

I'm writing in support of House Bill 2001. It is much-needed legislation to allow for historic housing types to return to our neighborhoods and communities. We need a range of diverse housing types to accommodate all people and lifestyles. It was never appropriate to support one housing type - single family homes - over others, and it is past time to remove this archaic and damaging restriction from our zoning laws.

Please vote in favor of House Bill 2001
