

> Dear Co-Chairs Dembrow and Powers and Joint Committee Members— I
> strongly support HB 2020 and urge its passage, mostly on behalf of my adult children and grandchildren who will hopefully far outlive me, and will be the ones who have to survive the world of climate change. As you know, better than most, we are very far behind where we should be on this critical issue.
> This bill is an important “first step” and I would encourage even STRONGER GOALS: ALL major polluters subject to caps: NO EXEMPTIONS, NO EXCLUSIONS; 20% reduction by 2025, 55% by 2035, and 100% by 2050.
