

> Hello my name is Kevin Crosby from Crosby Hop Farm in Woodburn, we operate our Hop farm on a very tight budget and have fixed future contracts, we compete in a global market place that gives no allowance for this cost increase. Our Hop drying costs are a large expense that we can't afford to pay the cap and trade increase, please realize we employ up to 70 people we pay benefits and need profits to be able to sustain our employees current costs. Regards, Kevin Crosby,
