**Subject:** Lane Sharing Bill HB2314  
**Date:** Monday, February 18, 2019 6:54:50 AM

---

Hello

Please vote YES on HB2314.

Lane Splitting for motorcyclists is a part of progressive path to tackle Oregon's traffic future.

Riding a motorcycle in between lanes on freeways and highways when traffic is as slow as 10mph ...

- A) is safer for the motorcyclist (many studies show this e.g the [Berkeley Study](#))
- B) eases traffic since it keeps more parties moving
- C) encourages more motorcyclists to leave their car in the garage
- D) is more economical (motorcycles have less fuel consumption than cars)

Furthermore, electric motorcycles will be on the incline in the coming years and a lane sharing bill will encourage owners of these bikes to use them for commuting, adding more emission free vehicles to the road.

Therefore I kindly ask you to vote YES to HB2314

In high hopes

Felix
