House Committee on Energy and Environment

Sabrina Dunsworth, Committee Assistant

RE: HB2509

To the Committee

I stand in opposition to HB2509, ban on single use bags.

Let us have paper and let us have plastic; let us have corn-based, cotton or hemp. I am the only one qualified to choose the right bag for me, even if it means 100% virgin bleached paper.

I don't give consent to this market intervention.

Please oppose this anti-choice bill.

Best Regards,

Karen Darnell
