Subject: No on HB2531
Date: Friday, February 8, 2019 11:20:29 AM

I oppose HB2531, I have lived on the Upper Willamette River (area of impact) for more than 10 years, and have use the water ways for more than 50 years. I see NO erosion! Rivers move and change due to the fact that it is a flowing water way. Adding more restrictions or regulations would only impact the economics of boating, and will not change any shoreline.

Please note that my wife and I oppose HB2531

Thanks Tim Skreen
