Subject: support for HB 2001
Date: Sunday, February 10, 2019 6:00:20 PM

Chair Keny-Guyer:

I am in favor of HB 2001. I have lived in Portland for 54 years and I am a home owner in SE Portland. We need more housing, more diverse types of housing, and greater density in the inner city in order to make it possible for a more diverse population to live in the city. I am disturbed by the gentrification of Portland, and allowing more housing is one part of the solution. I also favor reducing the requirements for parking, in order to make more space for residential units and reduce the cost of residential units.
