

SB 128 -1 STAFF MEASURE SUMMARY

Senate Committee On Health Care

Prepared By: Brian Nieuburt, LPRO Analyst

Meeting Dates: 2/18

WHAT THE MEASURE DOES:

Directs Oregon Board of Medical Imaging (OMBI) to issue permit to supervise fluoroscopy to qualified advanced practice registered nurse (APRN). Defines "supervise fluoroscopy." Establishes permit issuance and renewal qualifications. Authorizes OBMI, Oregon State Board of Nursing (OSBN), and Oregon Health Authority (OHA) to adopt rules. Declares emergency, effective on passage.

REVENUE: May have revenue impact, but no statement yet issued.

FISCAL: May have fiscal impact, but no statement yet issued.

ISSUES DISCUSSED:

EFFECT OF AMENDMENT:

-1 Authorizes advanced practice registered nurse (APRN) to supervise fluoroscopy as part of an educational plan or program. Requires rules adopted by OBMI, OSBN, and OHA to include waiver process through which APRN may submit documentation demonstrating sufficient experience or education to exempt APRN from clinical or didactic educational requirements.

BACKGROUND:

Fluoroscopy is a study of moving body structures that shows a continuous X-ray image on a monitor, like an X-ray "movie." In 2015, the Legislative Assembly passed House Bill 2880 which directed the Oregon Board of Medical Imaging (OMBI) to issue certificates to practice fluoroscopy to qualified physician assistants (PAs). The ability of PAs to practice fluoroscopy currently requires a practice agreement between the PA and a supervising physician.

Senate Bill 128 directs OMBI to issue permits to supervise fluoroscopy to qualified advanced practice registered nurse.
