

I oppose house bill 2351.

My family and I use the Willamette River with our wakeboard boat all summer long. To try to say that boat wakes are doing damage to the shoreline and docks in just the short summer season that we have here in Oregon is foolish.

The Willamette River is an extremely popular river for all water sport activities, especially wakeboarding and wakesurfing. Please don't take this away by regulating where and when people can enjoy their sport. Keep this public river open for all to enjoy whatever sport they wish.

Thank you for your time and consideration,

Polly Daniel
