My name is Sue Craig.

I am a consumer of food stuffs from several Grocery stores, such as Winco, Market of Choice, Trader Joe's etc.

I have found it virtually impossible to purchase items....even one's packaged in glass ...with metal lids, that do not have seals of plastic.

HB 2509 and HB 2883 would at least start a process to decrease our dependence on single use plastics. Our earth is overwhelmed by these bags presently.

Please, to decrease fossil fuel use, protect our sea and land animals and birds, pass these two bills.

Thank you. Sue Craig
