

Re: oppose HB2001

I oppose the State Government overreach of HB2001. This is an important conversation but should take place on local level to ensure all voices are heard.

This bill seems like a give away to developers, without any regard for maintaining green spaces in neighborhoods or historical character of some Oregon neighborhoods.

Let local municipalities make the call, a one size fits all measure shoved down our throats is not the right answer.

Sincerely,

Justin Bednar
