Thanks for considering supporting motorcycle lane sharing in the Portland metro area. As an avid motorcyclist with a concern for safety, and a supporter of legislation that benefits the citizens of our great state, I hope you will consider endorsing this bill. There are numerous studies done showing that in regions of our country and other parts of the world, that motorcycle lane sharing is not only safer for motorcyclist, but it can relive traffic stress by allowing passage of more vehicles in a stop and go situation- automobiles will move along with less delay, and there are less opportunities for rear end accidents. The time is now to show that our city will benefit from this type of legislation.

Thank you for your consideration
