

Dear Lawmakers:

I am a mother of two young children and have lived for the past six years in Portland, Oregon (97217). I was also born in Portland but my family moved east when I was a baby. I am writing to strongly urge you to approve HB2020 in its strongest, most effective form.

My children are 4 and 6, and even in their short lifetimes we have seen climate change affect our daily lives. Many days in August, we are not able to go outside with them because of the fires and smoke. This will only get worse as time goes on.

Climate change is a true crisis, perhaps the true crisis of this generation, and I fear for my children's future. It is crucial to deal with it as powerfully and decisively as possible and this bill is part of that responsibility we have as stewards of our children's future. I urge you to pass HB2020 and make sure that it is a strong and effective version of this legislation.

Respectfully,
Alicia Rabins
