

February 12, 2019

My experience started with Vocational Rehab in February 2018. I met Alex Rose at this time and he became my VR Counselor. He was tough with me at first and it was something I really needed and as we got to know each other better he has been my biggest supporter. I appreciate all the help he has given me and am grateful he helped me decide I wanted to go to a trade school.

I started welding school at R&S Welding in October 2018 and have enjoyed learning something I never thought I would be doing. James Stanton (owner/instructor) and Koneta Stanton (business manager/agent) have been a positive influence in my experience in this school. Each of them have gone the extra mile for me and have helped me with not only my classes but acquiring the tools that have helped me become a better student and welder.

I look forward to receiving my second certification soon and finishing my course. The next step will be finding a job that suits me and I'm confident that will happen because of the great team that I have working in my behalf.

Sincerely,

CodyKale
