons stores in Oregon and Southwest Washington. Making sure our customers and our company are compliant and fair to our customers is of the utmost importance to our entire team. I currently have our weight sets confirmed by the Metrology lab every two years to make sure all of our scales can be calibrated correctly. These are for the Department scales, as well as the point of sale scales in all of our locations. I use the Oregon lab, as their findings are accepted in both states in which we currently support the stores. The lab team is efficient in their scheduling and completion of testing, so as not to have my team out in the field too long without their weight sets. I appreciate their professionalism and respect for my team as well as our customers.

Thanks

Corey Oliver  
Field Tech Manager  
Portland Division
