**How Are We Doing**

The agency assessment of customer service performance for FY18 continues to exceed the targets in all categories. Even though the Board's overall performance dropped 1%, the Board saw a 5% jump in availability of information and a 4% in accuracy. The Board will continue to improve timeliness of services by looking for operational improvements and efficiency.

**Factors Affecting Results**

The Board has recognized the need that information should be readily available and accessible to the public, licensees, applicants and candidates and has worked diligently to provide up-to-date information on the Board's website. In addition, forms and communications have been reviewed and updated to provide clear and understandable language. In an effort to protect the public, the Board has developed and published on the Board's website a public record request form as well as a complaint form to help the public obtain the information they seek and the knowledge and ability to file a complaint.

While the Board had a 1% drop in overall performance, the availability which has historically been a weak area jumped 5%. We can contribute these successes to the Board's continued efforts to improve public protection and provide reliable information.

#### How Are We Doing

The Board continues to realize the benefit of a more streamline and efficient process for investigations. The efficiencies achieved pertain to process improvements and do not compromise the Board's core values of fairness and integrity. More expedient case resolution is consistent with the Board's mission to protect Oregon citizens. This measure is part of the Board's key strategic plan adopted in 2017.

#### Factors Affecting Results

The continued improvement in this measure can be attributed to the Board's efforts to find more efficient and streamlined processes.

KPM #3	Number of days from date of letter advising parties that an investigation has begun to completion of investigative report -

Actual	350	367	440.40	590	363
Target	155	155	155	155	155

#### How Are We Doing

This key performance measure continues to improve through the efficiency improvements, however the Board continues to work on the backlog of complaints. The Board has made the backlog a top operational priority which is also reflected in the Board's strategic plan adopted in 2017.

#### Factors Affecting Results

The downward trend in this measure reflects the Board staff focusing on resolving its oldest cases, and streamlining processes to gain further efficiency.

KPM #5	Percentage of complaints wherein letters advising the parties of whether or not an investigation will be initiated are mailed within five business days of the receipt of the complaint -
	Data Collection Period: Jul 01 - Jun 30

\* Upward Trend = positive result

Target	95%	95%	95%	95%	70%

**How Are We Doing**

Overall the Board has been improving on this measure. The agency has established a two-tiered process of handling complaints whereas an initial inquiry is completed allowing the Board to triage complaints. In so doing, approximately 20% of complaints progress to a full investigation. This process has allowed the Board to properly assess and understand a complaint prior to formal notification.

**Factors Affecting Results**

The upward trend in this measure is a reflection of the efforts put forth in initiating an inquiry process, wherein information is reviewed and understood before formal notification is sent out. This allows the Board and investigators to target the information necessary to either initiate an investigation or resolve the matter.
