* Excludes Capital Construction expenditures

Summary of Revenue Changes

General Fund pays wages and salaries of state employees and provides matching funds for various facilities management activities, as well as matching funds for various Oregon National Guard activities.

Other Funds revenues include 9-1-1 taxes; proceeds from real property sales; facility rental fees; Average Daily Membership revenue received from the Bend-LaPine School District for the Youth Challenge Program; indirect cost transfers within the agency; and other miscellaneous revenues. Facility rental fees contribute to, but do not fully cover, armory maintenance and operations costs. If the Capital Construction Subcommittee subsequently approves one or more of the agency’s requested bond-funded capital construction projects, there will be additional Other Funds revenue from the sale of bonds.

Federal Funds come from a variety of federal-state cooperative agreements with the National Guard Bureau and grants from the Federal Emergency Management Agency (FEMA). They fund most facilities' operating costs, pay wages and salaries of state employees assigned to Oregon National Guard duties; provide construction funds for a variety of maintenance, armory, training, and reserve center facilities; fund several programs for at-risk youth; and contribute to central administrative costs through an interagency transfer. The Office of Emergency Management receives federal dollars from the Department of Homeland Security, Department of Defense and FEMA.

The department has a federal budget administered separately from its state budget and is not subject to State Federal Funds expenditure limitation.

Summary of Public Safety Subcommittee Action

The Oregon Military Department (OMD) provides Oregon and the United States with a ready force of Citizen Soldiers, Airmen and Civilians, trained and equipped to respond to any contingency, natural or manmade. The department is responsible for administration of the Oregon Army National Guard, the Oregon Air National Guard, the Oregon State Defense Force and the Office of Emergency Management. OMD has a dual mission: providing combat-ready units and equipment to be deployed in support of national defense, under the direction of the President; and providing trained personnel and equipment to protect life and property in Oregon during natural disasters or civil unrest, under the direction of the Governor.

The Subcommittee approved a budget of \$400,056,291 total funds consisting of \$25,478,546 General Fund, \$101,606,729 Other Funds expenditure limitation, and \$272,971,016 Federal Funds expenditure limitation, including 475 positions (424.82 FTE). The total funds budget is a 2.7 percent increase from the 2017-19 current service level and a 3.2 percent increase from the 2015-17 Legislatively Approved Budget.

Administration

The Administration Program provides leadership and support for command, control, and administration of the Oregon National Guard and Oregon Emergency Management. The program consists of the Command Group, Financial Administration Division, State Personnel Office, Public Affairs Program, Emergency Financial Assistance Program and the Reintegration Program. The Subcommittee approved a budget of \$7,688,409 total funds consisting of \$5,277,981 General Fund and \$2,410,428 Other Funds expenditure limitation, including 25 positions (23.88 FTE).

Operations

The Operations Program unit is responsible for ongoing maintenance and support of the facilities utilized by the National Guard and provides the infrastructure to respond to natural or human-made disasters. The program includes operation and maintenance of Army National Guard facilities and operation of the Portland Air Base at the Portland International Airport, Kingsley Field in Klamath Falls and the Camp Rilea Air Station in Warrenton. It also includes capital construction staff to oversee the department's capital construction projects. The Subcommittee

approved a budget of \$99,665,557 total funds consisting of \$7,312,690 General Fund, \$4,485,935 Other Funds limitation and \$87,866,932 Federal Funds limitation, including 337 positions (295.38 FTE).

- Package 070, Revenue Shortfalls. This package reduces Other Funds limitation by \$500,000 to bring limitation in the Operations and Maintenance Program in line with estimated armory rental revenues.
- Package 203, Camp Umatilla. This package increases Federal Funds limitation by \$7,390,762 and creates 21 permanent full-time positions (21.00 FTE) to manage the 7,500-acre National Guard training site on the former Umatilla Chemical Depot near Hermiston, Oregon. A portion of this site has been used for National Guard Training since 1980; the 2012 National Defense Authorization Act authorized 7,500 acres to be conveyed to the Oregon Military Department for use as a training site.
- Package 204, LD to Permanent Positions. This package increases Federal Funds limitation by \$166,478 and establishes one permanent full-time Construction Inspector position (1.00 FTE) to eliminate a long-term double fill. OMD has double filled its existing Construction Inspector position since January 2008 to provide adequate project management and inspection capacity for the agency's new construction and building alteration projects. New construction, major repairs and service life extension projects represent a significant, ongoing workload for OMD.
- Package 206, PANG Stormwater Fees. This package provides \$224,000 General Fund and \$896,000 Federal Funds limitation to pay an annual stormwater fee assessed at the Portland Air National Guard Base by the City of Portland. The cost of the assessment will be split 20 percent General Fund and 80 percent Federal Funds per OMD's agreement with the National Guard Bureau.
- Package 801, LFO Analyst Adjustments. The National Guard Bureau has determined fire protection programs at air national guard bases are to be 100 percent federally funded. Federal funding is available for fire protection services at Kingsley Field Air National Guard Base and at the Portland Air National Guard Base. Accordingly, General Fund support for this function is reduced by \$1,494,931.
- Package 812, Vacant Position Elimination. This package abolishes one vacant Facility Energy Technician 3 position (1.00 FTE), reducing General Fund by \$29,755 and Federal Funds limitation by \$119,020.

Oregon Emergency Management

Oregon Emergency Management (OEM) coordinates statewide emergency services and maintains emergency communications systems used for public warnings, emergency notifications and emergency support. OEM also provides cities, counties and tribes throughout Oregon with planning, training and technical assistance in disaster preparedness, emergency response, recovery services and hazard mitigation. Program areas within OEM include the Administration Program, Technology and Response Program, Plans and Training Program and the Mitigation and

Recovery Program. The Subcommittee approved a budget of \$262,701,293 total funds consisting of \$1,881,987 General Fund, \$91,578,052 Other Funds limitation and \$169,241,254 Federal Funds limitation, including 42 positions (42.62 FTE).

- Package 080, May 2016 E-Board. This package provides \$200,000 Other Funds limitation to allow the Office of Emergency Management to make special payments to the Department of Public Safety Standards and Training (DPSST) to fund training for telecommunicators and managers of 911 call centers in the 2017-19 biennium. Funding in the amount of \$100,000 was approved by the Emergency Board in May 2016. To address the demand for training, OEM will provide an additional \$100,000 to DPSST in 2017-19, for a total of \$200,000 Other Funds limitation.
- Package 305, FEMA Grants to DLCD. This package increases Federal Funds limitation by \$1,083,668 to accommodate grant payments from OEM to the Department of Land Conservation and Development (DLCD). DLCD is applying to OEM in 2017-19 for grant funds from FEMA's Pre-Disaster Mitigation and Hazard Mitigation grant programs. These are reimbursable grant programs that provide funding to state and local governments for natural hazard mitigation plans. DLCD will use the grant funds to help local governments with their natural hazard mitigation plans and to prepare an updated and improved risk assessment tool.
- Package 801, LFO Analyst Adjustments. This package fund shifts two positions by reducing General Fund by \$151,463 and increasing Other Funds limitation by \$151,463. The source of the Other Funds limitation for this fund shift is the 911 Emergency Communications Account. Additionally, the package includes an Other Funds revenue transfer in the amount of \$125,573 from the 911 Emergency Communications Account to the Oregon State Police, to shift 15 percent of the cost of the Oregon Emergency Response System from General Fund to Other Funds.

Community Support

The Community Support program offers educational opportunities for at-risk youth in Oregon. These opportunities are provided by the Oregon Youth Challenge Program in Bend and the Science and Technology Academy Reinforcing Basic Aviation and Space Exploration (STARBASE) programs in Portland and Klamath Falls. The Subcommittee approved a budget of \$14,151,479 total funds consisting of \$205,448 General Fund, \$3,029,773 Other Funds limitation and \$10,916,258 Federal Funds limitation, including 71 positions (62.94 FTE).

- Package 080, May 2016 E-Board. This package increases Other Funds limitation by \$256,000 and Federal Funds limitation by \$518,000 for the Youth Challenge Program. This increase was approved by the Emergency Board in May 2016, following updated revenue estimates from the National Guard Bureau for federal fiscal year 2016.
- Package 401, Youth Challenge Program Expansion. This package provides \$477,113 Other Funds limitation, \$600,322 Federal Funds expenditure limitation and creates 13 new permanent positions (4.94 FTE) to phase in the expansion of the Oregon Youth Challenge Program starting in October 2018. The Youth Challenge Program expansion was approved by the Legislature in 2015, when bond

financing was approved to renovate the program's facility to accommodate an additional 84 cadets per class. Renovations are expected to be complete by December 2018, with the first class of additional cadets in January 2019.

- Package 402, STARBASE Positions. This package provides a net increase in the amount of \$726,331 Federal Funds limitation and creates 12 new permanent positions (12.00 FTE) to replace limited duration and temporary teaching staff in the Science and Technology Academy Reinforcing Basic Aviation and STARBASE programs. The package decreases professional services limitation by \$660,000, decreases Services and Supplies limitation by \$335,000 and increases the programs personal services by \$1,721,331.

The STARBASE program exposes third to eighth graders to the fields of science, technology, engineering and mathematics through a 25-hour curriculum that demonstrates math and science applications in aerospace operations. This federally funded program hosts approximately 2,100 students per year, at the Portland Air National Guard Base and at the Kingsley Field Air National Guard base in Klamath Falls.

Capital Debt Service and Related Costs

The Capital Debt Service and Related Costs Program provides funding to make payments on principal, interest and financing costs for Certificate of Participation and Article XI-Q general obligation bond debt used to construct and upgrade agency facilities and for acquisition of land and facilities. The Subcommittee approved a budget of \$10,902,981 total funds consisting of \$10,800,440 General Fund, and \$102,541 Other Funds limitation.

Capital Improvements

The Capital Improvements program provides for capital improvements to existing facilities. Capital improvements projects are those with a total cost of less than \$1.0 million. Program expenditures are used to address the department's backlog of deferred maintenance. The Subcommittee approved a budget of \$4,946,572 Federal Funds limitation.

Summary of Performance Measure Action

Legislatively Approved 2017 - 2019 Key Performance Measures

Published: 6/5/2017 11:51:16 AM

Agency: Military Department

Mission Statement:

The Oregon National Guard will provide the citizens of the State of Oregon and the United States with a ready force of citizens soldiers and airmen, equipped and trained to respond to any contingency, natural or manmade.

Legislatively Approved KPMS	Metrics	Agency Request	Last Reported Result	Target 2018	Target 2019
1. RECRUITING - Percent of soldiers and airmen recruited vs. recruiting goal.		Approved	75%	100%	100%
2. ARMORY CONDITION - Percent of statewide armories in adequate or better condition.		Approved	53%	80%	80%
3. REVENUE GENERATION - Percent of available armory time rented.		Approved	23%	40%	40%
4. EQUIPMENT AVAILABILITY - Percent of equipment on hand in Oregon vs. equipment authorized.		Approved	139%	95%	95%
5. YOUTH CHALLENGE - Percent of youth who complete the academic phase of the program with a GED, high school diploma, or credit recovery at graduation		Approved	93%	85%	90%
6. REINTEGRATION - Percent of members successfully referred for reintegration services.		Approved	100	98	98
7. DOMESTIC PREPAREDNESS PLANS - Percentage of counties with National Incident Management System (NIMS) compliant Emergency Operations Plans (EOPS).		Approved	100%	100%	100%
8. HAZARD MITIGATION PLANS - Percentage of state population covered by a FEMA approved local hazard mitigation plan.		Approved	47%	90%	90%
9. CUSTOMER SATISFACTION - Percent of customers rating their satisfaction with Military Department customer service as "good" or "excellent": overall customer service, timeliness, accuracy, helpfulness, expertise and availability of information.	1) Expertise	Approved	74%	75%	75%
	2) Helpfulness		74%	75%	75%
	3) Timeliness		68%	75%	75%
	4) Availability of Information		71%	75%	75%
	5) Accuracy		74%	75%	75%
	6) Overall		74%	75%	75%

LFO Recommendation:

The Legislative Fiscal Office recommends the Key Performance Measures and targets as presented. Customer Satisfaction targets are recommended to be increased, as the agency has easily surpassed the current 55% satisfaction rating for the past five reporting years.

SubCommittee Action:

The Subcommittee approved the Key Performance Measures as recommended by LFO.

Summary of Revenue Changes

The General Fund appropriations made in the bill are within resources available as projected in the May 2017 economic and revenue forecast by the Department of Administrative Services, Office of Economic Analysis, supplemented by transfers from various agency accounts to the General Fund for general governmental purposes as authorized in HB 3470, plus other actions to reduce state agency expenditures.

Summary of Capital Construction Subcommittee Action

HB 5006 appropriates General Fund to the Emergency Board for general purpose and targeted special purpose appropriations, and makes other adjustments to individual agency budgets and position authority as described below.

Emergency Board

The Emergency Board allocates General Fund and provides Lottery Funds, Other Funds, and Federal Funds expenditure limitation to state agencies for unanticipated needs in approved agency budgets when the Legislature is not in session. The Subcommittee appropriated \$50 million General Fund to the Emergency Board for general purposes.

HB 5006 makes two special purpose appropriations to the Emergency Board, totaling \$110 million General Fund; the bill also adjusts a special purpose appropriation already approved in a different bill:

- \$100 million General Fund for state employee compensation changes.
- \$10 million General Fund for allocation to state agencies for compensation changes driven by collective bargaining for workers who are not state employees.
- Reduces the special purpose appropriation made by SB 505 for costs associated with the requirement to record grand jury proceedings, by \$600,000 General Fund. The budget for the Judicial Department is increased by this amount.

If these special purpose appropriations are not allocated by the Emergency Board before December 1, 2018, any remaining funds become available to the Emergency Board for general purposes.

Adjustments to Approved 2017-19 Agency Budgets

STATEWIDE ADJUSTMENTS

Statewide adjustments reflect budget changes in multiple agencies based on reductions in Department of Administrative Services assessments and charges for services, Attorney General rates, certain services and supplies, and additional vacancy savings expected as a result of a hiring slowdown. Statewide adjustments also reflect net reductions to debt service realized through interest rate savings on bond sales and refunding of outstanding general obligation and lottery revenue bonds. Total savings are \$135.8 million General Fund, \$16.7 million Lottery Funds, \$105.5 million Other Funds, and \$35.6 million Federal Funds.

Specific adjustments include \$126 million total funds savings from implementing a hiring slowdown implemented across all three branches of government; \$25 million in General Fund and Lottery Funds savings from eliminating most inflation on services and supplies implemented across all three branches of government; \$9.3 million total funds from a 10% reduction to travel in Executive Branch agencies to implement the Governor's previously announced cost containment effort; \$68 million total funds reduction from lower Department of Administrative Services assessments and service rates; and \$13 million total funds from lower Attorney General rates.

For SB 243, the Subcommittee approved implementation costs of \$123,932 Other Funds and established one permanent part-time Assistant Attorney General position (0.38 FTE) in DOJ's Civil Enforcement Division. The Division provides services to train caseworkers and certifiers on the new legal standard of abuse, advises Department of Human Services (DHS) in the preparation and adoption of administrative rules, as well as child protective services investigations, confidentiality laws, and release of records. The Division also provides advice and legal representation to DHS in all administrative appeals of those investigations and related certification actions for certified foster homes. The revenue source to fund this expense is legal service charges billed to DHS. The roll-up costs are estimated to be \$89,084 Other Funds and one position (0.25 FTE) for the 2019-21 biennium.

The Subcommittee approved \$500,000 General Fund to support Community Assessment Centers, as a one-time increase, in order to provide child abuse medical assessments. The funding will be administered through the Oregon Department of Justice, Crime Victims Services Division, as pass through funds distributed to the statewide Community Assessment Centers network association, which will ensure equitable distribution.

To support the Oregon Crime Victims Law Center, the Subcommittee also appropriated \$175,000 General Fund as a one-time increase. This will bring total funding for the Law Center from the Department of Justice to \$554,559, including \$504,599 General Fund and \$50,000 Other Funds; the latter is from the renewal of a state grant funded from punitive damage awards.

Oregon Military Department

The Subcommittee approved an increase in Other Funds expenditure limitation of \$448,244 for cost of issuance of \$23,730,000 in Article XI-Q bonds authorized in SB 5506 for three Regional Armory Emergency Enhancement projects in Salem, Newport, and Coos Bay; an Armory Service Life Extension project at the Grants Pass armory; and to re-issue bonds for the Regional Training Institute and Youth Challenge capital construction projects in 2017-19. Bonds are planned to be issued in October 2017, and in March 2019.

The agency's General Fund appropriation for debt service was decreased by \$378,344 for debt service estimated to be paid in 2017-19 due to anticipated debt service savings. Debt service in 2019-21 for bonds issued in 2017-19 is estimated to be \$4,305,134 General Funds.

The Subcommittee approved a one-time appropriation of \$1,000,000 General Fund for construction of or repairs to the Oregon Military Museum at Camp Withycombe in Clackamas, Oregon.

To operationalize the provisions of HB 2687, the Subcommittee increased Other Funds expenditure limitation in the Oregon Military Department, Office of Emergency Management by \$5,000,000 to capitalize the Resiliency Grant Fund, and increased Other Funds expenditure limitation by \$70,000 to pay for the cost of bond issuance. Other Funds limitation is funded by the sale of Article XI-Q bonds authorized in SB 5506. The Subcommittee added \$181,178 General Fund and increased Federal Funds expenditure limitation by \$181,178 and approved two permanent positions (2.00 FTE) to administer the program and the grant-making process.

**Various
2017-19**

- Oregon Judicial Department, Oregon Supreme Court Building Renovation: approved \$6,125,000 Article XI-Q bonds to finance \$6,000,000 of project costs and \$125,000 for costs of issuing the bonds. The project is to renovate the Oregon Supreme Court building, including seismic updates, energy efficiency improvements, and various systems and safety code upgrades.
- Oregon Military Department, Regional Armory Emergency Enhancement: approved \$8,675,000 Article XI-Q bonds to finance \$8,534,400 of project costs and \$140,600 for costs of issuing the bonds. The project involves making structural improvements to bring the following three facilities to essential facility standards for seismic events: Coos Bay Armory, Newport Armory, and the Anderson Readiness Center in Salem.
- Oregon Military Department, Grants Pass Armory Service Life Extension: approved \$3,330,000 Article XI-Q bonds to finance \$3,270,356 of project costs and \$59,644 for costs of issuing the bonds. The project is for design and construction of additions and alterations to the Grants Pass Armory to bring the building into conformance with current building code.
- Oregon Military Department, Resiliency Grant Fund: approved \$5,070,000 Article XI-Q bonds to finance \$5,000,000 of project costs and \$70,000 for costs of issuing the bonds. The proceeds will be used to purchase emergency preparedness equipment, which will be owned by OMD and distributed to local governments and other federal tax-exempt qualified recipients.
- Oregon Military Department, Regional Training Institute: approved \$6,630,000 Article XI-Q bonds to finance \$6,500,000 of project costs and \$130,000 for costs of issuing the bonds. The project is to refurbish existing buildings in Umatilla to serve as the new Regional Training Institute. Article XI-Q bonds were authorized and issued for this project in 2015-17; however, it was subsequently determined that tax-exempt bond proceeds could not be used to finance the project. Thus, this project is being reapproved to issue taxable bonds in 2017-19.
- Oregon Military Department, Youth Challenge Armory: approved \$5,095,000 Article XI-Q bonds to finance \$4,977,000 of project costs and \$118,000 for costs of issuing the bonds. The project is for expansion and renovation of the existing facility in Bend to increase capacity for at-risk youths participating in the Youth Challenge Program. Article XI-Q bonds were authorized and issued for this project in 2015-17; however, it was subsequently determined that tax-exempt bond proceeds could not be used to finance the project. Thus, this project is being reapproved to issue taxable bonds in 2017-19.
- Oregon Department of Veterans' Affairs, The Dalles Veterans' Home Capital Improvements: approved \$1,195,000 Article XI-Q bonds to finance \$1,150,000 of project costs and \$45,000 for costs of issuing the bonds. The project involves construction of a new educational building and daycare building, upgrades to wireless infrastructure, and phone system replacement.

2013-15

Portland State Office Building Renovation: \$13,146,000 Other Funds (Article XI-Q Bonds) is approved to renovate the building exterior, including replacement of the windows and roof; upgrade security, electrical and HVAC systems; painting; and renovating restrooms.

State Data Center Power Upgrades: \$11,000,000 Other Funds (State Information Technology Operating Fund) is approved to upgrade power and increase capacity of the data center.

Elected Official Staff Relocation: \$6,300,000 Other Funds (Capital Projects Fund) is approved to renovate the historic State Library building for relocation of the Office of the Governor's staff from the Oregon State Capitol. The work is scheduled to occur in three phases beginning in July 2017.

Capital and Tenant Improvements for 550 Building: \$1,400,000 Other Funds (Capital Projects Fund) is approved as an increase to the 2015-17 capital construction limitation for capital and tenant improvements that exceed the \$4,000,000 established for the project by the May 2016 Emergency Board.

The Subcommittee approved the extension of the project expiration date and expenditure limitation for Department of Environmental Quality and Public Health Laboratory Roof Replacement (Other Funds) to June 30, 2018 and Capital and Tenant Improvements for 550 Building (Other Funds) to June 30, 2018.

Oregon Military Department

Regional Armory Emergency Enhancement: \$8,534,400 Other Funds (Article XI-Q Bonds) is approved for making structural improvements to bring the following three facilities to essential facility standards for seismic events: Coos Bay Armory, Newport Armory, and the Anderson Readiness Center in Salem. The project includes seismic structural upgrades, backup power and water systems, and emergency equipment and fuel storage for the three facilities.

Grants Pass Armory Service Life Extension: \$3,270,356 Other Funds (Article XI-Q Bonds) is approved for a service life extension project to renovate the facility. The project is for design and construction of additions and alterations to the Grants Pass Armory to bring the building into conformance with current building code. The project will upgrade mechanical, electrical and plumbing systems; remodel the existing classrooms, administrative space, latrines and showers, equipment storage areas, kitchen, and assembly hall areas; replace failed paving areas; and replace existing site lighting, landscaping and fencing.

Future Readiness Center Sites: \$1,730,000 Other Funds (Capital Construction Account) is approved for the purchase of two parcels of land necessary to construct two new Readiness Centers as replacements for the Hillsboro and Redmond Armories. One property is located in Washington County and the other is located in Deschutes County.

The Subcommittee approved the extension of the project expiration date and expenditure limitation for The Dalles Readiness Center (Other Funds) to June 30, 2018 and The Dalles Readiness Center (Federal Funds) to June 30, 2018.

The Subcommittee also approved the proposal from the Oregon Military Department, as required by ORS 396.515 (4), for the sale of the Burns Armory and 40 acres of land in La Grande.

Oregon Youth Authority

Capital Improvements: \$17,168,249 Other Funds (Article XI-Q Bonds) is approved for capital improvements to permanent structures and fixtures to address needs identified by the Facility Condition Assessment completed on the department's facilities.

MacLaren West 7 Cottages Renovation: \$21,177,200 Other Funds (Article XI-Q Bonds) is approved for capital improvements to renovate and remodel seven living units on the west side of the campus at MacLaren Youth Correctional Facility. Article XI-Q bonds have been approved in SB 5505 to finance Phase 1 of this project with \$15,177,200 of bond proceeds in 2017-19.

Rogue Valley Facility Improvements: \$10,973,465 Other Funds (Article XI-Q Bonds) is approved for capital improvements to renovate and remodel four living units at the Rogue Valley Youth Correctional Facility. Article XI-Q bonds have been approved in SB 5505 to finance Phase 1 of this project with \$6,973,465 of bond proceeds in 2017-19.

Department of Corrections

Capital Improvements and Renewal: \$26,293,534 Other Funds (Article XI-Q bonds) is approved to make improvements in several facilities including roofs, HVAC, surveillance, and infrastructure improvements to address needs identified in the Facility Condition Assessment completed on the department's facilities.

Technology Infrastructure: \$12,200,000 Other Funds (Article XI-Q bonds) is approved for the VOIP Telephony Upgrade and Install project to upgrade and install technology infrastructure that will support a voice-over-internet protocol telephone system.

Oregon Department of Veterans' Affairs

Roseburg Veterans' Home: \$10,500,000 Other Funds (Article XI-Q Bonds) is approved to build a new Veterans' home in Roseburg.

Oregon Veterans' Home Capital Improvements: \$2,450,000 Other Funds (Article XI-Q Bonds) is approved to fund the following two projects: The Dalles Veterans' Home Capital Improvements: \$1,150,000 Other Funds is approved for construction of a new educational building and daycare building, upgrades to wireless and security infrastructure, and phone system replacement; and Lebanon Veterans' Home Parking Lot: \$1,300,000 Other Funds is approved to build a new parking lot at the veteran's home in Lebanon.

Various Agencies

2017-19

*** CORRECTED ***

Statewide Adjustments

EMPLOYEE COMPENSATION DISTRIBUTION

The Subcommittee approved allocation of \$98.4 million General Fund to state agencies for employee compensation. The General Fund appropriation is expected to cover 100% of the statewide estimate of costs for compensation and benefit changes agreed to through collective bargaining or other salary agreements. Total compensation adjustments include \$98.4 million General Fund, \$2.3 million Lottery Funds, \$80.8 million Other Funds, and \$43.3 million Federal Funds.

OTHER STATEWIDE ADJUSTMENTS

Other statewide adjustments include adjustments for Pension Obligation Bond (POB) payments and fully funding the General Fund need of employee compensation for small agencies. POB adjustments generated a net cost of \$1.7 million Total Funds, but included General Fund savings of \$1.5 million.

Section 180 of the budget bill reflects the changes, as described above, for each agency. These adjustments are not addressed in the agency narratives, although they are included in the table at the beginning of the budget report.

Other statewide adjustments also reflect budget changes in multiple agencies to apply Other Fund balances generated through excess Lottery Fund reserves, excess bond proceeds, and interest earnings to debt service. A technical adjustment to the Department of Administrative Services Other Fund debt service is also included. Total net debt service savings are \$2.8 million General Fund and \$1.4 million Lottery Funds. New Other Funds expenditure limitations for the Oregon Business Development Department (\$108,109), the Department of Education (\$24,302), the Higher Education Coordinating Commission (\$24,434), and the Department of Corrections (\$42,042) are established to accommodate the use of fund balances for debt payments, while existing Other Funds expenditure limitations for a number of other agencies are collectively increased by \$3.6 million.

Sections 75, 76, 77, 95, and 170 of the budget bill reflect the changes, as described above, for each agency. These adjustments are not addressed in the agency narratives, although they are included in the table at the beginning of the budget report.

General Fund for standard inflation; however, HB 5006 (2017), as part of a statewide adjustment, also included a reduction of \$127,059 for inflation. The Subcommittee's action restores the inflation reduction to provide funding for civil rights enforcement.

The Subcommittee also approved a technical adjustment to transfer \$25,646 General Fund from the Appellate Division to the Civil Enforcement Division to correct for an Oregon Law reference error in HB 5006 (2017).

A technical adjustment to the Child Support Enforcement Automated System (CSEAS) information technology project was approved. The adjustment increases months on six existing positions by 3.17 FTE. This adjustment is self-financed by reducing budgeted services and supplies by \$708,017 and increasing personal services by a corresponding amount. This adjustment aligns budgeted indirect charges for the program with agency practice.

Oregon Military Department

The Subcommittee approved a one-time General Fund appropriation of \$260,724 to cover expenses incurred by the Oregon Military Department for services provided by the Oregon National Guard during and after the total solar eclipse on August 21^t, 2017.

The Other Funds expenditure limitation for the Community Support program was increased, on a one-time basis, by \$5,442,829 to reimburse wildland firefighting expenses incurred by the Oregon Military Department during the 2017 fire season.

The Subcommittee increased the agency's Federal Funds expenditure limitation by \$16,421,308 for lead dust abatement projects at eight armories located throughout Oregon.

Pending federal approval of the agency's proposed indirect cost allocation plan, the Subcommittee recommended \$1,590,544 General Fund be added to the Office of Emergency Management to cover 2017-19 administrative expenses that can no longer be charged to federal grants. The Subcommittee also approved the following budget note:

Budget Note:

The Oregon Military Department - Office of Emergency Management (OEM) is directed to assess and update OEM's processes, policies, and practices for internal control over grants management, separate from and in addition to any external financial or programmatic audits currently underway. The updated practices should align to the Internal Control-Integrated Framework as updated in 2013 by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Military Department is to undertake immediate action to correct any identified deficiencies.

The Military Department is directed to submit a quarterly progress report to the Legislature at each meeting of the Emergency Board in 2018. The Military Department is directed to provide a final written report on the assessment and corresponding updated processes, policies, and procedures to the Joint Committee on Ways and Means during the 2019 legislative session, prior to consideration of the agency's budget for 2019-21.

Department of Public Safety Standards and Training

The Other Funds expenditure limitation for the Operations program was increased, on a one-time basis, by \$623,260 to reimburse the Department of Public Safety Standards and Training for expenses incurred for training and certifying Oregon National Guard members as wildland firefighters during the 2017 fire season.

The Subcommittee increased the Department of Public Safety Standards and Training's Other Funds expenditure limitation by \$400,000 to continue and expand mental health and crisis intervention training for first responders with funding from the Oregon Health Authority.

The Subcommittee increased the agency's Other Funds expenditure limitation by \$3,657,838, and authorized seven permanent positions (4.06 FTE) and six limited duration positions (3.48 FTE) to add five basic police classes and one basic corrections class to the agency's training calendar to meet demand during the 2017-19 biennium.

Department of State Police

The Subcommittee increased the agency's Other Funds expenditure limitation by \$12,770,000 for federally reimbursable expenses incurred during mobilizations coordinated by the State Fire Marshal during the 2017 fire season in Oregon. Additionally, the agency's General Fund appropriation was increased by \$3,255,945 to cover the portion of the Patrol Division's and State Fire Marshal's 2017 fire season expenses that are not eligible for federal reimbursement.

The Department of State Police is undertaking a significant rebalance of its resources between program units to better support the Patrol Division and to minimize the practice of holding trooper positions vacant. The Subcommittee approved \$2,975,558 General Fund and 25 positions (25.00 FTE) to resolve double-filled support positions. This action requires the agency to reduce its 2017-19 appropriation for services and supplies and capital outlay to fund \$1,737,202 of the total cost of these positions, which is \$4,712,760. It is the intention of the Legislature that the agency's services and supplies and capital outlay budgets be restored to current service levels for the 2019-21 budget.

The Subcommittee also approved a net-zero budget action to re-classify 49 positions per classification studies completed by the Department of Administrative Services, Chief Human Resources Office. Three studies reclassified five Automotive Technician 1 positions to Automotive Technician 2s, three Office Specialist 1 positions to Office Specialist 2s, fourteen Administrative Specialist 1 positions to Administrative Specialist 2s, twenty-five Office Specialist 2 positions to Administrative Specialist 1s, and two Office Coordinator positions to Administrative Specialist 1s.

SB 5701 A BUDGET REPORT and MEASURE SUMMARY

Carrier: Sen. Steiner Hayward

Joint Committee On Ways and Means

Action Date: 03/02/18

Action: Do pass with amendments. (Printed A-Eng.)

Capital Construction – Various Agencies

2017-19

Capital Construction – Oregon Military Department

2015-17

Capital Construction – Department of Aviation

2015-17

Oregon Military Department

Camp Umatilla Facilities Biomass Heating Upgrades: Approved establishing \$6,125,000 Federal Funds (National Guard Bureau) expenditure limitation to convert boilers from propane fuel to wood pellet fuel at Camp Umatilla. Decentralized wood-pellet boiler heating systems will be installed in eleven buildings on the Umatilla Training Center site.

Oregon Military Museum: Approved a \$378,726 increase in Other Funds (Capital Construction Account) expenditure limitation for the 2015-17 Oregon Military Museum capital project. The increase brings total Other Funds capital construction limitation approved for the project to \$1,104,689 and will allow the Oregon Military Department to expend donations for the design and construction of a research library in the new museum.

Department of Aviation

McDermitt State Airport Rehabilitation: Approved a \$521,380 increase in Federal Funds (Federal Aviation Administration) and \$57,932 increase in Other Funds (aircraft registration fees) expenditure limitation for the 2015-17 McDermitt State Airport Rehabilitation project. The increases bring total capital construction limitation approved for the project to \$2,336,380 Federal Funds and \$259,599 Other Funds to accommodate higher construction costs.

Higher Education Coordinating Commission (HECC)

The Subcommittee approved a \$74,650,000 increase in Other Funds capital construction six-year expenditure limitation for distribution of general obligation and lottery revenue bond proceeds to public universities. This amount corresponds to the total project amounts for three new university projects and increases in three previously approved projects. Projects are funded with proceeds from the issuance of Article XI-G bonds, Article XI-Q bonds, Article XI-F (1), and Lottery Revenue bonds and will be disbursed as grants or loans, as applicable, pursuant to grant contracts and loan agreements between HECC and each university. Project descriptions are included in SB 5702. The expenditure limitation will expire June 30, 2023.

- 32. Department of State Police**
Approved, retroactively, the submission of a federal grant application to the U.S. Department of Justice, Bureau of Justice Statistics in the amount of \$159,520 over a two-year period to purchase finger- and palm-print biometric scanning equipment for local criminal justice agencies.
- 33. Department of State Police**
Allocated \$134,709 from the Emergency Fund established by section 1, chapter 702, Oregon Laws 2017, to supplement the appropriation made to the Department of State Police by section 1(4), chapter 581, Oregon Laws 2017, Administrative services, agency support, criminal justice information services and office of the State Fire Marshal, to pay for the balance of the agency's implementation costs for the technology solution chosen for the STOP program.
- 34. Department of State Police**
Allocated \$9,865,644 from the Emergency Fund established by section 1, chapter 702, Oregon Laws 2017, to supplement the appropriation made to the Department of State Police by section 1(4), chapter 581, Oregon Laws 2017, Administrative services, agency support, criminal justice information services and office of the State Fire Marshal, and increased the expenditure limitation established for the Department of State Police by section 2(4), chapter 581, Oregon Laws 2017, Administrative services, agency support, criminal justice information services and office of the State Fire Marshal, by \$7,104,707, to address costs incurred during the 2018 wildfire season, with instructions.
- 35. Military Department**
Acknowledged receipt of a report on the agency's assessment of its processes, policies, and practices for internal control over grants management.
- 36. Military Department**
Allocated \$123,275 from the Emergency Fund established by section 1, chapter 702, Oregon Laws 2017, to supplement the appropriation made to the Military Department by section 1 (4), chapter 566, Oregon Laws 2017, Community Support, to reimburse the agency for costs associated with state activation of the Oregon National Guard to support two drinking water delivery missions for the City of Salem during May and June 2018.
- 37. Military Department**
Deferred action on the request for a \$50,000 Emergency Fund allocation and a limited duration position to coordinate emergency drinking water resources until the 2019 legislative session.
- 38. Department of Justice**
Authorized the transfer of \$87,193 from the General Fund appropriation established for the Department of Justice, by section 1(2), chapter 576, Oregon Laws 2017, Civil Enforcement Division, to the General Fund appropriation established for the Department of Justice, by section 1(3), chapter 576, Oregon Laws 2017, Criminal Justice Division, for the Regional Automated Information Network (RAIN) coordinator position.

93. Department of Administrative Services
Established a Federal Funds expenditure limitation of \$847,000 for the Department of Administrative Services, Office of the State Chief Information Officer – Policy, to accommodate grants and contracts for statewide aerial imagery.

94. Department of Administrative Services
Increased the Other Funds expenditure limitation established for the Department of Administrative Services by section 2(5)(a), chapter 572, Oregon Laws 2017, Office of the State Chief Information Officer – State Data Center, Operations, by \$9,300,000, and authorized the transfer of \$10,000,000 from the Other Funds expenditure limitation established for the Department of Administrative Services by section 2(5)(b), chapter 572, Oregon Laws 2017, Office of the State Chief Information Officer – State Data Center, Pass-through expenditures, to the Other Funds expenditure limitation established for the Department of Administrative Services by section 2(5)(a), chapter 572, Oregon Laws 2017, Office of the State Chief Information Officer – State Data Center, Operations, for increased services.

95. Department of Administrative Services
Acknowledged receipt of a report on uniform rent rates and recommended to the 2019 Legislative Assembly that it approve, for each agency, an amount sufficient to pay rentals required under the final schedule for uniform rent based on the 2019-21 legislatively adopted budget for the Department of Administrative Services as required under ORS 276.390.

96. Department of Public Safety Standards and Training
Approved, retroactively, the submission of a federal grant application to the U.S. Department of Commerce, National Institute of Standards and Technology in the amount of \$214,006 to develop three-dimensional maps of indoor public spaces in Oregon.

97. Oregon Business Development Department
Approved, retroactively, the submission of a federal grant application to the U.S. Environmental Protection Agency in the amount of \$500,000 for additional capitalization of Oregon Brownfields Cleanup Fund which provides cleanup financing for sites contaminated by hazardous substances and petroleum.

98. Oregon Business Development Department
Approved, retroactively, the submission of a federal grant application to the U.S. Department of Agriculture in the amount of \$300,000 to support targeted technical assistance and other training leading to the development or expansion of small and emerging private businesses in rural areas.

99. Military Department
Allocated \$188,000 from the Emergency Fund established by section 1, chapter 702, Oregon Laws 2017, to supplement the appropriation made to the Military Department by section 1(3), chapter 566, Oregon Laws 2017, Emergency management, for emergency preparedness equipment for fuel distribution facilities.

22. Military Department
Established a Federal Funds Capital Construction expenditure limitation of \$5,300,000 for the Military Department, Capital Construction program, for the Oregon Youth Challenge Program expansion project.

23. Military Department
Established a Federal Funds Capital Construction expenditure limitation of \$1,300,000 for the Military Department, Capital Construction program, to construct an outdoor combat pistol qualification course at Camp Najaf in Corvallis, Oregon.

24. Military Department
Increased the Federal Funds expenditure limitation established for the Military Department by section 3(1), chapter 566, Oregon Laws 2017, Operations, by \$4,000,000 for the demolition of structures at Camp Umatilla in Umatilla, Oregon.

25. Military Department
Established a Federal Funds Capital Construction expenditure limitation of \$9,000,000 for the Military Department, Capital Construction program, for the Camp Umatilla Regional Training Institute Re-Set Project at Camp Umatilla in Umatilla, Oregon.

26. Military Department
Established an Other Funds Capital Improvement expenditure limitation of \$500,000 for the Military Department, Capital Improvement program, to purchase real property adjoining the Camp Rilea Armed Forces Training Center in Warrenton, Oregon.

27. Military Department
Acknowledged receipt of a report on the agency's assessment of its processes, policies, and practices for internal control over grants management.

28. Department of Justice
Acknowledged receipt of a report on the Legal Tools Replacement project.

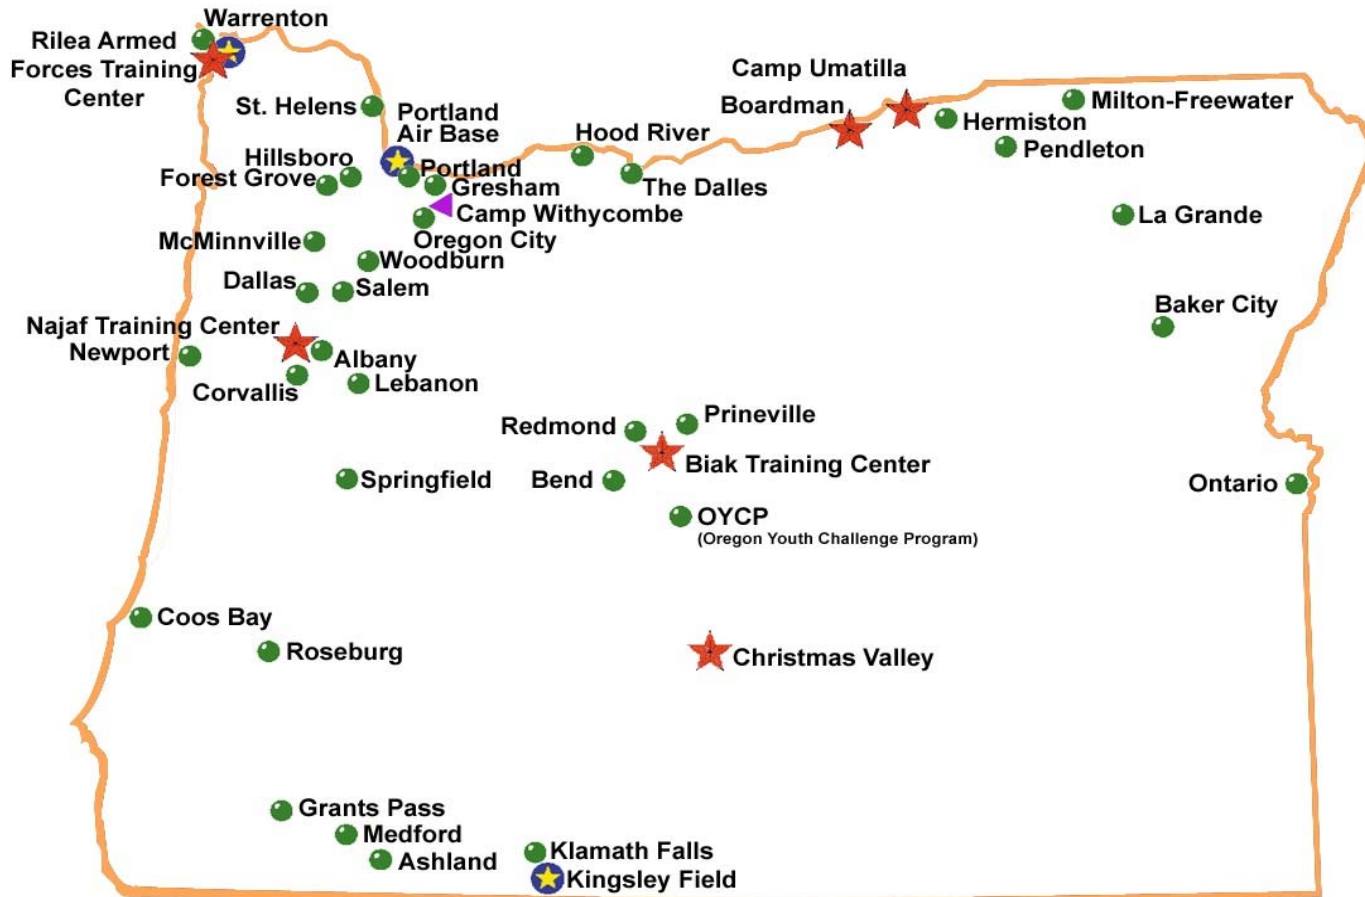

29. Criminal Justice Commission
Increased the Other Funds expenditure limitation established for the Criminal Justice Commission by section 2, chapter 505, Oregon Laws 2017, by \$200,498, and authorized the establishment of 2 limited duration positions (0.50 FTE) to spend a grant award on the Statistical Transparency of Policing program.

30. Department of Public Safety Standards and Training
Increased the Other Funds expenditure limitation established for the Department of Public Safety Standards and Training by section 2(1), chapter 583, Oregon Laws 2017, Operations, by \$244,264, for wildland firefighter training expenses incurred during the 2018 fire season.

31. Department of Public Safety Standards and Training
Approved, retroactively, the submission of a federal grant application to the U.S. Department of Homeland Security in the amount of \$498,850 for firefighter training equipment.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT 2019-2021 BIENNIAL BUDGET Agency Summary

b. Mission Statement and Statutory Authority - The Oregon Military Department (OMD) is a Ready, Professional Organization of Soldiers, Airmen and Civilians dedicated to the highest quality service to our Communities, State and Nation. The OMD provides the State of Oregon and the United States with a ready force of Citizen Soldiers, Airmen, and Civilians, trained and equipped to respond to any contingency, natural or man-made. Always Ready, Always There!

Article X of the Oregon Constitution establishes a State Militia. The OMD is established by statute in ORS 396.305; while ORS Chapters 396, 398, 399, 401, 402, 403, and 404 contain the Oregon Military Department, Oregon National Guard (ORNG) and Office of Emergency Management (OEM) authorities and duties.

c. Agency Plans - The ORNG has a long tradition and history dating back to 1843. The National Guard is found in both the United States Constitution and the Oregon Constitution. The tradition and history of the ORNG is grounded on its mission statement. The Oregon Military Department, Oregon National Guard and the Office of Emergency Management perform to our creed: “*When we are needed, we are there.*” It encapsulates what the public expects of this agency. The Oregon Military Department’s agency plans:

Are to administer and house the Oregon National Guard – a ready force to support the Governor during unrest or natural disasters and as a reserve force to the United States Air Force and the United States Army;

And to coordinate and facilitate emergency planning, preparedness, response and recovery activities with federal, state, county, local and tribal emergency service agencies and organizations.

- **Long-Term Plan:**

The OMD’s primary purpose is to advance the missions of the ORNG and the OEM in service to the citizens of Oregon. The OMD and the ORNG are both a state and federal agency able to access many resources to further their state and federal missions.

Nearly every generation in American history can attest to the significant contribution Citizen-Soldiers and Airmen have made in defense of our freedoms and way of life. Long before our nation’s War on Terrorism, the ORNG, both at home and abroad, had served this nation and our state at unparalleled levels. In the near past, the ORNG contributed substantial forces, equipment and people to critical stabilization forces in

BUDGET NARRATIVE

Bosnia; peacekeeping forces in the Sinai; no-fly zone operations in Southern and Northern Watch; State to State partnerships with the countries of Bangladesh and Vietnam; domestic emergencies; humanitarian operations in rapid response to the Gulf Coast in the aftermath of Hurricane Katrina, Hurricane Rita, Hurricane Harvey, and Hurricane Irma; and numerous combat operations across the world, particularly in the Persian Gulf, Iraq and Afghanistan. It is important to note, that without our federal missions, we have no equipment or manpower to use in support of a domestic response for the citizens of Oregon.

With no active military component in our state, we are the people Oregon sees in uniform. The ORNG continues deployments of Citizen-Soldiers and Airmen to dangerous and austere conditions in places like Afghanistan and Southwest Asia where we conduct ground, air and space combat operations in support of the Global War on Terrorism.

The ORNG is a unique instrument, commanded by the Governor, but the majority of its funding is derived from the federal government. It serves Oregon and the United States. Issues concerning the ORNG's state and federal missions and response are interwoven in our planning strategies. The OMD's long- and short-term plans concurrently focus on our state mission and the critical support we provide for the citizens of Oregon, while at the same time maintaining effective readiness in support of our National Military Strategy.

Assure a Ready Trained Force for Rapid Response to Statewide Emergencies; and Enhance Community Support and Readiness for Emergency Response and Recovery: These strategic goals are at the heart of the agency's core state mission. The OMD maintains preparedness through its core state mission. The OMD offers key performance measures aligned with its mission. Actions the OMD must take in achieving these goals include:

- Continuing recruiting efforts to assure force strength;
- Managing and improving emergency management and response coordination efforts through the agency's Emergency Coordination Center;
- Effectively partnering with Federal, State, Local, and Tribal Governments in securing funds and identifying emergency and Homeland Security requirements;
- Strategically stationing equipment assets and maintaining asset accountability;
- Supporting its volunteer organization - the Oregon Civil Defense Force;
- Maintaining real property assets to a standard that assures immediate emergency use of armories, buildings, and installations located throughout Oregon;
- Maintaining and upgrading our Information Systems infrastructure for ensuring effective communication and security.
- Add a comment on building resiliency for our Service Members and the state at large...

The OEM is responsible for leading statewide efforts to develop and enhance preparedness, response, recovery and mitigation capabilities with the goal of building resiliency and protecting the lives, property and environment of the whole community. This mission supports the vision statement of OEM which is to ensure that Oregon has safe and resilient communities. OEM accomplishes its mission by applying its six core values of Customer Service, Professionalism, Teamwork, Innovation, Respect and Opportunity across its seven functional business areas; 9-1-1, Operations

BUDGET NARRATIVE

and Preparedness, Response, Recovery, Mitigation, Grant Administration and Organizational Quality and Excellence. The statewide responsibilities of OEM are statutorily codified in ORS 401, 402, 403, and 404.

The Joint and Domestic Operations Command (JDOC) structure of the Oregon Military Department performs as a conduit for the coordination of Oregon National Guard personnel and equipment resources in times of crisis and emergency. At the State level, JDOC provides liaison to OEM, conducts and creates emergency plans and coordination, operates the Oregon National Guard Joint Operations Center (JOC), and identifies and mobilizes Oregon National Guard resources in response to emergencies. Nationally, JDOC provides linkage to the United States Northern Command (NORTHCOM), the National Guard Bureau, Regional State Partners, and Homeland Security. JDOC remains able to expand in support of all incident areas.

JDOC continues its support of Homeland Security and Force Protections by providing security at critical military facilities throughout Oregon, maintaining 24 hour / 7 day a week operations, support to soldiers' federal activation, and coordination with the OEM for Search and Rescue (SAR). JDOC updates and maintains the Joint Emergency Operations Plan to reflect the changing requirements of the State and Homeland Security missions.

As the Department of Defense works to define its role in providing Homeland defense and security for the nation, it includes the National Guard as a primary player because of our capability to promote a better federal/state relationship. In nearly every conceivable scenario, National Guard units—under the control of our Governor and Adjutant General—will be the first military responders on the scene. The U.S. Northern Command (NORTHCOM) and the Department of Homeland Security have established the lines of coordination with the National Guard Bureau, fulfilling our role as the statutory “channel of communications on all matters pertaining to the National Guard.” This will ensure effective military support for the full spectrum of Homeland Security preparation, training, exercise and operations.

The OMD has recognized a need for improved efficiency in the tracking, accounting, monitoring and reporting of its capital assets. The agency's capital assets are put to use on a daily basis and many are placed into 24 hour operation during state emergencies. The OMD currently administers 38 armories and readiness centers, 2 Air National Guard bases, and 13 training/logistic sites totaling over 5 million sq. ft. across 78,400 acres. The location of these facilities throughout the state provides an additional benefit in allowing for the stationing of units and equipment able to respond to regional emergencies. The Installations Division completes an extensive annual analysis of all Oregon Army National Guard facilities. This analysis, titled “Installation Status Report” (ISR), is an annual requirement by the Department of the Army through the National Guard Bureau. The ISR concept is a decision support system designed to improve management of limited resources for facilities and environmental programs. The 2017 ISR Facility Condition Index (FCI) results for Oregon's armories are as follows: 5.3% of the total facilities infrastructure is in compliance with Army standards and in overall “good condition”, 0% do not fully meet Army standards and are in overall “adequate condition”, 81.6% do not meet Army standard and are in overall “poor condition”, and 13.2% are in overall “very poor condition”.

BUDGET NARRATIVE

Infrastructure and facilities are increasingly important. Inadequate facilities impact both the training and quality of life of our members as well as drain valuable resources. Our facilities have to reflect the developing roles and missions for increased ORNG participation in both global warfare and Homeland Security. We need to ensure decision-makers know and understand the value of our infrastructure for both Homeland Security and distributed wartime capability, and their critical link to our communities. We are the face of the military to Oregonians.

The ability to respond to state emergencies requires the OMD to continually improve and maintain its statewide network of facilities and military units. The OMD must have the people, equipment, and facilities throughout the state to ensure immediate response to Oregon communities in times of need. Department of Defense missions such as the Global War on Terrorism and Homeland Security continue and require unit strength and readiness to be as strong as possible. Maintaining our facilities throughout the state ensure their ready access to communities, and serve as the physical center to where soldiers and airmen assemble as collective military units.

The ORNG is ready to accomplish its mission. One of the most important lessons that Oregonians can take from the past decade and a half is a fuller appreciation of the adaptability and ability to react quickly provided by the National Guard's three different duty statuses: State active duty as the state militia; our federal role as the National Guard of the United States in Title 10 status; and the federally funded and state-executed operations under Title 32 as the ORNG under the control of the Governor. This flexibility must be protected and well-resourced at all times. In addition, many discovered that while partial mobilization authority is critical at times of great need, the use of volunteerism in combination with the necessary Partial Mobilization authority gives National Guard commanders the proper tools to ensure sustained, ready forces.

- **Agency Process Improvement Efforts:**

The OMD is a dynamic organization with a critical mission that has both domestic and foreign implications. To successfully accomplish this mission in an environment which demands efficiencies and effectiveness the OMD must strive to continuously improve its operations. In order to gauge improvements at the state level, the OMD utilizes a series of nine performance measures. Each measure is uniquely designed to provide insight into different areas of our operations. On an annual basis the Military Department gathers data on recruitment levels, armory condition, revenue generation, and equipment availability, high school diplomas, GED's and high school credits earned within the Oregon Youth Challenge Program, reintegration services, local emergency operations plans, hazard mitigation plans, and overall customer satisfaction. This data is reviewed and analyzed and then centralized into the Annual Performance Progress Report, a copy of which is located in the Special Reports section, and then sent to agency leadership for review. In addition to the aforementioned nine state approved performance measures the ORNG utilizes a series of federal performance standards to gauge progress.

During the 2017-19 biennium the OMD has seen success with several of our performance measures while facing challenges with others. Measures showing success during this period included Recruiting, Equipment Availability, Youth Challenge, Reintegration, Domestic Preparedness Plans, and Customer Satisfaction. All of these measures were within 5% of their legislatively approved targets. Agency leadership has focused on working to

BUDGET NARRATIVE

maintain the high levels of success the OMD has seen with regards to these measures. This has included the development of sound policy packages for executive and legislative consideration, partnering with the federal government to fully leverage state resources, and providing support and insight to local governments. Measures which provided challenges included recruitment and revenue generation. Agency leadership is aware of the challenges associated with these two measures, and they are working to develop solutions in order to improve the outcomes in future reporting periods.

As the department moves towards the 2019-21 biennium and beyond the leadership of the organization is focused and determined to continually improve our levels of performance. This includes working with the Governor's Office and the Legislature to ensure we are measuring processes and outcomes which are valuable to both the agency and the state of Oregon. The increased importance being placed on performance management and measurement at the upper echelons of state government is being replicated within the OMD. This is shown through the involvement and dedication of key agency leaders in the continual review, analysis, and modification of the Military Department's key performance measures.

- **2019-2021 Short-Term Plan:**

Agency Programs: The OMD, as established by ORS 396.305, is responsible for the supervision and administration of the military affairs and emergency management of the state. The agency prepares and promulgates necessary regulations for the organization, governance, armament, equipment, training, and compensation of the militia of the state in conformity with the provisions of ORS Chapters 396, 398, and 399, and the laws of the United States, and in conformity with ORS Chapter 401, 402 and 403 for emergency preparedness, planning, mitigation, response, recovery, emergency mutual assistance agreements, and management of the state 9-1-1 system. The OMD primary budget program units include:

(001) Administration Program – The Administration Program provides senior-level leadership and support for the command, control, and administration of the ORNG, the Oregon Civil Defense Force, and the Office of Emergency Management. There are four major programs within the Administration Program:

The Command Group consists of The Adjutant General, the Joint Force Headquarters, including the Assistant Adjutants General for the Air Guard Component and the Army Guard Component, and the Deputy Director for the State Affairs Component and the Oregon Civil Defense Force. The purpose of the Command Group is to administer all components of the OMD.

The Financial Administration Division provides fiscal management and oversight of the agency's state and federal budgets. The division also manages agency risk, financial accounting and reporting, agency wide payroll for state employees and the National Guard when called to state service, public procurement activities, and accounts for agency property.

The State Personnel Office is responsible for human resource management and labor relations activities for state employees of the OMD.

BUDGET NARRATIVE

The Public Affairs Office is responsible for providing information to the public concerning activities of the State’s Emergency Management and the ORNG, responding to requests for information from the public and private sector, and providing information to include our active and retired members of the ORNG.

Governor’s Budget -	General Fund	\$4,977,711
	Other Funds	\$2,631,152
	TOTAL	\$7,608,863

Governor’s Budget Positions – 25 positions – 23.76 FTE.

Revenue Source – General Fund – The Command Group and Public Affairs are primarily supported by General Fund. The Financial Administration Division and State Personnel Office are partially supported by General Fund.

Other Funds - Internal Centralized Personnel Plan assessments are budgeted as transfers from federally funded programs and provide funding for Financial Administration Division and State Personnel Office employees supporting federal programs.

Customers - Citizens and communities of Oregon; all ORNG members.

(002) Operations Program - There are 14 major programs within the Operations Program.

The Army National Guard Facilities Operations and Maintenance program provides operation, maintenance, repair, and alteration of existing Oregon Army National Guard facilities.

The Army National Guard Construction Operations program provides construction management services for our Army National Guard Major Construction Program.

The Army National Guard Environmental Program provides environmental management services for Oregon Army National Guard facilities.

The Counterdrug Program supports efforts to combat illegal drug use within Oregon’s communities. The program uses National Guard personnel, equipment and facilities to add capabilities that otherwise might not be available to law enforcement agencies and community-based organizations.

BUDGET NARRATIVE

The Wildland Fire Protection Program began in the 2009-11 biennium and is 100% federally reimbursed. The goals of the program are to comply with fire protection requirements set forth in Oregon Revised Statute 477.095 and related statutes; support and sustain the ORNG's training mission; sustain the natural environment and native vegetation of the OMD's training ranges and lands; enhance both military and public fire safety in the vicinity of OMD training ranges and lands; and to enhance ORNG support during State declared wildland fire emergencies or natural disasters.

The Air National Guard Civil Engineering Program provides facility operations and maintenance for the Portland Air Base, Kingsley Field, and Air National Guard facilities located on Camp Rilea.

The Air National Guard Security Program provides security police protection at the Portland Air Base and Kingsley Field.

The Air National Guard Fire Protection Program provides fire protection at the Portland Air Base and Kingsley Field.

The Air National Guard Environmental Program manages environmental issues and ensures environmental compliance at the Portland Air Base, Kingsley Field, and Air National Guard facilities located on Camp Rilea.

The Electronic Security System Program provides alarm systems for all Oregon Army National Guard small arms and ammunition storage facilities.

The Telecommunications Program procures and maintains telecommunications systems for the Oregon Army National Guard.

The Distributed Learning Program (DLP) is a nationwide National Guard program providing access to video teleconferencing, video programming, computer based training, web based training, interactive audio, interactive video, electronic mail and electronic network systems.

The Anti-Terrorism Program provides 100% federal funding to develop, implement, manage and monitor a comprehensive Anti-Terrorism program for protecting state and installation personnel, information, infrastructure and other assets from acts of terrorism.

The Army National Guard Emergency Management Program Coordinator Program develops and maintains all hazard/all threat emergency response plans for all Army National Guard facilities across the state.

BUDGET NARRATIVE

Governor's Budget -	General Fund	\$7,667,338
	Other Funds	\$4,999,076
	Federal Funds	\$96,713,206
	TOTAL	\$109,379,620

Governor's Budget Positions – 362 positions – 313.55 FTE.

Revenue Source – General Fund – General Fund is used to support portions of the Army National Guard (ARNG) Facilities Operations and Maintenance Program and the ARNG Construction Operations Program. General Fund is also used for the state matching fund requirement for the ANG Civil Engineering Programs, ANG Fire Programs, and ANG Environmental Programs.

Other Funds - Other Fund revenue is received primarily from the rental of facilities.

Federal Funds - All programs receive Federal Fund revenue through National Guard Bureau Federal/State Cooperative Agreements.

Customers - Citizens and communities of Oregon; Oregon National Guard members; Port of Portland; US Army and US Air Force; local, state, and federal law enforcement agencies.

(003) Office of Emergency Management – The Office of Emergency Management (OEM) includes the OEM Administration Program, 9-1-1 Emergency Telephone Program, Operations & Preparedness Program and the Disasters Program.

The purpose of the OEM is to execute the Governor's responsibilities to maintain an emergency services system as prescribed in ORS 401 and ORS 403 by planning, preparing and providing for the prevention, mitigation and management of emergencies or disasters that present a threat to the lives and property of citizens of and visitors to the State of Oregon.

The program is responsible for coordinating and facilitating emergency planning, preparedness, response and recovery activities with the state and local emergency services agencies and organizations, and shall;

Make rules that are necessary and proper for the administration of ORS 401;

- Coordinate the activities of all public and private organizations specifically related to providing emergency services within this state;

BUDGET NARRATIVE

- Maintain a cooperative liaison with emergency management agencies and organization of local governments, other states, and the Federal Government;
- Have such additional authority, duties and responsibilities authorized by ORS 401.015 to 401.105, 401.260 to 401.325 and 401.355 to 401.580 or as may be directed by the Governor;
- Administer grants relating to emergency program management and emergency services for the state;
- Provide for and staff a State Emergency Operations (Emergency Coordination) Center to aid the Governor and the office in the performance of duties;
- Serve as the Governor's authorized representative for coordination response activities and managing the recovery process;
- Establish training and professional standards for local emergency program management personnel;
- Establish task forces and advisory groups to assist the office in achieving mandated responsibilities; and
- Enforce compliance requirements of federal and state agencies for receiving funds and conducting designated emergency functions.

The OEM Administration Program provides overall administration and direction over the emergency management functions of the division as prescribed by ORS 401.

The 9-1-1 Emergency Telephone Program administers ORS 403.120 – 403.250 governing emergency telecommunications systems for the state. The program receives 9-1-1 excise tax of \$.75 per month per landline and wireless device capable of accessing 9-1-1 services, or \$.75 per retail transaction for prepaid wireless telecommunications services. This tax is distributed quarterly to the 43 Public Service Answering Points across Oregon who provide 9-1-1 services.

The Operations and Preparedness Program administers and distributes federal grant funds from the US Department of Homeland Security. These grants are used by state and local governments to increase security and anti-terrorism measures. This program also manages the State Emergency Coordination Center, and is responsible for leading statewide planning efforts regarding preparedness, response and hazards.

The Disasters Program distributes federal funds from the Federal Emergency Management Agency (FEMA) to state and local jurisdictions following federally-declared disasters. It also distributes pre-disaster and flood mitigation grants for projects that prevent future loss during natural disasters.

Governor's Budget -	General Fund	\$8,738,968
	Other Funds	\$99,871,364
	Federal Funds	<u>\$174,487,552</u>
	TOTAL	\$283,097,884

Governor's Budget Positions – 47 positions – 47.50 FTE.

BUDGET NARRATIVE

Revenue Source –	General Fund –	General Fund is used to support indirect costs of the Office of Emergency Management, and serves as a 50% match under the Emergency Management Performance Grant.
	Other Funds -	Other Fund revenue is received primarily from 9-1-1 tax.
	Federal Funds -	Office of Emergency Management Administration and Operations and Preparedness Programs receive Federal Funds revenue through the US Department of Homeland Security’s Homeland Security Grant Program.

Customers - Citizens and communities of Oregon; Oregon National Guard members; Port of Portland; US Army and US Air Force; local, state, and federal law enforcement agencies.

(004) Community Support Program - The Community Support Program includes the Oregon Youth Challenge Program, the STARBASE Program and the Emergency Operations Program.

The Youth Challenge Program offers at-risk high school dropouts an opportunity to build a future. The program consists of two phases. The first phase is a 22 week residential program. Students learn self-discipline, leadership, responsibility, and work skills that enable them to be successful in society. Students have the opportunity to complete educational credit with a goal of reintegrating into high school to earn a diploma or to prepare for General Education Development (GED) examinations. The second phase of the program is a 12-month nonresident mentoring program. Program continuity is provided in this phase by incorporating positive role models from the community as mentors for the students. This furthers student independence by making it possible to meet personally set goals and provide the groundwork to build productive and contributing Oregon citizens. The Oregon Youth Challenge Program has been recognized as the Best Program nationally three times. Since its inception in October 1994 through June 2018, 5,180 students have graduated the Oregon Youth Challenge Program.

The Science and Technology Academy Reinforcing Basic Aviation and Space Exploration (STARBASE) Program is designed to increase at-risk third through eighth grade students’ awareness of the importance of math and science in today's high-technology work environment. No state funds are required to operate this program.

The Emergency Operations Program provides critical National Guard manpower and equipment support for emergencies in Oregon when called upon by the Governor, the Commander-in-Chief of the ORNG. Because such emergencies and associated State Active Duty requirements cannot be foreseen, there minimal budget for this program. Other Funds limitation is requested during Legislative Interim sessions after State Active Duty missions are completed.

BUDGET NARRATIVE

Governor's Budget-	General Fund	\$620,769
	Other Funds	\$4,099,771
	Federal Funds	\$14,685,135
	TOTAL	\$19,405,675

Governor's Budget Positions – 86 positions – 80.82 FTE.

Revenue Source – General Fund – General Fund provides a portion of the 25% state matching fund requirement for the Youth Challenge Program.

Other Funds - The Youth Challenge Program receives Average Daily Membership Other Fund revenue through the Bend-LaPine School District, and National School Breakfast and Lunch Program revenue through the Oregon Department of Education. The funds support a portion of the program's 25% state matching fund requirement. The Emergency Operations Program receives Other Funds reimbursements from the Oregon Department of Forestry following wildfire activations.

Federal Funds - All programs receive Federal Fund revenue through National Guard Bureau Federal/State Cooperative Agreements.

Customers - Citizens and communities of Oregon; at-risk youth.

(087) Debt Service – The Debt Service Program provides funding to make payments on principal, interest and financing costs for Article XI-Q bonds and Certificates of Participation used to construct Army National Guard facilities throughout Oregon.

Governor's Budget -	General Fund	\$12,173,498
	Other Funds	\$403,050
	TOTAL	\$12,576,548

Governor's Budget Positions - 0 positions - 0 FTE.

Revenue Source – General Fund - General Fund is used for the majority of Debt Service payments.

BUDGET NARRATIVE

Other Funds - Revenue is received from Article XI-Q bonds for financing costs related to issuance. Armory rental revenue has been used to pay debt service on the 2011-O and 2014-A Article XI-Q-bond refunding of the 2004-A COP for the Baker City Readiness Center.

Customers – Soldiers, citizens and communities of Oregon who utilize the new facilities constructed or remodeled with XI-Q bond funding.

(088) Capital Improvements – The Capital Improvements accomplishes capital projects and property acquisitions under \$1,000,000.

Governor’s Budget -	<u>Federal Funds</u>	\$5,133,694
	TOTAL	\$5,133,694

Governor’s Budget Positions - 0 positions - 0 FTE.

Revenue Source – Federal Funds - Federal Funds for Capital Improvement projects are received through National Guard Bureau Federal/State Cooperative Agreements

(089) Major Construction – The Major Construction Program accomplishes projects over \$1,000,000 involving constructing or changing the use or function of a facility. It includes planning for the construction or acquisition of future facilities. The program is not federally or state mandated.

Governor’s Budget -	<u>Other Funds</u>	\$19,927,000
	<u>Federal Funds</u>	\$6,200,000
	TOTAL	\$26,127,000

Governor’s Budget Positions - 0 positions - 0 FTE.

Revenue Source – General Fund - General Fund is occasionally used to support portions of the Capital Construction Program.

Other Funds - All revenue is dedicated specifically for Major Construction projects and cannot be utilized to support other activities. Revenue is received from Article XI-Q bonds and the sale of facilities.

Federal Funds - Revenue is received through National Guard Bureau Federal/State Cooperative Agreements.

Customers - Citizens and communities of Oregon, and Oregon Army National Guard units.

BUDGET NARRATIVE

Environmental Factors:

Factors that Aid Achievement of Desired Results:

1. The ORNG will invest in Oregon's future through at-risk youth programs, mentor programs, counterdrug programs, and community improvement civil-military projects.
2. The ORNG will add value to Oregon by providing equipment and a highly skilled emergency force available for response to civil unrest and natural disasters (flood, windstorm, forest fire, and earthquake).
3. Partner relationships with governmental agencies for:
 - a. Improved State of Oregon response to natural disasters, Homeland Security and civil emergencies.
 - b. Joint use of facilities.
 - c. Marketing and management of rental programs.
4. Increase revenue through improved marketing and management of rental programs.

Factors that Hinder Achievement of Desired Results:

1. Insufficient State General to fully leverage available Army and Air National Guard federal funding.
2. Insufficient state positions and funding to manage programs at an acceptable level.
3. Insufficient State General Fund to fully support Armory operations, maintenance, and sustainment.
4. Inefficient and poorly maintained facilities hinder the marketing and rental of facilities to assist in the funding for operations and maintenance.

BUDGET NARRATIVE

Agency Initiatives:

The OMD's initiatives for the 2019-2021 budget focus on providing the citizens of the State of Oregon with a ready force of citizen soldiers and airmen increasingly respond to any contingency, and to provide a robust emergency management capability that is focused on preparing the State and its citizens to be better prepared to respond and recover from any disaster or emergency. Our standards in leadership, equipment and training are geared to produce a professional military force, capable of meeting any state or national challenge. Federal activations continue as national policy and national military strategy relies more heavily on the reserve components of the military. Though the ORNG continues to experience federal mobilization efforts, our commitment to Oregon will not diminish.

1. Administration Program Initiatives:

The Administration Program provides command, control, and oversight of agency operations and military assistance during times of natural disaster, civil disturbance, and other emergencies declared by the Governor. Maintaining a viable force is the critical component of meeting our commitment and relies heavily on recruiting and retaining members. Continuing to support and advocate education initiative to support the advancement of soldiers and airmen throughout the enterprise.

2. Operations Program Initiatives:

The OMD operates and maintains state-supported facilities and installations in a condition of readiness to support the agency mission. The OMD also administers cooperative agreements between the state and federal government to operate and maintain federally supported facilities and installations to Department of Defense standards. These initiatives include providing environmental compliance oversight, construction management services, fire protection, aircraft crash/rescue response, and installation security. Through state and federal cooperative agreements, the OMD assists local, county, state, and federal law enforcement agencies in reducing illegal drug demand and supply in Oregon communities. The operation and maintenance of Oregon Army National Guard telecommunications systems, and providing storefront recruiting office spaces in cities throughout Oregon are also administered through cooperative agreement with the federal government.

The construction, operation, and maintenance of facilities and installations are examined and evaluated to federal standards, and are reported each year. The OMD will strive to meet facility and installation high quality and quantity condition ratings based on the annual Installations Status Report. Facility and Installation targets are established for making sure these assets provide the required training platforms for our soldiers and airmen. Meeting these facility and installation targets ensures readiness of these assets in support of the agency goal for enhancing community support and readiness for emergency response. These public facility assets also provide Oregon communities and citizens with facilities for use by rentals, that otherwise may not be available. Funding requested in this budget will have positive impacts

BUDGET NARRATIVE

on Key Performance Measures #2 (Armory Condition), #3 (Revenue Generation - % of available armory time rented), and #9 (Customer Service - % of customers satisfied with service provided by the agency).

3. Office of Emergency Management Initiatives:

Oregon, along with 16 other states that include each state within FEMA Region X, utilize an organizational structure that collocates National Guard and emergency management functions. This structure allows for seamless coordination and collaboration among two of Oregon's critical disaster planning, response, and recovery organizations. The OEM maintains focus on operational coordination and the establishment and maintenance of state-wide situational awareness during emergencies and disasters through the State Emergency Coordination Center, while also ensuring the emergency notification process has a robust 9-1-1 communications infrastructure capable of supporting emerging and future technologies. OEM's forward-leaning posture and continuous evaluation of process and practice ensure Oregon is well positioned to coordinate the response to, and recovery from, any disaster, regardless of cause. In support of OEM's primary ECC management role, efforts remain underway to review and refine state-level emergency management plans like the Cascadia Playbook and the State Recovery Plan while also providing technical support and subject matter expertise to local, tribal, non-profit, private sector, and state partners to ensure robust and effective plans exist, and are practiced, state-wide. The incorporation of lessons-learned from recent Secretary of State and Department of Homeland Security, Office of Inspector General Audits, the 2016 multi-state Cascadia Rising exercise, public education and outreach, and managing federal emergency preparedness, disaster recovery, and hazard mitigation grant funds further improve Oregon's comprehensive, all-hazards, and inclusive approach to disaster readiness. The expectation expressed by the Governor, the Legislature, and the Secretary of State is that the Office of Emergency Management provides leadership and coordination for all actions necessary to accomplish this mission. Funding in this budget should have positive impacts on Key Performance Measures #7 (Domestic Preparedness - % of Counties with NIMS Compliant Emergency Operations Plan), and #8 (Hazard Mitigation Plans - % Population covered by a FEMA approved Hazard Mitigation Plan).

4. Community Support Program Initiatives:

The Oregon Military Department administers state and federal cooperative agreements to operate Oregon Youth Challenge, and STARBASE. Our initiatives support these activities, and also identify other enhancements to provide for Oregon youth. These programs result in benefits for the state and the Oregon National Guard by:

- a. Increasing grade school students' awareness of the importance of math and science through the STARBASE program.
- b. Providing high school dropouts an opportunity to obtain a high school diploma, academic credit or prepare for the GED exam and receive job skill training through the Oregon National Guard Youth Challenge Program.

BUDGET NARRATIVE

The Emergency Operations Program remains prepared to identify and mobilize resources in response to emergencies within the borders of Oregon and as directed by the Governor. We will manage, monitor, and improve the agency's emergency coordination efforts. The Oregon National Guard's Joint Emergency Operations Center (JOC): The JOC will identify and mobilize assets and resources within 24 hours of notification in response to emergencies. The Oregon Military Department will continue to seek Emergency Funds at the completion of emergency operations as the agency operates without Legislative funding appropriation for the immediate employment of personnel in state active duty status for placing the JOC into enhanced operation, and to provide other active state duty requirements pursuant to ORS 399.065 and 399.075.

d. Criteria for 2019-2021 Budget Development:

Agency Goals: Provide trained and ready operational forces to our State and Nation / Be effective stewards of our resources / Sustain the Oregon Military Department community / Forge and maintain partnerships.

1. Support the ORNG mission by ensuring federal readiness standards and strength levels are achieved or exceeded. This is accomplished through active and passive recruiting activities to attract a continual stream of members.
2. Ensure the ORNG, and the Oregon Office of Emergency Management are prepared to respond to disasters or civil unrest and Homeland Security, and to assist communities in recovering fully from the effects. The OMD will manage, monitor, and continually improve its emergency coordination efforts by conducting and evaluating regular Emergency Operations Center exercises. The Office of Emergency Management is continuing to work to implement the lessons learned from the Cascadia Rising Exercise which was a multi-jurisdictional exercise impacting Washington, Oregon, Idaho and British Columbia. Annual alert notifications will be conducted and evaluated, including annual updates of alert notification rosters. The Joint and Domestic Operations Command section will participate in multi-agency emergency exercises and councils, and assist in modifying and updating the agency's emergency procedures and plans each year.
 - 2.a. Ensure Oregon National Guard facilities are available and meet requirements for use during a state emergency. The OMD administers its facilities and installations located throughout the state for the stationing of units and equipment. The readiness of the facilities and installations remain a vital component in emergency response. The OMD will continue to pursue sufficient funding and personnel to support facilities operations, maintenance and construction. Federal participation is utilized to the maximum extent. Standardized annual facilities and installations status inspections will be conducted and reported to the National Guard Bureau. Facilities sustainment, rehabilitation, and modernization plans will be developed and executed based on available funding. Long range construction plans will be developed and executed.

BUDGET NARRATIVE

- e. **Major Information Technology Projects/Initiatives:** The OMD does not have any major Information Technology Projects or Initiatives currently planned for the 2019-21 Biennium.

Within each Program/Division area, prioritize each Budget Program Unit (Activities) by detail budget level in ORBITS

Document criteria used to prioritize activities:

The Oregon National Guard will provide the citizens of the State of Oregon and the United States with a ready force of citizen soldiers and airmen, equipped and trained to respond to any contingency, natural or man-made. When we are needed, we are there. The Oregon Military Department is responsible for administering the Oregon National Guard and for coordinating and facilitating emergency planning, preparedness, response and recovery activities with state, county and local emergency service agencies and organizations.

Article X of the Oregon Constitution establishes a State Militia. The Oregon Military Department is established by ORS 396.305; while ORS Chapters 396, 398, 399, and 401 contain the Oregon Military Department, Oregon National Guard and Oregon Emergency Management authorities and duties.

The Oregon National Guard has a long tradition and history dating back to 1843. The National Guard is found in both the United States Constitution and the Oregon Constitution. The tradition and history of the Oregon National Guard was grounded on the basis of its mission statement: "Ready force equipped and trained to respond to any contingency. When we are needed, we are there." The Oregon Military Department administers, houses, equips and trains the Oregon National Guard – a ready force to support the Governor during unrest or natural disasters and as a reserve force to the United States Air Force and the United States Army. And plans, prepares and provides for the prevention, mitigation and management of emergencies or disasters presenting a threat to the lives and property of Oregon's citizens and visitors to the State of Oregon.

The Oregon Military Department sets the basis for the prioritization of programs and projects upon its mission and the service to Oregon. The specific criteria for prioritizing agency activities are concerned with the public safety of Oregon. Successful mission preparedness and execution of this large organization (Oregon Military Department, Oregon National Guard, and Oregon Emergency Management) depends upon the balanced command, control, administration, and appropriate physical infrastructure for ensuring a ready and trained force in response to the immediate needs of Oregon. Highest rankings include command and administration followed by emergency management. The next higher to medium rankings include the agency's physical infrastructure of bases, camps and armories required for the assembly and training of the force with its equipment. Following rankings require the central activities for financial, resources and administrative functions that support the mission and force. Medium to low rankings include statutory and enforcement requirements, incentive and education programs, and youth programs.

Within each Program/Division area, prioritize each Budget Program Unit (Activities) by detail budget level in ORBITS

Document criteria used to prioritize activities:

The Oregon National Guard will provide the citizens of the State of Oregon and the United States with a ready force of citizen soldiers and airmen, equipped and trained to respond to any contingency, natural or man-made. When we are needed, we are there. The Oregon Military Department is responsible for administering the Oregon National Guard and for coordinating and facilitating emergency planning, preparedness, response and recovery activities with state, county and local emergency service agencies and organizations.

Article X of the Oregon Constitution establishes a State Militia. The Oregon Military Department is established by ORS 396.305; while ORS Chapters 396, 398, 399, and 401 contain the Oregon Military Department, Oregon National Guard and Oregon Emergency Management authorities and duties.

The Oregon National Guard has a long tradition and history dating back to 1843. The National Guard is found in both the United States Constitution and the Oregon Constitution. The tradition and history of the Oregon National Guard was grounded on the basis of its mission statement; "Ready force equipped and trained to respond to any contingency. When we are needed, we are there." The Oregon Military Department administers, houses, equips and trains the Oregon National Guard – a ready force to support the Governor during unrest or natural disasters and as a reserve force to the United States Air Force and the United States Army; And plans, prepares and provides for the prevention, mitigation and management of emergencies or disasters presenting a threat to the lives and property of Oregon's citizens and visitors to the State of Oregon.

The Oregon Military Department sets the basis for the prioritization of programs and projects upon its mission and the service to Oregon. The specific criteria for prioritizing agency activities are concerned with the public safety of Oregon. Successful mission preparedness and execution of this large organization (Oregon Military Department, Oregon National Guard, and Oregon Emergency Management) depends upon the balanced command, control, administration, and appropriate physical infrastructure for ensuring a ready and trained force in response to the immediate needs of Oregon. Highest rankings include command and administration followed by emergency management. The next higher to medium rankings include the agency's physical infrastructure of bases, camps and armories required for the assembly and training of the force with its equipment. Following rankings require the central activities for financial, resources and administrative functions that support the mission and force. Medium to low rankings include statutory and enforcement requirements, incentive and education programs, and youth programs.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT 2019-2021 BIENNIAL BUDGET REDUCTION OPTIONS

The Oregon National Guard (ORNG) is the state's militia, authorized under Article X of the Oregon Constitution. Section 1 reads, "The Legislative Assembly shall provide by law for the organization, maintenance and discipline of a state militia for the defense and protection of the State."

The Oregon Military Department (OMD), established by ORS 396.305, is responsible for supervision of the military affairs of the state: namely, to administer and house the Oregon National Guard to be ready to respond to any contingency, natural or man-made. The Oregon Military Department and the Oregon National Guard are both a state and federal agency. The state budget for the Military Department provides funding to administer and house the Oregon National Guard. The federal budget for the Military Department provides the majority of funding to pay, train and equip the Oregon National Guard.

The Oregon Military Department also includes the Office of Emergency Management (OEM). The purpose of OEM is to execute the Governor's responsibilities to maintain an emergency services system as prescribed in ORS 401 by planning, preparing and providing for the prevention, mitigation and management of emergencies or disasters that present a threat to the lives and property of Oregon citizens and visitors. This system is intended to facilitate, organize, resource, and manage a methodology in support of Oregon citizens and visitors for both pre-event and post-event activities.

The Oregon Military Department is one of the State's oldest and largest agencies, with **8,719** employees serving in 38 armories, 13 training/logistics areas, and two air bases across the state; and over \$4 billion in facilities and equipment.

In the 2019-2021 biennium, the Oregon Military Department's Current Service Level Budget is 67% Federal, 26% Other Funds, and 7% General Fund. Although the OMD budget is mainly federally funded, through cooperative agreements with the National Guard Bureau and federal grants from the United States Department of Homeland Security, OMD could not accomplish its mission without its State General Fund resources.

General Fund is used for required State match on a number of federal cooperative agreements and grants, for the overall leadership and administration of Oregon's National Guard, and for debt service on our Article XI-Q bonds and Certificates of Participation used for new construction. Of note, \$11.6 million, or 41% of the agency's Current Service Level General Fund, is Debt Service on outstanding bonds for construction.

The Military Department has experienced numerous reductions over the previous two decades. In 1991, 101 positions out of a total of 244 were 100% General Funded; in the 2019-21 Base Budget, only 14 positions from a total of 478 are 100% General Funded, a decrease of 86%. The Installations Division within the Operations Program has been hit particularly hard. It lost \$1.5 million General Fund in the 2009-11 budget, including 6 maintenance positions. In the 2011-13 Biennium, the Installations Division suffered another General Fund reduction of \$2.5 million and lost an additional 15 positions. The 2013-15 biennium followed up with a reduction to Current Service Level and an additional loss of 3 more critical positions. The 2015-17 biennium ended with an additional General Fund reduction to Services and Supplies within the Installations Division. Maintenance and repairs on

_____ Agency Request X Governor's Budget _____ Legislatively Adopted

2019-2021

107BF02

BUDGET NARRATIVE

Oregon’s 38 armories and two Air National Guard bases have been limited to immediate and critical situations only. These reductions have severely decreased our ability to adequately maintain facilities that house the Oregon Army and Air National Guard and provide emergency infrastructure in times of natural disaster. The 2017-19 biennium saw reductions in General Fund to the Fire Programs at both Portland and Kingsley Field Air National Guard bases, as well as the elimination of a Facility Energy Technician 3 position at the Portland Air National Guard Base.

Further reductions in General Fund may jeopardize the agency’s ability to meet its constitutional mission, and will adversely affect the future of the Oregon Military Department.

The following table provides an overview of General Fund reductions OMD has taken over the past 7 biennia:

Biennium	General Fund reduction	% of Current Service Level	Number of Positions abolished
2001-03	\$1,544,125	12%	5
2003-05	\$1,458,303	10%	4
2005-07	\$94,446	.7%	0
2007-09	\$1,945,599	11%	12
2009-11	\$4,514,281	16%	7
2011-13	\$6,074,325	19%	65
2013-15	\$1,605,684	6%	3
2015-17	\$645,020	3%	1
2017-19	\$1,676,149	10%	1

In compliance with ORS 291.216, the Oregon Military Department submits the following 10% reduction options for the 2019-21 biennium:

Community Support Program – Oregon Youth Challenge

Fiscal Impact: (\$20,561) General Fund / (\$61,683) Federal Funds

Agency Impact: This reduction would result in the Youth Challenge Program operating with 5.5 contracted teachers as opposed to 6 contracted teachers. This would increase the workload on the remaining contracted teachers, reduce the amount of dedicated attention a cadet could receive in the program receives from an instructor, and may result in an increase in overall contracting costs in future biennia. **Governor recommended in Policy Package 090.**

BUDGET NARRATIVE

Administration Program – Human Resources

Fiscal Impact: (\$3,561) General Fund

Agency Impact: This reduction would curtail the ability of the Human Resources staff to provide onsite technical assistance to our programs throughout the state. Assistance currently being provided by the Human Resources include training seminars, management training, investigations into complaints, participation on hiring boards, discussions about policy and procedure development etc. All of these services will be severely reduced should this reduction occur. It will also reduce our ability to participate in Collective Bargaining meetings in places such as Klamath Falls where per diem, lodging, and transportation are required. It will also put an increased burden on representatives from the Department of Administrative Services to speak for the Oregon Military Department during union negotiations, and they may not have all the information necessary to perform this task.

Administration Program – Public Affairs

Fiscal Impact: (\$19,420) General Fund

Agency Impact: This reduction would put increased reliance on federal resources within the Public Affairs program. There is limited General Fund already appropriated to this program area, and it is utilized primarily to support the travel needs of the state employees currently assigned to the program. Without these resources the Public Affairs functionality of the Military Department will be materially reduced. This will impact our effectiveness in messaging critical information, taking part in interagency coordination efforts, providing timely information to elected officials and the press. Federal resources associated with the Oregon National Guard traditionally have to be spent on issues directly associated with their federal mission. Promoting, and sharing the state mission of the Oregon National Guard, such as fighting wildfires is usually paid for with state resources, and this reduction would eliminate that functionality. **Governor recommended in Policy Package 090.**

Administration Program – Public Affairs

Fiscal Impact: (\$251,903) General Fund / 1 Position & 1.00 FTE

Agency Impact: This reduction would eliminate the one full-time 100% state funded position within the Public Affairs office and would increase the reliance on federal staff and resources within the Public Affairs program. Without this position the Public Affairs functionality of the Military Department will be materially reduced as there is only one other state position within the program and it is a half time FTE. This will impact our effectiveness in messaging critical information, taking part in interagency coordination efforts, providing timely information to elected officials and the press. Federal resources associated with the Oregon National Guard traditionally have to be spent on issues directly associated with their federal mission. Promoting, and sharing the state mission of the Oregon National Guard, such as fighting wildfires is usually conducted by state personnel paid for with state resources, and this reduction would eliminate that functionality. **Governor recommended in Policy Package 090.**

BUDGET NARRATIVE

Operations Program – Kingsley Field Civil Engineering

Fiscal Impact: (\$29,167) General Fund / (\$165,279) Federal Funds

Agency Impact: This reduction would result in a reduced capability of the Kingsley Field Air National Guard Base to pay for day to day operational maintenance costs across the facilities. These include costs for critical facilities such as the Flight Simulator, Communication Facilities, Server Rooms and Classified Vaults. Without proper funding to maintain these facilities serious mechanical, infrastructure and structural problems could lead to catastrophic conditions leading to mission failure. Kingsley Field is the only F-15 fighter training base in the United States, and it is primary employer within Klamath County. Should the Civil Engineering program fail to adequately maintain the facility National Guard Bureau may choose to move the fighter training mission to another base in another state. This would have a dire effect on the economy within the Klamath Falls community due to the loss of state and significant federal investment due to the 15/85 cost share where the federal government covers 85% of operational costs to maintain the base. **Governor recommended in Policy Package 090.**

Operations Program – Portland Civil Engineering

Fiscal Impact: (\$17,432) General Fund / (\$69,728) Federal Funds

Agency Impact: This reduction would result in a reduced capability of the Portland Air National Guard Base to pay for day to day operational maintenance costs across the facilities. Without proper funding to maintain these facilities serious mechanical, infrastructure and structural problems could lead to catastrophic conditions leading to mission failure. The 142nd Fighter Wing at Portland Air National Guard Base is part of the 4 Corner Defense mission of the United States, and is responsible for patrolling the skies above Oregon, Washington, and Alaska. They respond to all forms of threats to include Russian bombers who fly into the U.S airways on training missions. Should the Civil Engineering program fail to adequately maintain the facility National Guard Bureau may choose to move this mission to another base in another state. This would have a dire effect on the economy within the Portland community due to the loss of state and significant federal investment due to the 20/80 cost share where the federal government covers 80% of operational costs to maintain the base. **Governor recommended in Policy Package 090.**

Emergency Management – Administration Program

Fiscal Impact: (\$66,486) General Fund / (\$66,486) Federal Funds

Agency Impact: This reduction will reduce the ability of the Office of Emergency Management to pay for day to day operational costs which cannot be charged to a federal grant. Based on federal rules, many operational costs such as rent, paper, office supplies, etc. previously charged to grants must now be charged to General Fund as they are deemed Indirect in nature. Without dedicated funding to pay for these types of costs the Office of Emergency Management will have to reduce other expenses such as travel which impacts their ability to partner with local communities in the development of planning efforts surrounding preparedness and resiliency. **Governor recommended in Policy Package 090.**

BUDGET NARRATIVE

Administration Program – Command Group

Fiscal Impact: (\$103,313) General Fund

Agency Impact: This reduction would eliminate funding for office supplies, travel, subscriptions and other necessary business needs for the office of The Adjutant General. Without funding for travel, The Adjutant General would be restricted to attend work related functions with a direct federal nexus in order for the National Guard Bureau to fund his travel. This will impact the ability of The Adjutant General to conduct travel related to his role as the Governor’s Homeland Security Advisor, which requires extensive travel to meetings and conferences throughout the nation. In all likelihood day to day operational needs would be financed with General Fund from other areas of the agency which would have the effect of reducing their budgets and impacting their operations. **Governor recommended in Policy Package 090.**

Operations Program – Operations and Maintenance

Fiscal Impact: (\$238,851) General Fund / 2 Positions & 2.00 FTE

Agency Impact: This reduction would eliminate one Facility Maintenance Specialist and one Plumber. These employees have allowed OMD to return several armories to a "normal" level of maintenance, janitorial and landscaping service. This reduction would continue a practice which dates back multiple biennia, in that the Operations program within the agency is asked to absorb a reduction in staff and still meet its mission of ensuring armories are in the best condition possible to support the Oregon National Guard. The loss of these positions will have a direct impact on facility condition and readiness, place increased workload on remaining staff, and eliminate the ability to the Operations Program to respond to critical facility emergencies. **Governor recommended 25% of this reduction (\$59,713 General Fund) in Policy Package 090 by reducing FTE by .25 without abolishing any positions.**

Operations Program – Kingsley Field Civil Engineering

Fiscal Impact: (\$119,333) General Fund / (\$676,220) Federal Funds / 4 Positions & 4.00 FTE

Agency Impact: This reduction would eliminate four positions from the Kingsley Field Civil Engineering Program. These positions maintain Automated Controls for Base HVAC Systems. The controls maintained lead to significant energy savings. Additionally, critical infrastructure to the mission are maintained through these controls. They provide critical support for snow removal operations, airfield sweeping and airfield mowing. All of these tasks are critical to the mission. Should the Civil Engineering program fail to adequately maintain the facility National Guard Bureau may choose to move the fighter training mission to another base in another state. This would have a dire effect on the economy within the Klamath Falls community due to the loss of state and significant federal investment due the 15/85 cost share where the federal government covers 85% of operational costs to maintain the base. **Governor recommended 25% of this reduction (\$29,833 General Fund and \$169,055 Federal Funds) in Policy Package 090 by reducing FTE by 1.00 without abolishing any positions.**

BUDGET NARRATIVE

Operations Program – Portland Civil Engineering

Fiscal Impact: (\$97,076) General Fund / (\$388,304) Federal Funds / 2 Positions & 2.00 FTE

Agency Impact: This reduction would eliminate one Project Manager and one Electrician 2. Many maintenance requirements will not be completed and the deferred maintenance backlog will continue to grow. The current backlog of work orders for PANG is approximately 1,500. The backlog of work orders will grow at an uncontrollable rate if we are faced with this situation. The 142nd Fighter Wing at Portland Air National Guard Base is part of the 4 Corner Defense mission of the United States, and is responsible for patrolling the skies above Oregon, Washington, and Alaska. They respond to all forms of threats to include Russian bombers who fly into the U.S airways on training missions. Should the Civil Engineering program fail to adequately maintain the facility National Guard Bureau may choose to move this mission to another base in another state. This would have a dire effect on the economy within the Portland community due to the loss of state and significant federal investment due the 20/80 cost share where the federal government covers 80% of operational costs to maintain the base

Administration Program – Command Group

Fiscal Impact: (\$170,162) General Fund / 1 Position & 1.00 FTE

Agency Impact: This reduction would result in the elimination of an Executive Support Specialist position currently serving as the Executive Assistant for the Director of Staff, Oregon Air National Guard. The loss of this position will impact the administrative support function for the leadership of the Oregon Air National Guard. The duties of this position also include supporting administrative needs for The Adjutant General, and the Deputy Director of State Affairs in the absence of their Executive Assistants, and that functionality would be lost by its elimination.

Administration Program – Command Group

Fiscal Impact: (\$174,858) General Fund / 1 Position & 1.00 FTE

Agency Impact: This reduction would result in the elimination of an Executive Support Specialist position currently serving as the Executive Assistant for The Adjutant General. The loss of this position will impact the administrative support function for the leadership of the Oregon Military Department, and the Oregon National Guard. The duties of this position also include supporting administrative needs for the Deputy Director of State Affairs in the absence of their Executive Assistants, and that functionality would be lost by its elimination.

Administration Program – Human Resources

Fiscal Impact: (\$54,425) General Fund / (\$134,222) Other Funds / 1 Position & 1.00 FTE

Agency Impact: This reduction would eliminate a Human Resource Analyst 1 position. This position performs the recruitment function for the agency which includes posting recruitments through the state's Neogov system and soon to be Workday system. The position performs other in-person recruitment actions, trains and sits with supervisors on interview panels and insures the entire hiring process has integrity. Without this position we will have to add these duties to another staff or we will have to pay another agency to perform these duties. The position is also the Affirmative Action Coordinator for the agency. This role also will need to be added to another employee's duties.

BUDGET NARRATIVE

Emergency Management – Administration Program

Fiscal Impact: (\$279,303) General Fund / (\$279,303) Federal Funds / 3 Positions and 3.00 FTE

Agency Impact: This reduction would result in the elimination of three positions within the Emergency Management Program. One is an Office Specialist 2 position which provides office support and technical assistance to the Operations and Preparedness Section and the Oregon Seismic Safety Policy Advisory Committee. The second position is a Program Analyst 2 which serves as the Communications Officer for the division focusing efforts on ensuring statewide communications are possible in the aftermath of a disaster, and works with the Amateur Radio community. The third position is an Administrative Support Specialist 2 which provides fiscal, procurement and office support to the Mitigation and Recovery Section.

Other Funds and Federal Funds Limitation reductions to arrive at a 10% reduction of each fund type as required by ORS 291.216:

OEM - 9-1-1 Program

Fiscal Impact: (\$11,026,320) Other Funds limitation.

Agency Impact: This reduction will negatively impact the distribution of 9-1-1 tax revenue to the Public Safety Answering Points throughout Oregon, who rely on this funding to operate their 9-1-1 call centers. A reduction of Other Funds limitation in the 9-1-1 program will negatively impact the entire 9-1-1 system and place the citizens of Oregon at risk if the 9-1-1 system is not properly supported.

OEM - Disasters Program

Fiscal Impact: (\$27,107,275) Federal Funds limitation.

Agency Impact: This reduction will have an impact in the event of a large-scale disaster, where federal assistance from FEMA will not be able to be fully disbursed to Oregon communities.

10% REDUCTION OPTIONS (ORS 291.216)

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
(WHICH PROGRAM OR ACTIVITY WILL NOT BE UNDERTAKEN)	(DESCRIBE THE EFFECTS OF THIS REDUCTION. INCLUDE POSITIONS AND FTE IN 2017-19 AND 2019-21)	(GF, LF, OF, FF. IDENTIFY REVENUE SOURCE FOR OF, FF)	(RANK THE ACTIVITIES OR PROGRAMS NOT UNDERTAKEN IN ORDER OF LOWEST COST FOR BENEFIT OBTAINED)
Community Support – Youth Challenge Program	Reduce General Fund appropriated for Services and Supplies	\$20,561 GF / \$61,683 FF Governor recommended in Policy Package 090.	#1 – This reduction would result in the Youth Challenge Program operating with 5.5 contracted teachers as opposed to 6 contracted teachers. This would increase the workload on the remaining contracted teachers, reduce the amount of dedicated attention a cadet could receive in the program receives from an instructor, and may result in an increase in overall contracting costs in future biennia.
Administration Program – Human Resources	Reduce General Fund appropriated for Services and Supplies	\$3,561 GF	#2 – This reduction would curtail the ability of the Human Resources staff to provide onsite technical assistance to our programs throughout the state. Assistance currently being provided by the Human Resources include training seminars, management training, investigations into complaints, participation on hiring boards, discussions about policy and procedure development etc. All of these services will be severely reduced should this reduction occur. It will also reduce our ability to participate in Collective Bargaining meetings. It will also put an increased burden on representatives from the Department of Administrative Services to speak for the Oregon Military Department during union negotiations, and they may not have all the information necessary to perform this task.

Administration – Public Affairs	Reduce General Fund appropriated for Services and Supplies	\$19,420 GF Governor recommended in Policy Package 090.	#3 – This reduction would put increased reliance on federal resources within the Public Affairs program. There is limited General Fund already appropriated to this program area, and it is utilized primarily to support the travel needs of the state employees currently assigned to the program. Without these resources the Public Affairs functionality of the Military Department will be materially reduced. This will impact our effectiveness in messaging critical information, taking part in interagency coordination efforts, providing timely information to elected officials and the press
Administration – Public Affairs	Eliminate one Public Affairs Specialist 2 position	\$251,903 GF Governor recommended in Policy Package 090.	#4 – This reduction would eliminate the one full-time 100% state funded position within the Public Affairs office and would increase the reliance on federal staff and resources within the Public Affairs program. Without this position the Public Affairs functionality of the Military Department will be materially reduced as there is only one other state position within the program and it is a half time FTE. This will impact our effectiveness in messaging critical information, and taking part in interagency coordination efforts.

Operations – Kingsley Field Civil Engineering	Reduce General Fund appropriated for Services and Supplies	\$29,167 GF \$165,279 FF Governor recommended in Policy Package 090.	#5 – This reduction would result in a reduced capability of the Kingsley Field Air National Guard Base to pay for day to day operational maintenance costs across the facilities. These include costs for critical facilities such as the Flight Simulator, Communication Facilities, Server Rooms and Classified Vaults. Without proper funding to maintain these facilities serious mechanical, infrastructure and structural problems could lead to catastrophic conditions leading to mission failure.
Operations – Portland Civil Engineering	Reduce General Fund appropriated for Services and Supplies	\$17,432 GF \$69,728 FF Governor recommended in Policy Package 090	#6 – This reduction would result in a reduced capability of the Portland Air National Guard Base to pay for day to day operational maintenance costs across the facilities. Without proper funding to maintain these facilities serious mechanical, infrastructure and structural problems could lead to catastrophic conditions leading to mission failure.

Emergency Management – Administration Program	Reduce General Fund appropriated for Services and Supplies	\$66,486 GF \$66,486 FF Governor recommended in Policy Package 090	#7 – This reduction will reduce the ability of the Office of Emergency Management to pay for day to day operational costs which cannot be charged to a federal grant. Based on federal rules, many operational costs such as rent, paper, office supplies, etc. previously charged to grants must now be charged to General Fund as they are deemed Indirect in nature. Without dedicated funding to pay for these types of costs the Office of Emergency Management will have to reduce other expenses such as travel which impacts their ability to partner with local communities in the development of planning efforts surrounding preparedness and resiliency.
Administration – Command Group	Reduce General Fund appropriated for Services and Supplies	\$103,313 GF Governor recommended in Policy Package 090	#8 – This reduction would eliminate funding for office supplies, travel, subscriptions and other necessary business needs for the office of The Adjutant General. This will impact the ability of The Adjutant General to conduct travel related to his role as the Governor’s Homeland Security Advisor, which requires extensive travel to meetings and conferences throughout the nation.

Operations – Operations and Maintenance	Eliminate two positions within the Operations and Maintenance Program	\$238,851 GF Governor recommended 25% of this reduction (\$59,713 GF) in Policy Package 090 by reducing FTE by .25 without abolishing any positions.	#9 – This reduction would eliminate one Facility Maintenance Specialist and one Plumber. These employees have allowed OMD to return several armories to a "normal" level of maintenance, janitorial and landscaping service. This reduction would continue a practice which dates back multiple biennia, in that the Operations program within the agency is asked to absorb a reduction in staff and still meet its mission of ensuring armories are in the best condition possible to support the Oregon National Guard. The loss of these positions will have a direct impact on facility condition and readiness.
Operations – Kingsley Field Civil Engineering	Eliminate four positions within the Civil Engineering Program	\$119,333 GF \$676,220 FF Governor recommended 25% of this reduction (\$29,833 GF, \$169,055 FF) in Policy Package 090 by reducing FTE by 1.00 without abolishing any positions.	#10 – This reduction would eliminate four positions from the Kingsley Field Civil Engineering Program. These positions maintain Automated Controls for Base HVAC Systems. The controls maintained lead to significant energy savings. Additionally, critical infrastructure to the mission are maintained through these controls. They provide critical support for snow removal operations, airfield sweeping and airfield mowing. All of these tasks are critical to the mission.

Operations – Portland Civil Engineering	Eliminate two positions with the Civil Engineering Program	\$97,076 GF \$388,304 FF	#11 – This reduction would eliminate one Project Manager and one Electrician 2. Many maintenance requirements will not be completed and the deferred maintenance backlog will continue to grow. The current backlog of work orders for PANG is approximately 1,500. The backlog of work orders will grow at an uncontrollable rate if we are faced with this situation.
Administration – Command Group	Eliminate one position within Command Group	\$170,162 GF	#12 – This reduction would result in the elimination of an Executive Support Specialist position currently serving as the Executive Assistant for the Director of Staff, Oregon Air National Guard. The loss of this position will impact the administrative support function for the leadership of the Oregon Air National Guard.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT 2019-2021 BIENNIAL BUDGET REVENUE FORECAST NARRATIVE

Source of Revenues - The Oregon Military Department receives Other Funds and Federal Fund revenues from a variety of sources. The funds are received from the following sources and used for the purposes indicated:

Other Funds Revenue:

Beginning Balance - The beginning balance represents the agency projected Other Fund carryover.

Centralized Personnel Plan - The Centralized Personnel Plan allocates the salaries of accounting, personnel, and procurement staff that support multiple programs to each program proportionate to the workload generated by the program. Centralized Personnel Plan allocation assessments are budgeted as transfers from federally funded programs.

Facility Rental Fees - The Military Department rents facilities to a variety of users such as community groups, social clubs, charities, businesses, individuals and other local, state, and federal governmental agencies. Rental purposes include charity fund-raisers, civic events, dances, concerts, vendor shows, weddings, overnight accommodations, sports events, and training. Rental revenues from state supported facilities are used to operate and maintain state facilities.

Sales of Land and Buildings - The Military Department occasionally disposes of land and buildings. The revenue generated from the sales of these properties is used as state matching funds for federally funded construction projects requiring a state match.

Interest - The Military Department maintains a Construction Account with the State Treasury which earns interest on deposits. The interest revenues are used as state matching funds for federally funded construction projects requiring a state match.

Community Partnership Agreements - Occasionally communities contribute funds to the Military Department on construction projects. These partnerships provide communities with usable space such as classrooms and conference or community centers. They diversify and enhance the military facility.

Certificates of Participation/ Article XI-Q general obligation bonds - The Military Department funded a portion of major construction projects through Certificates of Participation during the 1997-99, 1999-2001, 2003-05, 2007-09 and 2009-11 biennia. The agency switched to Article XI-Q bonds in 2011, which have been

_____ Legislatively Adopted

2019-2021

J:\21 Budget\Gov Rec\Revenues\Revvar.docx

BUDGET NARRATIVE

used for construction projects since the 2011-13 biennium. Policy Packages 490, 491 and 492 request \$19,927,000 in XI-Q bond funding to construct or alter Oregon Army National Guard facilities.

Average Daily Membership (ADM) School Support - The Youth Challenge Program receives ADM Other Funds revenue through the Bend-LaPine School District. The revenue is based on the number of students enrolled in the Youth Challenge Program. The funds are used to support operation of the program.

Miscellaneous - Revenues received from sources such as vending machines, coin-operated telephones, and recycling programs. The revenues are primarily used to operate and maintain state facilities.

9-1-1 Tax - Other funds received from the Department of Revenue from an excise tax of .75 per month per consumer who has telecommunications service or interconnected Voice over Internet Protocol service with access to the emergency communications system. Prepaid wireless telecommunications services are taxes at \$.75 per retail transaction.

Federal Revenues as Other Funds – The Military Department receives federal funds into other funds from federal agencies renting state-owned facilities.

Transfers (Centralized Personnel Plan) - Agency internal Centralized Personnel Plan allocation assessments are budgeted as transfers to the Administration Program from federally funded programs.

Transfers (Interagency) – Interagency transfers are received from other state agencies. The majority is comprised of 9-1-1 excise tax revenue collected by the Department of Revenue and transferred to OMD on a quarterly basis. OMD also receives National School Breakfast and Lunch funds transferred from the Oregon Department of Education to support the 24/7 operations at the Oregon Youth Challenge Program. Also, pilot registration fees transferred from the Department of Aviation and are used to support the air search and rescue (SAR) program within the Office of Emergency Management.

Lottery Funds Revenue:

No Lottery Funds have been requested or received since the 1995-97 biennium, when they funded a portion of three capital construction projects.

Federal Funds Revenue:

Federal Fund revenues are received through National Guard Bureau Federal/State Cooperative Agreements and the United States Office of Homeland Security. Funds must be expended in accordance with provisions of the agreements. Sixteen Federal/State Cooperative Agreements are projected to be in effect for the 2019-2021 biennium.

BUDGET NARRATIVE

The Federal/State cooperative agreements are listed below:

Master Cooperative Agreement – Includes the following appendices (agreements):

- Army National Guard Facilities Program - Provides federal funds for operation, maintenance, and related personnel costs for Oregon Army National Guard training and logistical facilities. The state matching share depends upon the type of facility and ranges from 0%-50%.
- Army National Environmental Resources Management - Manages Oregon Army National Guard facilities environmental issues. The program focuses on three management programs: Environmental Compliance, Integrated Training Area Management, and Land Use Planning. The agreement is 100% federally funded.
- Army National Guard Security Guard Activities – Provides contracted armed gate guards at eight Oregon Army National Guard facilities. The agreement is 100% federally funded.
- Electronic Security Systems Agreement - Provides electronic security for Oregon Army National Guard facilities that store weapons. The agreement is 100% federally funded.
- Army National Guard Sustainable Range Program – Maintains and repairs Army National Guard ranges equipped with Automated Target Systems. The agreement is 100% federally funded.
- Army National Guard Anti-Terrorism Program Manager – Funds one state position to develop, implement, manage and monitor a comprehensive Anti-Terrorism program for protecting state and installation personnel, information, infrastructure and other assets from acts of terrorism. This agreement is 100% federally funded.
- Army National Guard Emergency Management Program Coordinator Activities - Funds one state position to implement, integrate and sustain an emergency management program within the Oregon Army National Guard. It develops and maintains all hazard/all threat emergency response plans for all Army National Guard facilities across the state.
- Air Force Facilities Operations and Maintenance Agreements - Provides federal funds for operation, maintenance and related personnel costs for Oregon Air National Guard installations. The Portland Air Base agreement requires a 20% state matching share. The Kingsley Field (Klamath Falls) agreement requires a 15% state matching share. The Camp Rilea Air Station agreement requires a 25% state matching share.

2019-2021

J:\21 Budget\Gov Rec\Revenues\Revvar.docx

BUDGET NARRATIVE

- Air National Guard Environmental Program - Monitors and ensures environmental compliance at the Portland Air Base, Kingsley Field, and Camp Rilea Air National Guard facility. The agreement at Portland Air Base requires a 20% state matching share, while the agreement at Kingsley Field (Klamath Falls) requires a 15% state matching share.
- Fire and Security Agreements - Provides support for the Portland Air Base and Kingsley Field fire fighters and security police. In addition, a security agreement exists for providing security guards for Oregon Army National Guard facilities located at Camp Rilea, Camp Withycombe, Camp Biak, Salem Army Air Support Facility, and Pendleton Limited Army Air Support Facility. The Air and Army National Guard Security agreements are 100% federally funded. However, the Air National Guard Fire Protection Agreement changed in Federal Fiscal Year 2012 (and implemented in Federal Fiscal Year 2014) so that the state must pay for the excess of actual pay versus a federal cap or grandfathered amount. There is no fixed state funding percentage; rather, the state costs are calculated on an employee-by-employee basis and shifted to state costs as they occur.
- Distributed Learning Agreement - Provides video teleconferencing, video programming, computer based training, web based training, interactive audio, interactive video, electronic mail, and electronic network system to soldiers and their communities. The agreement is 100% federally funded.

Other Cooperative Agreements

Full Time Dining Facility Operations – Operates dining activities at Camp Rilea in Warrenton, Oregon. The agreement is supported with Other and Federal Funds from users of the camp.

Youth Challenge Program – Operates as an alternative high school for at-risk youth between 16-18 years old. This agreement requires a minimum of a 25% state match.

STARBASE Program – Provides hands-on Science, Technology, Engineering and Math (STEM) education for elementary students at the Portland and Kingsley Field Air National Guard bases. This agreement is 100% federally funded.

Construction Agreements - Provides federal funding for construction of state facilities utilized by the Army National Guard. Federal funding varies from approximately 65% to 90% depending on the type of facility constructed. The state must provide the balance of funding for the project.

BUDGET NARRATIVE

FEMA grants

Emergency Management Performance Grant funds may be used for necessary and essential expenses involved in the development, maintenance, and improvement of state and local emergency management programs. The grant is designed to give states more flexibility in deciding how to best use federal dollars to meet state specific needs. Local jurisdictions (32 counties, 5 cities) also receive grant funding and are required to provide a 50% cash match to participate in the program.

Homeland Security Grant Program –This program, funded by the U.S. Department of Homeland Security, includes pass-through funding to local jurisdictions who participate in the Homeland Security Exercise and Evaluation Program. This money also includes funding to support Citizens Corps and Community Emergency Response Team (CERT) programs and the Buffer Zone Protection Program. The Program also makes money available to the Portland Regional Area under the Urban Area Security Initiative Program. Regional agencies in Portland and the surrounding counties work together on projects and investments designed to improve the area’s preparedness for a domestic preparedness event. These funds serve a dual purpose in that most projects also have a benefit in the area of natural hazards preparedness.

FEMA Public Assistance and Hazard Mitigation Grant Programs. The Public Assistance Program pays for the repair/restoration of damaged public infrastructure in the event that the President declares a Major Disaster/Emergency. The Hazard Mitigation Grant Program pays for mitigation efforts after a Presidential declaration by providing 20% of all overall FEMA recovery costs to the State for mitigation projects. The majority of this funding is pass-through Federal Funding. Because this funding is unknown in advance of a disaster, OEM carries ample limitation as part of its budget so that funding is not slowed in the event of a Presidential disaster declaration.

FEMA Pre-Disaster Mitigation Grants and Flood Mitigation Assistance Grants. These funds are made available to the state and its local jurisdictions for natural hazard planning and project implementation. The funds are appropriated on a yearly basis, and vary from year to year. The PDM grant program is a nationally competitive grant program, while the Flood Mitigation Assistance program is a formula driven program. Oregon has been quite successful in acquiring PDM grants for local projects and the State’s overall natural hazard mitigation planning effort. Flood Mitigation Assistance grants are targeted toward repetitive flood loss properties that are insured under the National Floodplain Insurance Program.

Basis for 2019-2021 biennium estimates:

Other Fund revenue estimates are based on historical trends with adjustments for projected changes.

Federal Fund revenue estimates are based on forecasts of future funding levels provided by the National Guard Bureau and US Department of Homeland Security.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT

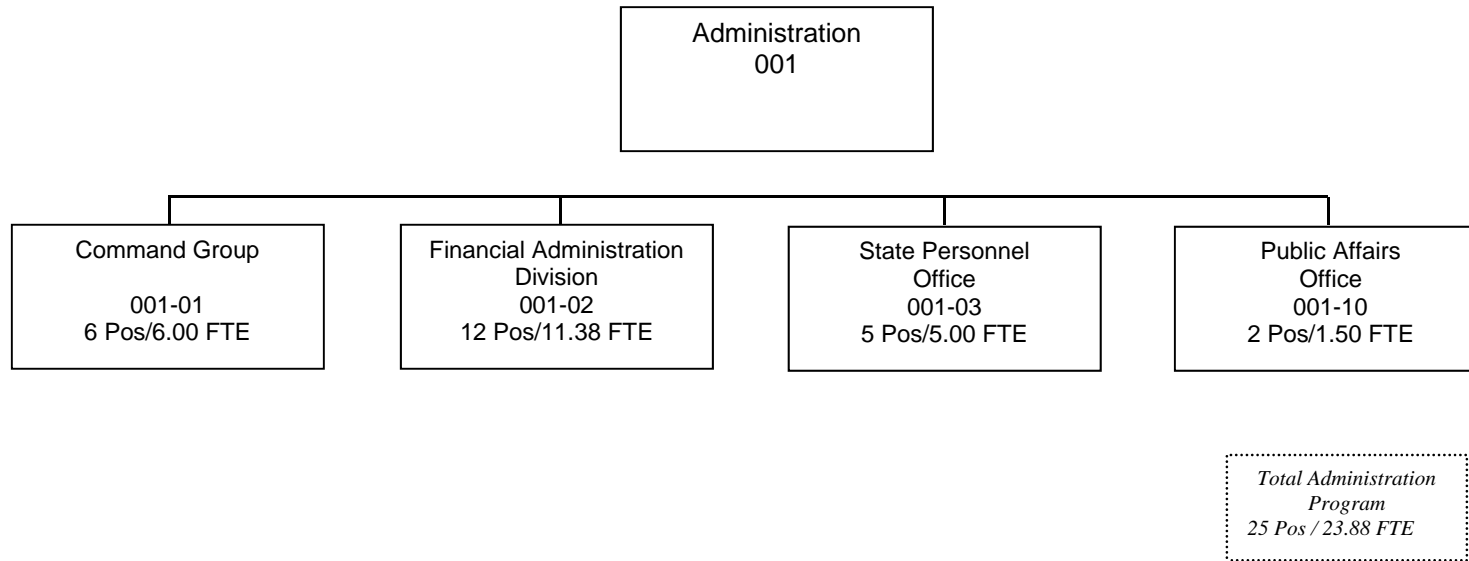

Administration Program
2019-2021 Organization Chart

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT

Administration Program
2017-2019 Organization Chart

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT ADMINISTRATION PROGRAM

The Administration Program provides senior-level leadership and support for the command, control, and administration of the Oregon Military Department, Oregon National Guard and the Office of Emergency Management. The program supports just over 2,500 state and federal full-time Oregon Military Department and Oregon National Guard employees, commands over 7,800 soldiers and airmen, and provides oversight of over \$4 billion in facilities and equipment.

There are six major programs within the Administration Program:

Command Group - The Command Group consists of The Adjutant General, the Joint Force Headquarters, including the Assistant Adjutants General for the Air Guard Component and the Army Guard Component, and the Deputy Director for State Affairs Component and the Oregon Civil Defense Force. The purpose of the Command Group is to administer all components of the Oregon Military Department, Oregon National Guard and the Office of Emergency Management. Base budget funding supports six positions and provides services and supplies for operations.

Financial Administration Division - The Financial Administration Division provides fiscal management and oversight of the agency's state and federal budgets. The division develops, monitors, and enforces agency fiscal and internal control systems, coordinates and prepares agency budgets, accounts for agency state and federal funds, performs payroll functions for the agency's state employees and the National Guard when called to state service, and accounts for agency property. The division also coordinates grants, federal/state cooperative agreements, public procurements, and other agreements. The division is also responsible for annual financial reporting, audit services, and policy development. Base budget funding supports 12 positions and provides services and supplies for operations.

State Personnel Office - The State Personnel Office is responsible for human resource management and labor relations activities for state employees of the Oregon Military Department. The Department has 478 authorized State positions in the Base Budget. The State Personnel Office provides technical assistance to Oregon Military Department managers, supervisors, and bargaining unit employees to maintain a high performance work force in support of the Oregon National Guard and Oregon's Office of Emergency Management. The office reviews actions of managers and supervisors to ensure compliance with personnel rules and collective bargaining agreements. The State Personnel Office also determines and recommends actions in disciplinary matters, grievance resolutions, and other personnel matters. Base budget funding supports five positions and provides services and supplies for operations.

Public Affairs - The Public Affairs Office is responsible for disseminating information to the public concerning activities of the Oregon National Guard, responding to requests for information from the public and private sector, and providing information to active and retired members of the Oregon

BUDGET NARRATIVE

National Guard. The program also prepares and distributes an agency newsletter, prepares video productions, and provides public relations support for the Oregon Military Department.

Public and command information projects include a monthly newsletter with a circulation of approximately 10,500 current and retired Oregon National Guard members, and federal and state agencies. Annual reports are produced for the executive branch of state government. These reports outline activities, provide information used in planning agency activities, and are a source of historical information for the agency. The Public Affairs Program produces all agency videos. The program produces informational videos on Oregon National Guard activities, news release videos, and safety videos. Base budget funding supports two positions and provides services and supplies for operations.

Emergency Financial Assistance Program – The Emergency Financial Assistance Program provides hardship grants and loans to National Guard members and their families. The program began in the 2005-07 biennium and continues with periodic General Fund contributions from the Legislature as well as charitable check-off revenues from Oregon personal income tax returns. The fund has helped over 1,000 individuals with various personal bills; housing, medical care, emergency repairs, transportation, etc.

Expected Results of the 2019–2021 Budget:

The Administration Program will provide continued agency leadership, management, and administration of the Oregon Military Department, the Oregon National Guard and the Office of Emergency Management.

Administration Program objectives and expected results support the agency’s performance measures.

The Military Department is submitting seven policy packages in the Administration Program to assist with federal cash flow issues (Policy Package 101), establish new personnel in the Human Resources Office (Policy Package 102), create and fund shift positions within the Financial Administration Division (Policy Package 103), establish a new Principal Executive Manager G position to oversee the Oregon Army National Guard (Policy Package 104) fund shift an existing Human Resource Analyst 3 (Policy Package 105), and establish a new Principal Executive Manager F to serve as the agency Chief Information Officer (Policy Package 106). **The Governor did not recommend these Policy Packages.**

Respond to State Emergencies:

The Command Group provides command and control of Oregon National Guard resources during response to state emergencies. The Financial Administration Division coordinates financial agreements between agencies and vendors, and administers systems for recording personnel and equipment resources mobilized in fire suppression support and other support in response to state emergencies. The Financial Administration Division is also responsible for compensation of personnel resources and the coordination of reimbursements to the federal government regarding military

J:\21 Budget\Gov Rec\001 Administration\1Nar.docx

BUDGET NARRATIVE

equipment mobilized in response to state emergencies. The Public Affairs Office is responsible for disseminating information to the public concerning activities of the agency and its response to state emergencies.

Revenue Sources:

Command Group – The Command Group is 100% General Fund with the exception of one Operations and Policy Analyst 4 position which is 100% Other Funds.

Financial Administration Division – The Financial Administration Division receives Other Fund transfers through an agency internal Centralized Personnel Plan. The plan allocates salaries of employees supporting multiple programs based on the amount of support provided to each program. Services and Supplies (training, travel, office machines, office supplies, contracts, etc.) are reliant on General Fund, as the federal government will not pay for Services and Supplies.

State Personnel Office – The State Personnel Office receives Other Fund transfers through the agency internal Centralized Personnel Plan. The plan allocates salaries of employees supporting multiple programs based on the amount of support provided to each program. Services and Supplies are reliant on General Fund, as the federal government will not pay for Services and Supplies.

Reintegration Program – The Reintegration Program had General Fund support until the 2017-19 biennium. It is now funded 100% by the Federal government.

Emergency Financial Assistance Program – The Emergency Financial Assistance Program receives Other Fund charitable check-off revenues from personal income tax returns from the Department of Revenue. It also periodically receives General Fund which is transferred into the Other Funds account at the State Treasury.

Public Affairs - The Public Affairs Program is General Fund for one full-time position and Services and Supplies and Other Funds for a part-time position.

Essential Packages:

010 – Inflation on non-PICS personal services and vacancy factor adjustments (expected vacancy savings in the 2019-21 biennium) – \$130,826 General Fund, \$80,723 Other Funds. **Governor recommended.**

031 - Inflation on Services and Supplies, adjustments for State Government Service charges – (\$457,909) General Fund, \$25,642 Other Funds. **Governor recommended.**

BUDGET NARRATIVE

Policy Packages:

090 – Analyst Adjustments – (\$323,372) General Fund. **Added by the Governor.**

091 – Statewide Adjustment DAS Charges - \$33,371 General Fund, (\$6,006) Other Funds. **Added by the Governor.**

092 – Statewide Attorney General Adjustment – (\$593) General Fund. **Added by the Governor.**

101 – Cash Flow Appropriation - \$2,000,000 General Fund. **Governor did not recommend.**

102 – New Human Resource Positions - \$188,901 General Fund, \$370,783 Other Funds, three new positions. **Governor did not recommend.**

103 – Financial Administration Division Positions - \$187,523 General Fund, \$166,075 Other Funds, two positions. **Governor did not recommend.**

104 – Army National Guard Position - \$295,704 General Fund, one position. **Governor did not recommend.**

105 – Fund Shift Human Resource Position - \$75,576 General Fund, (\$75,576) Other Funds. **Governor did not recommend.**

106 – Chief Information Officer Position - \$295,704 General Fund, one position. **Governor did not recommend.**

Proposed New Laws - None.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT ADMINISTRATION PROGRAM ESSENTIAL PACKAGES

1. **Purpose** - Essential Packages adjust the base budget to reflect the agency's 2019-21 current service level requirements.
2. **How Achieved** – The following Essential Packages adjust the Administration Program's base budget to reflect 2019-21 current service level requirements:

010 - Adjusts projected vacancy factor budget savings expected from staff turnover in the 2019-21 biennium. The package also adjusts the costs of non-PICS personal services items not included in the PICS generated total. Non-PICS personal services items include debt service on the Pension Obligation Bonds (POB). The package increases General Fund \$130,826 and Other Funds \$80,723.

031 - Provides a general inflation increase for Services and Supplies costs. The package also adjusts State Government Service charges to reflect 2019-21 changes. The package decreases General Fund (\$457,909) and increases Other Funds \$25,642.
3. **Staffing Impact** - None.
4. **Revenue Source** - General Fund is decreased (\$327,083) and Other Funds is increased \$106,365.

Governor recommended.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
ADMINISTRATION PROGRAM
POLICY PACKAGE 090

1. **Purpose**– This Policy Package was added by the Governor. It makes the following budgetary adjustments:
 - a. (\$124,523) General Fund vacancy savings in Personal Services, bringing it to 5% of General Fund salaries and wages;
 - b. (\$4,565) General Fund to remove standard inflation on most Services and Supplies accounts (General Fund only);
 - c. (\$103,313) General Fund Services and Supplies reduction in the Command Group;
 - d. (\$251,903) General Fund Personal Services in the Public Affairs Office by abolishing one Public Affairs Specialist 2 position;
 - e. (\$19,420) General Fund Services and Supplies reduction in the Public Affairs Office;
 - f. (\$19,420) General Fund Services and Supplies reduction which was double-counted and applied to Command Group; and
 - g. \$179,772 General Fund Personal Services and \$20,000 General Fund Services and Supplies for a new Internal Auditor 3 position to be phased-in October 1, 2019 (.88 FTE).
2. **How Achieved** – General Fund appropriation is decreased (\$323,372).
3. **Staffing Impact** –Abolish 1 Public Affairs Specialist 2 position (1.00 FTE), establish 1 Internal Auditor 3 position, .88 FTE. Net FTE: (.12).
4. **Revenue Source** – (\$323,372) General Fund.

Added by the Governor.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
ADMINISTRATION PROGRAM
POLICY PACKAGE 101
CASH FLOW APPROPRIATION
PRIORITY 3

1. Purpose— This Policy Package requests the establishment of a General Fund special purpose appropriation of \$2 million to assist the Oregon Military Department (OMD) in dealing with cash flow issues arising from the processing time associated with billing the federal government for costs incurred by the state to manage Master Cooperative Agreements with the National Guard Bureau. This appropriation would also help facilitate costs associated with the mobilization of the Oregon National Guard to State Active Duty status to support wildfire suppression actions across the state. This special purpose appropriation would only be utilized in two specific scenarios:

- a. First, when non-federal cash levels are nearing a terminal point, degrading OMD’s ability to meet cost obligations and impacting our operational tempo, and/or impacting businesses who enter into agreements with the Military Department to provide goods or services.
- b. Second, when the Governor calls the Oregon National Guard to support the Oregon Department of Forestry in wildland fire suppression actions across the state.

It is intent of the Military Department to ensure this appropriation is fully reimbursed prior to the point when General Fund appropriations are de-obligated by the Department of Administrative Services. To accomplish this objective the Military Department will work closely with the Chief Financial Office and the Legislative Fiscal Office on the development of rules and requirements prior to accessing these funds.

The first scenario relates to the Oregon Military Department’s management of 15 Master Cooperative Agreement Appendices from the National Guard Bureau with a validated value of \$53,484,431 federal funds in Federal Fiscal Year 2017. These cooperative agreements act as the primary federal funding source for Army and Air National Guard operations within the state of Oregon, and each comes with a unique cost share requirement ranging from 50% Federal Funds / 50% Non- Federal Match, to 85% Federal Funds / 15% Non-Federal Match, to 100% Federal Funds. The one commonality among all 15 appendices is they each operate on a reimbursable basis, meaning the Military Department’s state funds must initially cover the cost of an expense and then wait to be reimbursed through a complex billing process which is mandated by National Guard Bureau. This process is standardized across the nation and states have no ability to influence or demand changes.

On average the federal government is taking over 33 days to process reimbursement requests, which range in value from as little as a few hundred dollars to several valued at over half a million dollars. In several instances the federal government has taken over 85 days, and in a few instances over 114 days, to reimburse the Military Department for costs incurred. At any point in time the Military Department will have as many as 56 reimbursement requests pending with National Guard Bureau, with a reimbursable value of over \$4.3 million. The costs being billed include but are not limited to payroll, utilities at National Guard armories, construction contract payments, travel reimbursements, and payments to small businesses for goods and

_____ Agency Request X Governor’s Budget _____ Legislatively Adopted

BUDGET NARRATIVE

services. The Military Department uses a tool known as Linking Allotment to finance these costs, which is a short-term borrowing of General Fund resources already appropriated to the Military Department's Operations Program, which is then automatically reimbursed when federal reimbursements are received. Currently Linking Allotment is capped at \$4 million which is equivalent to 56% of General Fund appropriation for the Operations Program in the 2017-19 biennium.

Cooperative Agreement Reimbursements and Linking Allotment

In past biennia Linking Allotment in the \$3-4 million range has allowed OMD to operate with minimal interruption in payment processing until available General Fund falls below the \$3-4 million level late in the biennium. When overall General Fund falls below the Linking Allotment level, usually during the last five months of the biennium, OMD has obtained a loan from the State Treasury in the amount of \$3 million to assist in processing bills. This action comes with associated costs in both staff time, and interest which OMD cannot bill to the federal government, even though they are directly related to the ongoing management of the Master Cooperative Agreements. Since the beginning of the 2015-17 biennium the Military Department has been dealing with constant interruptions to payment processing due to the delay in reimbursement from the federal government. An analysis has shown that we are taking on average 112 days to process a utility payment, 69 days to process a professional services payment, 80 days to make a contract payment (including construction contracts), and 124 days to make a maintenance Services and Supplies payment. Due to these delays multiple armories have received utility shutoff notices, construction contractors have removed crews from job sites, and small businesses in rural areas of the state, where large vendors such as Lowes and/or Home Depot do not exist, have closed OMD accounts resulting in maintenance staff having to travel greater distances to obtain needed materials. Additionally, the Department of Administrative Services has to routinely "cover" the cost of OMD's monthly payroll as it awaits funding to arrive in the State Financial Management System (SFMS). The payroll issue brings its own set of complications to our payment process due to the fact that frequently when cash is provided by the federal government for a certain cost, SFMS does not recognize the specifics of what those funds are meant to pay for, the system simply applies the funds to the oldest bill, which is often payroll, thereby draining those funds before other operational costs can be paid.

State Activations of the Oregon National Guard

The second scenario revolves around the Governor calling the Oregon National Guard to State Active Duty status to support the Oregon Department of Forestry (ODF) in suppressing wildland fire across the state. It is critical to note that ODF does ultimately reimburse the Military Department for the costs associated with using National Guard resources based on an interagency agreement known as OPLAN SMOKEY. The challenge is related to how long it takes the Military Department to invoice for those costs, and then how long it takes ODF to review them and make payment on those invoices. During the 2017 fire season over 900 members of the Oregon National Guard volunteered to serve as Type 2 Wildland Fire Fighters to support of this state mission. They were supported through the use of Oregon Army National Guard aviation assets, ground assets, and support teams. The overall cost of the 2017 fire season was \$5.3 million, comprised of personal services, boots, meals, transportation, and other miscellaneous items. This cost for sending National Guard members and equipment to support this type of mission was required to be borne by state resources within the Oregon Military Department, as federal funds could not legally be used for these costs. A new federal funding structure is being developed that may provide some level of federal funding to Oregon for these costs in the future, but they are not anticipated to be sufficient enough to pay for the full cost of supporting wildfire suppression activities.

_____ Agency Request X Governor's Budget _____ Legislatively Adopted

2019-2021

J:\21 Budget\Gov Rec\001 Administration\IPOL - 101.docx

107BF02

Budget Page 156

BUDGET NARRATIVE

Some 2017 fire costs were paid from Community Support Other Funds limitation, but the majority, \$4.9 million, was paid from Operations Program General Fund, as it is the largest source of available General Fund. The \$4.9 million General Fund fire costs consumed 72% of the entire 2017-19 biennial General Fund appropriation for the Operations Program, leaving less than \$2 million for recurring operational bills for armories, training sites and the two airbases. In May 2018 the ODF began reimbursing the OMD for the costs incurred, and to date, the majority of invoices have been reimbursed. During the 8 month period between the incurring of fire costs and the subsequent reimbursements from ODF, OMD was unable to make timely payments to vendors for day to day operational expenses. This has resulted in account suspension at local vendors, a degraded reputation in the contracting community, and late fees exceeding \$18,000 which were borne by state funds.

Two solutions exist to solve this problem: 1) obtain a larger continuous line of credit from the Oregon State Treasury similar to the Department of Forestry; or 2) obtain a special purpose appropriation from the Legislature. The line of credit (LOC) option has been executed on during the 2017-19 biennium with approval from the Chief Financial Office and the Legislative Fiscal Office. The Military Department obtained a \$5 million LOC in May of 2018, and has been using the proceeds to pay down outstanding bills. The cost of the 2017 Fire Season, approximately \$4.9 million in General Fund expenses, was the primary reason for our negative cash flow for the first half of the 2017-19 biennium. The ongoing delay in obtaining reimbursements from the federal government exacerbated the cash flow problem. The current LOC will result in ongoing, unbudgeted, interest costs that will exceed those incurred in any previous biennium. The special purpose appropriation option provides for the lowest cost option due to the lack of interest and staff costs. The Military Department would be able to work with CFO and LFO to notify them when access to the appropriation is needed, and for what purpose the appropriation is being used (i.e. services and supplies, capital outlay, payroll costs etc.). The Military Department would not use the special purpose appropriation to subsidize unbudgeted personal services costs without first consulting with, and obtaining approval from CFO and LFO. The appropriation would be reimbursed fully prior to 31 December of odd number years when the Department of Administrative Services de-obligates the previous biennium's remaining General Fund.

2. How Achieved – This Policy Package is achieved by appropriating \$2,000,000 million in General Fund to a Special Purpose Appropriation to be used to overcome cash flow issues resulting from delayed reimbursement from the federal government and/or an activation of the Oregon National Guard to State Active Duty Status.

3. Staffing Impact – None.

4. Quantifying Results – The quantifiable measures associated with this Policy Package are a reduction in the number of days to process utility payments, professional service payments, contract payments, and maintenance services & supplies payments. Additional measures will include reestablishing good standing with small businesses through the reactivation of accounts, and an improvement in the Military Department's reputation within the construction contractor community. These results tie directly to the Governor's focus area of "A Thriving Oregon Economy" through the reestablishment of economic relations with small businesses. They also ensure that critical facilities such as Armories and Readiness Centers are in

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
ADMINISTRATION PROGRAM
POLICY PACKAGE 102
NEW HUMAN RESOURCE POSITIONS
PRIORITY 16

1. **Purpose** – This Policy Option Package requests the establishment of three Human Resource positions within the Military Department’s State Personnel Office: a Human Resource Assistant, a Safety Specialist 2 and a Human Resource Analyst 3. The current staffing level in this office is insufficient to adequately support human resource activities for 478 Current Service Level positions in the agency.

Position	Title	Classification	Type	Impact		
				GF	OF	FF
0019041	Human Resource Assistant	X1319	Establish	\$40,416	\$94,304	
0019067	Safety Specialist 2	X1346	Establish	56,593	132,054	
0019068	Human Resource Analyst 3	X1322	Establish	61,283	143,003	
Mass Transit Tax				609	1,422	
Services and Supplies				30,000		
Total Policy Package 102				\$188,901	\$370,783	

These three positions would be funded with 30% General Fund and 70% Other Funds. The source of the Other Funds is Centralized Personnel Plan (CPP) revenue. CPP is the mechanism that permits allocation of certain non-supervisory personal services costs within the Financial Administration Division and State Personnel Office to Master Cooperative Agreements (MCA) issued by National Guard Bureau (NGB).

The Oregon Military Department’s (OMD) State Personnel Office is responsible for providing a full range of human resource services to over 470 supervisors and employees of the agency. These services include management and employee training, position recruitment and retention services, position reclassification studies, Family Medical Leave Act and Oregon Family Leave Act management and advice, classification and compensation analysis, review of human resource related disciplinary actions taken by management, collective bargaining services with multiple unions, and development of agency specific human resource policies and procedures as well as implementation and education of statewide policies and procedures disseminated by the Department of Administrative Services, Chief Human Resource Office. The State Personnel Office provides the above listed services utilizing a team of four professional level human resource positions led by a Principal Executive Manager F. The demands of providing these types of services to an organization like the Military Department, which has staff and management in every corner of the state, with

BUDGET NARRATIVE

the minimal staff previously listed has proven to be a challenge. The establishment of a Human Resource Assistant position will provide much needed technical support to the office's professional staff. This position will also serve as an executive assistant to the agency Personnel Director.

The establishment of a Human Resource Assistant will also serve to complete the career progression ladder within the Personnel Office. The Personnel Office employs the entire professional human resource analyst classification series with a Human Resource Analyst 1, a Human Resource Analyst 2, and a Human Resource Analyst 3 on staff. The inclusion of a Human Resource Assistant will assist the Personnel Director in developing career progression schedules for staff, as well as assisting in the development of long range succession planning.

Position 0019041 –Human Resource Assistant: This position will assist in explaining human resource procedures and program guidelines to supervisors and employees regarding collective bargaining agreements, grievance procedures, personnel laws, rules and regulations, and benefits. The position will assist in compiling and disseminating human resource related reports such as vacancy reports, and temporary employee status reports. It will assist agency managers and supervisors with scheduling and completing new employee orientation and obtaining signatures on all required forms. It will explain agency policies and procedures regarding promotion, demotion, transfer, position salary, examinations, job application processes and minimum qualification requirements to potential applicants. It will act as executive support for the agency Personnel Director by assisting in scheduling meetings, calendaring appointments, answering phone calls, and filing necessary paperwork.

Position 0019067 – Safety Specialist 2: This position will develop and administer occupational safety and injury-loss prevention programs for OMD state employees. It will consult with managers to facilitate improved safety and health program performance, ensuring compliance with state and federal rules. It will evaluate and assess the effectiveness of safety programs, provide training on safety regulations, first aid and use of safety equipment. This position will also participate in facility inspections to identify and address potential hazards, and provide claims management for accident, injury and Workers' Compensation claims.

Position 0019068 – Human Resource Analyst 3: This position will provide human resource support and guidance to supervisors in areas such as interpretation of collective bargaining agreements, human resource policies and rules, performance evaluations, position descriptions and classifications. It would investigate and respond to harassment or other complaints against employees or supervisors, and investigate employee performance, behavior issues, complaints or grievances. It would also participate in collective bargaining for any of the four collective bargaining agreements at OMD. This position would manage, develop and revise human resource policies and procedures in accordance with federal and state laws and collective bargaining rules. It would also ensure that supervisors and employees receive appropriate training in human resource areas, and perform pay equity evaluations for employees and applicants.

In addition to the three positions, Services and Supplies funding of \$30,000 General Fund is requested to finance the associated costs of new equipment, travel, training, and increased operating costs. Federal guidance over cooperative agreements, National Guard Regulation 5-1, does not authorize Services and Supplies costs in the CPP, which is the reason behind the 100% General Fund S&S request.

BUDGET NARRATIVE

2. **How Achieved** – Appropriation and approval of these new positions will allow the agency to operate an effective and efficient personnel office whose mission is to provide high levels of technical and professional human resources related services for the Military Department. Additionally, OMD would be able to leverage 70% of the costs of the positions to the federal government through the Centralized Personnel Plan authorized in National Guard Regulation 5-1.
3. **Staffing Impact** – Establish three new positions – 3.00 FTE
4. **Quantifying Results** – The results of this Policy Package will be measured by a reduction in time to provide human resource related guidance and services to agency management and employees. Specific examples include shorter response times for position recruitments, timelier responses to questions, and a transition of lower level tasks from professional level employees to the assistant position. Additionally, the Safety Specialist will work to reduce on-the-job injuries and Workers’ Compensation claims. This request ties to the Governor’s Healthy and Safe Communities Priority as these positions will support the agency’s workforce that maintains the infrastructure of the Oregon National Guard and Office of Emergency Management.
5. **Revenue Source** - \$188,901 General Fund, \$370,783 Other Funds (Centralized Personnel Plan transfers).

Governor did not recommend.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
ADMINISTRATION PROGRAM
POLICY PACKAGE 103
FINANCIAL ADMINISTRATION POSITIONS
PRIORITY 19

1. Purpose– This Policy Package requests the establishment of an Accountant 1 and a Procurement and Contract Specialist 2 along with services and supplies, and the reclassifications of two positions; an Accountant 1 to an Accountant 2, and a Procurement and Contract Specialist 2 to a Procurement and Contract Specialist 3, all within the Financial Administration Division of the Oregon Military Department. The new positions will be funded with 50% General Fund and 50% Other Funds, and services and supplies will be funded with 100% General Fund. The source of the Other Funds is Centralized Personnel Plan (CPP) revenue. CPP is the mechanism that permits allocation of certain non-supervisory personal services costs within the Financial Administration Division and State Personnel Office to Master Cooperative Agreements (MCA) issued by National Guard Bureau (NGB). The positions being reclassified will also be financed with General Funds and Other Funds, with CPP revenue acting as the source of Other Funds.

Budget Page 162

BUDGET NARRATIVE

position and Procurement and Contract position will provide much needed professional level support to the office. The reclassifications will accurately reflect the increased level of work being conducted by existing staff and management.

Position 0019023 – Accountant 1: This position will take on the duties associated with all Accounts Receivable for the agency. Based on internal policies and DAS statewide policies there is a distinct need for a new accounting position to track, manage, and report on all outstanding receivables associated with the Oregon Military Department. These include armory rental revenues, federal reimbursements, billings to outside agencies etc. This position will also assist in managing Cooperative Agreement appendices associated with National Guard Bureau funded programs. This position will support financial activities related to the activation of National Guard resources into State Active Duty status resulting from an order issued by the Governor. This support will include tracking expenses, tracking payroll costs, developing invoices, reconciling accounts, and tracking billings to the Department of Forestry.

Position 0019062 – Procurement and Contract Specialist 2: This position will provide procurement and contracting services for the Office of Emergency Management, which lacks a dedicated procurement position. This new position will work in tandem with the re-classified Procurement and Contract Specialist (PCS) 3 below to provide full spectrum contracting services. This will entail preparing solicitations for services, developing intergovernmental and interagency agreements, implementing procurement policies and procedures, reviewing grant agreements, interacting with the Department of Justice on contractual legal matters, and providing contract support to the PCS 3. The position will report to directly to the Director of Financial Administration, who acts as the Designated Procurement Officer for the agency.

Position 0024001 - Procurement and Contract Specialist 3: The scope and complexity of this position justify the reclassification from a Procurement and Contract Specialist 2 to a Procurement and Contract Specialist 3. This position serves as the sole procurement and contracting officer for all divisions within the Military Department with the exception of the Installations Division. The position performs all facets of contract development, implementation and management. This includes engagement with legal staff, negotiations with vendors, consultative services with senior agency management, policy development and implementation of procedures. The position is authorized to represent and speak for the agency in the absence of the Designated Procurement Officer. It engages with senior procurement staff from other agencies, and serves as the agency representative to statewide workgroups to acts as a subject matter expert on all procurements affecting the Command Group, Financial, Human Resource, Emergency Management, and Youth Challenge program areas within the agency.

Position 0101002 – Accountant 2: The scope and complexity of this position justify the reclassification from Accountant 1 to Accountant 2. This position provides financial support to multiple complex programs within the Oregon Military Department. It accounts for, reconciles, analyzes and interprets accounting data and records associated with the agency’s cooperative agreement programs. This position identifies errors in the accounting system and makes appropriate reversals, adjusting or correcting entries. It serves as the primary fiscal point of contact with federal counterparts and other state agencies surrounding all aspects of State Active Duty to include cost eligibility, billings, reimbursements, and payroll. It also acts as the agency’s Small Purchase Order Transaction System (SPOTS) Coordinator, setting up new accounts, developing policies and procedures and reviewing

107BF02

Budget Page 163

BUDGET NARRATIVE

transactions for accuracy and adherence to statewide policy. This position reviews and releases batches of other accountants in the absence of the Controller and other senior accounting staff.

2. How Achieved – This Policy Package is achieved by approval of the two new positions and two reclassification along with associated General Fund appropriation and Other Funds limitation to help support financial management operations within the Oregon Military Department.

3. Staffing Impact – Establish 2 positions / 2.00 FTE. Reclassify two positions.

4. Quantifying Results – The quantifiable measures associated with this Policy Package will include a more efficient delivery of financial services to the customers of the Oregon Military Department, and more effective support to internal programs and our partner agencies. This request also ties to the Governor’s Responsible Environmental Stewardship priority which is partially focused on ensuring costs incurred to fight wildfires are funded.

5. Revenue Source - \$187,523 General Fund, \$166,075 Other Funds (Centralized Personnel Plan transfers).

Governor did not recommend.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
 ADMINISTRATION PROGRAM
 POLICY PACKAGE 104
 ARMY NATIONAL GUARD POSITION
 PRIORITY 20

1. **Purpose**– This Policy Package requests the establishment of a Principal Executive Manager G to serve as a senior state executive overseeing the Oregon Army National Guard, along with Services and Supplies funding. The new position will be funded with 100% General Fund.

Position	Title	Classification	Type	Impact		
				GF	OF	FF
0019064	Principal Executive Manager G	Z7012	Establish	\$284,504		
			Mass Transit Tax	1,200		
			Services and Supplies	10,000		
			Total Policy Package 104	\$295,704		

This position will become part of the Command Group of the Oregon Military Department, which currently consists of The Adjutant General (TAG) as the Director of the Oregon Military Department (OMD) as well as the senior military officer of the Oregon National Guard, and the Adjutant General’s Deputy Director (AGDD) for State Affairs within OMD. In addition, the Oregon National Guard has four Brigadier General or 1 Star Assistant Adjutant Generals that work directly for TAG. There are two Air Guard 1 Star Generals and two 1 star Army Guard Generals. These positions are traditional Title 32 US Code federally recognized general officer positions.

Currently the Land Component Commander is a federal position staffed by a traditional citizen-soldier of the Army National Guard, who serves one weekend per month and two weeks of training per year. The requirements of the position necessitate a full-time presence. The purpose of this position will be to provide on a rotational basis (approximately every 2-3 years) a full time paid state position to administer the Oregon Army National Guard units. The composition within the Oregon Army National Guard is approximately 5,500 soldiers of which 4,700 are traditional citizen-soldiers that participate in the Army Guard on drill weekends and extended training duty up to and beyond two weeks throughout the year. Additionally, this position will directly oversee the 800 full time federal Title 32 Active Guard and Reserve (AGR) and Title 32 Federal Technicians positions that belong to and support the Oregon Army National Guard. Under the direction and control of this position will be three main organizational groups. Two of the organizations are Brigades comprised of the 41st Infantry Brigade and the 82nd Troop Command Brigade with sub-elements of both Brigades distributed throughout the entire state. The third organizational group is the staff and support structures such as

BUDGET NARRATIVE

personnel, operations, intelligence, logistics, maintenance, medical, and school house supporting the two Army Guard Brigades. The staff support oversees federal program financial management on a federal fiscal year basis of approximately \$200 million.

Position 0019064 – Principal Executive Manager G: This position will act as a Deputy or “Assistant” Adjutant General to the Adjutant General with the working title of “Assistant Adjutant General – Army” and will be a dual status federally recognized Brigadier General as well as a full time state employee. In this capacity, the position will directly supervise the Oregon Army National Guard component within the Oregon Military Department. This position will be directly supervised by The Adjutant General. The military position will be called the Land Component Commander of the Oregon Army National Guard units and will be responsible for the overall management of all Army Guard units to insure they are trained, supported, and managed in preparation for supporting the Governor during times of need and as an operational force to the United States Army, prepared to respond to the orders of the President of the United States.

2. **How Achieved** – This Policy Package is achieved by appropriating \$295,704 in General Fund to be used to pay for a position to assist The Adjutant General for the State of Oregon with the management and oversight of the Oregon Army National Guard.
3. **Staffing Impact** – 1 position / 1.00 FTE
4. **Quantifying Results** – The quantifiable measures associated with this Policy Package will include a more efficient response time associated with the future Oregon National Guard deployments in support of domestic and international missions.
5. **Revenue Source** - \$295,704 General Fund.

Governor did not recommend.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
 ADMINISTRATION PROGRAM
 POLICY PACKAGE 105
 FUND SHIFT HUMAN RESOURCE POSITION
 PRIORITY 22

1. **Purpose** – This Policy Package requests a fund shift of a Human Resource Analyst 3 position from 100% Other Funds to 30% General Fund / 70% Other Funds. The Other Funds supporting the position currently consist of 9-1-1 emergency communications excise tax revenues. The source of the Other Funds will transition to Centralized Personnel Plan (CPP) revenue. CPP is the mechanism that permits allocation of certain non-supervisory personal services costs within the Financial Administration Division and State Personnel Office to Master Cooperative Agreements (MCA) issued by National Guard Bureau (NGB).

The position being fund shifted in this package is a Human Resource Analyst 3 in the State Personnel Office, which was shifted to 100% Other Funds funded with 9-1-1 revenues in the 2009-11 Legislatively Adopted Budget as a way to reduce General Fund costs. Since that time the duties of the position have changed to provide human resource support to all programs within OMD, the majority of which are funded through Master Cooperative Agreements. While there is still support being provided to the 9-1-1 program, the level is not commensurate with charging the program for 100% of the position’s personal services costs.

With the exception of the Personnel Director, the staff in the State Personnel Office are all funded with the same split being requested in this Policy Package. National Guard Regulation (NGR) 5-1, paragraph 5-5 allows states to charge Master Cooperative Agreements for non-supervisory costs of administering the agreements, eligible costs include accounting, budget, human resources, and procurement. Information Technology and management costs, such as those associated with the Director of Personnel are not eligible to be charged to the program. The CPP is negotiated annually between the State Military Department (SMD) and the United States Property & Fiscal Office (USPFO) and approved by the USPFO.

Position	Title	Classification	Type	Impact		
				GF	OF	FF
0097001	Human Resource Analyst 3	X1322	Fund Shift	\$75,265	(\$75,265)	
			Mass Transit Tax	\$311	(\$311)	
			Total Policy Package 105	\$75,576	(\$75,576)	

BUDGET NARRATIVE

2. **How Achieved** – Approval of this package would free-up 9-1-1 resources that could be applied to other administrative needs which are specific to the 9-1-1 program. Additionally, OMD would be able to leverage 70% of the costs of the position to the federal government due to authorizations outlined in NGR 5-1.
3. **Staffing Impact** – Fund shift one position in the Administration Program.
4. **Quantifying Results** – The results of this policy package can be measured by the overall reduction in administrative costs to the 9-1-1 program.
5. **Revenue Source** - \$75,576 General Fund, (\$75,576) Other Funds: \$175,620 new CPP Revenue net of (\$175,620) savings in 9-1-1 Revenues.

Governor did not recommend.

107BF02

Budget Page 168

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
 ADMINISTRATION PROGRAM
 POLICY PACKAGE 106
 CHIEF INFORMATION OFFICER POSITION
 PRIORITY 23

1. **Purpose**– This Policy Package requests the establishment of a Principal Executive Manager F to serve as the Chief Information Officer for the Oregon Military Department, along with Services and Supplies funding.

Position	Title	Classification	Type	Impact		
				GF	OF	FF
0019070	Principal Executive Manager F	Z7010	Establish	\$284,504		
			Mass Transit Tax	\$1,200		
			Services and Supplies	\$10,000		
			Total Policy Package 106	\$295,704		

This position would act as OMD’s Chief Information Officer and Director of Cyber Security Initiatives, supporting approximately 350 state positions. This function is currently being performed by the Deputy Director of the Office of Emergency Management, a position which has many duties and insufficient time to adequately oversee the agency’s IT assets. A new Chief Information Officer position would report directly to the Deputy Director of OMD and lead a new Information Technology Division with 10 positions. It would develop long range strategic plans including budget development for IT lifecycle replacement, and provide direction over the use of IT resources. This position will also oversee ongoing operation of the agency’s IT infrastructure, resources, OEM cyber-security roles/impacts, and personnel.

2. **How Achieved** – Approval of this position would provide a dedicated position to oversee the information technology infrastructure for the programs on the state network at the Military Department.
3. **Staffing Impact** – Establish one new position – 1.00 FTE.
4. **Quantifying Results** – The quantifiable result of this policy package will be a more robust, reliable and current state network resulting in increased operational efficiencies.
5. **Revenue Source** - \$295,704 General Fund.

Governor did not recommend.

Agency Request
 Governor's Budget
 Legislatively Adopted
2019-2021

Program Overview

The Operations Program supports the mission of the Oregon National Guard through the ongoing maintenance and support of National Guard Facilities. Without the Operations Program the National Guard could not operate within the State of Oregon. The success of the Operations Program also directly affects the Governor’s Safer, Healthier Communities focus area as it impacts the state’s ability to provide adequate infrastructure in response to natural or human-made disasters.

Program Funding

The Governor’s Budget (GB) for the Operations Program within the Oregon Military Department includes expenditure authority of \$7,667,338 General Fund, \$4,999,076 Other Funds, and \$96,713,206 in Federal Funds. The GB includes 362 positions and 313.55 FTE for the 2019-21 Biennium. This budget is a necessity to ensure the continued operation of the Oregon National Guard. The Operations Program provides the support structure to ensure National Guard facilities are functionally ready for use by the assigned units 24 hours a day 7 days a week. In addition, these facilities can be utilized as emergency response centers and distribution centers by communities during emergency situations. Without adequate facilities the National Guard Bureau can remove units from the state. The removal of units includes loss of federal funds, and equipment such as trucks, trailers, helicopters, and Humvees which are used by the state when responding to emergency situations.

Program Description

The Operations Program’s primary responsibility is to maintain and enhance the operational readiness of Oregon National Guard facilities for soldier and airmen training. Our statewide facilities serve a large tenant population made up of employees, students, BLM, State Police, USDF, OR Department of Veterans Affairs, the Coast Guard and many others. The majority of these tenants utilize our facilities on a daily basis, thereby requiring our staff presence daily. The facilities maintained by the Operations Program also function as rental facilities for the general public, for events such as business meetings, wedding receptions, trade shows, concerts, cultural events, Red Cross blood drives, and sporting events, all of which generate Other Funds Revenue. Other Funds rental revenue is essential for maintaining these facilities.

Facilities maintenance and support is primarily accomplished through the work of the Real Property Operations and Maintenance Program (RPOM) for Army Guard facilities, and the Civil Engineering Programs (CE) for Air Guard Facilities. RPOM is currently responsible for 925 buildings totaling 4.4 million square feet. To effectively manage the facility maintenance needs, RPOM conducts an extensive annual assessment of all facilities. This assessment, known as the Installation Status Report (ISR), helps identify which facilities are in critical need of support. The financing of facilities maintenance varies by facility, but a majority of our army installations operate under a 50/50 funding split where the state and federal governments partner to share costs equally.

The Civil Engineering (CE) programs at the Portland and Kingsley Field Air National Guard Bases perform a similar function to the RPOM program. Between the two airbases the CE programs are responsible for 164 buildings totaling 1.25 million square feet. In addition to facilities maintenance the CE programs are responsible for a considerable amount of airfield maintenance (i.e. snow removal, mowing, and sweeping) through the Airport Joint

_____ Agency Request X Governor’s Budget _____ Legislatively Adopted

2019-2021

Use Agreement (AJUA). The financing of facilities maintenance varies by airbase. At the Portland Air National Guard Base the funding split is 80/20 with the federal government financing 80 percent of maintenance operations. At the Kingsley Field Air National Guard Base the funding split is 85/15 with the federal government financing 85 percent of maintenance operations.

The environmental services performed by the Operations Program are focused on compliance and stewardship. The Environmental Program works with all Oregon National Guard facilities to ensure compliance with federal, state and local regulations. This includes compliance work related to wastewater treatment plant operations, hazardous materials management, pollution prevention, recycling, air quality, asbestos removal, and drinking water quality. The majority of environmental operations are funded 100 percent with federal funds, with the exception of operations conducted at the two airbases.

24-7 security services are provided by the Operations Program at both the Portland and Kingsley Field Air National Guard bases. Security personnel are instrumental in protecting 48 F-15 fighter jets worth \$1.736 billion, and the facilities housing them, from sabotage, theft, vandalism and trespass. To accomplish this mission the Operations Program partners with the Oregon State Police, the FBI, the Secret Service, the Air Force Office of Special Investigation as well as local law enforcement. Security service costs at both airbases are financed 100 percent with Federal Funds.

The counterdrug function of the Operations Program conducts a full spectrum campaign that bridges the gap between Department of Defense and Non-DoD institutions in the fight against illicit drugs and transnational threats. Soldiers and Airmen support multiple agencies at the local, state, and federal levels preventing illicit drugs from being grown, imported, manufactured and distributed. This program is funded 100 percent with Federal Funds.

The major cost drivers associated with our Operations Program include personal service costs, rising utility and fuel costs, deferred maintenance costs, and changes within the cooperative agreements requiring larger state funds participation (such as the Air National Guard Fire Protection Program). To offset the rising utility costs, where possible, both Army and Air facilities are utilizing green technologies to reduce consumption and therefore reduce costs.

To effectively manage facility maintenance the Operations Program relies on successful partnerships. These include partnerships with Treasure Valley Community College, home to the Ontario Armory, and Columbia Gorge Community College, which provided land and funding for classroom space at the new Fort Dalles Readiness Center. We also partner with the Marine Corps Reserve, US Naval Reserve, US Bureau of Land Management and the US Forest Service in the operation of our Springfield Armed Forces Reserve Center.

Program Justification and Link to Long Term Outcomes

The mission of the Oregon National Guard is to provide the citizens of the State of Oregon and the United States with a ready force of citizen soldiers and airmen, equipped and trained to respond to any contingency. *“Always Ready, Always There!”* is our creed, and this creed supports the Governor’s

focus area of “Safer, Healthier Communities.” The Operations Program is the primary support program which allows the Oregon National Guard to be ready to support local and national missions.

Facilities maintenance is the driving force behind the Operations Program. There is a primary link between facilities maintenance and the Governor’s focus area of safer, healthier communities, primarily the ability of maintained and enhanced facilities to provide for adequate response to natural or human made disasters. Oregon National Guard facilities act as centralized points for the support of communities during a disaster. Our facilities can be utilized to act as Emergency Coordination Centers, food and supply distribution centers, a gathering place for displaced citizens, as well as the launch sites for National Guard support. The majority of our facilities are funded with a matching requirement, so the burden for maintaining these facilities is shared by both the state and federal government. This is an important point to realize as it directly affects our ability to successfully leverage critical federal resources.

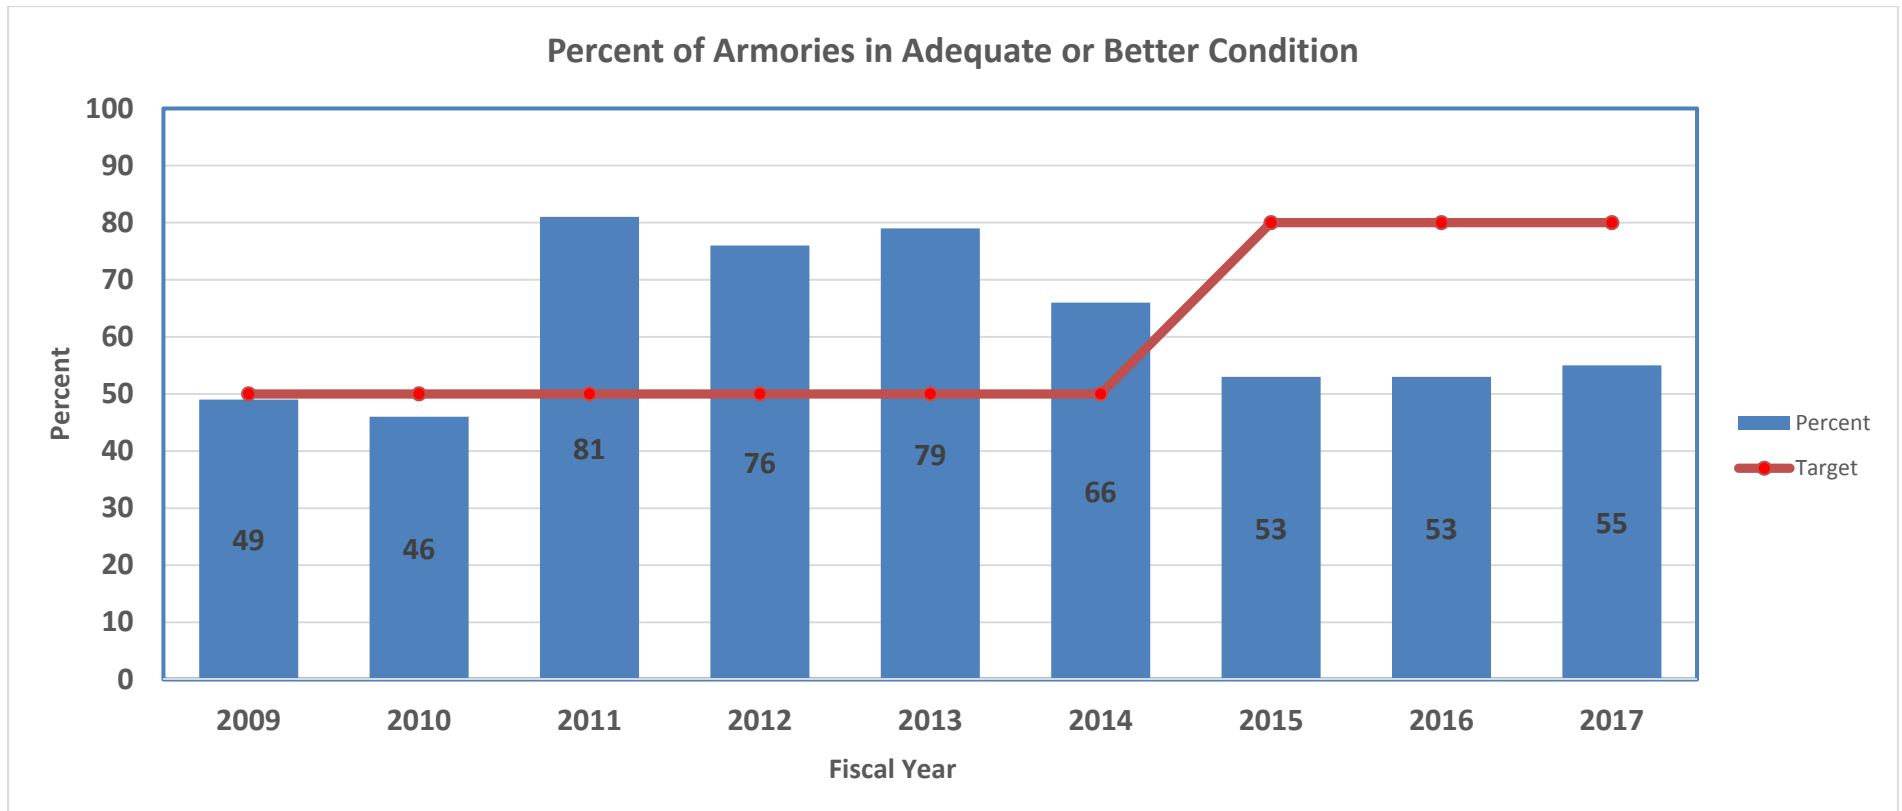

In addition to the role as a Safety organization, the Oregon Military Department acts as an economic stimulator due to federal funding. The over 8,500 Citizen Soldiers bring valuable Personal Income Tax revenue into the state. Our Wildland Fire Program helps battle forest fires which devastate a key economic good, timber, for the state. These actions all tie, as a secondary link, into the Governor’s focus area of “A Thriving Oregon Economy.”

The Air and Army National Guard Environmental Programs have primary ties to the Governor’s focus area of “Responsible Environmental Stewardship” by monitoring compliance with state and federal environmental regulations at all the Air and Army National Guard facilities around the state.

Program Performance

The primary performance tool of the Operations Program is the Installation Status Report (ISR). The ISR categorizes the readiness of our facilities as being unsatisfactory, adequate or better. The 2017 ISR Facility Condition Index (FCI) results for Oregon’s armories are as follows: 36.8% of the total facilities infrastructure is in compliance with Army standards and in overall good condition, 18.4% do not fully meet Army standards and are in overall adequate condition. These two metrics combined equals 55.2% for armories classified as adequate or better conditions. 31.6% do not meet Army standard and are in overall poor condition, and 13.2% are in overall very poor condition. These metrics inform OMD’s Annual Performance Progress Report (APPR) Key Performance Measure #2 – Armory Condition). These percentages will be reported in the 2018 APPR which has not yet been prepared.

Another metric utilized by the Operations Program is the Percent of Available Armory Time Rented. During Federal Fiscal Year 2016, approximately 20% of available armory time was rented. Available armory rental metrics are reported within the APPR and also submitted to Department of Administrative Services Chief Financial Office and the Legislative Fiscal Office.

Enabling Legislation/Program Authorization

The National Guard is authorized by the US Constitution Article I, Section 8 Clause 15 and 16. The Oregon National Guard is authorized by Article X of the Oregon Constitution. The Operations Program is authorized by ORS Chapters 396, 398 and 399. Further Federal Authorization is provided by National Guard Regulation 5-1.

Funding Streams

The 2019-21 program base budget is funded with General Fund (6%), Other Funds (4%) and Federal Funds (90%). The Other Funds include Armory Rental Revenue. The Federal Funds carry a match requirement of zero to 50 percent and come from the National Guard Bureau. All Federal Funds are dedicated and subject to sequestration.

Agency Request
 Governor's Budget
 Legislatively Adopted

2019-2021

Significant Proposed Program Changes from 2019-21

The proposed budget for the Operations Program is an enhancement over the program’s Current Service Level budget. The Operations Program top priority is Policy Package 201 requests \$275,000 General Fund and \$707,960 Federal Funds for the Portland Air National Guard Base to cover costs that cannot be paid with Federal Funds: employee payroll costs that exceed federally-mandated pay caps and collective bargaining costs and increases in utility costs. Similarly, Policy Package 203 requests \$220,000 General Fund to cover payroll costs that exceed federally-mandated pay caps and increases in utility costs at the Kingsley Field Air National Guard Base. At Portland Air National Guard Base, Policy Package 205 would establish eight new positions to address a staffing shortfall. **The Governor recommended Policy Package 201 and 203, but did not recommend Policy Package 205.**

OMD is also requesting funding in Policy Package 202 for 25 new positions to partially restore staffing levels reduced in previous budget cycles. These positions are within the Oregon Military Department’s Operations and Maintenance Program, Military Construction Program, Fire and Emergency Services Program and the Army National Guard Emergency Management Coordinator Program. Policy Package 204 requests \$12,420,726 General Fund which can be matched with \$12,420,726 Federal Funds to provide urgently needed repairs and deferred maintenance on Military Department facilities. **The Governor recommended 24 new positions in Policy Package 202, but did not recommend Policy Package 204.**

The Operations program is focused on improving the quality of National Guard facilities to enhance our functional role under the Governor’s Safer, Healthier Communities focus area. The majority of our facilities operate under a state matching requirement which ranges from 15% to 50%. An increased state investment will allow the department to continue to improve the quality and condition of our facilities as reported in the Installation Status Report (Please see Program Performance for more details regarding the ISR).

Increased state investment will also allow the department to fully utilize federal investment. With each dollar the state invests we can obtain between 1 and 8.5 dollars of federal investment depending on the funding split. This increased federal investment, along with improvements to National Guard facilities, could lead to new Force Structure opportunities whereby new federal personnel and assets are placed within the state. This would lead to increased tax revenue from federal payroll as well as increased investment in the local economy.

The Operations Program is not planning to shift resources to new activities, but it is focused on improving the way it does business. This includes seeking to maximize federal investment in order to improve the quality of our National Guard facilities in support of the Governor’s Healthy and Safe Communities priority.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT OPERATIONS PROGRAM

The Operations Program includes all programs that support Oregon National Guard facilities operations and maintenance. It includes the Army National Guard facilities operations and maintenance program, Air National Guard Programs, Oregon National Guard Counterdrug Program, Oregon Army National Guard's Wildland Fire Management Program, Oregon National Guard Distributed Learning Program, and Army National Guard Anti-Terrorism and Emergency Management Programs. There are 14 major programs within the Operations Program:

Army National Guard Facilities Operations and Maintenance:

The Army National Guard (ARNG) Facilities Operations and Maintenance Program provides operation, maintenance, repair, and alteration support for Oregon Army National Guard facilities. The program is supported by a variety of state and federal funding match rates.

The program conducts an extensive annual analysis of all Oregon Army National Guard facilities. The analysis, titled "Installation Status Report" (ISR), is an annual requirement by the Department of the Army using standard Army-wide inspection and evaluation criteria. The ISR is a decision support system designed to improve management of our limited resources for facilities. The 2017 ISR Facility Condition Index (FCI) results for Oregon's armories are as follows: 5.3% is in compliance with Army standards and in overall good condition, 81.6% do not meet Army standard and are in overall poor condition, and 13.2% are in overall very poor condition. This represents overall decline of approximately 32% from previous ratings due to infrastructure failures, new Army standards, and the lead contamination remaining at some of our facilities from the indoor firing ranges. Lead cleanup projects are programed and underway but not anticipated to be completed until sometime in 2019. OMD is also working with the Department of Administrative Services (DAS) for contracted facility cost assessments, which will be loaded in to two separate database systems, Iplan and BUILDER. These two programs will become the agency's databases of record for reporting to DAS, the Oregon Legislature and National Guard Bureau for information on facility needs. Together these systems will provide a clearer picture of our deferred maintenance backlog, life cycle replacement and forecasting future requirements.

The backlog of maintenance and repair within the Army National Guard Facilities Operations and Maintenance Program is currently estimated at \$150 million. This includes approximately \$75 million in seismic upgrades, and \$8 million in lead and asbestos removal. The current estimation is a combination of internal facility condition assessments and assessments from the DAS contractor. By the end of the year the agency will have a much clearer and highly defined listing of deferred maintenance and other facility needs. Reduction of this backlog has been primarily as the result of new construction and Armory Service Life Extension (ASLEP) projects. While these projects eliminate substantial amounts of the deferred maintenance, without adequate funding the deferred list continues to grow from other facilities. The Oregon Military Department's (OMD) deferred backlog stems from limited state matching funds. Without the state match, OMD is unable to spend the federal funds to address deferred maintenance, maintenance and repair, or any but the most urgent repairs on armories or other facilities requiring a

BUDGET NARRATIVE

state funding match. The state funding and Other Funds revenue, covers essential bills including wages and supplies and services, leaving no funding for preventive maintenance, deferred maintenance or repair projects at facilities requiring a state match.

The Army National Guard Facilities Operations and Maintenance Program continues to function with the mission of operating our under-funded facilities in the most cost-effective manner. The Operations and Maintenance Program has taken advantage of every opportunity to obtain federal funding to support the efficient operation of State of Oregon owned facilities and land. OMD participated in the yearly National Guard Facilities Programs Personnel Allocation Standard (FP-PAS) to determine the current manpower requirement for the state of Oregon. The comprehensive study determined that the Oregon Army National Guard Facilities Operations and Maintenance Program requires 250 full-time equivalent (FTE) employees to operate the current 38 Armories and Training Facilities, 7 Maintenance Facilities, and 496 other Facilities. According to this study the Oregon Army National Guard Facilities Operations and Maintenance Program is severely understaffed, as OMD currently has 102 positions that support the Oregon Army National Guard Facilities Operations and Maintenance Program.

The primary computer program supporting the Facilities Operations and Maintenance Program is the Army National Guard's Planning Resource for Infrastructure Development and Evaluation (PRIDE) program. This federally funded program provides: a federal funding budget module for programming and allocation, the real property database, and a programming module for federal project funding. OMD utilizes a computerized fiscal management system called Integrated Engineering Management System (iEMS) and a variety of standalone computerized facility management, energy reporting and other databases to meet reporting requirements to National Guard Bureau and Department of the Army.

The OMD Real Property Development Program and the Range and Training Lands Program benefits OMD by providing the current status of our facilities, and given the agency vision and goals, projects the future use of facilities. This provides OMD a statewide picture of facility priorities for short and long-term strategic planning.

The OMD Energy Management software program allows us to review heating, ventilation, and air conditioning operations, troubleshoot systems, and perform preventive maintenance checks and services, thus saving time and money. The OMD utility tracking program has proven a great benefit to us by providing a tool to monitor monthly utility usage and make operational changes based on most favorable rates. This allows us to identify and correct inaccurate invoicing and inappropriate utility service usage.

The Army National Guard Facilities Operations and Maintenance Program is funded through a variety of General, Other, and Federal Fund sources. The all funds base budget provides for 141.40 FTE as well as General Fund appropriation, Other Funds and Federal Funds limitation for required Services and Supplies.

BUDGET NARRATIVE

Army National Guard Construction Operations:

The Army National Guard Construction Operations Program manages construction of Oregon Army National Guard facilities. The program is funded through a variety of General, Other, and Federal sources. The Army National Guard Construction Operations base budget provides General Fund for 1.00 FTE and required Services and Supplies. The base budget also provides federal limitation for 13.00 100% federally funded FTE for Army National Guard Construction Operations employees through Federal/State Cooperative Agreement with NGB.

Army National Guard Environmental Program:

The Oregon Army National Guard Environmental Program manages environmental issues for Oregon Army National Guard facilities throughout the state, as well as other lands used for military training under various use agreements with public or private owners. Primary program pillars include Compliance, Cleanup, Conservation, Pollution Prevention, Assessments and Evaluations, and Integrated Training Area Management. Through much of its management effort, the Program also advocates sound environmental stewardship. A stewardship ethic has been adopted by agency leadership and is fostered throughout agency planning and operations. This program is 100% federally funded through a Federal/State Cooperative Agreement with NGB. The base budget provides for 10 positions.

The Program manages federal, state, and local regulatory compliance, such as wastewater treatment plant operations, wastewater discharge permits, hazardous waste management, pollution prevention, recycling, air quality, and drinking water quality. The Program maintains and implements an on-going external and internal Environmental Performance Assessment System, as well as an effective environmental training program, as integral parts of the Environmental Program.

The Program manages Environmental Restoration efforts, which focus on the cleanup of areas used for military training or support facilities (such as underground storage tanks and munitions), and for which environmental contamination may continue to exist. Cleanup is managed in accordance with Department of the Army (DA) and National Guard Bureau (NGB) standards, with close agency coordination with the Oregon Department of Environmental Quality. The Program also manages agency requirements for environmental site assessments to support real estate actions, in accordance with Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as supplemented by DA and NGB standards.

The Program manages agency Government-to-Government consultation with the federally-recognized Native American Tribes in Oregon, in accordance with both federal and state requirements.

The Program manages other federal requirements applicable to the agency due to the use of federal funds, such as implementation and maintenance of an Environmental Management System (EMS) in accordance with International Standards Organization (ISO) Chapter

_____ Agency Request	<u> X </u> Governor's Budget	_____ Legislatively Adopted	107BF02
----------------------	--------------------------------	-----------------------------	----------------

2019-2021

J:\21 Budget\Gov Rec\002 Operations\2Nar.docx

BUDGET NARRATIVE

14001:2004(E) to ensure “. . . environmental, transportation, and energy-related activities are conducted in an environmentally, economically, and fiscally sound, integrated, continuously improving, efficient, and sustainable manner.” The Environmental Program coordinates the preparation and processing of environmental documentation required by the National Environmental Policy Act for major agency actions with federal funding. This requires coordination with applicable federal and state regulatory agencies, local jurisdictions, and the public. The goal is to appropriately plan and execute agency actions, resolve conflicts, and maximize land use compatibility near Oregon Army National Guard facilities.

In the spirit of stewardship and protection of natural resource values, the agency maintains an Integrated Natural Resources Management Plan (INRMP) for each of its four major military training sites: Biak Training Center (Redmond), Camp Najaf (Corvallis), Camp Rilea (Warrenton), and Camp Umatilla (Hermiston). The four INRMPs are designed to “integrate” military training with environmental protection, in the spirit of environmental stewardship. They are also designed to address compliance with requirements of the federal Sikes Act for managing military training lands; applicable regulatory requirements, such as the Endangered Species Act and wetlands management under the Clean Water Act; and Department of Defense, DA, and NGB directives. The Program maintains a statewide Integrated Pest Management Program, which is a key component of the facilities management effort to control both floral and faunal pests and non-native species. Pest management activities and pesticide usage are tracked and reported to both the State and National Guard Bureau by the Environmental Staff, in accordance with appropriate directives.

A statewide Operational Noise Management Plan has been developed, and is implemented and maintained for the major training sites managed by the agency. The plan is used to define and manage significant noise sources, and attempts to limit conflicts with incompatible land uses on adjacent lands.

Finally, a statewide Integrated Cultural Resources Management Plan has been developed and implemented, partially to document the heritage of the Oregon National Guard, but also to identify and appropriately define cultural resources management requirements at agency facilities and identify potential impacts at other sites from proposed agency actions. In several cases, older facilities and armories are “eligible” for the National Register of Historic Places and must be maintained in accordance with federal and state law. Particularly at the major training sites, the protection of archaeological, historical, and other cultural resources is important for sustaining mission requirements in the future. Furthermore, since the Program deals with a dynamic resource, continual monitoring and updates must be accomplished.

The Integrated Training Area Management (ITAM) Program focuses on balancing military training with resource conservation on Oregon Army National Guard maneuver land. The ITAM Program is designed to enhance the readiness posture of the Oregon Army National Guard by maintaining and improving military training opportunities at our training centers; monitoring the impacts of military training activities on the environment; identifying, evaluating, and restoring environmental damage caused by military training; and maintaining or fostering the reestablishment of natural ecosystems in concert and balance with military training. Integrated Natural Resources Management Plans provide

BUDGET NARRATIVE

guidance on meeting these needs. Although many ITAM initiatives are environmentally related, they are all directly related to military training activities.

Electronic Security Program:

The National Guard Bureau requires all facilities designated for storage of small arms or ammunition to be protected with an approved and operational electronic security system. Electronic security system equipment and replacement components are procured directly through the federal supply system with federal funds. Employees and equipment to install and maintain electronic security systems are 100% federally reimbursed through a Federal/State Agreement. The base budget provides Federal Funds limitation for two positions and necessary Services and Supplies. Federal funding provides for repair or replacement of computers, vehicles, tools, and the supplies and repair parts necessary to maintain the Intrusion Detection systems in Armories and critical facilities statewide.

Oregon Army National Guard's Wildfire Fire Management Program:

The Oregon Army National Guard's Wildland Fire Management Program is funded by 100% Federal funding from the Department of the Army through the Master Cooperative Agreement with National Guard Bureau, which reimburses State expenses for this Program. The Oregon Army National Guard's Wildland Fire Management Program goals are: to comply with fire protection requirements set forth in Oregon Revised Statutes; support and sustain the Oregon National Guard's training mission; sustain the natural environment and native vegetation of the Oregon Military Department's training ranges and lands; to enhance both military and public fire safety in the vicinity of Oregon Military Department training ranges and lands; and to enhance Oregon National Guard support during State declared wildland fire emergencies or natural disasters. This program funds six fulltime employees, twelve seasonal wildland firefighters, six fire trucks, PPE, communications, and the equipment and tools necessary to prevent and or fight wildland fire on over 80,000 acres of training lands that the OMD owns or leases.

Air National Guard Programs:

The Oregon Air National Guard has two primary missions. The first is its federal mission to man, train, equip and organize its members to provide for the defense and security of the United States and in a broader sense to support worldwide security goals and objectives. To provide the necessary skills to support this mission, a large amount of technical training is invested in Oregon Air National Guard members. These training opportunities many times have direct correlation to civilian occupations, thus providing a better-educated workforce for the state. The second mission of the Oregon Air National Guard is to provide public safety and protection of citizens during disasters when called upon by the Governor. As an element of the state's emergency communications plan, Oregon Air National Guard's satellite communications resources remain ready to assure adequate communications between fire bases and coordination centers operating from the Willamette Valley.

BUDGET NARRATIVE

The Oregon Air National Guard is located at four sites:

The Oregon Air National Headquarters is co-located in Salem with the Oregon Army National Guard Headquarters at the Joint Force Headquarters. This facilitates close coordination and integration of all Oregon National Guard resources during training and contingency operations.

The Portland Air National Guard Base is located at Portland International Airport. The 142nd Fighter Wing and the Combat Operations Group are stationed at the base. The 142nd Fighter Wing's mission is to provide air defense of the northwest United States from northern California to the Canadian border. The Combat Operations Group provides command and control for missions in tactical communications in support of theater operations and weather analysis support to several worldwide deployable Air Force and Army units.

Kingsley Field is located at Klamath Falls. The 173rd Fighter Wing and the 270th Air Traffic Control Squadron are stationed at the base. The 173rd Fighter Wing's mission is to train F-15 fighter pilots for air-to-air combat and air defense roles. It is the only Air Force F-15 training site in the United States. The 270th Air Traffic Control Squadron operates the air traffic control tower for civilian and military operations at Kingsley Field. Kingsley Field has increased pilot production since 2014, which has brought increased military personnel and aircraft to the base.

Camp Rilea is located at Warrenton and is host to the 116th Air Control Squadron. The 116th Air Control Squadron's mission is to provide tactical radar command and control in support of theater operations. The mission includes offensive and defensive air operations and early warning radar and electronic intelligence operations.

There are five major Air National Guard programs within the Operations Program:

Air National Guard Civil Engineering Program - The Civil Engineering Program provides facility operations and maintenance for the Portland Air Base, Kingsley Field, and Camp Rilea Air National Guard facilities. Civil Engineering programs are funded through Federal/State Agreements and require state matching funds. The match percentage varies depending on program location. The base budget provides Federal Funds limitation and required matching state funds to support 49 positions and necessary Services and Supplies.

Air National Guard Security Program - The Security Program provides security police protection at the Portland Air Base and Kingsley Field. Security personnel are instrumental in protecting aircraft and facilities against sabotage, theft, vandalism and trespass. The Security Program is 100% federally funded. The base budget provides Federal Funds limitation for 23 positions and necessary Services and Supplies.

BUDGET NARRATIVE

Air National Guard Fire Protection Program – The Fire Protection Program provides fire protection at the Portland Air Base and Kingsley Field. Personnel are trained and certified to contain aircraft fires, perform air crew extraction, and provide structural firefighting protection. The Oregon Air National Guard is the only crash/rescue and firefighting resource at the Klamath Falls Airport. Civilian aviation would not have crash/rescue protection at Klamath Falls without the Oregon Air National Guard Fire Protection Program. The Fire Protection Program had been 100% federally funded until October 1, 2013, when Oregon implemented changes to Appendix 1024 of the Master Cooperative Agreement that instituted a cap on the maximum amount of federal funds available to reimburse the state for firefighter payroll costs. Any actual payroll costs exceeding the federal cap became a state cost. The purpose of this change was to ensure the long-term sustainability of this program at the federal level. However, it places a burden on the state to fund the difference between actual payroll costs based on collective bargaining agreements and the federal cap. Due to complaints from states, NGB temporarily suspended the federal cap while it revises the federal funding model. General Fund is currently required for certification incentive pay, legal fees and collective bargaining costs. At this time OMD is uncertain of the outcome from NGB, and whether state funds will be required or how much. Due to the uncertainty, it is important that General Fund remain in the program until a final determination is known. In the meantime, the base budget provides General Fund appropriation and Federal Funds limitation for 50 positions and necessary Services and Supplies.

Air National Guard Environmental Program - The Environmental Program manages environmental issues. The program monitors and ensures environmental compliance at the Portland Air Base, Kingsley Field, and Camp Rilea Air National Guard facility. Kingsley Field will be one of the first federal facilities in Oregon to apply for a Green Environmental Management System (GEMS) permit through Oregon Department of Environmental Quality. Kingsley Field is applying for a “Leader” GEMS permit which is the most stringent of the three GEMS permit options. The GEMS Leader permit is offered only to organizations with environmental management systems that have at least a three year record of excellent environmental performance and comply with International Standards Organization 14001 Environmental Management System Criteria. Air National Guard Environmental programs are funded through a Federal/State Cooperative Agreement and require state matching funds. The match percentage varies depending on program location. The base budget provides Federal Funds limitation and required matching state funds to support two positions and necessary Services and Supplies.

Kingsley Field Billeting Program - The Billeting Program provides lodging to Oregon National Guard members, F-15 fighter pilot students and flight medicine students from throughout the Air Force receiving training at Kingsley Field. The Billeting Program switched from state positions to federal positions in October 2014, eliminating the need for state positions. The base budget provides Federal Funds limitation for two positions, which are being transferred to the Army National Guard Facilities Operations and Maintenance Program in Essential Package 060 and the Portland Airbase Civil Engineering Program in Policy Package 205.

Distributed Learning Program:

The Army National Guard (ARNG) Distributed Learning Program (DLP) creates content, provides access, and enables delivery of training to enhance the readiness of Soldiers and units nationwide. The Oregon DLP provides Soldiers and their communities’ with a classroom setting

_____ Agency Request X Governor’s Budget _____ Legislatively Adopted

2019-2021

107BF02

BUDGET NARRATIVE

that provides the necessary resources to conduct readiness training using a secure, dedicated network. Capabilities of each DLP include multimedia capabilities for hosting video and audio teleconferencing, computer-based training, Internet-based training, interactive video Tele-training, access to electronic mail, and varied productivity software applications. There are five fixed-based DLP classrooms and one mobile-based system located in Oregon. The fixed-based classrooms are located within armories at Clackamas, Springfield, Warrenton (Camp Rilea), Bend and Medford; the mobile system is home-based in Salem. The sites can be made available on a space-available reimbursable basis to perform "shared use" activities unrelated to ARNG training or operations at an ORARNG DLC. Four categories of shared use are identified as: Joint (Federal, DoD), Interagency (Federal, non-DoD), Intergovernmental (Non-Federal), and Community-based (Non-Governmental) such as 32 USC Section 508 organizations, civic organizations, and private academia. The program is 100% federally funded through a NGB Federal/State Cooperative Agreement. Federal program income is generated through fees charged to the user and may only be used to support the program. The base budget provides Federal Funds limitation for 1.40 Distributed Learning FTE. The base budget also provides Federal Funds limitation for required Services and Supplies to support this program.

Counterdrug Program:

The Counterdrug Support Program (CDSP) is a 100% federally funded program that combats illegal drug use within Oregon's communities. The program has been an integral part of our state's drug supply reduction efforts for over 20 years. The program is organized and functions through the Oregon National Guard using Soldiers and Airmen as well as equipment and facilities to add capabilities that otherwise might not be available to law enforcement agencies and community-based organizations. The Oregon National Guard personnel supporting the Counterdrug Program are placed on fulltime Title 32 Active Duty Operational Support (ADOS) orders under the control of the Governor and The Adjutant General of Oregon.

The Oregon National Guard is committed to approaching the fight against drugs as a Total Force: community leaders, anti-drug coalitions and law enforcement agencies working in partnership with Oregon's citizen-soldiers. Hundreds of millions of dollars in drugs and tens of millions of dollars in property involved in drug trafficking have been seized due to the support of the Oregon National Guard. Dozens of arrests are made each year as a result of Oregon National Guard Counterdrug mission involvement. The Oregon Military Department works closely through the efforts of the Counterdrug Support Program with law enforcement agencies to retrieve a portion of these funds through the "Equitable Sharing of Federally Forfeited Property" program to expand equipment, operations, and drug education and awareness programs.

The Counterdrug Support Program has two primary missions. The first is to support local, state and federal law enforcement efforts to stop the flow of illegal drugs into and manufactured in Oregon (supply reduction). The second is to support Oregon's community-based organizations in their efforts to educate, train and prevent drug abuse (demand reduction) among Oregon's citizens. Both supply and demand reduction efforts are required to meet the challenge that illegal drug abuse presents. By focusing on outcomes, measured in reduced supply, declining drug use and the resulting lessening social consequences, we can achieve our common goal of a drug free Oregon.

BUDGET NARRATIVE

The Oregon National Guard Counterdrug Support Program offers the following cost effective National Guard unique support services to our community partners:

The UH-72A helicopter is equipped with advanced forward-looking infrared camera with thermal imaging, reversible polarity, zoom capability and “night sun” high power illumination system (searchlight).

The Light Armored Vehicle provides a secure platform for transporting police officers during high-risk search warrants.

Hand held thermal imaging equipment provides police officers a passive, non-intrusive device to detect thermal energy which can be used in an investigation of a concealed indoor marijuana growing operation.

National Guard unique counterdrug courses supporting law enforcement officers assigned to multi-jurisdictional drug task forces.

National Guard personnel with military-specific skills enabling civic leaders to build effective coalitions to illuminate and/or mitigate the use of illegal drugs in their community. By building coalitions that make communities more resistant to drug- and transnational criminal organizations (TCO) activity, Guardsmen help lessen the demand for drugs, thereby reducing the revenues flowing back to drug-linked TCOs.

The Counterdrug program is 100% federally funded. The base budget provides Federal Funds limitation for Services and Supplies.

Anti-Terrorism Program Manager:

The National Guard Bureau provides 100% federal funding for one position to develop, implement, manage and monitor a comprehensive Anti-Terrorism program for protecting state and installation personnel, information, infrastructure and other assets from acts of terrorism. The base budget provides Federal Fund limitation for one position and the supporting Services and Supplies.

Army National Guard Emergency Management Program Coordinator:

The National Guard Bureau provides 100% federal funding for one position to implement, integrate and sustain an emergency management program within the Oregon Army National Guard. It develops and maintains all hazard/all threat emergency response plans for all Army National Guard facilities across the state. The base budget provides no position or Services and Supplies Funding, as it has been staffed with a Limited Duration employee. Policy Package 202 requests a new Limited Duration position and Services and Supplies funding for this program.

BUDGET NARRATIVE

Expected Results from the 2019-21 Budget:

The Army National Guard Facilities Operations and Maintenance Program 2019-21 Base Budget will not fully support the needs of our Army National Guard facilities. The shortage of funding, compounded by new facilities that have not received state matching funds, increased usage of our facilities as a result of the Oregon National Guard performing national defense missions throughout the world and Homeland Defense missions throughout the state, create has reached level that is not sustainable. Currently 65% of our armories are rated as dysfunctional or substandard and in overall poor condition according to U.S. Army standards. Additionally, the backlog and costs of maintenance and repair projects continues to increase partially due to inflationary pressure but primarily due to lack of adequate funding. See Policy Package 204 for requested funding for deferred maintenance, and Policy Package 202 for additional positions to increase maintenance activities.

OMD's Armory Other Funds rental earning has been reduced since 2015 following the discovery of lead contamination in facilities that have indoor firing ranges. Starting in 2015 twelve armories were closed to the public due to lead levels exceeding National Guard Bureau standards. Two other armories were closed to rental activities for nearly a year due to major remodels. As of spring 2018, armories are still closed to the public due to lead dust levels being found above the "child occupied facility" standard. Each closure causes disruption to the Armory Rental Program, a loss of revenue, a cost for cleaning and laboratory testing to validate lead dust levels are below regulatory standards. This continual disruption of rental activities only serves to create negative impacts to the program and to revenue generation. Four armory abatement projects will be completed in calendar year 2018. Another two projects will be started in late 2018. OMD anticipates additional federal funding to award further abatement projects in calendar year 2019. Those projects are likely to not be completed until sometime in 2019. In the meantime OMD will continue to struggle to restore the rental program to its former level and generate the amount of Other Fund necessary to meet the necessary sustaining costs.

Army National Guard Construction Operations – The program will continue to operate successfully within the level of resources budgeted.

National Guard Environmental Program - The program will continue to operate successfully within the level of resources budgeted, provided other “proponents” can fund requirements that cannot be supported with environmental funding allotted by National Guard Bureau.

Electronic Security System Program - The program will continue to operate successfully within the level of resources budgeted.

Wildland Fire Management Program- The program will continue to operate successfully within the level of resources budgeted.

Distributed Learning Program - The program will continue to be successful within the level of resources budgeted.

BUDGET NARRATIVE

Air National Guard Program - The program will continue to be successful within the level of resources budgeted, although the Portland Air National Guard base is understaffed (refer to Policy Package 205). The Portland Air National Guard base may also be subject to substantial new stormwater fees that cannot be covered by the 2017-19 current service level (refer to Policy Package 206).

Distributed Learning Program - The program will continue to be successful within the level of resources budgeted.

Telecommunications Program - The program will continue to be successful within the level of resources budgeted.

Counterdrug Program - The program will continue to be successful in the 2015-17 biennium through drug reduction and eradication programs. The program will continue to work with local, county, state, and federal law enforcement agencies to reduce drug demand and supply in Oregon communities. The Mentor Program will continue to be successful by increasing the number of local citizens and Oregon National Guard mentors in Oregon communities. The program will continue to support local community coalitions in a combined effort to curb the use of drugs.

Anti-Terrorism Program - The program will continue to be successful as the result of increased federal funding.

Army National Guard Emergency Management Program – Policy Package 202 requests one position and Services and Supplies federal funding to continue this program.

Operations Program objectives and expected results are directly linked to the agency’s performance measures.

Respond to State Emergencies:

Oregon Army and Air National Guard facilities are located in 27 counties and provide a focal point for National Guard disaster response activities. Emergency response equipment is stored at the facilities and available for rapid deployment during emergencies. These facilities are used to stage and support and house; personnel and equipment arriving from other locations in response to emergencies. These facilities are used to house emergency relief organizations and citizens displaced by disasters. Specialized communication equipment allows the facilities to serve as emergency operations command centers. National Guard facilities strategically located around the state are a vital component of the State of Oregon's ability to provide timely and appropriate response during emergencies.

BUDGET NARRATIVE

Revenue Sources:

The Operations Program is funded from a variety of General, Other, and Federal Funds. Other Funds are primarily received from facility rentals. Other Funds revenue estimates are based on historical information adjusted for projected future trends. Federal Funds are received through Federal/State Cooperative Agreements between the National Guard Bureau (NGB) and the State of Oregon. The funds may only be used to support programs for which they are received. Federal Funds estimates are based on historical trends and information provided by NGB Fund Managers. We do not anticipate any changes in revenue sources during the 2017-19 biennium. Operations Programs are funded as follows:

Army National Guard Facilities Operations and Maintenance:

Training Facilities – These facilities are 100% federally funded through a NGB Federal/State Cooperative Agreement. There are no required matching funds. The funds may only be used to support designated facilities. Construction activities at Training Sites may generate some requirement for State funds. Pure State requirements such as permits, 1% for art or energy efficiency associated with a 100% federally funded project will generate the requirement for State funds.

Logistical Facilities – These facilities are funded 75% federal / 25% state through a NGB Federal/State Cooperative Agreement. State matching funds are received from the General Fund. The federal funds may only be used to support designated facilities.

Readiness Centers (Armories) – The facilities are split funded based on type and use of the facilities.

Security – This program is 100% federally funded through a NGB Federal/State Cooperative Agreement. There are no required matching funds. The funds may only be used to support the program.

Range and Training Land Program – The program is 100% federally funded through a NGB Federal/State Cooperative Agreement. There are no required matching funds. The funds may only be used to support the program.

Army National Guard Construction Operations – The program has thirteen positions. One of the positions is funded from the General Fund and twelve positions are 100% federally funded through a NGB Federal/State Cooperative Agreement. There are no required matching funds. The funds may only be used to support the program.

Army National Guard Environmental Program – The program is 100% federally funded through a NGB Federal/State Cooperative Agreement. The funds may only be used to support the program.

BUDGET NARRATIVE

Electronic Security System Program – The program is 100% federally funded through a NGB Federal/State Cooperative Agreement. There are no required matching funds. The funds may only be used to support the program.

Anti-Terrorism Program - The programs are 100% federally funded through a NGB Federal/State Cooperative Agreement. There are no required matching funds. The funds may only be used to support the program.

Army National Guard Emergency Management Program - The programs are 100% federally funded through a NGB Federal/State Cooperative Agreement. There are no required matching funds. The funds may only be used to support the program.

Essential Packages:

010 – Inflation on non-PICS personal services and vacancy factor adjustments (expected vacancy savings in the 2019-21 biennium) – \$97,299 General Fund, \$98,992 Other Funds, and \$1,066,655 Federal Funds. **Governor recommended.**

022 – Phase-Outs – (\$251,977) General Fund and (\$16,421,308) Federal Funds. **Governor recommended.**

031 - Inflation on Services and Supplies, adjustments for State Government Service charges –\$449,118 General Fund, \$47,542 Other Funds, and \$2,844,528 Federal Funds. **Governor recommended.**

060 – Technical Adjustment – Transfers one 100% Federal Fund position from the Kingsley Field Billeting Program to the Army National Guard Operations and Maintenance Program. Zero impact to positions or limitation. **Governor recommended.**

Policy Packages:

090 – Analyst Adjustments – (\$361,819) General Fund, (\$404,062) Federal Funds, (1.25) FTE. **Added by the Governor.**

091 – Statewide Adjustment DAS Charges – (\$37,550) General Fund, (\$13,090) Other Funds, (\$307,493) Federal Funds. **Added by the Governor.**

092 – Statewide Attorney General Adjustment – (\$3,731) General Fund, (\$2,556) Federal Funds. **Added by the Governor.**

201 – Portland Air National Guard Base Over-Cap and Utilities - \$275,000 General Fund, \$707,960 Federal Funds. **Governor recommended.**

202 – New Positions for Installations Division - \$48,985 General Fund, \$193,354 Other Funds, \$2,633,694 Federal Funds, 25 new positions. **Governor recommended 24 positions and no General Fund.**

_____ Agency Request X Governor's Budget _____ Legislatively Adopted

2019-2021

J:\21 Budget\Gov Rec\002 Operations\2Nar.docx

107BF02

BUDGET NARRATIVE

203 – Kingsley Field Over-Cap and Utilities - \$220,000 General Fund. **Governor recommended.**

204 – Deferred Maintenance - \$12,420,726 General Fund, \$12,420,726 Federal Funds. **Governor did not recommend.**

205 – Portland Air National Guard Base New Positions - \$213,610 General Fund, \$732,784 Federal Funds, 7 new positions and 1 position transferred from the Kingsley Field Billeting Program. **Governor did not recommend.**

Proposed New Laws –SB 252 (LC 408) would enable the Military Department to receive federal cash advances under cooperative agreements. It would require cash on hand prior to making expenditures for federal programs. Currently the agency is limited to reimbursements only and must expend state funds first before requesting federal reimbursements.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT OPERATIONS PROGRAM ESSENTIAL PACKAGES

1. **Purpose** – Essential Packages adjust the base budget to reflect the agency 2019-21 current service level requirements.
2. **How Achieved** – The following Essential Packages adjust the Operations Program’s base budget to reflect 2019-21 current service level requirements:

010 - Adjusts projected vacancy factor budget savings expected from staff turnover in the 2019-21 biennium. The package also adjusts the costs of non-PICS personal services items not included in the PICS generated total. Non-PICS personal services items include debt service on the Pension Obligation Bonds (POB). The package increases General Fund \$97,299, Other Funds \$98,992, and Federal Funds \$1,066,655.

022 - Phases out the following items:

1. (\$251,977) General Fund appropriation that was approved in House Bill 5201, Section 35 (1), during the February 2018 legislative session. It funded the state activation of the Oregon National Guard during the August 2017 solar eclipse. 155 Guard members were stationed at five communities in Oregon that were in the path of the eclipse to provide traffic access control and helicopter standby support for potential medevac and search and rescue missions.
2. (\$16,421,308) Federal Funds limitation for lead abatement projects during the 2017-19 biennium that was approved during the February 2018 legislative session in House Bill 5201, Section 53. 100% Federal Funds were approved by National Guard Bureau for lead abatement projects at eight armories contaminated with lead from their indoor firing ranges. Out of a total of 12 armories that were discovered to be contaminated in late 2014, four were abated using previously approved funds (General, Q-bond Other Funds and Federal Funds), leaving eight that had not yet been mitigated. Abatement projects are expected to be complete by the 2019-21 biennium.

031 – Provides a general inflation increase for Services and Supplies costs. The package also adjusts State Government Service charges to reflect 2019-21 changes. The package increases General Fund \$449,118, Other Funds \$47,542 and Federal Funds \$2,844,528.

060 – Technical adjustment that shifts position 0097031, an Office Specialist 1 funded with 100% Federal Funds, from the Kingsley Field Billeting Program in Klamath Falls to the Operations and Maintenance Program in Salem. Kingsley Field switched from State to Federal employees several years ago to operate the Billeting Program and no longer requires state positions in that program. In the Operations and Maintenance Program, this position will assist the Energy Program Manager and the Installation Status Report Manager with office support and data entry. Overall in the Operations Program, Essential Package 060 results in no change to the position count, FTE count, or limitation.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OPERATIONS PROGRAM
POLICY PACKAGE 090

1. **Purpose**– This Policy Package was added by the Governor. It makes the following budgetary adjustments:
 - a. (\$105,769) General Fund vacancy savings in Personal Services, bringing it to 5% of General Fund salaries and wages;
 - b. (\$119,905) General Fund to remove standard inflation on most Services and Supplies accounts (General Fund only);
 - c. (\$29,167) General Fund and (\$165,279) Federal Funds Services and Supplies reduction at Kingsley Field Airbase Civil Engineering;
 - d. (\$29,833) General Fund and (\$169,055) Federal Funds Personal Services at Kingsley Field Civil Engineering by reducing FTE by 1.00 without abolishing any positions (applied equally to four positions);
 - e. (\$17,432) General Fund and (\$69,728) Federal Funds Services and Supplies reduction at Portland Airbase Civil Engineering; and
 - f. (\$59,713) General Fund Personal Services in the Installations Division by reducing FTE by .25 without abolishing any positions (applied to one position).
2. **How Achieved** – General Fund appropriation is decreased (\$361,819), Federal Funds limitation is decreased (\$404,062).
3. **Staffing Impact** – FTE is reduced by 1.25 without abolishing any positions.
4. **Revenue Source** – (\$361,819) General Fund, (\$404,062) Federal Funds.

Added by the Governor.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OPERATIONS PROGRAM
POLICY PACKAGE 201
PORTLAND AIR NATIONAL GUARD BASE OVER-CAP AND UTILITIES
PRIORITY 5

1. **Purpose** – This Policy Package requests \$275,000 General Fund and \$707,960 Federal Funds for the Portland Air National Guard Base (PANGB). The funding will cover 1) costs that cannot be paid with federal funds: employee payroll costs that exceed federally-mandated pay caps and collective bargaining costs; and 2) rising utility costs.

Background

The Portland Oregon Air National Guard Base is made up of 64 buildings on approximately 221 acres adjoining Portland International Airport. It serves primarily as the home of the 142d Fighter Wing, which protects the northwest United States 24/7 with its homeland alert mission flying F-15 fighter jets. These fighter jets respond to commercial airline emergencies as well as intercept Russian long range bombers that test our country's west coast defenses. In addition to the homeland alert mission, PANGB also hosts Air Force Special Operations units in the 125th Special Tactics Squadron and the Air Force Reserve's 304th Rescue Squadron. Both units provide the state an internal, highly skilled search and rescue capability through their Domestic Operations (DomOps) support. Other PANGB tenants include the Oregon Army National Guard, Civil Air Patrol, and STARBASE. STARBASE is an Oregon Military Department program focusing on teaching Science, Technology, Engineering and Mathematics (STEM) to local school-aged children.

100% State Costs

The Operations and Maintenance Activities (FOMA) Appendix of the Master Cooperative Agreement (MCA) is a contractual agreement between the National Guard Bureau (NGB) and the grantee (OMD). It provides 80% Federal Funds to maintain the facilities and grounds at PANGB. General Fund provides the 20% state match. This Appendix has terms and conditions the state grantee must adhere to, including the following:

- A. **Federal pay caps for employee payroll.** Section 2105 paragraph a (1) states "Salary costs over the Federal Cap (Wage Grade or General Schedule) based on the Manpower Authorization Letters will be borne by the Grantee." The Manpower Authorization Letter from National Guard Bureau to PANGB prescribes the maximum pay cap as step 5 of the pay charts for the Washington D.C. area. Different types of positions have different federal pay grade caps. For example, a state electrical systems craftsman is authorized to be paid up to the level of a Federal Wage Grade 12, Step 5. A financial management state employee is authorized to be paid up to a General Schedule Grade 8, Step 5. Any state-directed or authorized pay increases above this federal threshold must be paid with 100% state funds. This calculation is based on gross pay only, excluding benefits and other payroll costs. For the 2019-21 biennium, seven positions

J:\21 Budget\Gov Rec\002 Operations\2POL 201.docx

107BF02

Budget Page 210

BUDGET NARRATIVE

have pay that exceeds the federal caps, with the projected over-the-cap wage costs at \$78,010 General Fund. This amount was calculated using published pay charts for Federal Fiscal Year 2018 compared to the pay rates of state positions in the 2019-21 Base Budget.

- B. **Collective Bargaining costs.** Appendix 21 Section 2106 paragraphs 14 and 15 specifically prohibit federal funding for collective bargaining, including the negotiation process and grievance settlement. For the 2019-21 biennium, these costs (legal fees) are projected at \$20,000 General Fund.

Utility and operational costs

The PANGB submits an annual budget request to NGB for the upcoming federal fiscal year. An analysis using the most recent NGB request for FFY 2019 (which begins October 1, 2018), multiplied by 2 for a rough biennial estimate, revealed that the 2019-21 Current Service Level Services and Supplies budget is insufficient to cover basic utilities and operational costs.

Over the past five years, utility rates in the Portland metro area have increased an average of 3-5%. For example, water and sewer service in 2015 was billed at \$4.80 and \$9.48 per kilogallon respectively. Current water/sewer utility rates in 2018 are now \$6.23/\$16.57 per kilogallon, which calculates to a 30% increase for water and a 75% increase for sewer service over the past three years. Stormwater drainage rates have increased by 8% over the past two years and are expected to increase by at least 5% during 2019-21. The natural gas company is requesting a 7.8% rate increase beginning in November 2018. Using historical trends and communication with utility companies, the FOMA program projects an increase of \$95,000 in General Fund is needed to cover potential increases in utility costs.

In addition to utility costs, the program requires an increase of \$81,990 in Services and Supplies to cover ongoing operational costs. State budget reductions beginning in the 2011-13 biennium have reduced the program's ability to fund maintenance and other costs such as the Airport Joint Use Agreement with the Port of Portland, which allows PANGB to use the runways and taxiways at the Portland International Airport. Critical maintenance has been postponed and fire suppression systems are off line in two F-15 maintenance hangars that house up to eight aircraft valued at \$50 million each. PANGB is in violation of fire protection (NFPA) code requirements base-wide due to deferred maintenance. The maintenance task backlog is in excess of 1,500 items but likely much higher since not all maintenance failures are captured. The risk of a catastrophic system and facility failure is high.

Impact if not approved

The approval and appropriation of this budget request will ensure the sustainment of FOMA's current staffing level of 21 personnel, which is only 72% of the federally-authorized staffing level. If these funds are not secured, the program manager anticipates the lay-off of four state maintenance personnel immediately at the start of 2019-21 with an additional six layoffs at various points throughout the biennium. These layoffs will be required to ensure adequate funds are available for mandatory operational costs, such as utility payments and the base's Airport Joint Use Agreement (AJUA). Any reduction in PANGB maintenance staff will increase the amount of facility system deferred maintenance that is already occurring within critical life safety systems. These systems include, but are not limited to, fire suppression and alarms, lightning protection, primary utility grids, and climate control of network server rooms and populated work areas. The increase in deferred maintenance functions will accelerate the

107BF02

Budget Page 211

BUDGET NARRATIVE

deterioration and likely failure of these building systems resulting in wing and DomOps mission degradation, flying stoppage, and even the increased risk of a significant life-safety event.

Summary of Policy Package 201	General Fund	Federal Funds
Over-the-Cap Payroll Costs	\$78,010	
Collective Bargaining Costs	20,000	
Utilities	95,000	\$380,000
Other Operational Costs	81,990	327,960
Total	\$275,000	\$707,960

2. How Achieved – Appropriation and approval of this Policy Package, in conjunction with Package 205 - PANG New Positions, will allow the agency to optimize Facility Operations and Maintenance Activities at the Portland Air National Guard Base. The state’s support of this funding request directly contributes to the Governor’s priority of Healthy and Safe Communities by increasing the readiness of PANGB to respond to potentially life-threatening situations in the northwestern U.S. This package also supports the Thriving Statewide Economy initiative by fully leveraging all federal funding available to this maintenance program and eliminating layoffs of federally-reimbursed state positions. This continued sustainment of current staffing levels also directly contributes to the Governor’s Responsible Environmental Stewardship focus area, because maintenance personnel are directly responsible for servicing systems like oil-water separators and enacting natural resource conservation programs on PANGB.

3. Staffing Impact – None.

4. Quantifying Results – The results of this policy package will be monitored by audits performed by the Secretary of State Audits Division and federal internal auditors, as well as operational reviews performed by the Department of Defense.

5. Revenue Source - \$275,000 General Fund, \$707,960 Federal Funds.

Governor recommended.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OPERATIONS PROGRAM
POLICY PACKAGE 202
NEW POSITIONS – INSTALLATIONS DIVISION
PRIORITY 7

1. **Purpose**– This Policy Package requests the establishment of 25 new positions. These positions are intended to partially restore staffing levels reduced by prior budgets. These positions are within the Oregon Military Department’s (OMD) Operations and Maintenance Program, Military Construction Program, Fire and Emergency Services Program, and the Army National Guard Emergency Management Coordinator Program.

The personnel shortfall created by the loss of positions as the result of the Legislatively Adopted Budgets for the 2009-2011 and 2011-2013 budgets continues to restrict the Installations Division’s ability to provide basic facility maintenance, to conduct Armory Rental Program activities, and meet customer service needs. The Facility Maintenance Specialist positions also contribute to OMD’s ability to generate Other Funds revenue by being the onsite point of contact for rental customers. Wildland Fire positions were identified through a contract with Anchor Point Wildland Fire Solutions Consultant Group, as the added number of Wildland fire fighters needed to support operations and manage Camp Umatilla fire risk.

Position 0019024: Facility Maintenance Specialist. This new Facility Maintenance Specialist position will be located at Camp Withycombe, in Clackamas. This position is needed to provide maintenance and custodial support for multiple federal facilities on Camp Withycombe, including the United States Property and Fiscal Office (USPFO) and newly remodeled and expanded Oregon Military Museum (OMM). There is a great deal of infrastructure in the OMM to house and protect millions of dollars of artifacts. Additional staffing is required to provide maintenance and custodial support for these priceless treasures. Maintenance staffing levels at Camp Withycombe were reduced with budget cuts several biennia ago, causing deferred maintenance to increase exponentially. Adding one Facility Maintenance specialist to focus on the USPFO and the OMM facilities will not alleviate all of the staffing shortfalls but will provide the minimum to maintain and provide custodial at these facilities. This position is funded with 100% Federal funds.

107BF02

Budget Page 215

BUDGET NARRATIVE

Position 0019025: Facility Maintenance Specialist. This new Facility Maintenance Specialist position will be located at the Pendleton Army Aviation Support Facility (AASF) in Pendleton. The position is required to provide maintenance and custodial support for this complex military aircraft repair facility. Staffing cuts several biennia ago have left this facility severely understaffed adding to the increasing levels of deferred maintenance. During this time the infrastructure that needs supported has increased with the addition of a large solar array. This position is funded with 20% Other Funds (rental revenue) and 80% Federal Funds.

Position 0019026: Grounds Maintenance Worker 2. This new Grounds Worker 2 position is needed to assist in the upkeep of the grounds and vegetation management at Camp Withycombe. With the addition of the Oregon Military Museum grounds and the military parade field at the Armed Forces Reserve Center there are over 6 acres of turf, trees, vegetation and several bio swales and parking islands that need to be maintained. The current staffing levels cannot keep up with even the minimum requirements forcing the agency to contract out. This position is funded 35% General Fund and 65% Federal Funds.

Position 0019043: Accountant 1. This new Accountant 1 position is required to meet requirements found during the agency's internal audit for its Rental Program. This position will also be responsible for the accounts receivable and will assist with the roughly 10,000 fiscal transaction annually that involve multiple funding sources. The addition of this position will afford the Installations Division Operations Branch Fiscal Analyst to focus on budget development, forecasting and required fiscal programming for future years. This position is funded 25% Other Funds (rental revenue) and 75% Federal Funds.

Position 0019065: Accounting Technician 2. This position is currently limited duration serving in direct support of the Camp Rilea billeting and lodging. This request is to designate this position as permanent. This position is required to meet State accounting requirements and processing times. Currently this Accounting Technician is responsible for all cost estimates, accounts receivable, billing, and account reconciliations for Camp Rilea. This position is funded 20% Other Funds (rental revenue) and 80% Federal Funds.

Position 0019066: Office Specialist 1. This new Office Specialist 1 position is required to assist the Camp Rilea Training Site Manager with administrative tasks in the billeting/housing office. This position will perform duties typically associated with a commercial hotel front desk function. The position will use a computer system to register and check-out customers, issue keys and rooms, and respond to inquiries for approximately 100,000 to 145,000 transients that utilize the Camp Rilea Training Site annually. The position will track guest usage, explain agency policy and procedures to transient population, handle financial transaction for reservations, conduct audits, prepare reports, sort and distribute mail and package deliveries. This position is funded 50% Other Funds (rental revenue) and 50% Federal Funds.

Position 0019063: Construction Project Manager 2. This new Construction Project Manager 2 position is needed in the Construction Branch due to an increased workload experienced over the past several program years in construction projects, whether they are new or major remodels of our facilities. The typical project load for the Construction Branch is between 15 to 20 projects and these are assigned to Project Management Teams to

BUDGET NARRATIVE

execute. The agency anticipates continued growth of program projects in number, scope, statewide sites, and complexity. This position is funded with 100% Federal Funds.

Position 0019027: Construction Project Inspector. This new Construction Project Inspector position is needed to aid Project Management Teams with construction project inspection and quality control. Construction projects over the past several program years have significantly increased and are located statewide. The typical project load for the Construction Branch is between 15 to 20 projects. The agency anticipates continued growth of program projects in number, scope, statewide sites, and complexity. This position is funded with 100% Federal Funds.

Position 0019042: Procurement and Contract Specialist 2. This new Procurement and Contract Specialist 2 position is needed to provide support to five major program areas within the Installations Division. The work required of this position is highly diverse and requires many different and unrelated processes and methods to produce a strong solicitation package that prospective bidders can understand before preparing their bid. Procurement staff needs to sustain required certifications and ensure the agency complies with policies, statutes, and ethical standards prior to any acquisition proceeding that will expend funds. The number of projects has risen in the Division and lack of personnel has slowed the development of all solicitation documents and contract amendments that typically have tight suspense dates for completion. The addition of special reporting requirements, introduced over the past few years by the Legislature, has also increased data metrics tracking responsibilities. This position is funded 20% Other Funds (rental revenue) and 80% Federal Funds.

Position 0019069: Information Systems Specialist 4. This new Information Systems Specialist 4 position is required to provide vital information technology support and assistance at the Camp Rilea Training Site, located in Warrenton. Information systems support is currently being provided by Federal and State IT staff that are based in Salem. Exigent and unforeseen requirements, often associated with the Training Site operation, does not allow timely support from remote IT support staff and any delay in waiting for assistance is inefficient and unacceptable. The requirement to frequently support audio/visual, computer, multimedia, network, and web-based applications and services to all areas of the training site is a fundamental necessity to support major training evolutions and the administrative, operational, and maintenance functions pertaining to the Camp Rilea Training Site. With an annual through-put between 100,000 to 145,000 people, tenants and transient units through Camp Rilea need timely IT support services in order to meet the mission and functions they are tasked to complete on a daily basis. This position is funded with 100% Federal Funds.

Positions 0019028, 0019029, 0019030, 0019031, 0019032, 0019033, 0019034, 0019035, 0019036, 0019037, 0019038, 0019039: Seasonal Wildland Fire Suppression Specialists. These 12 new seasonal Wildland Fire Suppression Specialist positions are necessary to provide for firefighter safety, protection of personnel, property, and resources, and fire suppression capabilities for the newly acquired Umatilla National Guard Training Center throughout the peak wildfire season and during National Guard training activities in accordance with the Camp Umatilla Integrated Wildland Fire Management Plan as prepared by Anchor Point Wildland Fire Solutions Consultant Group. These positions are seasonal, anticipated to work 6 months per year (May-October), and are funded with 100% Federal Funds.

BUDGET NARRATIVE

Positions 0017085, 0017086: Permanent Wildland Fire Suppression Specialists. These two permanent fulltime Wildland Firefighters are requested to provide firefighting support necessary to provide for firefighter safety, protection of personnel, property, resources, and fire suppression capabilities for the newly acquired 7,500 acre Umatilla National Guard Training Center. It is necessary that OMD provide two fire crews throughout the peak wildfire season and during National Guard training activities in accordance with the Camp Umatilla Integrated Wildland Fire Management Plan, as prepared by Anchor Point Wildland Fire Solutions Consultant Group. These positions are necessary to provide 24 hour coverage / support to military training and operations conducted at the Umatilla National Guard Training Center and at the Boardman Bombing Range. These positions will allow the Oregon Military Department to meet its obligation under both Federal and State law and are funded with 100% Federal Funds.

Position 1921001: Program Analyst 2. This Limited Duration position is the Emergency Management Program Coordinator authorized in Appendix 11 of the Master Cooperative Agreement, which is titled “Army National Guard Emergency Management Program Coordinator Activities.” This position is responsible for implementing, integrating and sustaining an emergency management program within the Oregon Army National Guard (ORARNG). It advises and assists in developing and maintaining all hazard/all threat emergency response plans for all ORARNG facilities across the state, and coordinates with local, state tribal and federal agency emergency managers to ensure these plans are mutually supporting and properly integrated. This position is the sole position within Appendix 11 and is Limited Duration because long-term funding is uncertain. It is funded with 100% Federal Funds.

Reclassify Position 0093025 from a Construction Project Manager 2 to a Construction Project Manager 3. High workload within the Construction Branch of the Installations Division has resulted in this position performing a higher level of duties. It coordinates and manages the design and construction on major construction and minor construction (remodels or upgrades). This position is the lead worker of a project management team. It determines the contracting method, evaluates proposals and administers the contracts. This position is funded with 100% Federal Funds.

Reclassify Position 0803001 from a Facility Energy Tech 3 to a Facility Operations Specialist 1. A recent change in leadership at Camp Rilea has shifted maintenance from reactive and project-driven to more preventative in nature. This position at Camp Rilea performs periodic inspections of facilities and equipment to determine what repairs are needed. It schedules maintenance service for HVAC systems and vehicles, and manages the inventory of cleaning and maintenance supplies. This position is funded with 100% Federal Funds.

2. **How Achieved** – Approval of these positions will allow the agency to meet its mission and functions, by providing operations support to our key facilities located statewide.

3. **Staffing Impact** – Establish 25 positions- 19 FTE (13 positions at 1.00 FTE each and 12 at .50 FTE each)
Reclassify 2 positions.

4. **Quantifying Results** – The results of this package will be quantified by an increased customer service to tenant National Guard units and through increased Rental Program activities in armories. Additionally; the Operations and Maintenance Branch management will be able to increase focus on

analyzing and addressing preventive maintenance and deferred maintenance with the intent of reducing the amount of emergency maintenance projects, address energy management requirements, facilitate major and minor construction projects, provide fire protection of infrastructure and address administrative support needs. This package directly supports the Governor's Healthy and Safe Communities priority by improving the facility infrastructure within the Oregon Army National Guard.

5. Revenue Source - \$48,985 General Fund, \$193,354 Other Funds and \$2,633,694 Federal Funds.

Governor recommended 24 positions and the two reclassifications. Position 0019026 (Grounds Maintenance Worker 2) is not recommended for approval due to General Fund constraints.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OPERATIONS PROGRAM
POLICY PACKAGE 203
KINGSLEY FIELD OVER-CAP AND UTILITIES
PRIORITY 9

1. **Purpose** - This Policy Package requests \$220,000 General Fund for the Kingsley Field Air National Guard Base in Klamath Falls, Oregon. The funding will cover 1) payroll costs that exceed federally-mandated pay caps and 2) rising utility costs.

Background

The 173rd Fighter Wing and the 270th Air Traffic Control Squadron are stationed at Kingsley Field. The 173rd Fighter Wing's mission is to train F-15 fighter pilots in the Air Force and Air National Guard for air-to-air combat and air defense roles. The 270th Air Traffic Control Squadron operates the air traffic control tower for civilian and military operations at Kingsley Field.

Since 2007, the Air Force has closed all other F-15 training squadrons, leaving Kingsley Field as the sole remaining F-15C/D pilot training installation in the Air Force. Since 2007, operation tempo has increased significantly in the following areas:

- Pilot production has increased from 26 to 36 Basic Flying Course graduates per year (38% increase)
- Flying has increased from 4,800 to 5,600 flying hours (17% increase)
- The number of aircraft on station has increased from 23 to 32 (39% increase)
- Total personnel on base has increased from 919 to 1,113 (21% increase)

In 2015, Kingsley Field took on an Air Force Total Force Integration (TFI) mission. This included the addition of an Active Duty Squadron of nearly 100 personnel to aid increased operations. This was a 10% growth in base personnel. No additional personnel or funding was given to Appendix 21 in support of these expanded training requirements.

Kingsley Field is also expected to host an adversary air contract (ADAIR) that will add another 30 contract employees and 6 aircraft from FFY19 to FFY23. The growth is deliberate to bolster operations required to counter the extreme pilot shortfalls that the Air Force is currently experiencing. Kingsley Field has been tasked with increased pilot production well into the future as well as simultaneously expected to reduce operational support budgets.

Due to the increase in personnel and aircraft, over \$80 million in construction projects are planned, which will be funded and overseen directly by the Federal government. A new fire station is currently under construction and planned projects include a new fuel offloading and on-loading station, a

Agency Request Governor's Budget Legislatively Adopted

2019-2021

BUDGET NARRATIVE

new corrosion control facility, and ramp improvements. This new infrastructure will require increased maintenance and utility costs that are handled by OMD's Civil Engineering Program under Appendix 21 of the Master Cooperative Agreement.

MCA Appendix 21

The Operations and Maintenance Activities (FOMA) Appendix 21 of the Master Cooperative Agreement (MCA) is a contractual agreement between the National Guard Bureau (NGB) and the grantee (OMD). It provides 85% Federal Funds to maintain the facilities and grounds at Kingsley Field. General Fund provides the 15% state match. This is an excellent deal for the State: for every dollar the State contributes to the program, the Federal government provides over five.

Appendix 21 is critical to the Air Force F-15 pilot training at Kingsley Field. It covers multiple items including:

- Base facility and infrastructure sustainment (includes operations, maintenance, repair, minor construction, and utilities).
- Payroll/ benefits for 28 state employees
- Airport Joint Use Agreement (AJUA) support to the local airport (Crater Lake-Klamath Regional Airport) to include airfield maintenance and repair, snow/ice mitigation, daily airfield sweeping operations, airfield mowing
- Engineering expertise for facility design and construction
- Establishment of maintenance actions for airfield pavements and other infrastructure systems essential to base operations

Federal funding for Appendix 21 has increased each year at a greater rate than the matching State funds. The demand for pilot training has increased, resulting in increased facility, utility and infrastructure use. This corresponds to a need for increased funding. Kingsley Field has seen a large increase in requirements with minimal increase to installation support resources, to include state employee authorizations or overall increased budget consideration. It continues to operate serving more customers, utilizing antiquated equipment, functioning with more buildings and with less resources than ever before.

Appendix 21 is dependent on the State providing the matching 15%. If the State were unable to meet the match (15%), the appendix would lose the Federal funding (85%). For a small investment in additional state funding, the state will receive a much larger benefit in federal funding support. For every \$15 dollars of State support, the Federal Government reimburses \$85. However, without the State's \$15, Kingsley Field would lose \$85 of Federal support.

Over-Cap Payroll Costs

Appendix 21 limits federal reimbursements for payroll to specific federal Wage Grade or General Schedule pay rates for the Washington D.C. area depending on the type of position. For example, a state electrical systems craftsman is authorized to be paid up to the level of a Federal Wage Grade 12, Step 5. A financial management state employee is authorized to be paid up to a General Schedule Grade 8, Step 5. Any state-directed or

Agency Request Governor's Budget Legislatively Adopted

2019-2021

BUDGET NARRATIVE

authorized pay increases above this federal threshold must be paid with 100% state funds. This calculation is based on gross pay only, excluding benefits and other payroll costs. For the 2019-21 biennium, eight positions have pay that exceeds the federal caps, with the projected over-the-cap wage costs at \$127,518 General Fund. This amount was calculated using published pay charts for Federal Fiscal Year 2018 compared to the pay rates of state positions in the 2019-21 Base Budget.

Utility and operational costs

Kingsley Field submits an annual budget request to NGB for the upcoming federal fiscal year. The budget requirements are based on trend analysis of actual expenses and the flying mission of the unit or units assigned to the base. An analysis using the most recent NGB request for FFY 2019 (which begins October 1, 2018), multiplied by 2 for a rough biennial estimate, revealed that the 2019-21 Current Service Level Services and Supplies budget is insufficient to cover basic utilities and operational costs, particularly in light of the increased personnel and activities on base. In the 2019-21 biennium, Federal Funds limitation appears to be sufficient to cover all Services and Supplies, but the General Fund match is short by \$92,482.

2. **How Achieved** –Approval of this policy package will allow the agency to operate, maintain and support Kingsley Field Air National Guard Base. The state’s support of this funding request directly contributes to the Governor’s priority of Healthy and Safe Communities by ensuring proper maintenance of the infrastructure that supports training of F-15 air-to-air combat pilots.

3. **Staffing Impact** - None.

4. **Revenue Source** -\$220,000 General Fund.

Governor recommended.

OREGON MILITARY DEPARTMENT
OPERATIONS PROGRAM
POLICY PACKAGE 204
DEFERRED MAINTENANCE
PRIORITY 11

1. Purpose: This Policy Package addresses Army National Guard facilities repair and maintenance needs as documented in our Capital Planning Advisory Board (CPAB) reporting. The Department of Administrative Services (DAS) as directed by ORS 276.227 develops and implements a Statewide Facility Planning Process (SFPP). As reported by DAS in the SFPP, the Oregon Military Department owns and operates 126 buildings of over \$1.0 million in replacement value each, representing approximately 3.1 million square feet of conditioned space.

The DAS database reflects 517 total state buildings with a replacement value of \$1,000,000 or more. Based on this inventory, the Oregon Military Department (OMD) owns and operates 24% of these reportable facilities, comprising 20% of the statewide reportable square footage. The CPAB Facility Plan displays our 2019-2021, and the following two biennial period, requirements for Roofs; Heating, Ventilating, and Air Conditioning (HVAC); Electrical; Seismic upgrade; Building Exterior; Roads and Grounds; Building Interior, lead clean-up of indoor firing ranges and other hazardous building materials removal. During the 2015-2017 biennium the percentage of support was 59% Federal Funds, 14% General Fund and 27% Other Funds. The reliance on Other Fund revenue generated through the Armory Rental Program is a significant risk point in the Agencies ability to maintain facilities.

Since 2015 the OMD has experienced a reduction in the ability to generate Other Funds Revenue due to the closure to the public of up to twelve Armories due to lead dust concentrations above the regulatory threshold. Currently OMD is supporting our facilities with \$1.52 per square foot. This includes State, Federal and Other Funds available for maintenance, repair, supplies, and services. Of the \$1.52 per square foot only 27 cents or 18% are state funds, this equates to not being able to conduct needed maintenance activities at facilities that require state matching funds, thereby increasing the deferred maintenance list.

The OMD has benefited from new construction over the last several biennia. While the new facilities helped alleviate some of the deferred maintenance backlog by replacing our older facilities, however they also added additional square footage as the older facilities were undersized for current needs. Even though these replacement facilities are built to be extremely efficient, the additional square footage has increased utility and maintenance costs, half of which are funded with state funds. The limited state funding covers the state's share of employee salaries, utilities, assessments, and supplies and services, there simply isn't enough left to fund projects that would reduce estimated \$150 million in deferred maintenance projects. (This includes \$75 million in seismic upgrades, and \$8 million in lead and asbestos removal.)

The Operations program conducts an extensive annual analysis of all Oregon Army National Guard facilities. The analysis, titled "Installation Status Report" (ISR), is an annual requirement by the Department of the Army using standard Army-wide inspection and evaluation criteria. The ISR is a

_____ Agency Request X Governor's Budget _____ Legislatively Adopted

2019-2021

107BF02

BUDGET NARRATIVE

decision support system designed to improve management of our limited resources for facilities. The 2017 ISR Facility Condition Index (FCI) results for Oregon’s armories are as follows: 5.3% are in compliance with Army standards and in overall good condition, 81.6% do not meet Army standard and are in overall poor condition, and 13.2% are in overall very poor condition. OMD is also working with the Department of Administrative Services (DAS) for contracted facility cost assessments. These will be loaded into two separate database systems: Iplan and BUILDER which will become the agency’s databases of record for reporting to DAS, the Oregon Legislature and National Guard Bureau information on facility needs. Together these systems will provide a clearer picture of our deferred maintenance backlog and forecast future requirements.

The Oregon Military Department’s ability to generate Other Funds revenue through community and government use of armories has been reduced due to the presence of lead dust from indoor firing ranges at numerous armories including several of our highest revenue generating facilities. This loss of revenue coupled with the increased reliance on our Other Fund to meet current operational costs, contribute to a continual increase in deferred maintenance and the further decline of our facilities.

2. How achieved: We have selected deferred maintenance and repair projects for inclusion in this Policy Package that directly impact our ability to provide safe, well-maintained facilities for our soldiers, full-time employees, and the citizens of Oregon. Our facilities must be capable of supporting local communities during floods, ice storms, fires, and other emergencies. The requested \$12,420,726 in state General Fund, which can be matched with \$12,420,726 Federal Funds, will allow urgently required repairs and allow the facilities to continue to be used by Oregon’s communities in support of local economic development activities. These activities, such as trade shows, cultural events, and regional meetings, attract many visitors to the communities, bringing additional revenue to local businesses. The continued degradation of our facilities will eliminate these opportunities and jeopardize our ability to responsibly react to local emergencies requiring use of our armories, training sites, and logistical facilities.

The “worst condition” roofs, HVAC boilers and chillers, parking lots and kitchen upgrades are included in the priorities below. Roof and HVAC equipment replacements are funded with 50% Federal / 50% State funds. Increasing average age of facilities and declining facility operation and maintenance funding has forced us to focus on only the most vital needs and to “manage the decline” in other areas.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OPERATIONS PROGRAM
POLICY PACKAGE 205
PORTLAND AIR NATIONAL GUARD BASE NEW POSITIONS
PRIORITY 17

- Purpose** – This Policy Package establishes eight new positions at the Portland Air National Guard Base (PANGB). These positions will be funded under the Facility Operations and Maintenance Activities (FOMA) Appendix of the Master Cooperative Agreement (MCA) between the Oregon Military Department and the National Guard Bureau (NGB), which authorizes a funding formula of 80% Federal Funds and 20% General Fund. By utilizing a cost effective 20% State/80% Federal funding model, this request will lead to the direct Federal contribution of \$851,413. This combined \$1.065M will pay the salary and benefits of eight Oregonian, newly employed personnel.

As described in Policy Package 201, the Portland Air National Guard Base is made up of 64 buildings on approximately 221 acres adjoining Portland International Airport. It serves primarily as the home of the 142d Fighter Wing, which protects the northwest United States 24/7 with its homeland alert mission flying F-15 fighter jets. These fighter jets respond to commercial airline emergencies as well as intercepted Russian long range bombers that test our country’s west coast defenses. In addition to the homeland alert mission, PANGB also hosts Air Force Special Operations units in the 125th Special Tactics Squadron and the Air Force Reserve’s 304th Rescue Squadron. Both units provide the state an internal, highly skilled search and rescue capability through their Domestic Operations (DomOps) support. The Base Civil Engineering Squadron comprised of state employees is responsible for the operations, maintenance and repair of all real property at the base. Adequate staffing is critical for maintaining the facilities and grounds to properly support the readiness of these units and the F-15 fleet.

Without these additional positions, facility maintenance functions will continue to be deferred across the installation. Currently, facility maintenance staffing is 72% of the recommended federal authorization of 29 total personnel. The continued deterioration of building conditions, due to insufficient maintenance, directly impacts all base and state-supported Domestic Operation missions and degrades critical life safety systems. These systems include, but are not limited to, fire suppression and alarms, lightning protection, primary utility grids, and climate control of network server rooms and populated work areas. The current deferred maintenance backlog sits at 1,600 items. Over time deferred maintenance costs lead to diminished capability or even wing and DomOps mission stoppage and ultimately higher repair costs. The State’s support of this funding request will not only improve facility conditions and mission support at PANGB; it will positively impact the Governor’s Thriving Statewide Economy initiative by fully leveraging all federal funding available to this maintenance program.

BUDGET NARRATIVE

Position #	Title	Classification	Type	GF	OF	FF
0097032	Custodian-transfer from KF	AU C4101	Transfer	\$23,726		(\$23,726)

0019022	Facility Operations Specialist 1	AU C4014	Establish	31,569		126,270
Mass Transit Tax				753		
Total Policy Package 205				\$213,610		\$732,784

Position 0097032 Custodian: This position is being transferred from the Kingsley Field Billeting Program, which has transitioned to Federal staff and no longer needs state positions. It will perform general janitorial tasks such as emptying wastebaskets, cleaning floors, windows, restrooms and walkways. It will also perform minor maintenance such as changing lightbulbs, filling dispensers and clearing clogged pipes. The funding on this position is changing from 100% Federal Funds at KF Billeting to 80% Federal Funds at PANGB, resulting in a net reduction of (\$23,726) Federal Funds overall in the Operations Program.

Positions 0019016, 0019017, 0019018 Custodian: These positions will also perform janitorial tasks as described for position 0097032 above. These new Custodian positions will free skilled craftspersons to perform more maintenance work and less janitorial work.

Position 0019019 Facility Maintenance Specialist: This position will perform preventative and routine maintenance and repairs on different varieties of doors including rolling, overhead, accordion, canopy and fabric telescoping hangar doors. It will maintain various types of mechanical gates. This position will also maintain and repair wire rope and chain hoists, perform carpentry work, paint various surfaces and install and repair locking and passage systems. It will maintain, inspect and repair various types of small vehicles, tools and equipment.

Position 0019020 Electrician 2: This position will install, troubleshoot and repair facility electrical control systems, circuits and equipment including HVAC systems, Direct Digital Control (DDC) systems, uninterruptible power and control systems and equipment. It will test and analyze utility electrical systems and equipment and isolate areas of malfunction, then repair or replace components and wiring. This position will also install and maintain HVAC systems that provide continuous controlled environments of temperature and humidity including control circuits, hot

BUDGET NARRATIVE

water boilers, circulating pumps, and compressed and breathable air systems. Equipment used by F-15 pilots must be stored in a secure climate-controlled environment which would be maintained by this position.

Position 0019021 Procurement and Contract Assistant: This position will provide dedicated procurement support to the Civil Engineering Squadron. Currently this support is provided by a procurement position located in Salem who supports a variety of programs and has a heavy workload. This new position will review purchase requests, develop specifications, and recommend and determine the appropriate solicitation method per state purchasing rules. It will request bids, quotes, and coordinate with staff at PANGB to ensure employee safety when using the product purchased. This position will place orders and coordinate shipment and use the Oregon Procurement Information Network (ORPIN) to ensure compliance with state purchasing rules,

Position 0019022 Facility Operations Specialist 1 (Planner): This position will compile and coordinate routine maintenance and facility upgrades at the base. It will organize and maintain the work order inventory, a library of planning information and guidance, and manage a variety of projects. This position will develop scopes of work, tasks, schedules, resource requirements and budgets, and provide regular status reports. It will monitor projects for quality and timeliness, and ensure that work is performed in accordance with codes, policies, procedures and manuals.

2. **How Achieved** – Appropriation and approval will allow the agency to increase its overall maintenance staff to the recommended federal authorization and sufficiently operate, maintain and support Facility Operations and Maintenance Activities through the State and Federal Cooperative Agreement at the Portland Air National Guard Base. The state’s support of this policy package directly contributes to the Governor’s priority of Healthy and Safe Communities by increasing the readiness of PANGB to respond to potentially life-threatening situations in the northwestern U.S. This package also directly supports the Governor’s focus area of a Thriving Statewide Economy by increasing available jobs, employed Oregonians, as well as leveraging combined federal and state dollars into local companies supplying facility maintenance functions.
3. **Staffing Impact** – Establish 7 permanent positions and transfer 1 permanent position from Kingsley Field Billeting to support facility maintenance at the Portland Air National Guard Base.
4. **Quantifying Results** – The results of this policy package will be monitored by audits performed by the Secretary of State Audits Division and federal internal auditors, as well as operational reviews performed by the Department of Defense.
5. **Revenue Source** - \$213,610 General Fund and \$732,784 in matching Federal Funds.

Governor did not recommend.

Agency Request
 Governor's Budget
 Legislatively Adopted

2019-2021

Program Overview

The Office of Emergency Management (OEM) coordinates statewide emergency services and maintains emergency communications systems used for public warnings, emergency notifications, and emergency support. OEM also provides cities, counties, and tribes throughout Oregon with planning, training, exercise and technical assistance as it relates to disaster preparedness, emergency response, recovery services, and hazard mitigation.

Program Funding Request

The 2019-21 Governor's Budget (GB) for the Office of Emergency Management within the Oregon Military Department includes expenditure authority of \$8,738,968 General Fund, \$99,871,364 Other Funds, and \$174,487,552 Federal Funds. The 2019-21 All Funds Budget is \$283,097,884. The 2019-21 GB includes 47 positions and 47.50FTE. All Funds Budgets estimated for 2021-23 and 2023-25 Biennia is \$295,271,093 and \$307,967,750 respectively.

This budget request ensures a fully staffed and high-functioning Office of Emergency Management is available to provide critical services to the citizens of Oregon. A high-functioning OEM is critical to the success of the Governor's Safety Strategy as it relates to emergency preparedness, emergency response, disaster mitigation and 9-1-1 call taking activities. The impact of OEM to the citizens of Oregon is tremendous, as situations like the earthquake in Japan aptly demonstrate should a Cascadia style event should occur off Oregon's shores.

An additional benefit provided by OEM is the ability to leverage federal resources. The Emergency Management Performance Grant (EMPG), which is a primary funding tool for OEM, requires a 50% non-federal match. Each year, available federal funding is unmatched due to a lack of state investment. The request for investment made by this budget would result in these federal funds being brought to Oregon for use in enhancing our emergency response efforts.

Program Description

The Office of Emergency Management encompasses four program areas: Administration, Plans and Training, Technology and Response and Mitigation and Recovery.

1. The Administration Program oversees the strengthening of Oregon's overall emergency preparedness by coordinating and providing intra-governmental, non-governmental, and private sector partners with the opportunities to collaborate on specific patterns of preparatory actions. The result of these efforts lead to planned, coordinated, and cooperative responses to natural and man-made disasters, which is the goal of the Executive and Legislative branches of government.
2. The Plans and Training Program (PTP) executes planning, training, and exercise programs with the goal of raising awareness. This increase in awareness leads to better statewide preparedness for all hazard incidents. The PTP also provides daily customer service to state and local

107BF02

Budget Page 244

agencies regarding Homeland Security Grant Programs, Emergency Operations Plans, Geological Hazard Programs, the National Incident Management System (NIMS), Training and Exercise Teams, Citizen Corp Program and the State Emergency Coordination Center.

3. The Technology and Response Program (TRP) is responsible for the seamless operation of the statewide Enhanced 9-1-1 system. This includes the responsibility for the continual coordination and management of the network necessary to deliver 9-1-1 calls to Public Safety Answering Points across the state. The TRP oversees the state Search and Rescue program which coordinates local search and rescue efforts with the National Guard, Coast Guard and the Civil Air Patrol. Finally the TRP coordinates with the Oregon State Police to manage the Oregon Emergency Response System (OERS).
4. The Mitigation and Recovery Program (MRP) leads the coordination among state, local, and federal agencies in the development, planning, and adoption of local community hazard mitigation plans. The MRP accomplishes this by administering multiple Department of Homeland Security programs including the Pre-Disaster Mitigation Program, the Flood Mitigation Assistance Program, the Severe Repetitive Flood Program, the Hazard Mitigation Grant Program, and the Robert T. Stafford Disaster Relief Fund (which encompasses Public Assistance and Individual Assistance for disaster recovery). Additionally the MRP leads the coordination of the Emergency Management Performance Grant which provides financial support for the day to day operations of county, city and tribal Emergency Managers. The MRP also leads efforts surrounding post disaster recovery activities as they relate to the Robert T. Stafford Disaster Relief Fund.

The major cost drivers associated with the OEM program include Personal Services costs. While increased costs are an issue, planned reductions in Homeland Security Grant Funds is a key issue affecting OEM. Oregon's share of Homeland Security Grant funds fell by 32% from \$5,137,205 to \$3,459,364 between 2011 and 2013. Without an alternative means of financing, the identified reduction in federal support will impact the future ability of OEM to retain key program and grant administrative staff in coming years.

To accomplish its complex mission OEM heavily utilizes partnerships between federal, state, and local agencies as well as volunteer groups.

The Administration Program partners with state agencies, cities and counties to coordinate a holistic approach to emergency management. This approach includes helping create awareness, response, mitigation and recovery processes. The Plans and Training Program (PTP) partners with state agencies to administer the Oregon Emergency Response System Council. These partners also man the state Emergency Coordination Center during natural and human-made disasters. These partnerships help provide emergency support functions to determine the resources or assets needed to meet the needs of impacted areas. OEM has partnerships with all state agencies when responding to emergency situations.

The Technology and Response Program (TRP) partners with the 43 Public Safety Answering Points (PSAPs) around the state to ensure seamless operation of the 9-1-1 system. The TRP meets quarterly with members of the PSAP community to discuss new technologies, operational improvements and program requirements. The TRP also partners with the Amateur Radio Unit (ARU) during times of emergency. The ARU is staffed by volunteers and acts as a backup/alternative system for statewide communication when traditional means of communication have broken down.

Agency Request Governor's Budget Legislatively Adopted

2019-2021

The Mitigation and Recovery Program (MRP) works with local jurisdictions and state agencies to plan strategies for the mitigation of hazards across the state. The MRP also partners with the Federal Emergency Management Agency (FEMA) in effectively leveraging federal resources.

Opportunities to improve performance through alternative delivery methods: The creation of regional Emergency Management Teams is a strategy which would lead to more effective and coordinated response and recovery efforts across the state. An additional strategy would be to begin incorporating mitigation practices during the development stages of construction and industrial expansion. It has been shown that mitigation is one the most effect mechanisms for building disaster resilient communities.

Program Justification and Link to Long Term Outcomes

The mission of the Office of Emergency Management (OEM) is to support the safety and security of the citizens of Oregon. This mission goes hand in hand with the Governor’s goal that all Oregonians should live in safer and healthier communities. OEM accomplishes this mission through effective partnership development, planning and training, mitigation actions, educational outreach, research and development and leveraging of resources. The partnerships between OEM and the vast array of federal, state, and local agencies as well as public organizations provide for coordination toward emergency preparedness, response, recovery and hazard mitigation.

OEM provides guidance through effective statewide leadership on disaster awareness, preparedness, mitigation, and response and recovery. This leadership helps ensure communities have prepared and planned for disasters and the corresponding recovery efforts which follow. These planning actions help improve the resiliency of Oregon to the long term impacts of natural and human-made disasters.

OEM is continually working to improve the services and materials needed to help educate communities. OEM has distributed thousands of brochures on hazard preparedness, especially as it relates to earthquakes. OEM also utilizes social media (Twitter and Facebook) to share the message of preparedness, as well as for disseminating real time information during a disaster. Effective statewide communication is an integral part of the operations within OEM.

A major communication project underway within OEM is the development of the Next Generation 9-1-1 system. The development of this system will help coordinate shared public safety data and real time communication systems with the goal of increasing the capability and responsiveness of all public services. In addition to Next Generation 9-1-1, OEM is working to improve the Oregon Emergency Response System (OERS). The improvements are focused on enhancing the communication and coordination between government agencies for responding to hazard incidents across the state.

Agency Request Governor’s Budget Legislatively Adopted

2019-2021

It is important to realize the work done by OEM impacts policy areas outside of safety. Having effective mitigation and disaster recovery plans in place along with proactive educational outreach helps improve the resiliency of Oregon’s economy, a secondary link to the focus area of “A Thriving Oregon Economy.” The work performed by OEM and its partnership with the federal government helps bring millions of dollars to Oregon to help improve public infrastructure and facilities as well as removing homes from flood zones. The result is less damage and injuries during future events and a quicker economic recovery to impacted areas.

Program Performance

To date the Office of Emergency Management (OEM) has distributed funding to all 36 Oregon counties to help finance emergency management programs. Currently 100% of Oregon counties have a formal written Emergency Operations Plan on file with OEM. Our goal is continue to have 100% of counties with a plan on file with the office. Through the Emergency Communications Account all 43 Public Safety Answering Points (PSAPs) are able to maintain/upgrade 9-1-1 call taking equipment. Currently 80% of Oregon’s population is covered by a FEMA approved hazard mitigation plan. This has resulted in several mitigation projects being approved for funding through the Pre-Disaster Mitigation Program.

Enabling Legislation/Program Authorization

The Office of Emergency Management (OEM) is a division of the Oregon Military Department which is authorized under Article X of the Oregon State Constitution. OEM is further authorized by Oregon Revised Statutes 401.052, 403.120 and 404.100. Federal program authority is authorized by Department of Homeland Security 44 Code of Federal Regulations (CFR).

Funding Streams

For the 2017-19 biennium, the program is funded with General Fund (1%), Other Funds (36%) and Federal Funds (63%). Other Funds include dedicated Emergency Communication Tax Revenue authorized by ORS 403.235 which is collected from vendors that sell any device capable of reaching the 9-1-1 system. Pre-paid telephones were added to taxable devices with HB 4055 (February 2014 legislative session), which applies to retail transactions beginning October 1, 2015. Federal Funds carry match requirements from zero to 50 percent, are dedicated, and come primarily from the Department of Homeland Security.

Proposed Program Enhancements for 2019-21

The proposed budget for the Office of Emergency Management contains enhancements over the program’s Current Service Level budget for the 2019-21 biennium. Policy Package 301 requests a fund shift for eleven (11) positions currently funded partially or wholly by the Homeland Security Grant Program (HSGP). Recent federal audits of OEM grants have resulted in significant findings and recommendations, including multiple seven-figured repayment of costs from prior years deemed ineligible for reimbursement by FEMA and/or The Office of the Inspector General. Consequentially OEM was forced to significantly change how indirect costs are charged to federal grants. These changes culminated in significantly higher amounts of non-federal matching fund resources required to continue carrying out the federal programs. Fund shifting these employees from Federal to General Funds

Agency Request Governor’s Budget Legislatively Adopted

2019-2021

recognizes this new reality in the agency budget, thereby alleviating future audit risk and further financial liability. Due to the broad nature of the work conducted by these positions, and the restrictions of use for Federal grant funding, coupled with continued reductions within the Homeland Security Grant Program, General Fund is the most appropriate source of financing to ensure that OEM is able to meet the needs of the state.

Policy Package 302 establishes six additional positions. Two Program Analyst positions to help manage projects and provide direct, tailored, technical assistance to city, county and tribal governments as it relates to Oregon’s Hazard Mitigation Program. These positions will enable Oregon to maintain Enhanced Status for the *Natural Hazards Mitigation Plan (NHMP)*. Eligibility for federal funding offered through Federal Emergency Management Agency’s (FEMA) Unified Hazard Mitigation Assistance (HMA) grant programs, and the Emergency Management Performance Grant (EMPG) requires state and local jurisdictions (all counties, and some cities) to develop and update natural hazard mitigation plans. These plans are reviewed by the Office of Emergency Management (OEM) and FEMA, and are certified for five years. An Enhanced NHMP status allows the state to be eligible to receive additional federal funding in the aftermath of a federally declared disaster. One Analyst is a Program Analyst 4 to function as Emergency Management Accreditation Program (EMAP) Coordinator. Secretary of State Performance Audit No. 2018-03 called for OEM to align goals, objectives, planning, training, and exercising with the national EMAP standards. The purpose of this position is to provide structure, guidance, and expertise in the national accreditation EMAP program to OEM. This position will evaluate current OEM emergency plans and operations and provide a detailed analysis relating to the EMAP guidelines. This coordinator will create a timeline with appropriately related deliverables for OEM planners to follow in creating an increasingly validated structure of operations and planning aligned with EMAP standards. This position will also provide subject matter expertise to OEM on the pathways in which to reach the highest measurable goals and objectives in EMAP capabilities. This position will also be a liaison and Subject Matter Expert on EMAP to statewide local and tribal jurisdictions.

Another Analyst is a Program Analyst 3 who will work with local jurisdictions in the development of hazard mitigation plans and projects through the Hazard Mitigation Assistance grant programs. The Program Analyst 3 will serve as technical advisor to local governments with regard to program and application requirements. The Program Analyst 3 position will also be responsible for ensuring all environmental and historical preservation (EHP) issues are reviewed prior to an application being submitted to FEMA for funding. This entails close interaction with local historic preservation offices, the State Historical Preservation Office, and FEMA Region Ten Environmental Staff. EHP analysis includes reviewing applications for compliance with National Environmental Policy Act (NEPA), Section 106 and Endangered Species Act standards. This analysis is conducted for Public Assistance projects as well as Hazard Mitigation projects. After projects are selected for funding, these positions serve as program coordinators working with local jurisdictions regarding the ongoing progress of the plan/project. This includes the creation of quarterly progress reports shared with FEMA, OEM management, and identified leadership within the local jurisdiction. Duties also include on-site monitoring visits and providing technical assistance regarding program performance. In addition, these positions provide support to the State Hazard Mitigation Officer (SHMO) for ongoing management and enhancement of Hazard Mitigation Assistance grant programs. Support will include review and analysis of project proposals, project status, federal reporting requirements, and customer interactions (both local and federal). This will allow the SHMO to build strategic planning capacity, focusing on a holistic approach to hazard mitigation across the state.

Agency Request Governor’s Budget Legislatively Adopted

2019-2021

Policy Package 302 also requests two Program Analyst 2's. One is a Tribal Liaison, the other is an Earthquake (EQ) Early Warning Analyst. The Tribal Liaison will serve as OEM's liaison to Oregon's Tribal community in matters of disaster response and planning and to assist FEMA with tribal relationships during DFO activation. This position will also assist Tribes in any emergency disaster planning and training activities. The tribal liaison will represent OEM at statewide and regional Tribal meetings and become a Subject Matter Expert in Oregon Tribal issues as they relate to disaster preparedness and emergency management. The OEM Tribal liaison will coordinate disaster and emergency planning and participation with the other state agency liaisons across the state. The EQ Early Warning Analyst will develop and coordinate the execution of the program in accordance with the National Earthquake and Tsunami programs, Oregon Administrative Rules (OAR), state guidance to local and state government agencies regarding these programs. In addition, this position will be the Lead Liaison to the Oregon Earthquake Early Warning working group, which will include a key role in developing and implementing Earthquake Early Warning goals and objectives statewide. Additionally, this position will develop community outreach plans with the Geologic Hazards Program coordinator to market the program as well as develop partnerships. This position will also coordinate the collection of program service data and program outcomes for future evaluation. Policy Package 302 also requests an Accountant 2 to provide administrative support and a Public Affairs Specialist 2. The Public Affairs position will work with the OEM sections, PIO staff, Emergency Support Functions (ESF), and partnering organizations to manage the social media and other digital mediums to enhance the state's population in its understanding of disaster and emergency preparedness such as the 2 weeks ready campaign and other readiness programs. This position will have the key role to ensure the state webpage is current with critical messages prior to and during an emergency event so impacted communities have access to important information. **Policy Package 302 was not recommended by the Governor.**

Policy Package 303 establishes six (6) additional Program Analyst 2 positions, three Regional Planning Program Analysts and three Regional Training and Exercise Training and Exercise Coordinators. The three Regional Planning Program Analysts will assist local government officials with planning activities necessary for robust emergency management programs prepared to respond to and recover from all hazard events. This includes both coordination of existing plans, and development of new enhanced plans and procedures based on the region's hazard and risk assessment and vulnerability analysis set forth in an Emergency Operations Plan. These capabilities are inherently vital to guide local planners and responders to preclude and/or lessen the effects of property damage and save human lives during an actual catastrophic disaster event. By planning emergency response through preparedness, decision makers prepare their agencies to manage emergency response resources, evacuation, sheltering and mass care, as well as alert and inform the public. The three Training and Exercise Coordinators will function and collaborate with the regional planner to provide training support to agencies and volunteer groups within the region. The incumbent must exercise judgment in determining what threats are encompassed within the region, assess the training needs and availability of resources (other agencies, local and county assets and volunteer organizations i.e. Red Cross.) in order to develop training programs and improve response capabilities within their region. **Policy Package 303 was not recommended by the Governor.**

Agency Request Governor's Budget Legislatively Adopted

2019-2021

Policy Package 304 requests conversion of an Information Support Specialist (ISS) 8 from Limited Duration to Permanent Full-Time status. Also requested is conversion of an ISS-7 from Limited Duration to Permanent Full-Time status. The ISS-8 is the statewide NG 9-1-1 Project Portfolio Manager for the OEM NG 9-1-1 Program that includes primary oversight of both Legacy and NG 9-1-1 projects. This position is responsible for providing management, leadership and coordination of a statewide approach for implementing NG 9-1-1 Core Services for Oregon’s 43 Public Safety Answering Points (PSAPs). The Project Portfolio Manager leads program staff assigned to manage and coordinate agency projects. The ISS-7 is responsible for providing project management leadership and the coordination of a statewide approach to deploy a modern, cost effective and secure wide area network for Oregon’s Public Safety Answering Points (PSAPs). This position is the liaison to the primary point of contact and conduit with the awarded vendor of the Next Generation (NG) 9-1-1 Request for Proposal (RFP) to implement NG 9-1-1 throughout the state. This position interfaces with, directs and oversees the OEM NG 9-1-1 Project Team and NG 9-1-1 vendor during all aspects of NG 9-1-1 implementation, migration, installation and maintenance. **The Governor recommended Policy Package 304.**

Policy Package 305 requests a fund shift for eight (8) positions from Federal Funds to General Fund. The central purpose of this request is to change the funding source of certain staff from Federal Funds provided by Homeland Security Grant Program (HSGP) and 9-1-1 program Other Funds to General Funds. The over reliance on Federal and Other Funds within OEM significantly constrains non-administrative program staff to engage in non-federal emergency related activities due to eligibility or appropriateness of federal resources used to support these positions. **Policy Package 305 was not recommended by the Governor.**

Policy Package 306 requests the establishment of ten (10) positions: Establish one Emergency Coordination Section Manager (Principal Executive Manager E), one Emergency Coordination Section Administrative Support (Office Specialist 2), Six Oregon Emergency Response System (OERS) Duty Officers (Administrative Specialist 2), one Incident Management Assistance Team (IMAT) Coordinator (Program Analyst 2) and one IT Desktop Support Specialist (Information Systems Specialist 4). The ECC within OEM is the primary coordination center for all disasters and emergency operations statewide. When the ECC is activated, 33 state agency directors or director representatives convene in the ECC to coordinate emergency response and asset distribution. When OEM staff are called upon to facilitate an ECC activation, all duties and responsibilities unrelated to ECC activation are put on hold. Since this package provides staff specifically for ECC activations, it enables non-ECC activation business to continue uninterrupted. This section will also coordinate with the 18 Emergency Support Functions (ESF) and the more than 33 state and partnering organizations currently identified in ORS.401 in the facilitation on state resources to meet the needs of local communities responding to emergency events and coordinating with the many federal organizations such as FEMA in facilitating response and recovery. **Policy Package 306 was not recommended by the Governor.**

Agency Request Governor’s Budget Legislatively Adopted

2019-2021

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT OFFICE OF EMERGENCY MANAGEMENT

The purpose of the Office of Emergency Management (OEM) is to coordinate, maintain, and collaborate with partners in support of the Governor’s statewide emergency services system. This system facilitates, coordinates, and manages the emergency needs of Oregon citizens and visitors to the state in coordination with local emergency management. This supports the State’s ability to prevent, prepare for, respond to, recover from and mitigate all types of emergencies from mass shootings and civil disruptions, to flooding, to catastrophic earthquakes and tsunamis. OEM’s efforts focus on strengthening Oregon’s overall resiliency. The Office of Emergency Management coordinates with partners from all levels of government, tribal nations, non-governmental organizations, and private sector businesses to synchronize efforts and ensure the state leverages all available resources. The systems and structures OEM develops and maintains, provide opportunities to collaborate before, during and after specific incidents or large planned events to improve response and recovery efforts. The result is clear roles and responsibilities for all state agencies’ on how they will provide essential functions and critical services for the whole community during or following a disaster in a planned, coordinated, and effective manner. The expectation expressed by the Governor and the Legislature is that the Office of Emergency Management provides leadership and coordination for all actions necessary to accomplish this mission.

Office of Emergency Management Administration:

OEM Administration is primarily funded by, and oversees the actions of, the Emergency Management Performance Grant Program (EMPG) which acts as the foundation of the State’s All-Hazards approach to disaster preparedness. EMPG funding comes to the Office of Emergency Management from the U.S. Department of Homeland Security (DHS) through the Federal Emergency Management Agency (FEMA). The purpose of the EMPG is to give state and local jurisdictions greater flexibility in determining an effective and tailored emergency management organization at the state and local level. The Emergency Management Performance Grant is the single federal funding source that specifically provides for personnel and day to day costs for state and local emergency management programs. The EMPG program requires a non-federal match of 50% at both the state and local level. OEM currently has 36 counties that participate in the program, five tribal nations (the Confederated Tribes of Grand Ronde, the Coquille Indian Tribe, the Cow Creek Band of Umpqua Tribe of Indians, the Klamath Tribes, and the Confederated Tribes of Warm Springs), as well as five of Oregon’s largest cities (Portland, Beaverton, Gresham, Salem and Eugene). EMPG funds also support the State’s mitigation plans and projects, as well as natural hazard programs, including the State’s Earthquake/Tsunami and Volcanic Hazards programs. The Administration program supports the preparation of federally mandated hazard analysis and vulnerability risk documents that local governments complete in order to understand which hazards they are most at risk for, and to plan accordingly to reduce that risk. The Administration program also focuses on coordination and planning activities among state agencies and links local jurisdictions in this effort. The identification of areas of deficiency support prioritization of limited resources and serves as the basis for determining processes that optimize those resources. The Administration program is also responsible for the day to day management of OEM. The OEM Director and Deputy Director work within this program area to provide guidance and direction regarding the future actions of the Office and to engage and influence national homeland security and emergency management policies to benefit Oregon. Enterprise wide strategic planning is also directed through this program area, as is development of the Public Private Partnership

BUDGET NARRATIVE

Program and crisis communications capabilities. The proposed FY19 budget released by the President reflects a reduction of 20%, which would have a profoundly negative impact on projects and staffing at OEM and to our local and tribal jurisdictions.

State 9-1-1:

The mission of the State 9-1-1 Program is to ensure the reliable operation of the 9-1-1 system within Oregon. The program is responsible for the continual coordination and management of the network necessary to deliver 9-1-1 calls to Public Safety Answering Points (PSAPs), the customer premise equipment used by the PSAPs to process those calls, as well as assisting local governments with the challenges faced in the delivery of and participation in the State 9-1-1 emergency reporting system.

The State 9-1-1 Program continues to upgrade and maintain the statewide system for the delivery of 9-1-1 calls for service. OEM supports the network and equipment maintenance and upgrades as necessary to sustain the current level of operations at every PSAP in Oregon. The State 9-1-1 Program recently completed a transition from an outdated Frame Relay Network to a state-of-the-art digital system.

Additionally, the Office of Emergency Management is continuing to work with the PSAP community to implement text to 9-1-1 capability statewide.

The State 9-1-1 Program works closely with the Department of Administrative Services, State Chief Information Office and the Legislative Fiscal Office in support of NG 9-1-1 initiative. In addition OEM continues to work with the Oregon Department of Revenue to ensure that new technologies subject to the 9-1-1 tax are being researched and when appropriate, collected. OEM includes the Public Utility Commission in such discussions to ensure advanced coordination on all regulatory matters relating to telecommunications that impact 9-1-1 capabilities in Oregon.

The State 9-1-1 Program continues to work with the public safety community, local governments, state partners, the Federal Communications Commission and other national organizations to plan for the capability of answering a 9-1-1 call for help from any device, anywhere, anytime.

Operations and Preparedness:

The Operations and Preparedness Program receives Federal U.S. Department of Homeland Security Program Grant Funding to execute the programmatic functions of Oregon's Homeland Security planning, organization, equipment, training, and exercise programs. This is accomplished by utilizing Homeland Security Grant dollars to fund nine OEM staff, while passing through 80% of the funds to local communities. Unfortunately, this grant has declined steadily and significantly in recent years. The proposed FY19 budget released by the President reflects a reduction of 25% and introduce a new 25% non-federal cost share which would have a profoundly negative impact on projects and staffing at OEM and to our local and tribal jurisdictions.

BUDGET NARRATIVE

Oregon uses the funding very effectively to raise the awareness of the terrorist threat, catastrophic incidents, and to increase the State's preparedness for all hazards. The grant funds, for the past 16 years, have been critical in assisting state and local government agencies at all levels in developing terrorism plans and annexes, conducting domestic preparedness training and exercise activities, and to acquire equipment to support these functions.

OEM's planning, training, and exercise programs provide preparedness and recovery training to local and tribal emergency managers, first responders, local elected and appointed officials, and state officials with direct and indirect emergency management authority and responsibilities. In addition, a wide variety of equipment is also provided under these grants to enhance first responder and emergency management professional capabilities in reducing the impact to life and safety, property, and the environment. Instituting the programs under these grants has provided a commonality in equipment, planning and training, resulting in well-prepared response organizations throughout Oregon.

The foundation for conducting training and exercising is the development of plans and procedures for all hazards that are a potential and probable threat to Oregonians. This includes terrorism and catastrophic incident preparedness, response, and recovery activities. Conducting these programs incorporates the familiarization and orientation of state and local officials to federal and state laws, regulations, and policies that ensure eligibility for funding and other state and federal assistance during the times of disaster and during recovery and restoration following an incident of national significance.

Disasters:

Since February of 1996, Oregon has experienced natural disaster activity severe enough to warrant a Presidential Disaster Declaration on 19 separate severe weather events, and one Emergency Declaration for the Hurricane Katrina evacuees. These major disasters have included flooding, landslides, hurricane force wind events, as well as severe winter storm activity. Under a mandate from Congress to FEMA, emphasis has been added to expedite the expenditure and closure of old declared disasters. The December 2015 storm event, from which we are still recovering, is the third largest disaster in Oregon, following the 2007 flood event, and the 1962 Columbus Day Storm. These disasters have resulted in federal disaster relief in excess of \$200 million to public entities throughout Oregon. In addition to Public Assistance to public entities, hazard mitigation grant funds have accompanied these disasters. These funds are used to reduce the effects of future disasters in Oregon.

Oregon's cities and counties continue developing, updating and adopting local community hazard mitigation plans. Through FEMA's Flood Mitigation Assistance Program, federal dollars are available to assist local jurisdictions with flood mitigation planning and flood mitigation projects. OEM works with other state agencies, such as Department of Land Conservation and Development, to identify project implementation opportunities in order to achieve the greatest impact with the least amount of resources. Counties and cities with repetitive flood losses receive highest priority for consideration of grant funding and technical assistance to develop hazard mitigation plans and funding which are approved by FEMA in order to be eligible for future grant funding for hazard mitigation projects. In 2018, nearly all Oregon counties have mitigation plans that are either current or are being updated to meet current requirements. Most of Oregon's larger cities have mitigation plans. Subsequently, approximately 80% of Oregon's population is covered by a FEMA-approved hazard mitigation plan. This resulted in a large number of mitigation projects being selected

BUDGET NARRATIVE

for funding from the Pre-Disaster Mitigation (PDM) program, which is a competitive federal program. Hazard mitigation staff is currently working with the University of Oregon, Oregon Partnership for Disaster Resilience, to provide technical assistance to both cities and counties in support of their local hazard mitigation planning needs. In addition, several Oregon Universities have completed demonstration projects using PDM grant funding to seismically retrofit both dormitory and other university buildings. The successful implementation of projects on the Portland State University, Oregon Institute of Technology, Western Oregon University, and Oregon State University campuses in partnership with the Department of Geology and Mineral Industries helped lay the groundwork for the state's Seismic Rehabilitation Grant Program.

Hazard Mitigation Grant Program (HMGP) Funds accompany Major Disaster Declarations. Since 1996, Oregon has spent HMGP funds throughout the state on mitigation planning and projects. These funds total over \$45 million dollars and include HMGP funding as a result of various storm activity, including Disaster 4296, which occurred in December of 2016 and Disaster 4328, which occurred in January of 2017.

Incorporating mitigation into codes and ordinances prior to new development is one of the most effective forms of hazard reduction and the keystone in building disaster resistant and resilient communities. FEMA's emphasis on pre-disaster mitigation encourages local communities to become disaster resistant communities by involving local volunteers, business and industry to promote mitigation measures, public education and an awareness of the hazards that a community may face, as well as developing incentive programs that encourage citizens and the business community to participate in available mitigation and preparedness programs. For example, the FireFree Program in Deschutes County brings together fuels reduction activities to create defensible spaces, codes and standards, first responder access, public awareness and other measures that reduce the impact of wildfires.

Expected Results from the 2019-21 Budget:

The Oregon Military Department is home to the Oregon Army and Air National Guard, who aside from their recent prominent roles in the deployments to Afghanistan and Iraq, have played a critical role in preparing for and responding to natural disasters here in Oregon.

The Office of Emergency Management, likewise, has its central role, assisting the whole community to prevent, mitigate, prepare for, respond and recover from natural and man-made disasters.

OEM's 2019-21 budget is seeking to expand the capability of the organization in multiple facets. This budget is also requesting much needed resources to help the organization fix operational shortfalls identified by both internal and external audits, including the Oregon Secretary of State Audit Report 2018-03 "Office of Emergency Management: The State Must Do More to Prepare Oregon for a Catastrophic Disaster".

OEM proposed four policy packages which seek to increase staff and/or reclassify positions within the agency. Among the proposed packages are two positions for mitigation and planning activities (Policy Package 302, Priority 02). OEM is working to sustain its Enhanced Status for the State Natural Hazard Mitigation Plan due to the increased levels of federal funding which an enhanced state is eligible to receive in the

BUDGET NARRATIVE

aftermath of federal disaster declaration. In order to maintain this status OEM needs to increase its overall grants administration capabilities, especially with regards to performing proactive environmental and historical reviews of proposed mitigation projects. OEM cannot sustain the Enhanced Status unless it increases its staffing levels to perform required tasks. As such, OEM is seeking two positions which will focus on hazard mitigation planning and project review with the explicit goal of improving the state's overall performance. OEM believes these positions will demonstrate to FEMA that Oregon is fully committed to mitigation planning and sound grant administration. Maintaining Enhanced Status will allow OEM to sustain improvements identified by the Secretary of State during the 2013 Performance Audit of OEM and described as critical in the Secretary of State's 2018 Performance Audit of OEM. Due to its Enhanced Status, the State of Oregon received an additional \$2.8 million dollars in mitigation funds for federal declarations since 2015. This Package also requests additional staff to support public engagement, tribal partnerships, earthquake early warning coordination, and attaining compliance with the Emergency Management Accreditation Program standards, as described in the Secretary of State's 2018 Performance Audit of emergency management in Oregon.

Policy Package 303 (Priority 4) seeks six new positions to assist local government officials with planning activities necessary for robust emergency management programs prepared to respond to and recover from all hazard events. This includes both coordination of existing plans, and development of new enhanced plans and procedures based on the region's hazard and risk assessment and vulnerability analysis set forth in an Emergency Operations Plan. These positions will also provide training and exercise support to local and tribal agencies and volunteer groups throughout the state. These capabilities are inherently vital to guide local planners and responders to preclude and/or lessen the effects of property damage and save human lives during an actual catastrophic disaster event. By planning emergency response through preparedness, decision makers prepare their agencies to manage emergency response resources, evacuation, sheltering and mass care, as well as alert and inform the public. This Package will also address the critical spatial needs of the State Emergency Coordination Center (ECC), which are significantly taxed during response operations, especially catastrophic operations when federal and state coordination is required. This was clearly identified as a shortfall during the Cascadia Rising Exercise and continual regularly scheduled exercise after action and improvement plan. OEM is at maximum capacity in its existing footprint with existing staffing levels. The development and sustainment of emergency operational capabilities and further growth of the office requires additional space to house and maintain a larger number of employees and to coordinate critical operational activity.

Policy Package 306 (Priority 18) is designed to develop the state's capacity to adequately plan and prepare for the legislative responsibility to respond to natural and manmade incidents, develop a State Incident Management Assistance Team (IMAT), as well as develop and coordinate critical infrastructure and key resource preparedness activities throughout the state. This proposal will provide technical and expert assistance to state, tribal, county, and city emergency management personnel in the planning, training, and implementing and execution of federal and state initiatives and requirements. Additionally, these positions will ensure the state's threat and risk profile are accurate and coordinated with the federal government which influences preparedness grants and funding allocations. These positions will provide support throughout the state ensuring critical infrastructure owners and operators have access to the necessary technical expertise and program capabilities to reduce risk of critical service outages. Increasing Oregon's IMAT capabilities will ensure swift and efficient response during disasters. The primary purpose will be to enhance the overall

BUDGET NARRATIVE

capabilities of state, tribal, county and city emergency management programs improving the resiliency of critical systems, and lessening the hardships to citizens impacted by disasters.

Events of the past several years have shown that Oregon is prone to many natural hazard events, from wildfires, floods, hurricane force winds and severe winter storms. Also, the state faces the catastrophic hazard of a Cascadia Subduction Zone Earthquake and Tsunami, which will result in destruction of entire portions of the Oregon Coast. OEM's current capacity is limited due to a shortage of staff and resources. The Emergency Management Performance Grant, which is used to fund a majority of the division's employees, now only funds approximately 30% of the staff, primarily due to lack of General Fund match monies. Additionally, since most OEM employees are funded by federally funded programs (even those that require GF match), they must work under the requirements of that grant program, which limits the flexibility the state has in prioritizing its needs in its preparedness programs. Staff members in the 9-1-1 program are funded from a dedicated funding source, which is not available on a day-to-day basis to concentrate on other agency programs. As many local governments suffer the loss of revenues and an economic downturn, the increasing requests made to OEM to provide technical assistance and other resources to assist with training, exercise and other events, strains the agency's capacity to deal with the requests while continuing to meet the basic needs of the state's program. Policy Package 307 (Priority 24) requests funding for the Oregon Disaster Loan and Grant Account (ORS 401.356). This be investment by the state, reducing the need for local communities to wait for assistance from the federal level. The State of Oregon could mobilize assets and personnel much more quickly and be responsive to the needs of the communities impacted by disaster. This investment will also protect Oregon from future funding or policy changes at the federal level, where there have been a number of policy discussions about how reducing federal disaster funding to states or reducing access to available disaster response and recovery funding.

Revenue Sources:

Other Funds

9-1-1 Emergency Telephone- 9-1-1 Tax - Other funds received from the Department of Revenue from an excise tax of \$.75 per month per consumer who has telecommunications service or interconnected Voice over Internet Protocol service with access to the emergency communications system. Prepaid wireless telecommunications services are taxes at \$.75 per retail transaction.

Department of Aviation- Other Funds are used to support the air search and rescue program and are matched with federal funding available through the Emergency Management Performance Grant.

Federal Funds

Emergency Management Performance Grant funds (administered by FEMA) may be used for necessary and essential expenses involved in the development, maintenance, and improvement of state, tribal and local emergency management programs. Through this grant program, OEM

J:\21 Budget\LAB\003 OEM\19-21 OEM Budget Narrative.docx

BUDGET NARRATIVE

has the opportunity to receive a dollar for dollar match of federal funds to our general fund allocation. The grant is designed to give states more flexibility in deciding how to best use federal dollars to meet state specific needs. Local jurisdictions (36 counties, 5 cities, 5 Tribal Nations) also receive grant funding, which is required to provide a 50% cash match to participate in the program. The proposed FY17 FY19 budget released by the President reflects a reduction of 20% to this program, which would significantly reduce emergency management staffing levels throughout the state.

Homeland Security Grant Program - Includes pass-through funding to statewide local and tribal jurisdictions to enhance and or develop capabilities in planning, organization, equipment, training, and exercises within the national core capabilities to address the threat and risk of terrorism and catastrophic incidents. The proposed FY19 budget released by the President reflects a reduction of 25% and the introduction of a new 25% non-federal cost share, which would have a profoundly negative impact on staffing at OEM. This money also includes funding to support Citizens preparedness and Community Emergency Response Team (CERT) programs and the Non-Profit Security Grant Program. The Program also makes money available to the Portland Regional Area under the Urban Area Security Initiative Program. Regional agencies in Portland and the surrounding counties work together on projects and investments designed to improve the area's preparedness for a domestic preparedness event. These funds serve a dual purpose in that most projects also have a benefit in the area of natural hazards preparedness. One time grants from DHS for specific needs also come through Oregon as the State's Administrative Agency (SAA). For example, during the 2007-2009 biennium, the Public Safety Interoperability Communications Grant (PSIC), a \$12 million grant for interoperable communications, was also made available to Oregon and its local jurisdictions.

FEMA's Public Assistance and Hazard Mitigation Grant Programs - The Public Assistance Program pays for the repair/restoration of damaged public infrastructure in the event that the President declares a Major Disaster/Emergency. The Hazard Mitigation Grant Program pays for mitigation efforts after a Presidential declaration by providing 15% of all overall FEMA recovery costs or 20% to states with Enhanced Status such as Oregon, to the State for mitigation projects. The majority of this funding is pass-through Federal Funding. Because this funding is unknown in advance of a disaster, OEM carries empty limitation as part of its budget so that funding is not slowed in the event of a Presidential disaster declaration.

FEMA's Pre-Disaster Mitigation Grant Program (PDM) and Flood Mitigation Assistance (FMA) Program - PDM is a nationally competitive grant program available to communities who have FEMA approved natural hazard mitigation plans. PDM funds can be used for both planning efforts and project implementation. Projects must be identified as a priority in the jurisdictions' local natural hazard mitigation plan. FMA Grants are made available yearly on a nationally competitive basis, and are geared toward repetitive flood loss properties insured through the National Flood Insurance Program. Oregon works closely with the Department of Land Conservation and Development on projects selected for funding under the FMA Program.

BUDGET NARRATIVE

Essential Packages:

010 – Inflation on non-PICS personal services vacancy factor adjustments (expected vacancy savings in the 2019-21 biennium) – \$12,018 General Fund, \$63,831 Other Funds, \$122,884 Federal Funds. **Governor recommended.**

022 – Phase outs – (\$8,747) General Fund, (\$70,000) Other Funds. **Governor recommended.**

031 – Inflation on Services & Supplies, adjustments for State Government Service Charges - \$40,151 General Fund, \$3,604,471 Other Funds, \$6,142,148 Federal Funds. **Governor recommended.**

Policy Packages:

090 – Analyst Adjustments – \$3,086,902 General Fund, (\$66,486) Federal Funds. **Added by the Governor.**

091 – Statewide Adjustment DAS Charges – (\$63,434) General Fund, (\$76,507) Other Funds, (\$14,686) Federal Funds. **Added by the Governor.**

092 – Statewide Attorney General Adjustment – (\$33) General Fund, (\$4,594) Other Funds, (\$215) Federal Funds. **Added by the Governor.**

301 – OEM Fund Shift Indirect Cost Positions - \$2,306,375 General Fund, (\$873,515) Other Funds, (\$1,415,350) Federal Funds. **Governor recommended.**

302 – OEM Enhancements - \$2,188,129 General Fund, six new positions. **Governor did not recommend.**

303 – OEM Regional Teams - \$1,711,411 General Fund, six new positions. **Governor did not recommend.**

304 – 9-1-1 Positions - \$487,724 Other Funds, two new positions. **Governor recommended.**

305 – OEM Fund Shift Direct Cost Positions – \$1,756,770 General Fund, (\$1,749,233) Federal Funds. **Governor did not recommend.**

306 – OEM Emergency Coordination Section - \$1,684,362 General Fund, ten new positions. **Governor did not recommend.**

307 – OEM Disaster Loan and Grant Account - \$1,000,000 General Fund, \$1,000,000 Other Funds. **Governor did not recommend.**

BUDGET NARRATIVE

Proposed New Laws:

Legislative Concept 410 modifies ORS 401.094 to transfer responsibility for operating and maintaining the Oregon Emergency Response System (OERS) from the Oregon State Police (OSP) to the Office of Emergency Management. OERS has been the responsibility of OSP since 1993 when OEM became part of OSP. However, now that OEM is part of OMD, the OERS functions should fall under OMD.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT OFFICE OF EMERGENCY MANAGEMENT ESSENTIAL PACKAGES

1. **Purpose** – Essential Packages adjust the base budget to reflect the agency 2019-21 current service level requirements.
2. **How Achieved** – The following Essential Packages adjust the Emergency Management Program’s base budget to reflect 2019-21 current service level requirements:
 - 010 - Adjusts projected vacancy factor budget savings expected from staff turnover in the 2019-21 biennium. The package also adjusts the costs of non-PICS personal services items not included in the PICS generated total. Non-PICS personal services items include debt service on the Pension Obligation Bonds (POB). The package increases General Fund \$12,018, Other Funds \$63,831, and Federal Funds \$122,884.
 - 022 - Phases out the following items:
 1. (\$8,747) General Fund appropriation for Personal Services and Services and Supplies that was approved in House Bill 5201, Section 35 (2), during the February 2018 legislative session. It funded the costs incurred by OEM staff manning the Emergency Communications Center during the August 2017 solar eclipse.
 2. (\$70,000) Other Funds limitation for costs of issuance related to \$5 million Article XI-Q bonds issued during the 2017-19 biennium for the Resiliency Grant Program authorized in Policy Package 811 in the 2017-19 Legislatively Adopted Budget.
 - 031 - Provides a general inflation increase for Services and Supplies costs. The package also adjusts State Government Service charges to reflect 2019-21 changes. The package increases General Fund \$40,151, Other Funds \$3,604,471 and Federal Funds \$6,142,148.
3. **Staffing Impact** – None.
4. **Revenue Source** – General Fund is increased \$43,422, Other Funds is increased \$3,598,302, and Federal Funds is increased \$6,265,032.

Governor recommended.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OFFICE OF EMERGENCY MANAGEMENT
POLICY PACKAGE 090

1. **Purpose**– This Policy Package was added by the Governor. It makes the following budgetary adjustments:
 - a. (\$42,462) General Fund vacancy savings in Personal Services, bringing it to 5% of General Fund salaries and wages;
 - b. (\$4,150) General Fund to remove standard inflation on most Services and Supplies accounts (General Fund only);
 - c. (\$66,486) General Fund and (\$66,486) Federal Funds reduction in the OEM Administration Program;
 - d. \$2,700,000 General Fund increase for OEM to work with local governments, community groups and the American Red Cross to ensure that 250,000 homes have 2-week ready supplies in the next three years in preparation for a Cascadia subduction zone seismic event. OEM will also assist local emergency management organizations to develop more robust logistical staging bases. This funding is comprised of:
 1. \$155,403 General Fund for a permanent Incident Management Assistance Team (IMAT) Coordinator position to be phased-in October 1, 2019 (.88 FTE);
 2. \$20,000 General Fund Services and Supplies for the new position; and
 3. \$2,524,597 General Fund Services and Supplies for program delivery.
 - e. \$500,000 General Fund increase in Services and Supplies for a risk abatement study to assist Critical Energy Infrastructure (CEI) Hubs in developing plans to prevent and mitigate catastrophic failures in the event of a Cascadia subduction zone seismic event.
2. **How Achieved** – General Fund appropriation is increased \$3,086,902. Federal Funds limitation is decreased (\$66,486).
3. **Staffing Impact** – Establish 1 position – .88 FTE.
4. **Revenue Source** – \$3,086,902 General Fund, (\$66,486) Federal Funds.

Added by the Governor.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OFFICE OF EMERGENCY MANAGEMENT
POLICY PACKAGE 301
FUND SHIFT OF INDIRECT POSITIONS
PRIORITY 1

1. Purpose – This Policy Package requests a fund shift for eleven (11) positions as detailed in the chart below. The fund shift serves several purposes. The first is changing staff primarily funded with Department of Homeland Security federal grant dollars from Federal Funds to General Fund. The second is changing staff disproportionately financed with 9-1-1 program Other Funds and shifting them to General Fund. Due to the type of work performed by these positions, and restrictions of use for federal grant funding, General Fund is considered the most appropriate source of financing. Oregon Secretary of State Report No. 2018-03 “Office of Emergency Management: The State Must Do More to Prepare Oregon for a Catastrophic Disaster” recommends OEM continue to advocate for resources through the state budget process to be able to fulfill its role as the state’s emergency management coordinator. That audit coupled with recent Federal Emergency Management Agency (FEMA) audits and findings that prospectively restrict the OEM’s ability to charge administrative staff to federal grants are what animates this request. The over-reliance on Federal and Other Funds within OEM significantly restricts engagement in non-federal or other funding related topics due to eligibility or appropriateness of the resources used to support to positions.

Recent federal audits of OEM grants have resulted in significant findings and recommendations, including multiple seven-figured repayment of costs from prior years deemed ineligible for reimbursement by FEMA and/or The Office of the Inspector General. Consequentially OEM was forced to significantly change how indirect costs are charged to federal grants. These changes culminated in significantly higher amounts of non-federal matching fund resources required to continue carrying out the federal programs. Fund shifting these employees from Federal to General Funds recognizes this new reality in the agency budget, thereby alleviating future audit risk and further financial liability. A secondary benefit is an increased flexibility of the agency and its ability to provide more effective and timely customer service to stakeholders. Due to the extensive requirements and limitations inherent to expending federal funds, OEM must reduce its reliance on those funds to gain flexibility needed to operate in an effective and efficient manner. Lastly, this package will enable OEM to proactively respond to anticipated future program changes at the federal level. It is clear from recent developments that states will be required to shoulder a greater share of the financial burden for disaster response and recovery efforts in the future. Reducing an over-reliance on federal funds will enable OEM and the State of Oregon to be more responsive and strategic when developing program operations based upon whatever federal resources are available. General Fund is the most appropriate funding source for this policy package. Without somewhat regular disasters occurring in Oregon, and the Federal Funds that accompany them, OEM will risk becoming insolvent.

_____ Agency Request X Governor’s Budget _____ Legislatively Adopted

2019-2021

107BF02

BUDGET NARRATIVE

In addition, there are currently a number of staff who are charged to 9-1-1 Other Funds without a direct nexus to the 9-1-1 program or charged disproportionately to the level of effort spent on 9-1-1 program work. Although these conditions are authorized by the legislature, it leaves the agency open to scrutiny and criticism from local jurisdictions who are paying for those funds, and who are a very engaged group of stakeholders. They routinely analyze how 9-1-1 funds are spent and question the agency about the funding structure every quarter. The requested fund shift will provide greater transparency and a cleaner, more defensible structure. Lastly, the 9-1-1 program is experiencing serious budget constraints that is limiting its ability to provide staffing and services needed by local Public Safety Access Points (PSAP). The recent shift to 9-1-1 Next Gen technology required very costly investments in new equipment, which have depleted 9-1-1 program funds to a level that requires constant monitoring and oversight.

Position	Title	Classification	Type	Impact		
				GF	OF	FF
0160012	OEM Deputy Director	Z7010	Fund Shift	\$338,010		(\$338,010)

1020308	Fiscal Analyst 3	X1245	Fund Shift	\$51,297		(\$39,649)
1020200	Office Specialist 2	C0104	Fund Shift	\$74,883		(\$74,883)
0160011	Accountant 3	C1217	Fund Shift	\$214,397		(\$214,397)
Personal Services				\$2,296,884	(\$869,886)	(\$1,415,350)
Mass Transit Tax				\$9,491	(\$3,629)	
Total Policy Package 301				\$2,306,375	(\$873,515)	(\$1,415,350)

2. How Achieved – Sustaining existing staff would be achieved by shifting funding from the 9-1-1 Emergency Communications Tax and replacing it with General Fund and for certain IT positions whose efforts benefit the whole OEM organization. This policy package supports the Governor’s priority for Safe and Healthy Communities by having a fully functional emergency response infrastructure. Due to federal fiscal laws related to charging indirect costs to grants and subsequent implementation of an indirect cost plan, the OEM Director, Deputy Director, Executive Assistant and select Administrative staff whose efforts benefit multiple program objectives are shifted from Federal Funds to 100% General Fund. Increased General Fund

Agency Request

2019-2021

107BF02

BUDGET NARRATIVE

then becomes an appropriate source of non-federal match for grants such as Emergency Management Performance Grants (EMPG) which provides the basic infrastructure for emergency management capabilities nationwide. EMPG funding has trended upward during the past three federal fiscal years. While this has provided growth for our partners in local and Tribal governments, a deficiency of General Fund match creates a disability for OEM to add capacity and provide increased support.

3. **Staffing Impact** – None.

4. **Quantifying Results** – Results in the state’s emergency management system are measured quantitatively by how well the state responds to emergencies and disasters concurrent with ongoing development of statewide capabilities. The ability to provide effective response is driven by adequate staffing, technical expertise, developing, exercising, testing and evaluating emergency response plans. Quantifying results would also be a reduction in audit findings and the associated cost of reimbursing FEMA for expenditures deemed ineligible. The state must reduce its reliance on federal funding to achieve a higher level of flexibility to enhance capacity to respond to and recover from disasters. It is clear from current efforts at the federal level that states will be expected to shoulder more of the financial burden in the future. Additional quantifying results will be reflected in an immediate increase and improvement in customer service. There would be greater flexibility within the office to utilize staff to help our local partners that are not currently provided for under our existing funding structure.

5. **Revenue Source** - \$2,306,375 General Fund, (\$873,515) Other Funds, (\$1,415,350) Federal Funds.

Governor recommended.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OFFICE OF EMERGENCY MANAGEMENT
POLICY PACKAGE 302
OEM ENHANCEMENTS
PRIORITY 2

1. Purpose– This Policy Package establishes six (6) positions: one Hazard Mitigation Assistance Program (HMA) Support Analyst (Program Analyst 3), one HMA Program Accountant (Accountant 2), one Earthquake (EQ) Early Warning Analyst (Program Analyst 2), one Public Information Office Digital (Public Affairs Specialist 2), one Emergency Management Accreditation Program (EMAP) Coordinator (Program Analyst 4), one Tribal Government liaison (Program Analyst 2) and services and supplies for the Office of Emergency Management (OEM). This staffing request is directly related to findings and recommendations identified in Secretary of State Performance Audit Report No. 2018-03 Office of Emergency Management: The State Must Do More to Prepare Oregon for a Catastrophic Disaster. The report highlights that Oregon is at risk of a major Cascadia earthquake and tsunami that will threaten infrastructure, cost potentially billions of dollars, and result in numerous deaths. The state must do more to prepare for such a disaster including completing and implementing critical plans, fulfilling minimum standards for an effective emergency management program, and adequately staffing the agency charged with coordinating emergency management efforts.

- OEM Audit Recommendation 1: Continue to advocate for resources through the state budget process to be able to fulfill its role as the state’s emergency management coordinator. Resources include increasing OEM staffing in order to more effectively support the state Emergency Coordination Center response operations.
- Governor’s Office Audit Recommendation 1: Work with OEM to pursue statewide Emergency Management Accreditation Program (EMAP) and develop a timeframe for achieving accreditation. Lack of EMAP accreditation status is a specific finding in Secretary of State Performance Audit Report No. 2018-03.
- Governor’s Office Audit Recommendation 2: Ensure Oregon’s statewide emergency management system has sufficient resources to reduce the state’s vulnerability to disasters. For example, ensure sufficient resources to prevent the loss of the Natural Hazard Mitigation Plan’s enhanced status. Resources include ensuring that OEM is fully staffed including a primary and backup planning, tribal, and earthquake early warning coordinator.

These resources have been identified continually through focused program monitoring, federal and state audits, exercise after action and improvement shortfalls, customer surveys throughout the state and amongst federal, state, tribal, and community stakeholders.

0019059	EMAP Coordinator (Pgm Analyst 4)	C0863	Establish	\$205,905		
0019056	Tribal Government Liaison (Pgm An 2)	C0861	Establish	\$176,594		
Mass Transit Tax				\$4,391		
Total Personal Services				\$1,128,129		
Services & Supplies				\$560,000		
Capital Outlay				\$500,000		
Total Policy Package 302				\$2,188,129		

Position 0019058 Hazard Mitigation Assistance Program Support Analyst (Program Analyst 3): The HMA Program Analyst position will concentrate on providing technical assistance and on-site work with current and future applicants for federal disaster assistance. This will include consultations with OEM staff, state and local applicants, Federal Emergency Management Agency (FEMA) environmental and historical preservation specialists, FEMA Public Assistance and Hazard Mitigation staff, and Oregon state officials who have regulatory roles in the area.

Since 2000, Oregon has suffered a variety of disasters resulting in 10 Presidential Disaster Declarations. These disasters have ranged in size and complexity, but all have resulted in federal disaster assistance. Federal disaster assistance is provided to Oregon jurisdictions to assist with repair and reconstruction of public facilities damaged by disasters. Many of these events have resulted in assistance through another federal program, the Hazard Mitigation Grant Program. These federal disaster funds require state administration and oversight in order to effectively monitor and report on the funding provided to local jurisdictions. Since 1995 the number of disasters managed by OEM in Oregon has increased significantly as have the performance requirements for the disaster grants. In comparison to the increase in workload the Office of Emergency Management has seen limited staff growth to administer the federal disaster assistance grants. Inadequate staffing is causing delays in providing technical assistance to local jurisdictions, quarterly performance reports to FEMA and providing close out reports for grant funds.

Agency Request
 Governor's Budget
 Legislatively Adopted

2019-2021

107BF02

BUDGET NARRATIVE

Additionally, many of the grants administered by OEM's Mitigation and Recovery Services section have limited, or do not have any, administrative dollars available to fund additional staff. Existing staff are not able to keep up with the oversight responsibilities associated with these programs. Also, during times of declared events, existing technical staff works with FEMA, establishing damage estimates, scopes of work, and providing technical assistance, sometimes for months at a time, working on disaster related projects. This transition hampers the public assistance and hazard mitigation programs of the agency. In order to sustain capacity, and continue to increase service to local constituencies, we are proposing to establish the requested Program Analyst 3 position.

Position 0019044 Hazard Mitigation Assistance Program Accountant (Accountant 2): The HMA Accountant position will provide dedicated accounting support for the hazard mitigation program in the state. The state is currently working on significant backlog of open disasters, and have had several new ones in the last three years. The demands on the State Hazard Mitigation Officer are extensive. Additional, direct accounting support would assist the state in maintaining its Enhanced Plan Status, which brings additional revenue to our state and local communities. With the diverse portfolio of grants managed by the agency, specialized expertise would greatly benefit the HMA program and our local partners, and allow the State Hazard Mitigation Officer more time to spend on program coordination and development.

Position 0019055 Earthquake Early Warning Analyst (Program Analyst 2): The purpose of this position is to provide technical consultation, planning, evaluation, and development of new methods and standards for the earthquake, tsunami, and volcano programs. This position will develop and coordinate the execution of the program in accordance with the National Earthquake and Tsunami programs, Oregon Administrative Rules (OAR), state guidance to local and state government agencies regarding these programs. In addition, this position will be the Lead Liaison to the Oregon Earthquake Early Warning working group, which will include a key role in developing and implementing Earthquake Early Warning goals and objectives statewide. Additionally, this position will develop community outreach plans with the Geologic Hazards Program coordinator to market the program as well as develop partnerships. This position will also coordinate the collection of program service data and program outcomes for future evaluation.

Position 0019060 Public Information Officer Digital (Public Affairs Specialist 2): The purpose of this position is to enhance OEM's outreach and coordination of the preparedness and recovery programs through digital media outlets. This position will work with the OEM sections, PIO staff, Emergency Support Functions (ESF), and partnering organizations to manage the social media and other digital mediums to enhance the state's population in its understanding of disaster and emergency preparedness such as the 2 weeks ready campaign and other readiness programs. This position will have the key role to ensure the state webpage is maintained with critical messages prior to and during an emergency event so impacted communities have access to important information.

_____ Agency Request X Governor's Budget _____ Legislatively Adopted

2019-2021

107BF02

BUDGET NARRATIVE

Position 0019059 Emergency Management Accreditation Program (EMAP) Coordinator (Program Analyst 4): Secretary of State Performance Audit No. 2018-03 called for OEM to align goals, objectives, planning, training, and exercising with the national EMAP standards. The purpose of this position is to provide structure, guidance, and expertise in the national accreditation EMAP program to OEM. This position will evaluate current OEM emergency plans and operations and provide a detailed analysis relating to the EMAP guidelines. This coordinator will create a timeline with appropriately related deliverables for OEM planners to follow in creating an increasingly validated structure of operations and planning aligned with EMAP standards. This position will also provide subject matter expertise to OEM on the pathways in which to reach the highest measurable goals and objectives in EMAP capabilities. This position will also be a liaison and Subject Matter Expert on EMAP to statewide local and tribal jurisdictions.

Position 0019056 Tribal Liaison (Program Analyst 2): The purpose of this position is to serve as OEM’s liaison to Oregon’s Tribal community in matters of disaster response and planning and to assist FEMA with tribal relationships during DFO activation. This position will also assist Tribes in any emergency disaster planning and training activities. The tribal liaison will represent OEM at statewide and regional Tribal meetings and become a Subject Matter Expert in Oregon Tribal issues as they relate to disaster preparedness and emergency management. The OEM Tribal liaison will coordinate disaster and emergency planning and participation with the other state agency liaisons across the state.

OEM/OMD Information Technology Disaster Equipment Sustainment Budget: OEM provides IT Support for the Military Department as a whole, including the Chief Information Officer. Current IT structure does not provide sustainable funding to repair, replace, or purchase new equipment that is critical to the IT function at the agency. OEM seeks to establish a budget for properly maintaining, repairing, replacing, or upgrading its current infrastructure per a defined life cycle replacement schedule. OEM lacks sufficient funding for this critical task, which is necessary for proper management of disasters and our work for our local partners. OEM is requesting \$500,000 per year (\$1M for 2019-21 biennium to accomplish this task. The \$1M is included in Services & Supplies & Capital Outlay total for this policy option package.

2. How Achieved – In order to meet the ever increasing demands of Federal and State mandates, requirements, and initiatives in the complex and constantly evolving environment of Emergency Management, this additional staff will directly assist state, tribal, county, city, and private stakeholders in the implementation of these various programs which in turn will increase capability to save lives, protect property, sustain the economy, and preserve Oregon’s environment. This will facilitate a more informed response, develop focused capabilities, and assist in the overall planning and implementation of the various requirements to support mitigation, preparedness, response, and recovery throughout the State. This additional staff will be responsible for developing the state’s operational and emergency management plans, procedures, training, and exercise programs and will provide input back to the supervisor in the Office of Emergency Management.

3. Staffing Impact –Establish 6 positions – 6.00 FTE.

_____ Agency Request X Governor’s Budget _____ Legislatively Adopted

2019-2021

107BF02

BUDGET NARRATIVE

4. **Quantifying Results** – The Office of Emergency Management will develop an initial assessment of operational and emergency management capacities with annual updates to determine the effectiveness of these program initiatives. Additionally, the Office of Emergency Management will establish prescribed metrics of achievement to ensure all program requirements are being maintained and updated as required by law, rule, or program mandates.

5. **Revenue Source** - \$2,188,129 General Fund.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OFFICE OF EMERGENCY MANAGEMENT
POLICY PACKAGE 303
OEM REGIONAL TEAMS
PRIORITY 4

1. Purpose– This Policy Package establishes six (6) positions: three Regional Planning Program Analyst 2’s, three Regional Training and Exercise Training and Development Specialist 2’s and services and supplies for the Office of Emergency Management (OEM). This staffing request is directly related to findings and recommendations identified in Secretary of State Performance Audit Report No. 2018-03 Office of Emergency Management: The State Must Do More to Prepare Oregon for a Catastrophic Disaster. The report highlights that Oregon is at risk of a major Cascadia earthquake and tsunami that will threaten infrastructure, cost potentially billions of dollars, and result in numerous deaths. The state must do more to prepare for such a disaster including completing and implementing critical plans, fulfilling minimum standards for an effective emergency management program, and adequately staffing the agency charged with coordinating emergency management efforts.

- OEM Audit Recommendation 1: Continue to advocate for resources through the state budget process to be able to fulfill its role as the state’s emergency management coordinator. Resources include increasing OEM staffing in order to more effectively support the state Emergency Coordination Center response operations.
- OEM Audit Recommendation 2: In conjunction with Cascadia Rising participants, finalize a plan to implement and track corrective actions for the recommendations from the Cascadia Rising After-Action Report, including corrective actions relevant to catastrophic planning. Ensure this corrective action plan includes the following:
 - a. deficiencies identified during the exercise;
 - b. the actions that should be taken in response;
 - c. the resources required to address these deficiencies;
 - d. justification for the need to correct them;
 - e. a person responsible for the corrective action; and
 - f. an assigned due date for each action.

Current staffing levels statewide are inadequate to reduce Oregon’s vulnerability to emergencies. As stated in the audit, OEM is severely understaffed as compared to Alaska, Florida and Washington which inhibits the agency’s capacity to lead and coordinate emergency

2019-2021			107BF02

BUDGET NARRATIVE

management efforts in the state. The state Emergency Coordination Center is not equipped, staffed, or structurally designed to provide the level of sustained emergency management required for a catastrophic event.

Position	Title	Classification	Type	Impact		
				GF	OF	FF
0019049	Regional Planning Coordinator (Pgm Analyst 2)	C0861	Establish	176,592		
0019050	Regional Planning Coordinator (Pgm Analyst 2)	C0861	Establish	176,592		
0019051	Regional Planning Coordinator (Pgm Analyst 2)	C0861	Establish	176,592		
0019052	Regional Training and Exercise Coordinator (PA2)	C0861	Establish	176,592		
0019053	Regional Training and Exercise Coordinator (PA2)	C0861	Establish	176,592		
0019054	Regional Training and Exercise Coordinator (PA2)	C0861	Establish	176,592		
Mass Transit Tax				4,082		
Total Personal Services				1,063,634		
Services & Supplies				632,777		
Capital Outlay				15,000		
Total Policy Package 303				1,711,411		

Operational Space & Configuration: The critical needs of the State Emergency Coordination Center (ECC) are significantly taxed during response operations, especially catastrophic operations when federal and state coordination is required. This was clearly identified as a shortfall during the Cascadia Rising Exercise and continual regularly scheduled exercise after action and improvement plan. The development and sustainment of emergency operational capabilities requires additional space to house and maintain a larger number of employees and operational activity. Due to an area recently vacated by the Oregon State Police, space is available that would provide a solution with additional capacity within the same facility, directly adjacent to OEM’s current office space. Estimated cost to reconfigure and occupy this space is \$367,565. This cost is included in the total Services & Supplies request related to this policy package.

Positions 0019049-0019051 Regional Planning Coordinator - Program Analyst 2 (3 positions): The purpose of these positions is to assist local government officials with planning activities necessary for robust emergency management programs prepared to respond to and recover from all hazard events. This includes both coordination of existing plans, and development of new enhanced plans and procedures based on the region’s hazard and risk assessment and vulnerability analysis set forth in an Emergency Operations Plan. These capabilities are inherently vital to guide local planners and responders to preclude and/or lessen the effects of property damage and save human lives during an actual catastrophic disaster event. By planning

BUDGET NARRATIVE

emergency response through preparedness, decision makers prepare their agencies to manage emergency response resources, evacuation, sheltering and mass care, as well as alert and inform the public.

Positions 0019052-0019054 Regional Training and Exercise Coordinator - Program Analyst 2 (3 positions): These positions will function and collaborate with the regional planner to provide training support to agencies and volunteer groups within the region. The incumbent must exercise judgment in determining what threats are encompassed within the region, assess the training needs and availability of resources (other agencies, local and county assets and volunteer organizations i.e. Red Cross.) in order to develop training programs and improve response capabilities within their region.

In addition to Personal Services of \$1,063,634 (General Fund), this policy package requests Services and Supplies of \$632,777 (General Fund), and Capital Outlay of \$15,000 (General Fund).

2. How Achieved – In order to achieve the ever increasing demands and scrutiny on the office, escalating audit findings, and external expectations, OEM seeks to establish these positions in order to develop a more robust system to provide services to our customers, community, and stakeholders responsible for oversight of our operations. These positions will provide a more focused and consistent level of capability and service to our partners in all critical areas.

3. Staffing Impact –Establish 6 Positions – 6.00 FTE.

4. Quantifying Results –Quantifying results will be evident in terms of output, as each of these positions provides direct engagement in one or more critical areas of operations for OEM. The office will analyze the agency and determine if any internal metrics or tracking is needed to further assess effectiveness of the implemented solution.

5. Revenue Source - \$1,711,411 General Fund.

Governor did not recommend.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OFFICE OF EMERGENCY MANAGEMENT
POLICY PACKAGE 304
9-1-1 POSITIONS
PRIORITY 14

1. Purpose— This Policy Package establishes two permanent positions that are currently Limited Duration status. Both are critically important positions in the 9-1-1 program. Oregon Secretary of State Report No. 2018-03 “Office of Emergency Management: The State Must Do More to Prepare Oregon for a Catastrophic Disaster” recommends OEM continue to advocate for resources through the state budget process to be able to fulfill its role as the state’s emergency management coordinator. This policy package request is animated by that recommendation.

Position	Title	Classification	Type	Impact		
				GF	OF	FF
0019046	Next Generation 9-1-1 Deputy Project Manager	X1487	LD to Permanent		\$224,446	
0019047	9-1-1 Project Portfolio Manager	X1488	LD to Permanent		\$241,375	
			Mass Transit Tax		\$1,903	
			Total Personal Services		\$467,724	
			Services & Supplies		\$20,000	
			Total Policy Package 304		\$487,724	

Position 0019046 Next Generation 9-1-1 Deputy Project Manager Information Systems Specialist 7: This position is responsible for providing project management leadership and the coordination of a statewide approach to deploy a modern, cost effective and secure wide area network for Oregon’s Public Safety Answering Points (PSAPs). This position is the liaison to the primary point of contact and conduit with the awarded vendor of the Next Generation (NG) 9-1-1 Request for Proposal (RFP) to implement NG 9-1-1 throughout the state. This position interfaces with, directs and oversees the OEM NG 9-1-1 Project Team and NG 9-1-1 vendor during all aspects of NG 9-1-1 implementation, migration, installation and maintenance. This is responsible for the development of technical specifications, project management standards and methodologies, development of detailed project plans including budgeting, managing execution of work plans and project management systems, and directing and coordinating the activities required of both technical and non-technical project staff. This position will help create and implement all policies impacting all phases of NG 9-1-1. This position will determine whether 9-1-1 software or equipment updates and/or modifications are required throughout the State. This position is mission critical for the success of NG 9-1-1.

Agency Request
 Governor’s Budget
 Legislatively Adopted

2019-2021

107BF02

BUDGET NARRATIVE

Position 0019047 9-1-1 Project Portfolio Manager Information Systems Specialist 8: This is the statewide NG 9-1-1 Project Portfolio Manager for the OEM NG 9-1-1 Program that includes primary oversight of both Legacy and NG 9-1-1 projects. This position is responsible for providing management, leadership and coordination of a statewide approach for implementing NG 9-1-1 Core Services for Oregon’s 43 Public Safety Answering Points (PSAPs). The Project Portfolio Manager leads program staff assigned to manage and coordinate agency projects. This position defines, implements and maintains project portfolio management processes using a Project Management Body of Knowledge (PMBOK) based project management methodology containing well defined and documented processes, templates, and guidelines for all project phases. This position oversees the effective planning, execution and closeout of projects. This position monitors, measures and reports on resource planning and utilization across the 9-1-1 portfolio of projects. This position manages project intake, prioritization and governance processes. This position is mission critical for the success of all project work performed within the 9-1-1 section.

2. **How Achieved** – Continual support of critical long term needs of the 9-1-1 program would be achieved by converting the two 9-1-1 Limited Duration positions to permanent status will ensure the high level technical needs of the emergency management systems are maintained and enhanced for the most effective response and situational awareness functionality.
3. **Staffing Impact** – Establish 2 positions – 2.00 FTE
4. **Quantifying Results** – Results in the state’s emergency management system are measured by how well the state responds to emergencies and disasters and the ongoing development of statewide capabilities. The ability to provide effective response is driven by staffing, technical expertise, developing plans, training staff, and exercising plans. Additional quantifying results would be a reduction in audit findings and the associated cost of reimbursing FEMA for funds that were not deemed eligible. The state must reduce its reliance on federal funding to achieve the level of flexibility necessary to enhance the state’s capacity to respond to and recover from disasters. It is clear from current efforts at the federal level that a greater level of the burden will be shifting to the states in the future. This would be the first significant effort by Oregon to anticipate and meet those needs while there is still time to develop a strategic solution for those requirements without undue pressure or time sensitivity. Additional quantifying results will be reflected in an immediate increase in customer service. There would be greater flexibility within the office to utilize staff to help our local partners that are not currently provided for under our existing funding structure.
5. **Revenue Source** - \$487,724 Other Funds (9-1-1 Revenue)

Governor recommended.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OFFICE OF EMERGENCY MANAGEMENT
POLICY PACKAGE 305
OEM FUND SHIFT OF DIRECT POSITIONS
PRIORITY 15

1. **Purpose**– This Policy Package requests a fund shift for eight (8) OEM positions and reclassification of position number 0013017 Geographical Information System (GIS) Program Coordinator from an ISS-5 to an ISS-7 as detailed in the chart below. The central purpose of this request is to change the funding source of certain staff from Federal Funds provided by Homeland Security Grant Program (HSGP) and 9-1-1 program Other Funds to General Funds. Due to the work performed by these positions, and restrictions of use for federal grant funding, General Fund is the most appropriate source of financing. Oregon Secretary of State Report No. 2018-03 “Office of Emergency Management: The State Must Do More to Prepare Oregon for a Catastrophic Disaster” recommends OEM continue to advocate for resources through the state budget process to be able to fulfill its role as the state’s emergency management coordinator. This policy package request is tied to that recommendation. The over reliance on Federal and Other Funds within OEM significantly constrains non-administrative program staff to engage in non-federal emergency related activities due to eligibility or appropriateness of federal resources used to support these positions.

Recent federal audits of OEM grants have resulted in significant findings and recommendations, including multiple seven-figured repayment of costs from prior years deemed ineligible for reimbursement by FEMA and/or The Office of the Inspector General. Fund shifting these employees from Federal to General Funds reduces future audit risk and further financial liability. A secondary benefit is an increased flexibility of the agency and its ability to provide more effective and timely customer service to stakeholders. Due to the extensive requirements and limitations inherent to expending federal funds, OEM must reduce its reliance on those funds to gain flexibility needed to operate in an effective and efficient manner. Lastly, this package will enable OEM to proactively respond to anticipated future program changes at the federal level. It is clear from recent developments that states will be required to shoulder a greater share of the financial burden for disaster response and recovery efforts in the future. Reducing an over-reliance on federal funds will enable OEM and the State of Oregon to be more responsive and strategic when developing program operations based upon whatever federal resources are available. General Fund is the most appropriate funding source for this policy package. Without somewhat regular disasters occurring in Oregon, and the Federal Funds that accompany them, OEM will risk becoming insolvent.

0013017	Information Systems Specialist 5	C1485	Fund Shift / Reclass From			(\$214,995)
0013017	Information Systems Specialist 7	C1487	Fund Shift / Reclass To	\$220,737		
Total Personal Services				\$1,749,680		(\$1,749,233)
Mass Transit Tax				\$7,090		
Total Policy Package 305				\$1,756,770		(\$1,749,233)

Position 0013017 GIS & Operation Program Coordinator Information Systems Specialist 5 Reclassification: This position is the statewide support for the enhancement, maintenance, and operation of OEM’s Geographical Information System (GIS) related application “Real-time Assessment and Planning Tool for Oregon” (RAPTOR). RAPTOR is Oregon’s crisis management software, it is a highly specialized database and internet based communication system used in disaster response and recovery operations throughout the state. This position is responsible for the coordination of a statewide approach to utilize and implement OEM’s GIS related software solutions, facilitate data sharing and interoperable communications network for Oregon’s 36 counties, 9 tribes, Oregon Emergency Response System (OERS) agencies and responding federal agencies. This position has been managing at an enhanced level of responsibility since August 2016 with a work-out-of-class designation.

2. **How Achieved** – Sustaining existing staff would be achieved by shifting funding from the HSGP federal grant funding to General Fund. General Fund then becomes an appropriate source of non-federal match for grants such as Emergency Management Performance Grants (EMPG) which provides the basic infrastructure for emergency management capabilities nationwide. EMPG funding has trended upward during the past three federal fiscal years. While this has provided growth for our partners in local and Tribal governments, a lack of General Fund match Oregon has been unable to add capacity to provide increased support.

3. **Staffing Impact** – N/A

 Governor’s Budget
 Legislatively Adopted

2019-2021

107BF02

BUDGET NARRATIVE

4. **Quantifying Results** – Results in the state’s emergency management system are measured quantitatively by how well the state responds to emergencies and disasters concurrent with ongoing development of statewide capabilities. The ability to provide effective response is driven by adequate staffing, technical expertise, developing, exercising, testing and evaluating emergency response plans. Quantifying results would also be a reduction in audit findings and the associated cost of reimbursing FEMA for expenditures deemed ineligible. The state must reduce its reliance on federal funding to achieve a higher level of flexibility to enhance capacity to respond to and recover from disasters. It is clear from current efforts at the federal level that states will be expected to shoulder more of the financial burden in the future. Additional quantifying results will be reflected in an immediate increase and improvement in customer service. There would be greater flexibility within the office to utilize staff to help our local partners that are not currently provided for under our existing funding structure.

5. **Revenue Source** - \$1,756,770 General Fund, (\$1,749,233) Federal Funds

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OFFICE OF EMERGENCY MANAGEMENT
POLICY PACKAGE 306
OEM EMERGENCY CORDINATION SECTION
PRIORITY 18

1. **Purpose**– This Policy Package establishes ten (10) positions: one Emergency Coordination Section Manager (Principal Executive Manager E), one Emergency Coordination Section Administrative Support (Office Specialist 2), six Oregon Emergency Response System (OERS) Duty Officers (Administrative Specialist 2), one Incident Management Assistance Team (IMAT) Coordinator (Program Analyst 2), one IT Desktop Support Specialist (Information Systems Specialist 4), and \$150,000 in Services & Supplies to generate a cache of equipment and supplies to facilitate rapid disaster response. This staffing request is directly related to findings and recommendations identified in Secretary of State Performance Audit Report No. 2018-03 Office of Emergency Management: The State Must Do More to Prepare Oregon for a Catastrophic Disaster. The report highlights that Oregon is at risk of a major Cascadia earthquake and tsunami that will threaten infrastructure, cost potentially billions of dollars, and result in numerous deaths. The state must do more to prepare for such a disaster including completing and implementing critical plans, fulfilling minimum standards for an effective emergency management program, and adequately staffing the agency charged with coordinating emergency management efforts.
- OEM audit Recommendation 1: Continue to advocate for resources through the state budget process to be able to fulfill its role as the state’s emergency management coordinator.
 - Governor’s Office audit Recommendation 1: Ensure Oregon’s statewide emergency management system has sufficient resources to reduce the state’s vulnerability to disasters. For example, ensure sufficient resources to prevent the loss of the Natural Hazard Mitigation Plan’s enhanced status. Resources include ensuring that OEM is fully staffed in the emergency coordination section and can fully support an activation of the state’s Emergency Coordination Center (ECC).

These resources have been identified continually through focused program monitoring, federal and state audits, shortfalls and suggested improvements identified in exercise after action reports and customer surveys amongst federal, state, tribal, and community stakeholders.

Position 0019061 State Emergency Coordination Section Manager (PEM-E): Oregon Secretary of State Audit No. 2018-03 expressed the need for increased engagement by OEM with Emergency Support Function (ESF) partners to include more detailed guidance on their roles and responsibilities in an emergency. Both Cascadia Rising and 2017 Solar Eclipse After-Action Reports (AAR) highlighted the need for additional staffing and coordination of the state Emergency Coordination Center (ECC). Establishing a full time ECC Section Manager to lead all ECC operations will satisfy those findings. The ECC within OEM is the primary coordination center for all disasters and emergency operations statewide. When the ECC is activated, 33 state agency directors or director representatives convene in the ECC to coordinate emergency response and asset distribution. When OEM staff are called upon to facilitate an ECC activation, all duties and responsibilities unrelated to ECC activation are put on hold. Since this package provides staff specifically for ECC activations, it enables non-ECC activation business to continue uninterrupted. This position will serve as the main Point of Contact (POC) for all state agencies assigned to the ECC, ECC maintenance and updates, and all ECC response activities. The Emergency Coordination Section Manager will be responsible to manage the OERS, OERS

BUDGET NARRATIVE

Council, and day-to-day OERS plans, procedures and development of training and exercises that enhance statewide response and coordination capabilities. This position will manage all staff proposed in this policy option package and additional existing staff that will be determined after OEM rebalances workload following the 2019-21 Legislative session. The Emergency Coordination Section Manager and staff will be responsible for ensuring the State Emergency Coordination Center (ECC) is constantly maintained in a warm status and able to quickly react to incidents throughout the state.

This section will also coordinate with the 18 Emergency Support Functions (ESF) and the more than 33 state and partnering organizations currently identified in ORS.401 in the facilitation on state resources to meet the needs of local communities responding to emergency events and coordinating with the many federal organizations such as FEMA in facilitating response and recovery.

This position will also manage all six OERS Duty officers in the OERS Center responsible for answering all calls for State notification 24/7.

Position 0019048 State Emergency Coordination Section Administrative Support (OS2): Both the Cascadia Rising and 2017 Solar Eclipse AAR's highlighted the need for additional ECC staffing to include administrative support. The state ECC is a large, high capacity facility that requires many hours of setup, room coordination, and partner engagement. This position will serve as the senior assistant to the State Emergency Coordination Section Manager. Job responsibilities shall include reviewing and organizing management emails and schedules, assist in scheduling activations of the ECC with the State Exercise Officer, filing of critical documents necessary to justify ongoing federal funding of the ECC and serve as a recorder for meetings related to State ECC exercises and activations. The position shall also compile information from partner agencies related to AAR's associated with ECC exercises and activations. In addition, assist other Section Managers, the Deputy Director, and the Director as needed.

OERS Duty Officer Positions 0019071-0019076 (AS-2) Six Positions: Oregon Emergency Response Duty Officers provide a critical function to the state, acting essentially as a state level 9-1-1 system. This function requires 24/7/365 coverage. These positions will enable OEM to provide around the clock coverage in the Emergency Coordination Center (ECC).

Position 0019057 IMAT Coordinator (PA2): Disaster response operations require coordination in order to ensure a smooth deployment. The IMAT Coordinator will work with local jurisdictions, state agencies, and other responding organizations to develop IMAT team qualifications and training to develop a list of qualified individuals for IMAT deployment to incidents throughout the state.

Position 0019045 IT Desktop Support Tier 1 (ISS4): Due to the increased levels of staffing and a consistently increasing workload, OEM has a demonstrated need for additional desktop IT Support to improve and maintain efficiency. This position will provide support directly to disaster response, preparedness and partner support efforts, supporting our critical partners in the State ECC, local community systems reliance,

_____ Agency Request X Governor's Budget _____ Legislatively Adopted

2019-2021

107BF02

BUDGET NARRATIVE

and important federal partners such as FEMA, USACE, and SBA during disaster recovery efforts. OEM has struggled with IT services and support during increased activity related to disasters, which can have a significant impact on recovery efforts and our local communities.

Regional Emergency Coordination Center Joint Information Center Support Equipment Cache: OEM is seeking \$150,000 in GF to purchase supplies to assist local communities with emergency equipment and supplies in the critical tasks of initial response, public information management, and education activities in support of disaster response. This cache of supplies will position OEM to provide immediate assistance during response operations where communities need support to supplement the efforts of locals in a prompt fashion. These materials will also allow the initial deployment and support of public information staff to ensure OEM, the Governors’ office, and other state agency partners have the ability to support situational awareness efforts throughout the state. The \$150,000 is included in the total Services & Supplies requested in this package.

2. **How Achieved** – In order to achieve the ever increasing demands and scrutiny on the office, escalating audit findings, and external expectations, OEM seeks to establish these positions in order to develop a more robust system to provide services to our customers, community, and stakeholders responsible for oversight of our operations. These positions will provide a more focused and consistent level of capability and service to our partners in all critical areas.
3. **Staffing Impact** – Establish 10 positions -10.00 FTE.
4. **Quantifying Results** –Quantifying results will be evident in terms of output, as each of these positions provides direct engagement in one or more critical areas of operations for OEM. The office will analyze the agency and determine if any internal metrics or tracking is needed to further assess effectiveness of the implemented solution.
5. **Revenue Source** - \$1,684,362 General Fund.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
OFFICE OF EMERGENCY MANAGEMENT
POLICY PACKAGE 307
OEM DISASTER LOAN AND GRANT ACCOUNT
PRIORITY 24

1. **Purpose** – This policy package requests \$1,000,000 General Fund for deposit into the Oregon Disaster Loan and Grant Account. It also requests \$1,000,000 Other Funds limitation to allow expenditures from that account to local governments and school districts following disasters.

Authorized in ORS 401.536, the purpose of the Disaster Loan and Grant Account is to provide state financial assistance to local governments and school districts for disaster recovery and/or mitigation. The funds can be used as part of the local government’s non-federal match for FEMA disaster grants (typically 25%), and for costs incurred by local communities in response to disasters, either federally declared or not federally declared.

Traditionally, the fund is left with a low to zero balance, and is only funded for specific projects, such as assistance to the Vernonia School District for the elementary school damaged by the December 2007 flood. The account has not received new funding since the 2013-15 biennium and currently has a zero balance.

This policy option package would permanently assign funds of \$1,000,000 into the account. This would provide several advantages. First, because there would be investment by the state, local communities would not have to wait for assistance at the federal level. The State of Oregon could also provide funding to match federal funds awarded from a disaster much more quickly and be responsive to the needs of the communities impacted by disaster. Second, this investment is a clear, transparent display to both Federal Emergency Management Agency (FEMA) and the citizens of the state, of Oregon’s commitment to help with disaster recovery. Lastly, it protects Oregon from future funding or policy changes at the federal level, where there have been a number of discussions about how disaster assistance will be funded in the future. It is likely that additional investment by the states will become a larger factor than it has in the past.

2. **How Achieved** – Legislative approval of this package will allow the General Fund to be transferred to the Other Funds Disaster Loan and Grant Account to be available to local communities upon request. This package directly supports the Governor’s priority of Healthy and Safe Communities by setting aside state funds specifically reserved for communities following disasters.
3. **Staffing Impact** – None.

Oregon Military Department – Community Support Program – Executive Summary

Primary Long Term Focus Area: Seamless System of Education
 Secondary Long Term Focus Area: Healthy and Safe Communities
 Program Contact: Dave Stuckey, OMD Deputy Director (503) 584-3985

Program Overview

The Military Department’s Community Support Program offers a full spectrum of educational opportunities for the at-risk youth of Oregon. These opportunities are provided by the Oregon Youth Challenge Program in Bend and the STARBASE programs in Portland and Klamath Falls. Their goal is to provide the at-risk youth of Oregon an opportunity to build a future through education, structure and support.

Agency Request
 Governor’s Budget
 Legislatively Adopted
2019-2021

Program Funding Request

The Governor’s Budget (GB) for the Community Support Program within the Oregon Military Department includes expenditure authority of \$620,769 General Fund, \$4,099,771 Other Funds and \$14,685,135 Federal Funds. The 2019-21 GB includes 86 positions and 80.82 FTE. The goal of this budget is to increase state and federal budgetary resources to reflect the anticipated growth within the Community Support Program. Current operations within the Community Support Program tie directly to the Governor’s focus area of “Seamless System of Education” regarding focusing investment on student outcomes. The component programs which make up the Community Support Program include STARBASE, the Youth Challenge Program, and Emergency Operations. This Executive Summary focuses on the educational programs within Community Support: Emergency Operations is discussed in more detail in the Community Support Program narrative.

Continued investment in the Community Support Program will provide an opportunity for high school dropouts who have failed in a traditional school environment to complete their education and become valuable, productive members of society. This investment will also help keep young students focused on the need to continue their education as well as pursue studies in the core sciences. Increasing the number of permanent positions in the STARBASE program will ensure continuity in STEM education delivery to elementary and middle school students in Klamath Falls and Portland.

Program Description

The Community Support program includes two educational program areas, the Oregon Youth Challenge Program (OYCP) and the Science and Technology Academies Reinforcing Basic Aviation and Space Exploration program (STARBASE). Both of these programs directly support the Governor’s focus area of “Seamless System of Education” by educating at-risk youth, sparking interest in Science, Technology, Engineering and Math (STEM) at STARBASE, and in the case of OYCP, redirecting them toward a positive and productive future.

Located in Bend, the Oregon National Guard Youth Challenge Program (OYCP) serves 16 to 18 year old male and female dropouts who have struggled to succeed in a traditional high school environment. The OYCP is Oregon’s only public *statewide* quasi-military based high school, which includes supervised work experience in community service and conservation projects. The program is fully accredited by the Northwest Accreditation Commission through the year 2020, and is a statewide public alternative high school. The OYCP is a residential 22 week program where students are provided all services 24 hours a day 7 days a week. The residential phase is followed by a 12 month post-residential phase which includes providing each graduate with a mentor. Two classes per year are conducted, serving 312 youth and graduating a minimum of 250 students each year. The OYCP within the Community Support Program has been recognized by the National Guard Bureau as the one of the “Best Overall Challenge Programs” several times since 2001. The program began an expansion project in fall 2017 using Article XI-Q bonds approved by the 2015 Legislature to provide the infrastructure to house an additional 84 students per class (24 females and 60 males) to better meet demand.

The educational services of the OYCP are implemented through the use of an accredited high school curriculum taught by certified teachers approved by the Oregon Department of Education. The OYCP provides outreach to school districts in all 36 counties about alternative education opportunities.

Agency Request Governor’s Budget Legislatively Adopted

2019-2021

OYCP provides on-site and off-site orientations to interested applicants and their families, as well as training for mentors and mentees for the post residential phase of the program. The program also maintains ongoing service to community partnerships through student volunteer services, as well as scholarship opportunities for graduating students. 100% of graduating students earn either a high school diploma, a GED certificate, or 8 certified high school credits to take back to their communities to re-enroll in their hometown high schools.

The success of the Community Support program depends heavily on the utilization of partnerships. At the local level the OYCP partners closely with local contractors for medical services, Bend LaPine School District for teaching services, and High Desert ESD for auditing services. OYCP partners with non-profit organizations and local industries to take part in the programs semi-annual career fair. The OYCP partners primarily with the Department of Education at the state level. The OYCP partners with the National Guard Bureau. The National Guard Bureau provides 75% of operational funding for the OYCP. The STARBASE Program partners with local school districts for contracted teaching services at both airbases.

The major cost drivers of the Community Support Program have been identified as Personal Services Costs, Student Meal Related Costs and DAS fees. For the OYCP Personal Services, including contracted teaching and medical staff, account for 74% of annual operating costs, Food Related Costs account for 11%, and DAS fees 6% of annual operating costs, according to the 2018 program budget submitted to National Guard Bureau.

The STARBASE Program exposes third to eighth graders to the fields of Science, Technology, Engineering and Mathematics (STEM) with the hopes of inspiring them to pursue a career in these fields. This is done through the use of a highly acclaimed 25 hour curriculum taught by the program's teaching staff, who are comprised of limited duration and temporary employees in the 2015-17 biennium. Policy Package 402 requests 12 permanent positions which will add continuity to the program. The program is focused on capturing student interest in STEM at the elementary and middle school levels and showing them why studying these courses is important to their future goals. The program is 100% federally funded and hosts approximately 2,100 students each year at the Portland Airbase and the Kingsley Field Airbase in Klamath Falls.

Program Justification and Link to Long Term Outcomes

The vision of the Community Support Program through the Oregon Youth Challenge Program (OYCP) and the STARBASE Programs is to be the premier program serving at-risk youth and those who are not likely to succeed in the traditional school setting, while creating economic value, long term cost avoidance, civic contribution and future responsible tax paying citizens of Oregon. The Community Support vision primarily supports the focus area of "Seamless System of Education."

The mission of the Community Support Program is to provide opportunities for personal growth, self-improvement and academic achievement among at-risk third through eighth graders (STARBASE), and teens no longer attending or failing in high school (OYCP), through a highly structured non-traditional environment; integrating training, mentoring and diverse educational activities.

Agency Request Governor's Budget Legislatively Adopted

2019-2021

The Community Support Program was built specifically to help the youth of Oregon who are most at-risk of being left behind by the traditional educational system. The curriculum of both the Oregon Youth Challenge Program (OYCP) and the STARBASE programs emphasize the importance of math and science. The Community Support Program through the OYCP utilizes a work skills program which provides training in conjunction with public works and community service projects. Students at OYCP have worked with Oregon State Parks and U.S. Forest Service, among others, on community service projects which provide exposure to a vast array of career fields. This community service provided approximately \$250,000 per year in benefits to the participating agencies during the 2015-17 Biennium.

In the 2015-17 biennium, the graduation rate at OYCP averaged 92%. Approximately 8% of the students that graduated earned their High School Diploma while 3% passed the GED test. The remaining 89% of the graduating students participated in the high school credit curriculum, of which 100% earned 8 credits allowing them to fully integrate back into their local high school. The cost per student in 2017 was \$21,052, of which the state paid \$5,263 the remainder was financed through federal funds.

The Community Support Program has secondary ties to the Governor's focus are of "Healthy and Safe Communities" by steering vulnerable youth away from entering the public safety system. Both the OYCP and the STARBASE program were developed to provide this service to the youth of Oregon, and both provide this critical service for little cost to the state.

Agency Request Governor's Budget Legislatively Adopted

2019-2021

Program Performance

This chart shows OYCP student-cadets enrolled and graduated over the past ten years, from July 2008 to June 2018.

July 1999 was the first year the Oregon Youth Challenge Program (OYCP) was classified as a “Full Service Youth Challenge Program.” Since that date the OYCP has accepted 5,776 students, of which 5,187 completed the 2 week acclimation phase and began classroom enrollment. 4,513 graduated for an overall graduation rate of 87%. The average cost per student in 2017 was \$21,052 per year. 75% of this cost is financed through federal funds

Agency Request
 Governor’s Budget
 Legislatively Adopted

2019-2021

from the National Guard Bureau. The cost per student to the state of Oregon was \$5,263 in 2017. This was 27% less than the average cost per student in Oregon public schools, which in 2016-17 was \$7,251.

The retention and target graduation rates at OYCP of 250 per year exceed national standards. On average, students leaving OYCP have increased their basic education by over 2 grade levels during the residential phase (evidenced by “Test of Adult Basic Education” (TABE) scores). OYCP exceeds national standards graduating over 250 students each year. Other Fund revenue is generated from the State Basic School Support fund on a per student count and is used along with National School Lunch claimed funds to leverage the Federal Funds match of 75%.

Enabling Legislation/Program Authorization

The Community Support Program is a division of the Oregon Military Department which is mandated by Article X of the Oregon Constitution. The National Guard Youth Challenge Program was created to provide opportunities for civilian youth and is authorized by Section 509, Chapter 5 of Title 32, United States Code. The authority for all National Guard Youth Challenge Programs in the nation falls under the Secretary of Defense, acting through the Chief of the National Guard Bureau (NGB), who has entered into an agreement (as described in 31 USC Sect. 6305) with the Governor of the State of Oregon. The OYCP agreement was established in 1994 and is currently funded through 2018.

The OYCP utilizes a citizen member Advisory Board. The board’s primary role is to meet a minimum of twice per class as an oversight group to ensure the program meets the state plan and Federal Master Cooperative Agreement. It too serves as a conduit to the local community to ensure local citizens are aware of the program and preserve quality community relations. The board advises the Adjutant General of Oregon through the Deputy Director for the Military Department.

The STARBASE program is authorized and approved through a Congressional Appropriation.

Funding Streams

In the 2019-21 Current Service Level budget, the OYCP is funded by General Fund (1%), Other Funds (25%) and Federal Funds (74%). The Other Funds include State Basic School Support (20.1%) and National School Lunch Meal Reimbursement (2.4%). The State Basic School Support funds are dedicated per ORS 336.615 – 336.675 and OAR 581-22-1350. The National School Lunch Meal Reimbursement funds are dedicated per PL 79-396 60 Stat.230 and PL 108-269, as well as ORS 326 & 327 and 7 CFR 210 and finally OAR 581-051. The Federal Funds carry a matching requirement of 25%, which is made up of General Fund and Other Funds. The Federal Funds are dedicated per Section 509 Chapter 5 of Title 32, United States Code. The STARBASE program is funded with Federal Funds (100%) which are fully dedicated.

Agency Request Governor’s Budget Legislatively Adopted

2019-2021

Significant Proposed Program Changes from 2017-19

The proposed budget for the Community Support Program reflects growth from the 2017-19 Legislatively Approved Budget. The OYCP started an expansion project in the fall of 2017 using \$4,977,000 Article XI-Q bond funds to expand and remodel the facility, which will allow up to 84 more students per class: 24 females and 60 males. The goal of the expansion is to accept additional students to better meet demand. The additional students will be phased-in, 24 females in the January – June 2020 class and an additional 60 males beginning in July 2020. Policy Package 401 requests 14 additional positions, an increase in General Fund appropriation, and increased operational limitation. If the package is approved, OMD estimates the number of graduating students will increase by 165 in 2019-21 biennium. **The Governor recommended Policy Package 401, but reduced the General Fund portion from \$500,000 to \$444,000.**

STARBASE is requesting one additional permanent positions in Policy Package 402 to assist the Portland Air National Guard Base classrooms. The program is planning an expansion to a third site at Camp Rilea on Oregon’s northwest coast. Two existing positions would be transferred from Portland to Camp Rilea should the new site be established. **The Governor recommended Policy Package 402.**

2019-2021

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT COMMUNITY SUPPORT PROGRAM

The Community Support Program includes the STARBASE Program, the Oregon Youth Challenge Program, and the Emergency Operations Program.

STARBASE - The Oregon National Guard Science and Technology Academy Reinforcing Basic Aviation and Space Exploration (STARBASE) Program is designed to increase at-risk third through eighth grade students' awareness of the importance of math and science in today's high-technology work environment.

STARBASE involves a series of hands-on classes taught for the Portland Public School District at the Portland Air Base and for the Klamath County School District at Kingsley Field. The goal of the program is to motivate at-risk students to pursue math and science education. The curriculum demonstrates math and science applications in aerospace operations. In many instances, this is the first opportunity the students have to relate the application of math and science to a tangible result. Students tour the airbase and study high technology aircraft and associated support equipment. They observe flight operations, weather reporting and forecasting operations, and tour aircraft and electronics maintenance facilities and fire fighting facilities. Oregon National Guard members demonstrate applicability of math and science to the activities observed by the students during their tours. Over 20,000 students have participated in this 100% federally funded program. Base budget funding provides services and supplies for operations.

Youth Challenge Program - The Oregon National Guard Youth Challenge Program (OYCP) offers high school dropouts and students failing at traditional high schools the opportunity to build a future. The program has 46 state employees working as counselors, group life coordinators, and support/administration staff. The program also contracts 6 teachers and 1 medical provider.

The program consists of two phases. The first phase is a 22 week residential program at the Oregon National Guard Central Oregon Training and Education Facility (COTEF) in Bend, Oregon. Students learn self-discipline, leadership, responsibility, and work skills that enable them to be successful in society. Students have the opportunity to complete educational credits with a goal of reintegrating into high school, earning a diploma, or to prepare for and take the General Educational Development (GED) examinations.

The second phase of the program is a 12 month nonresident program. Program continuity is provided in this phase by incorporating positive role models from the community as mentors to the students. The mentors help students continue efforts to meet educational and/or career goals set by the student during the residential phase. This furthers student independence by making it possible to meet personally set goals and provide the groundwork to build productive and contributing Oregon citizens.

2019-2021

J:\21 Budget\Gov Rec\004 Comm Support\4Nar.docx

BUDGET NARRATIVE

Students must be 16-18 years old and have dropped out of school or are failing high school. The student must be an Oregon resident, free of drugs, and not currently in the court system. The curriculum combines classroom work, community service, and challenging individual and team activities into one experience. Other major areas of instruction include health and drug abuse awareness, leadership, self-discipline, personal development, physical fitness, and basic work skills. All students participate in local community projects to encourage personal growth and development. Students have the opportunity to complete educational credits toward high school graduation or a GED certificate.

During the 2015-17 Biennium, the program averaged a 92% graduation rate. Approximately 8% of the students that graduated earned their High School Diploma while 6% participated in the GED program, of which 58% passed all portions of the examinations. The remaining 86% of the graduating students participated in the high school credit curriculum, of which 100% earned 8 credits allowing them to fully integrate back into their local high school. In 2017, the State of Oregon paid \$5,263 for each student who received continuous schooling, goal setting, and community service in a team environment on a 7 day a week and 24 hour basis throughout their residential class at OYCP. Over 21% of the students enrolled in Oregon Youth Challenge are Individual Education Planned (IEP) special needs students.

The work skills portion of the program involves training in conjunction with public works and community service projects for the U.S. Forest Service, Bureau of Land Management, Oregon State Parks, Oregon Special Olympics, Oregon Chapter of the Alzheimers Association, Habitat for Humanity and Central Oregon Humane Society. During the 2015-17 Biennium the students provided an average of 12,159 hours of volunteer community service per class. At minimum wage of \$10.25 per hour this equates to \$124,631 per class or \$249,262 per year benefit to these agencies.

In 2010 Congress changed funding for the Youth Challenge Program from 60% federal and 40% state to 75% federal and 25% state. The majority of the funds required for state match are received from Average Daily Membership Other Funds revenue through the Bend-LaPine School District and the National School Lunch Program.

Youth Challenge is Oregon's only statewide public alternative high school. The Youth Challenge program partners with and accepts students from every school district and all 36 counties in Oregon. For the 2015-17 Biennium students attending OYCP came from 191 different high schools and 28 counties throughout the state with an average GPA of 1.3 at the entrance to the program. 100% of the students who graduate earn either a high school diploma, a GED certificate, or 8 Oregon certified high school credits to take back to their communities to re-enroll in high school. The Youth Challenge program is certified by the Oregon Department of Education and is accredited by the Northwest Accreditation Commission.

The Oregon Youth Challenge Program has received numerous citations for excellence and recognition for outstanding public service. In 2001, 2003, and 2007 Oregon's Youth Challenge Program was recognized as the Best Overall Youth Challenge Program in the United States. The recognition program was discontinued by the National Guard Bureau in 2009.

BUDGET NARRATIVE

Emergency Operations – The Emergency Operations Program provides critical manpower and equipment support for emergencies in Oregon when called upon by the Governor, the Commander-in-Chief of the Oregon National Guard. Responding to state emergencies is part of our core mission:

“The Oregon National Guard will provide the citizens of the State of Oregon and the United States with a ready force of citizen soldiers and airmen, equipped and trained to respond to any contingency, natural or man-made. When we are needed, we are there.”

The Oregon National Guard has highly trained personnel and various items of equipment provided by the Federal Government located throughout the state and available for response and recovery to natural disasters, Homeland Defense, or civil unrest.

Wildfire suppression is the main activity performed by Oregon National Guard members, who are called to state status nearly every year by the Governor. 2017 was one of the largest activations for wildfire suppression, with over 900 members activated to several fires across the state, 528 of which received red card training to assist at the fire line. State employee resources using federal equipment from the Kingsley Field Fire Department were called for assistance to protect structures through the Conflagration Act under the management of the State Fire Marshal.

The Oregon National Guard has also been activated to respond to flooding in Vernonia (2007), Tillamook (2008), Burns (2011, 2017) as well as snow removal in Detroit and Idanha (2008) and medical transport assistance during a winter storm in The Dalles (2017). During the August 2017 solar eclipse, 155 Guard members were activated to support local communities with traffic control and medevac support. Most recently, 40 Guard members distributed clean drinking water to Salem and Turner residents in May and June 2018 during a drinking water contamination advisory caused by blue-green algae in Detroit Lake.

Soldiers and Airmen become temporary state employees while on State Active Duty in response to disasters and emergencies. Because natural disasters, emergencies and associated State Active Duty requirements cannot be foreseen, there is minimal limitation in the Emergency Operations Program. Instead, the Oregon Military Department requests General Fund appropriation and Other Funds limitation at Emergency Boards after such operations occur. The Command Group, Financial Administration Division, and the Personnel Office as part of the Administration Program absorbs the increased workload, overtime, and/or temporary hire assistance associated with the management and administrative support required during emergency response operations. The General Fund appropriation and Other Funds limitation increase in result of emergency operations is not carried forward each biennium.

Expected Results of the 2019-2021 Budget:

The STARBASE Program will continue to support Oregon youth through academic and practical application of mathematical and scientific principles. STARBASE increases third through eighth grade students’ awareness of the importance of math and science. The program will impress upon students the need to continue their education as well as pursue studies in the core sciences. The program motivates at-risk students to become a valuable resource for Oregon's future. Policy Package 402 requests 12 new positions to replace previously contracted teaching staff.

J:\21 Budget\Gov Rec\004 Comm Support\4Nar.docx

BUDGET NARRATIVE

The Youth Challenge Program will continue to support Oregon youth through academic and motivational goal setting. The program provides an opportunity for high school dropouts to complete their education and become valuable, productive members of society. The program supports efforts to prevent potential juvenile offenders from becoming adult career criminals. In doing so, the Youth Challenge Program will help the State of Oregon to realize savings that would otherwise be spent incarcerating and rehabilitating many of these young citizens in the future. An expansion project began in fall 2017 using \$4,977,000 Article XI-Q bonds. The project will enlarge the facility to accommodate up to 84 additional students per 22 week residential class: 24 females and 60 males. The program is planning a phased approach in which the 24 additional females will be on-site beginning in January 2020. The 60 additional males would arrive July 2020. Policy Package 401 requests 14 positions beginning in April 2020 along with increased limitation for General Funds, Other Funds and Federal Funds.

Revenue Sources:

STARBASE - The STARBASE Program is 100% federally funded through a National Guard Bureau (NGB) Federal/State Cooperative Agreement. There are no required matching funds. The funds may only be used to support the program. Revenue estimates are based on NGB forecasts of future funding levels. There are no proposed changes in revenue sources.

Youth Challenge Program - Congress changed funding for the Youth Challenge Program to 75% federal and 25% state in 2010. The federal funds are received through a NGB Federal/State Cooperative Agreement, and may only be used to support the program. Federal revenue estimates are based on NGB forecasts of future funding levels. The majority of the required state matching funds is received from Average Daily Membership Other Funds revenue through the Bend-LaPine School District and the National School Lunch Program. The remainder of the matching funds is received from the General Fund. As the program grows and staffing increases to meet the Cooperative Agreement requirements, additional General Fund is needed to support the program.

Emergency Operations Program - The Emergency Operations Program provides critical manpower and equipment support for emergencies in Oregon when called upon by the Governor, the Commander-in-Chief of the Oregon National Guard. The Oregon National Guard has highly trained personnel and various items of equipment provided by the Federal Government located throughout the state and available for response and recovery to natural disasters, Homeland Defense, or civil unrest. This program is normally funded with Other Funds reimbursements from the Department of Forestry in the event of wildfire suppression.

Essential Packages:

010 – Inflation on non-PICS personal services and vacancy factor adjustments (expected vacancy savings in the 2019-21 biennium) – \$6 General Fund, \$63,738 Other Funds, \$266,817 Federal Funds. **Governor recommended.**

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT COMMUNITY SUPPORT PROGRAM ESSENTIAL PACKAGES

1. **Purpose** - Essential Packages adjust the base budget to reflect the agency's 2019-21 current service level requirements.
2. **How Achieved** – The following Essential Packages adjust the Community Support Program's base budget to reflect 2019-21 current service level requirements:

010 - Adjusts projected vacancy factor budget savings expected from staff turnover in the 2019-21 biennium. The package also adjusts the costs of non-PICS personal services items not included in the PICS generated total. Non-PICS personal services items include debt service on the Pension Obligation Bonds (POB). The package increases General Fund \$6, increases Other Funds \$63,738, and Federal Funds \$266,817.

022 – This package phases-out (\$5,442,829) one time Other Funds limitation authorized by the February 2018 Legislature in House Bill 5201, Section 36. The expenditure limitation covered costs resulting from the state activation of ground troops and flight crews for wildfire suppression in 2017;

031 - Provides a general inflation increase for Services and Supplies costs. The package also adjusts State Government Service charges to reflect 2019-21 changes. The package increases General Fund \$8,250, increases Other Funds \$23,259 and decreases Federal Funds (\$95,538).

3. **Staffing Impact** - None.
4. **Revenue Source** - General Fund is increased \$8,256, Other Funds are decreased (\$5,355,832) and Federal Funds are increased \$171,279.

Governor recommended.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
COMMUNITY SUPPORT PROGRAM
POLICY PACKAGE 090

1. **Purpose**– This Policy Package was added by the Governor. It makes the following budgetary adjustments:
 - a. (\$8,283) General Fund to remove standard inflation on most Services and Supplies accounts (General Fund only); and
 - b. (\$20,561) General Fund and (\$61,683) Federal Funds Services and Supplies reduction in the Youth Challenge Program.
2. **How Achieved** – General Fund appropriation is decreased (\$28,844). Federal Funds limitation is decreased (\$61,683).
3. **Staffing Impact** –None.
4. **Revenue Source** – (\$28,844) General Fund, (\$61,683) Federal Funds

Added by the Governor.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
COMMUNITY SUPPORT PROGRAM
POLICY PACKAGE 401
YOUTH CHALLENGE PROGRAM EXPANSION PHASE 2
PRIORITY 8

1. **Purpose** – This Policy Package requests the establishment of 14 permanent positions, two contracted teacher positions, and increased Services and Supplies limitation for the Oregon Youth Challenge Program (OYCP). The positions and limitation increases requested in this package are needed to support an increased number of students (from 156 to 240 per class) once the planned facility expansion project is completed. The current capacity of the facility is limited to 156 students per class (2 platoons of 60 males each and one platoon of 36 females).

The OYCP is highly successful and is a voluntary program for students between 16 and 18 years old who are failing traditional high school. The intensive curriculum combines classroom work, community service, and challenging individual and team activities into one experience. There are two phases: a 22 week residential phase and a 12 month non-residential phase. The students, known as “cadets,” can earn their high school diploma, a GED, or academic credits and return to their high school. Over the past 14 years, students have increased an average of 2 grade levels during the residential phase. Over 5,100 students have graduated from Oregon’s program since the program began in 1994. OYCP has a primary link to the Governor’s focus area of “Seamless System of Education” by educating students who are at risk of dropping out of school. Secondly, the program links to the focus area of “Healthy and Safe Communities” by steering youth toward a productive and positive future and away from crime, poverty and public assistance. Nationally there are 40 programs in 28 states, the District of Columbia, and Puerto Rico.

The 2015 Legislature approved \$4,977,000 Article XI-Q bonds to be sold in the spring of 2017 to fund an expansion of the facility. Its purpose is to increase capacity for 84 additional students per 22 week residential class: 24 females and 60 males. Project delays have pushed the completion date to December 2019. The program is planning a phased approach for increasing the number of students: Phase 1 will bring 24 additional females beginning January 2020 and Phase 2 will accommodate 60 additional male students beginning July 2020.

This request for 14 additional positions will support the 60 additional male cadets. The number of positions is based on the student to staff ratios written in the Master Cooperative Agreement between the State of Oregon and the federal government. The new positions will be phased in effective 1 April 2020 for on-site training while a class is still in session. For the 3 month period of April – June 2020, these staff costs must be paid with 100% state funds, as Average Daily Membership (ADM) Other Funds revenue and Federal Funds revenue from the cooperative agreement will not increase until the additional cadets are enrolled and onsite. The estimated 100% state payroll cost for the 3 month start-up for 14 new positions is \$244,000 General Fund. OMD is requesting this as Services and Supplies to avoid unusual fund splits that would have to be corrected the following biennium.

2019-2021

J:\21 Budget\Gov Rec\004 Comm Support\4POL 401.docx

107BF02

Budget Page 334

BUDGET NARRATIVE

On an informational note, the 13 new positions approved in the 2017-19 biennium for Phase 1 (24 additional females arriving January 2020) will be hired October 2019 so that they can receive training while the previous class is still onsite. Their 3 month start-up costs will be funded with Other Funds beginning balance using Other Funds limitation that carried over for this purpose from the 2017-19 biennium. The Other Funds beginning balance is insufficient to pay for the second start-up period for the 14 additional positions requested in this policy package.

This Policy Package also requests \$256,000 General Fund and \$768,000 Federal Funds for increased operational Services and Supplies costs including food, clothing, hygiene supplies, contracted teachers, medical provider and utilities, for the expanded program.

BUDGET NARRATIVE

Group Life Coordinator 3 – 1 position

This position supports the Group Life Supervisors (GLS) in providing leadership and guidance to a platoon up to 60 students and GLC2 staff assigned to the platoon. The GLC-3 is expected to fill a leadership role at all times within the company, and work closely with GLS to ensure Policy and SOP's are complied with. The GLC-3 assists in decision making for how platoon activities will be carried out. The GLC-3 enforces platoon standards and guidelines.

Group Life Coordinator 2 – 9 positions

These positions are responsible for 24 hour care, control, safety, security, training, and guidance for all the students in the program.

Group Life Supervisor – 1 position

This position provides supervision for cadre line staff and students, leads a platoon of students and provides facility supervision during non-traditional hours, evenings, weekends and holidays. The GLS determines the response, methodology and procedures during emergency situations. GLS's act on behalf of senior management when senior managers are not present, providing leadership and direct supervision for cadre who supervise the students at OYCP.

Case Manager – 1 position

This Administrative Specialist 1 position monitors approximately 40 students. During the 22 week residential phase the case manager assists students in career development, conducts mentor / student training and the Mentor Match Ceremony. During the 12 month post residential period the case manager coordinates reporting, validates data, develops resources and problem solves issues between mentors and students.

Cook 1 – 1 position

This position prepares and serves institutional meals for all students and staff that reside and work at the Oregon Youth Challenge Program.

Admissions/Post Residential Coordinator – 1 position

This Program Analyst 1 position is responsible for recruiting and admissions of potential students for the program. This occurs through contact with school district officials, non-profit organizations, government services and other agencies that foster alternative programs for Oregon's youth. Student enrollment has a direct relationship to program funding levels.

Reclassification of Procurement and Contract position

This position performs purchasing of supplies and services necessary to operate the program. In the Base Budget, it is classified as a Procurement and Contract Assistant. However, a recent classification review approved by DAS determined that it should be a higher classification, a Procurement and Contract Specialist 1.

BUDGET NARRATIVE

2. **How Achieved** – The establishment of 14 new positions, increased General Fund and increased Other Funds and Federal Funds limitation will allow the OYCP to successfully accommodate an increased number of students beginning in the 2019-21 biennium. This package directly supports the Governor’s “Seamless System of Education” priority by allowing a greater number of at-risk youth to attend this valuable educational and life-skills program and build positive and productive futures.
3. **Staffing Impact** – Establish 14 new positions – 8.82 FTE
4. **Quantifying Results** – The results of this policy package will be measured by Key Performance Measure #5: Percent of youth who complete the academic phase of the program with a GED, high school diploma or credit recovery at graduation.
5. **Revenue Source** - \$500,000 General Fund, \$305,185 Other Funds (ADM revenue), \$1,683,492 Federal Funds.

Governor recommended with modification: reduced General Fund to \$444,000.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
COMMUNITY SUPPORT PROGRAM
POLICY PACKAGE 402
STARBASE POSITION
PRIORITY 10

1. **Purpose**— This Policy Package requests one permanent position for the STARBASE Program. STARBASE Oregon began in 1993 when Congress allocated funds for seven Department of Defense STARBASE Academies. It has since grown to 56 sites in 40 states. STARBASE is a Science Technology Engineering and Math (STEM) education program for underrepresented 5th graders that provides 25 hours of stimulating hands-on, minds-on instruction. The technology-rich military environment affords the student the opportunity to experience a first-hand “real world” application of STEM skills and provides the underlying foundation for STARBASE. STARBASE Oregon will serve approximately 2,600 youth in Federal Fiscal Year 2018. It is funded with 100% federal funds through a cooperative agreement with the National Guard Bureau. The Oregon program has been recognized as one of the best in the country.

Oregon Public Schools are required to teach to Common Core standards (Language Arts and Math) in order to maintain school funding. The result has been an absence of Science, Technology and Engineering curriculum in the elementary public schools. This has been a significant handicap for 5th grade students as they are required to take a State Science test. The impact is even more significant for Title I (underrepresented) students who do not have access to after school Science programs. The science education gap further feeds the already high demand in Oregon for the STARBASE Academies.

There are two Oregon Academies: STARBASE Kingsley and STARBASE Portland.

1. STARBASE Kingsley in Klamath Falls, in a predominantly rural area, boasts the distinction of serving every 5th grade student in the Klamath basin. In Federal Fiscal Year 2018, the program will accommodate 29 classes for a total of roughly 950 students. Five positions are located at the Kingsley site; three Training and Development Specialist 1 positions, one Teaching Assistant and the program’s Deputy Director.
2. STARBASE Portland is located in a densely populated metropolitan area and serves approximately one-third (1/3) of the qualifying (underrepresented) fifth grade students in the area. In Federal Fiscal Year 2018, the program will accommodate 58 classes for a total of roughly 1,650 students. Current staffing at the Portland site includes the program Director and six Training and Development Specialist 1 positions. The program is working with leadership at the Portland Air National Guard Base to add a third classroom at the base.

BUDGET NARRATIVE

Expansion plans: STARBASE Oregon is planning to expand to a third site at Camp Rilea, a training site on the northwest coast near Warrenton, Oregon. OMD is interested in purchasing a vacant private school building adjacent to the camp that could become the next STARBASE site. If the purchase does not occur, there are buildings currently on base that could also serve as a STARBASE location. The program will move two vacant training positions from the Portland site to Rilea and request one additional Training and Development Specialist 1 position in this policy package to backfill one of the Portland positions. The program estimates it could serve approximately 840 students per year in the Astoria-Seaside area.

Position	Title	Classification	Location	Type	Impact		
					GF	OF	FF
0019040	Training and Development Specialist 1	C1338	Portland	Establish			\$152,456
				Services and Supplies			10,000
				Total Policy Package 402			\$162,456

2. **How Achieved** – The establishment of one additional teaching position at STARBASE will enable the expansion of the program to a third site, furthering crucial STEM education in Oregon.
3. **Staffing Impact** – Establish 1 position - 1.00 FTE.
4. **Quantifying Results** – Pre- and post- testing of STARBASE participants shows substantial improvement in the students’ understanding, interest and ability with Science, Technology, Engineering and Math. Furthermore, Oregon schools have reported that they have noticed a substantial increase in 5th graders who have either met or exceeded the standard on the State Science assessment after attending STARBASE Oregon.
5. **Revenue Source** – \$162,456 Federal Funds.

Governor recommended.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT DEBT SERVICE PROGRAM

The Debt Service Program provides funding to make payments on principal, interest and financing costs for Certificates of Participation (COP) and Article XI-Q general obligation bond debt used to construct and upgrade Army National Guard facilities, and for acquisition of land and facilities

Certificates of Participation were instrumental in constructing new Army National Guard facilities throughout Oregon. Facilities built with COP funding include the LaGrande Armory, the Salem Anderson Readiness Center, the Baker City Readiness Center, the Salem Flight Operations Facility, the Lane County Armed Forces Reserve Center, the Ontario Readiness Center and the Camp Withycombe Armed Forces Reserve Center.

In November 2010, Oregon voters authorized Article XI-Q bonds in the Oregon Constitution for capital projects, and these less-expensive instruments replaced COPs for new capital project debt issued after 2010. In the 2017-19 biennium, XI-Q bond financing is being used to seismically retrofit the Newport and Coos Bay armories as well as the Salem Anderson Readiness Center. Q-bonds are also funding a remodel of the Grants Pass Armory.

State funding such as XI-Q bonds is required to match federal funds provided by the National Guard Bureau with regards to Major Construction Projects. The required percentage of state match varies depending on the type of facility being constructed. Also, there are certain items that are not allowable federal costs (e.g. land). The agency has a Capital Construction Other Fund cash account that is funded with proceeds from sales of property and interest, but it is insufficient to fund the entire state share of most of the major construction projects, especially the larger projects. Therefore, the agency has come to rely on bond funding.

Expected Results of the 2019-2021 Budget:

The Debt Service Program will continue to make required principal and interest payments on outstanding COP and bond debt on capital projects. New debt service for XI-Q bond funding requested in the 2019-2021 budget is requested in Policy Package 480.

Revenue Sources:

General Fund is used for all debt service except for the 2011-O and 2014-A Article XI-Q bond refunding of the 2004-A COP (Baker City Readiness Center) which is being funded with Other Funds armory rental revenue.

BUDGET NARRATIVE

Essential Packages:

022 – Phase-outs – (\$448,244) Other Funds limitation. **Governor recommended.**

060 – Technical Adjustment – \$448,244 Other Funds Limited, (\$448,244) Other Funds Debt Service Limited. **Governor recommended.**

Policy Packages:

480 – New Debt Service - \$533,528 General Fund, \$303,000 Other Funds. **Governor recommended.**

Proposed New Laws - None.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT DEBT SERVICE PROGRAM ESSENTIAL PACKAGES

1. **Purpose** – Essential Packages adjust the base budget to reflect the agency 2019-21 current service level requirements.
2. **How Achieved** – The following Essential Package adjusts the Debt Service Program’s base budget to reflect 2019-21 current service level requirements:

022 - Phases out \$448,244 Other Funds limitation from the 2017-19 Legislatively Approved Budget for costs of issuance related to Article XI-Q bonds issued during the 2017-19 biennium. It does not pertain to new debt issued during 2019-21.

060 – Technical Adjustment – Shifts Other Funds costs of issuance carried forward from the 2017-19 Legislatively Approved Budget into the correct appropriated fund. This package shifts the costs of issuance from appropriated fund 3430 (Other Funds Debt Service Limited) to appropriated fund 3400 (Other Funds Limited). They are then phased-out of appropriated fund 3400 in Essential Package 022 above.
3. **Staffing Impact** – None.
4. **Quantifying Results** – Adjust base budget to reflect the agency’s 2019-21 current service level requirements.
5. **Revenue Source** –Other Funds limitation is decreased \$448,244.

Governor recommended.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT
DEBT SERVICE PROGRAM
POLICY PACKAGE 480
NEW DEBT SERVICE
PRIORITY 21

1. Purpose– This Policy Package requests \$533,528 General Fund for new debt service for Article XI-Q bonds that will fund three Major Construction projects. It also requests \$303,000 Other Funds limitation to pay issuance costs on the XI-Q bonds. Limitation for the three construction projects is requested in Policy Packages 490, 491 and 492. The projects incurring debt service costs are shown below.

Description	Type of project	Project Amount	General Fund Debt Service	Other Funds Issuance Costs
Salem Owen Summers and Anderson Readiness Center ASLEP	Service Life Extension	\$5,800,000	\$533,528	\$110,000
Emergency Enhancements: Salem and Pendleton Army Aviation Support Facilities	Addition/Alteration (payments begin 2021-23)	\$9,852,000	\$0	\$133,000
Jackson Armory ASLEP	Service Life Extension (payments begin 2021-23)	\$4,275,000	\$0	\$60,000
Total bonds		\$19,927,000		\$303,000
Total requested new Debt Service 2019-21			\$533,528	\$303,000

Note that two of the projects (Emergency Enhancements at the Salem and Pendleton AASFs and the Jackson Armory Service Life Extension Project) would have bond sales in the spring of 2021, with debt service expenditures beginning in the following biennium (2021-23). Bonds for the Salem Owen Summers and Anderson Readiness Center Service Life Extension Project would be sold in the spring of 2020.

2. How Achieved –General Fund will be used to pay debt service on new XI-Q bonds for four construction projects. Proceeds from the XI-Q bonds will fund the issuance costs related to the bond issuance.

3. Staffing Impact – None.

4. Quantifying Results – This policy package will be measured by Key Performance Measure #2-Armory Condition.

5. Revenue Source - \$533,528 General Fund, \$303,000 Other Funds (Article XI-Q bonds).

Oregon Military Department – Capital Improvements Program – Executive Summary

Primary Long Term Focus Area: Healthy and Safe Communities
 Secondary Long Term Focus Area: A Thriving Statewide Economy
 Program Contact: Dave Stuckey, OMD Deputy Director (503) 584-3985

Program Overview

The Capital Improvements Program works to meet the critical requirements for housing units of the Oregon Army National Guard. The primary difference between the Capital Improvement Program (CIP) and the Capital Construction Program is the CIP performs projects with a total cost of less than \$1 million.

_____ Agency Request X Governor’s Budget _____ Legislatively Adopted

2019-2021

Program Funding Request

The Governor’s Budget (GB) for the Capital Improvement Program within the Oregon Military Department is \$5,133,694 Federal Funds.

The primary purpose of this budget is to improve the overall condition of our facilities. The success of these projects will be reflected in future issuances of the Installation Status Report which identifies the adequacy of our facilities. The implications of having substandard facilities are severe, and would have a direct impact on the Governor’s focus area of “Safer, Healthier Communities.” This is due to the role Military Department facilities serve in response to natural and human made disasters, as well as the response role conducted by National Guard soldiers. If existing facilities are substandard they cannot effectively be used by local communities. Additionally, the National Guard Bureau (NGB) may determine the facilities cannot support the assigned unit which may cause NGB to remove the unit from the state.

There is also an economic impact associated with this budget request, resulting in a secondary link to the Governor’s focus area of “A Thriving Oregon Economy.” Capital Improvement projects bring high wage jobs into the state, as well as increased local investment through the purchase of goods and services. In addition, the potential loss of units due to inadequate facilities would result in reduced personal income tax collected as well as the investment made by units in the local economy.

Program Description

The Capital Improvement Program’s primary responsibility is to perform critical deferred maintenance projects across 4.4 million square feet of facility space. Typical capital improvement projects are key facility roof, structural, HVAC system, and building envelope (i.e. window and door replacement) projects. These deferred maintenance projects directly affect the operational readiness of Oregon National Guard facilities used for soldier and airmen training. Increasing levels of deferred maintenance also impact our tenants. Our statewide facilities serve a large tenant population made up of employees, students, BLM, State Police, USDF, OR Department of Veterans Affairs, the Coast Guard and many others. The majority of these tenants utilize our facilities on a daily basis, thereby requiring our staff presence daily. National Guard facilities also function as rental facilities for the general public. Due to this heavy use, providing regular maintenance as well as reducing deferred maintenance is a top priority for the Capital Improvement Programs.

To successfully mitigate issues associated with deferred maintenance, the Capital Improvement Program relies on partnerships. Many of these partnerships are the same as those the Operations Program relies on for success. We have partnered with Treasure Valley Community College, home to the Ontario Armory, and Columbia Gorge Community College, which provided land and funding for classroom space at the new Fort Dalles Readiness Center. The Dalles Armory was constructed at the Columbia Gorge Community College providing a new partnership. We also partnered with the Marine Corps Reserve, US Naval Reserve, US Bureau of Land Management and the US Forest Service in the operation of our Springfield Armed Forces Reserve Center. The Anderson Readiness Center located in Salem houses OEM, ODOT and the State Police. OMD, ODOT and State

_____ Agency Request X Governor’s Budget _____ Legislatively Adopted

2019-2021

Police have 24 hour operations in this facility. These are but a few of the many partners who provide critical funding to help finance regular maintenance at some of our facilities.

For facilities which do not benefit from partnerships, the levels of deferred maintenance continue to increase due to the rising cost of regular maintenance. Current reports show the statewide deferred maintenance backlog at \$135.1 million. The issue of split funding and limited General Fund resources will impact the effectiveness of the Capital Improvement Program to reduce this figure.

The Capital Improvement Program has evaluated contracting for variety of services including maintenance. The results of this inquiry have found contracting with vendors to be more expensive and less responsive.

Program Justification and Link to Long Term Outcomes

The mission of the Oregon National Guard is to provide the citizens of the State of Oregon and the United States with a ready force of citizen soldiers and airmen, equipped and trained to respond to any contingency. “*Always Ready, Always There*” is our creed, and this creed directly supports the Governor’s focus area of “Healthy and Safe Communities.” The Capital Improvement Program is a support program which allows the Oregon National Guard to be ready to support local and national missions.

Deferred maintenance of critical facilities is the driving force behind the Capital Improvement Program. Oregon National Guard facilities act as centralized points for the support of communities during a disaster. Our facilities can be utilized as Emergency Coordination Centers, food and supply distribution centers, a gathering place for displaced citizens, as well as the launch sites for National Guard support. The majority of our facilities are funded with a matching requirement, so the burden for maintaining these facilities is shared by both the state and federal government. This is an important point to realize as it directly affects our ability to successfully leverage critical federal resources.

In addition to the role as a Safety organization, the Oregon Military Department acts as an economic stimulator due to federal funding. The over 8,100 Citizen Soldiers bring valuable Personal Income Tax revenue into the state. By successfully dealing with critical deferred maintenance issues the Capital Improvement Program is mitigating the risk of losing National Guard Units. The risk of the National Guard Bureau removing National Guard units from Oregon is very real if sufficient facilities are not available. It is essential to the citizens of the State of Oregon that this never happens, as the National Guard is the primary resource for the state’s response to both human made and natural disasters, and brings millions of federal dollars into Oregon communities.

Deferred maintenance projects are performed by contractors, providing jobs and stimulating Oregon’s economy. The Capital Improvements program has a secondary link to the focus area of “A Thriving Statewide Economy.”

_____ Agency Request X Governor’s Budget _____ Legislatively Adopted

2019-2021

Program Performance

The primary performance tool of the Capital Improvement Program is the Installation Status Report (ISR). The ISR applies Army standards and categorizes the readiness of our facilities as being unsatisfactory, adequate or better. The 2017 ISR Facility Condition Index (FCI) results for Oregon’s armories are as follows: 36.8% of the total facilities infrastructure in full compliance with Army standards and in overall good condition, 18.4% do not fully meet Army standards and are in overall adequate condition. These two metrics combined equals 55.2% for armories classified as adequate or better condition. The following metrics pertain to facilities classified as unsatisfactory: 31.6% do not meet Army standard and are in overall poor condition, and 13.2% are in overall very poor condition. These metrics inform OMD’s Annual Performance Progress Report (APPR) Key Performance Measure #2 – Armory Condition). These percentages will be reported in the 2018 APPR which has not yet been prepared.

2016 ISR ratings included in the 2017 APPR are as follows: 52.6% of total facilities infrastructure was classified as adequate or better condition, 34.2% in overall poor condition, and 13.2% are in overall very poor condition. Another metric utilized by the Operations Program is percent of available armory time rented. During Fiscal Year 2016 approximately 20.2% of available armory time was rented. Available armory rental metrics are reported within the APPR and also submitted to Department of Administrative Services Chief Financial Office and Legislative Fiscal Office.

Enabling Legislation/Program Authorization

The National Guard is authorized by the US Constitution Article I, Section 8 Clauses 15 and 16. The Oregon National Guard is authorized by Article X of the Oregon Constitution. The Operations Program is authorized by ORS Chapters 396, 398 and 399. Further Federal Authorization is provided by National Guard Regulation 5-1.

Funding Streams

The program is currently funded mainly with Federal Funds. One-time General Fund of \$1.0 million was approved by the Legislature in the 2017-19 biennium for the Oregon Military Museum. The Federal Funds carry a match requirement of zero to 50 percent and come primarily from the National Guard Bureau. All Federal Funds are dedicated and subject to sequestration.

Significant Proposed Program Changes from 2017-19

The proposed budget for the Capital Improvement Program maintains the Current Service Level budget. The program is working to improve how it does business. This includes identifying the most critical facilities in need of refurbishment or replacement, as well continually aiming to maximize federal investment while minimizing state costs.

_____ Agency Request X Governor’s Budget _____ Legislatively Adopted
2019-2021

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT CAPITAL IMPROVEMENTS PROGRAM

The Oregon Military Department has identified capital improvement projects for the 2019-21 biennium critical to the requirements for housing Army National Guard units and fulfilling the agency's mission. The department does not receive sufficient Armory Program General Fund to adequately maintain armories and associated facilities. Since the 1991-83 biennia it has only been in the 2007-09 Legislatively Adopted Budget that the Oregon Military Department received funding directed to address the ever increasing amount of deferred maintenance projects. This \$1.4M allowed the department to leverage federal funds to complete a number of projects.

The backlog of maintenance and repair within the Army National Guard Facilities Operations and Maintenance Program is currently estimated at \$150 million. This includes approximately \$75 million in seismic upgrades, and \$8 million in lead and asbestos removal. The current estimation is a combination of internal facility condition assessments and assessments from the DAS contractor. By the end of the year the agency will have a much clearer and highly defined listing of deferred maintenance and other facility needs. Reduction of this backlog has been the result of replacing armories through new construction and completion of Armory Service Life Extension (ASLEP) remodel projects. Current service level budgets, inflation, increases in fees and code related mandatory expenses, as well as an additional 1.3 million square feet of building space all indicate that the Army National Guard Facilities Operations Program cannot adequately maintain the current inventory of facilities. Continuing to "thin the soup" and lessen the amount of facility maintenance and repair being accomplished leads to a predictable increase in the deferred maintenance liability each biennia. The funded ASLEP projects in combination with federal project funds eliminate the backlog for specific facilities, leaving the majority of facilities unimproved.

The program conducts an extensive annual analysis of all Oregon Army National Guard facilities. The analysis, entitled "Installation Status Report" (ISR), is an annual requirement by the Department of the Army using standard Army-wide inspection and evaluation criteria. The ISR is a decision support system designed to improve management of our limited resources for facilities. The 2017 ISR Facility Condition Index (FCI) results for Oregon's armories are as follows: 5.3% is in compliance with Army standards and in overall good condition, 81.6% do not meet Army standard and are in overall poor condition, and 13.2% are in overall very poor condition. This represents overall decline of approximately 32% from previous ratings due to infrastructure failures, new Army standards, and the lead contamination remaining at some of our facilities from the indoor firing ranges. Lead cleanup projects are programed and underway, but not all are anticipated to be completed until sometime in 2019. OMD is also working with the Department of Administrative Services (DAS) for contracted facility cost assessments, which will be loaded into two separate database systems, Iplan and BUILDER. These systems will become the agency's databases of record for reporting to DAS, the Oregon Legislature and National Guard Bureau for information on facility needs. Together these systems will provide a clearer picture of our deferred maintenance backlog and forecast future requirements.

BUDGET NARRATIVE

Expected results for 2019-21:

The capital improvement program expects to have results that are measured by two Key Performance Measures: #2- Armory conditions and #3 Revenue Generation.

Revenue Sources:

Federal Funds are used for capital improvement projects. Occasionally the Legislature has approved General Fund for specific projects, and Other Funds donations in the past few years have supported construction of the Military Museum at Camp Withycombe.

Essential Packages:

022 – Phase-Outs – (\$1,000,000) General Fund. **Governor recommended.**

031 - Inflation on Services and Supplies, adjustments for State Government Service charges – \$187,133 Federal Funds. **Governor recommended.**

Policy Packages: None

Proposed New Laws: None.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT CAPITAL IMPROVEMENTS PROGRAM ESSENTIAL PACKAGES

1. **Purpose** – Essential Packages adjust the base budget to reflect the agency 2019-21 current service level requirements.
2. **How Achieved** – The following Essential Packages adjust the Capital Improvements base budget to reflect 2019-21 current service level requirements:

022 - Phases out \$1,000,000 General Fund to complete construction of the Oregon Military Museum at Camp Withycombe that was approved in Policy Package 811 in the 2017-19 Legislatively Adopted Budget. This was one-time funding.

031 - Provides a general inflation increase for Services and Supplies costs. The package also adjusts State Government Service charges to reflect 2019-21 changes. The package increases Federal Funds \$187,133.
3. **Staffing Impact** – None.
4. **Quantifying Results** – Adjust base budget to reflect the agency’s 2019-21 current service level requirements.
5. **Revenue Source** –General Fund is reduced (\$1,000,000), and Federal Funds limitation is increased \$187,133.

Governor recommended.

Oregon Military Department – Capital Construction Program – Executive Summary

Primary Long Term Focus Area: Healthy and Safe Communities
 Secondary Long Term Focus Area: A Thriving Statewide Economy
 Program Contact: Dave Stuckey, OMD Deputy Director (503) 584-3985

Program Overview

The Capital Construction program is responsible for the planning, design, and construction of all capital construction projects of \$1 million or more for the Oregon Army National Guard. Due to the nature of Capital Construction funds the above chart only indicates approval of Capital Construction expenditure limitation. Actual expenditures may take place for up to six years.

Agency Request
 Governor’s Budget
 Legislatively Adopted

2019-2021

Program Funding Request

The Governor’s Budget (GB) for the Capital Construction Program within the Oregon Military Department seeks Capital Construction expenditure limitation of \$19,927,000 Other Funds and \$6,200,000 Federal Funds. The source of revenue for the Other Funds expenditure request is the issuance of Article Q General Obligation Bonds. The ARB includes limitation for both design and construction to occur during the 2019-21 biennium.

The primary purpose of this requested budget is to improve the overall condition of a number of Military Department facilities. The success of these projects will be reflected in future issuances of the Installation Status Report which identifies the adequacy of our facilities. The implications of having substandard facilities are severe and directly impact on the Governor’s Safety Strategy. This is due to the role Military Department facilities serve in response to natural and human caused disasters, as well as the response role conducted by National Guard soldiers. If existing facilities are substandard they cannot effectively serve the needs of local communities. Additionally the National Guard Bureau (NGB) may determine the facilities cannot support the mission of assigned units which may cause NGB to remove units from the state.

There is also an economic impact associated with this budget request. Capital Construction projects bring high wage jobs into the state, as well as increased local investment through the purchase of goods and services. In addition the potential loss of units due to inadequate facilities would result in reduced personal income tax collected as well as the investment made by units in the local economy.

Program Description

The Capital Construction program addresses the agency’s most critical facility shortfalls either through replacing facilities that are no longer capable of serving the needs of the assigned units, or extending the lifespan of facilities through alterations and additions.

Similar to the Operations Program, the Capital Construction program heavily utilizes the Installation Status Report as a guide to identifying which facilities across the state need replacement or modification. Once a project has been identified, the Capital Construction program will begin the development of the Design/Build contracting vehicle. The transition to the use of a Design/Build vehicle has led to more efficient use of project resources, increased the certainty of project budgets and dramatically reduced the risk of conflict and potential litigation.

When planning capital construction projects the Capital Construction program utilizes a three pronged strategy. First, they look at the possibility of constructing an Armed Forces Reserve Center (AFRC). The value in this type of project is the agency can access federal funds for up to 90% of total design and construction costs. Second, the Capital Construction program will seek out partnerships with federal, state and local agencies to share in the functionality of our facilities. The primary building areas shared include the entrance areas, assembly halls, parking lots, restrooms, classrooms, break rooms and kitchens. The value this strategy provides is access to external funding from the partners for the construction and ongoing operating costs of the facility. This external funding is used as a portion of the matching requirements placed on the federal funds. Third, the Capital Construction

 Agency Request X Governor’s Budget Legislatively Adopted

2019-2021

program will attempt to identify excess real property and facilities which can be disposed of by the construction of a new facility. The proceeds from the disposal of these excess items go into our Capital Construction Other Funds Account and are used to help offset construction costs.

Since 1986 the Capital Construction program has executed 49 construction projects throughout the state bringing in combined federal support in excess of \$330 million. The Capital Construction Program has 18 projects identified on the National Guard Bureau Long-Range Construction Plan. Estimates indicate these projects will extend through 2050, bringing millions of dollars in additional federal support to Oregon.

Material and labor costs have been identified as the primary cost drivers for the program. After several years of declining costs for both these areas the industry has begun to experience mild increases in labor costs, and moderate increases in material costs. These trends are expected to continue, with most industry analysts predicting a 6-7% annual increase in labor costs, and a 5-6% annual increase in material costs for the next 3-5 years. A fundamental component of the program strategy is the pursuit and utilization of partnerships within the communities affected. These partnerships with local entities ensure the agency is relevant to the local community, improves the ability of the unit assigned to the community to conduct their missions, and leverages our facilities into community assets, providing maximum value for the invested funds.

Program Justification and Link to Long Term Outcomes

The Capital Construction program primarily relates to the Governor’s focus area of Healthy and Safe Communities with a secondary nexus to a Thriving Statewide Economy. Facilities constructed or enhanced by the Capital Construction program are utilized throughout the state during times of crisis. During the December 2007 Winter Storm and the January 2012 Floods the Anderson Readiness Center was fully operational and provided 24 hour support through the Emergency Coordination Center. Both the Pendleton and Salem Aviation Support Facilities play critical roles in the conduct of National Guard emergency response missions.

In addition the Capital Construction program enables the State of Oregon to address its responsibility to provide facilities that support the assigned citizen soldiers in the performance of their duties. Providing suitable facilities for the assigned units is imperative, as it enables them to train, store their equipment, and conduct their missions. Furthermore, if sufficient facilities are not available to meet the needs of the National Guard Units, the National Guard Bureau has the authority to remove those units from the state. It is essential to the citizens of the State of Oregon that this never happens, as the National Guard is the primary resource for the states response to both natural and human caused disasters, and brings millions of federal dollars into the economies of local communities.

As stated above the Capital Construction Program has been responsible for bringing hundreds of millions of dollars of federal revenue into the Oregon economy in the last 25 years. In the last ten years alone this program has spent nearly \$200 million on construction projects throughout the state. The investment made by this program also leads to the retention and development of high paid construction and consulting jobs throughout the state.

 Agency Request X Governor’s Budget Legislatively Adopted

2019-2021

Program Performance

A primary tool utilized by the Capital Construction program to gauge program performance is the Installation Status Report (ISR). The ISR categorizes the readiness of our facilities as being unsatisfactory, adequate or better. The 2017 ISR Facility Condition Index (FCI) results for Oregon's armories are as follows: 5.3% are in compliance with Army standards and in overall good condition, 81.6% do not meet Army standard and are in overall poor condition, and 13.2% are in overall very poor condition. When we compared the FCI from ISR with the FCI derived from our deferred maintenance numbers using the standards in the Department of Administrative State Facilities Planning Process manual we find they mirror each other. Key Performance Measure #3, (percent of available armory time rented) is enhanced by the Capital Construction program. While the Capital Construction program is first and foremost required to construct facilities to meet certain National Guard Bureau requirements, marketability of the facilities for rental is an ancillary benefit. This benefit enhances value to the community due to the traffic associated with events held within our installations.

Enabling Legislation/Program Authorization

The National Guard is authorized by the US Constitution Article I, Section 8 Clauses 15 and 16. The Capital Construction Program is a division within the Oregon Military Department authorized under Article X of the Oregon State Constitution. The program is further authorized under ORS Chapters 396 and 399. Federal Program Authority is authorized by National Guard Bureau (NGB) Military Construction Cooperative Agreements (for each federally funded project), based on the 415 series of regulations.

Funding Streams

The program has historically been funded with Other Funds (29%) and Federal Funds (71%). Over the last ten years, Federal funds were provided through the Military Construction (MILCON) program. Other Funds have been sourced from the agency's Capital Construction Account or through the use of Certificates of Participation (now Article XI-Q bonds) sold by the state. The Capital Construction Account is prescribed by ORS 396-525, which requires the agency to deposit revenue generated from the sale of its real property into the account, and restricts the use of the account to the department's capital construction expenses. Both the Other Funds and Federal Funds sources of revenue are dedicated.

Significant Proposed Program Changes from 2017-19 biennium

The Agency Request Budget for the Capital Construction Program is an enhancement over the program's Current Service Level budget. Statewide budget policy requires removal of Capital Construction Limitation from the base budget in the subsequent biennium. Due to this nuance there is no 2019-21 Current Service Level budget within the Capital Construction Program. The program is not shifting resources to new activities, but it is working to improve how it does business. This includes identifying the most critical facilities in need of refurbishment or replacement, as well continually try to maximize federal investment while minimizing state costs. To this end several new capital construction projects are being considered for the 2019-21 biennium. Refer to the Major Construction section of the budget document for more details on future capital construction projects.

_____ Agency Request X Governor's Budget _____ Legislatively Adopted

2019-2021

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT MAJOR CONSTRUCTION / ACQUISITION PROGRAM

The Oregon Military Department (OMD) through the Oregon Army National Guard has three points in its strategy for funding and reducing the cost of facility replacements. First, by emphasizing construction of Armed Forces Reserve Centers (AFRCs) wherever possible, the agency can access federal funds for approximately 90% of the design and construction costs, and at the same time, eliminate old and obsolete facilities having high maintenance costs. Accessing the federal funds requires a relatively small percentage of state matching funds. Second, the agency routinely seeks partnering opportunities with federal, state, and other agencies to share common functions of a facility, such as entrance areas, assembly halls, parking lots, restrooms, classrooms, break areas, and food service areas. This reduces the design and construction costs, and reduces the long-term operations and maintenance burden of each agency. Third, the agency is working to identify facilities and real property that are excess to the agency. These facilities and properties will be disposed and the funds generated from their disposal will be added to OMD's Major Construction Other Funds Account. This account is limited by statute solely for Military Major Construction expenditures.

The agency conducts an extensive annual analysis of all Oregon Army National Guard facilities. This analysis, titled "Installation Status Report" (ISR), is an annual requirement by the Department of the Army using standard Army-wide inspection and evaluation criteria. The ISR is a decision support system designed to improve management of limited resources for facilities. The 2017 ISR Facility Condition Index (FCI) results for Oregon's armories are as follows: 5.3% is in compliance with Army standards and in overall good condition, 81.6% do not meet Army standard and are in overall poor condition, and 13.2% are in overall very poor condition. When we compared the FCI from ISR with the FCI derived from our deferred maintenance numbers using the standards in the Department of Administrative State Facilities Planning Process manual we find they mirror each other.

Due to a decline in state and federal operations and maintenance resources, the OMD is vigorously pursuing replacement and consolidation of facilities, primarily through the use of Federal Military Construction Funds. Facility replacement is based on the following criteria: 1) Mission requirements and equipment changes; 2) Age and serviceability of existing facilities; 3) Demographics of localities, community acceptance, community sensibilities; 4) Funds availability; 5) Site availability; and 6) Joint use or partnership ventures.

The OMD has developed a long range armory renovation program, the Armory Service Life Extension Plan (ASLEP), in an effort to extend the useful life of our current facilities. In addition to the criteria used for facility replacement, OMD also considers facility resiliency and energy security goals as primary determining factors for building remodels.

The OMD's ability to generate Other Funds revenue through rental of armories is eroded statewide due to the degraded condition of many of our armories. Our ability to generate and sustain a repeat customer-base is jeopardized and has resulted in a decline of rental revenues. Armory rental funds are used to partially offset facility operation and maintenance costs. Additionally, asbestos, lead contamination, and non-compliance with the Americans with Disabilities Act create a property management risk. The foundation for effectively training and sustaining soldiers is providing adequate facilities. The declining condition of our armory infrastructure has a direct and negative impact on recruiting, training, and retaining Oregon National Guard soldiers.

BUDGET NARRATIVE

The OMD facilities must be capable of supporting local communities during floods, storms, fires, and other emergencies. The requested funding will allow these facilities to continue to be used during emergencies and also by Oregon's communities in support of local economic development activities. We have analyzed the use of our armories and determined that over 30% of the total use is by the public. These activities, such as trade shows, cultural events, and regional meetings, attract many visitors to the communities, bringing additional revenue to local businesses. Renovation of our facilities will reduce lost opportunities to earn revenue and will allow us to continue our mission of responding to local emergencies.

Since 1986 the Capital Construction program has executed 49 construction projects throughout the state bringing in combined federal support in excess of \$330 million. The ratio of federal support to state support for Capital Construction projects is 7:1. The Capital Construction Program has 18 projects identified on the National Guard Bureau Long-Range Construction Plan. Estimates indicate these projects will extend through 2050, bringing a large federal investment to Oregon with ongoing federal support.

Policy Package 490 requests \$9,852,000 in Other Funds Limitation and XI-Q Bond financing for emergency enhancements at two Army Aviation Support Facilities (AASF): the Salem AASF and the Pendleton AASF. Policy Package 491 requests \$5,800,000 Other Funds Limitation and XI-Q Bond financing and \$6,200,000 Federal Funds Limitation for a Service Life Extension Project at the Salem Owen Summers and Anderson Readiness Center facilities. Lastly, Policy Package 492 requests \$4,275,000 in Other Funds Limitation and XI-Q Bond financing for Armory Service Life Extension Projects at the Portland Jackson Armory. Refer to the individual project narratives for more detailed descriptions of each construction project. **Governor recommended Policy Packages 490, 491 and 492.**

Description of Agency Business/Master Plan and Project Purpose/Problem to be Corrected
<p>A review of the agency's disaster response plans, to include the Cascadia Subduction Zone Catastrophic Response Plan, has made clear that several critical facilities will not perform as needed in the case of a disaster. The Salem and Pendleton Aviation Support Facilities are essential for the successful conduct of the agency's public safety and emergency response missions, and will operate as major hubs of military and emergency response operations in the case of a disaster</p>

Project Scope and Alternatives Considered
<p>The project would conduct structural improvements to bring these facilities to essential facility standards for seismic events. It will provide emergency backup power through the use of diesel generators, and emergency potable water with wells and storage tanks. Additionally, it would provide for storage of emergency response supplies and seismically stable fuel storage. These emergency response materials would be cached at both these sites for use during a disaster, or distribution to other facilities depending on the planned response. Without this funding, the facilities will remain in their present state, greatly reducing the agency's ability to conduct our emergency response missions.</p>

Description of Agency Business/Master Plan and Project Purpose/Problem to be Corrected

This request is part of the agency's Armory Service Life Extension Program (ASLEP). The program is intended to address severe deficiencies at facilities that are essential to conduct the agency's mission, extending their useful lifespan by 25 years. OMD has conducted several successful ASLEP projects over the last decade, and considers the program to be crucial to our facility management plans. This request provides funding for the design and construction of additions and alterations to two facilities located in Salem, the Owen Summers Building and the Anderson Readiness Center. The bulk of the request (nearly \$11,000,000 of the \$12,000,000 budget estimate) is for the Owen Summers building, which was constructed in 1990. Severe deficiencies in the electrical, mechanical, and structural components of this facility threaten its continued use for its intended purpose. The facility also requires a significant reconfiguraton to accomodate a major shift in facility occupants and units caused by the recently completed Major General George White Headquarters project. The Anderson Readiness Center was constructed in 2001. The facility requires an expansion of the female latrines and showers as well as some reconfiguraton of it's administrative spaces to accomodate the expanded campus population caused by the recently completed Major General George White Headquarters project.

Project Scope and Alternatives Considered

The project will bring the facility into conformance with current building code, will replace outdated, inefficient, or defective building systems (to include mechanical electrical and plumbing), will remodel the existing classrooms, administrative space, latrines and showers, equipment storage areas, kitchen, and assembly hall areas. The project will reconfigure the existing buildings to addomodate the newly assigned tenants and units. The Project will repair or replace failed paving areas, and will repair or replace existing site lighting, landscaping and fencing. The agency anticipates an increase in rentals as a result of this project. Funds from rentals would be used to partially offset facility operation and maintenance costs. A review of the long range federal funding forecast indicates that no federal funds will be available to replace this facility in the foreseeable future. State funds required for construction are not available in the Major Construction Other Funds Account.

Description of Agency Business/Master Plan and Project Purpose/Problem to be Corrected
<p>This request is part of the agency's Armory Service Life Extension Program (ASLEP). The program is intended to address severe deficiencies at facilities that are essential to conduct the agency's mission, extending their useful lifespan by 25 years. OMD has conducted several successful ASLEP projects over the last decade, and considers the program to be crucial to our facility management plans. This request provides funding for the design and construction of additions and alterations to the Jackson Armory located in Portland. The existing armory was constructed in 1963 and is in a state of significant decline. Severe deficiencies in the electrical, mechanical, and structural components of this facility threaten its continued use for its intended purpose. The facility is more than 35,000 square feet short of the current federal requirement. This critical space shortage has resulted in an unproductive training environment, improper storage of sensitive items, premature aging of mission essential equipment and overcrowding.</p>

Project Scope and Alternatives Considered
<p>The project will bring the facility into conformance with current building code, will replace outdated, inefficient, or defective building systems (to include mechanical electrical and plumbing), will remodel the existing classrooms, administrative space, latrines and showers, equipment storage areas, kitchen, and assembly hall areas. The Project will repair or replace failed paving areas, and will repair or replace existing site lighting, landscaping and fencing. The agency anticipates an increase in rentals as a result of this project. Funds from rentals would be used to partially offset facility operation and maintenance costs. A review of the long range federal funding forecast indicates that no federal funds will be available to replace this facility in the foreseeable future. State funds required for construction are not available in the Major Construction Other Funds Account.</p>

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT FACILITIES MAINTENANCE NARRATIVE

OMD Operations and Maintenance Program & Funding: The Army National Guard Facilities Operations and Maintenance Program provides operation, maintenance, repair, and alteration support for Oregon Army National Guard facilities. The program is supported by a variety of state and federal funding match rates. The Oregon Military Department owns 126 of the state’s facilities with a replacement value of \$1 million or greater. The agency also owns and operates another 415 smaller facilities throughout the state for a total of 541 facilities comprising nearly 3.8 million square feet.

Army National Guard Facilities Operations and Maintenance funding of facilities:

Readiness Centers (Armories) – The Operations Program maintenance employees, maintenance and repair projects as well as supplies and services are 50% GF / OF and 50% FF. Major projects are also generally 50% federally funded as allowed by the Federal/State Cooperative Agreement.

Ranges and Training Land – The program is 100% federally funded through a NGB Federal/State Cooperative Agreement. There are no required matching funds. The funds may only be used to support firing ranges, range support buildings and the wages for federally reimbursed employees.

Training Facilities – These facilities are 100% federally funded through a NGB Federal/State Cooperative Agreement. There are no required matching funds. The funds may only be used to support designated facilities.

Logistical Facilities – These facilities are funded 75% federal / 25% state through a NGB Federal/State Cooperative Agreement. State matching funds are received from the General Fund. The federal funds may only be used to support designated facilities.

Facility Inspections: The Installations Staff at the Oregon Military Department conducts an annual inspection of every facility and real property asset. The inspection titled “Installation Status Report” (ISR) is an annual requirement by the Department of the Army using standard Army-wide inspection and evaluation criteria. The ISR is a decision support system designed to improve management of our limited resources for facilities. The 2017 ISR Facility Condition Index (FCI) results for Oregon’s armories are as follows: 5.3% is in compliance with Army standards and in overall good condition, 81.6% do not meet Army standard and are in overall poor condition, and 13.2% are in overall very poor condition. This represents overall decline of approximately 32% from previous ratings due to infrastructure failures, new Army standards, and the lead contamination at some of our facilities from the indoor firing ranges.

_____ Agency Request X Governor’s Budget _____ Legislatively Adopted
2019-2021

BUDGET NARRATIVE

Estimating Deferred Maintenance: In addition to the Installation Status Report annual inspections, OMD is also working with the Department of Administrative Services (DAS) for contracted facility cost assessments. To be loaded in to two separate database systems, Iplan and BUILDER, these will become the agency's databases of record for reporting to DAS, the Oregon Legislature and National Guard Bureau for information on the agencies deferred maintenance needs. Reductions in the deferred maintenance amount is primarily from Armory Service Life Extension (ASLEP) projects or facility replacements funded by federal Military Construction appropriation.

Funding vs. Deferred Maintenance: Given a generally static General Fund budget, the Oregon Military Departments deferred maintenance liability continues to increase. The agency continues to struggle with mechanical equipment failures and other systems (roofs) which are at end of life. The Oregon Military Departments deferred maintenance backlog stems from limited state funding for staff, preventive maintenance, and all but the most urgent maintenance and repair projects. The state funding and other fund revenue covers must pay bills including wages, and supplies and services leaving no funding to address major repairs or deferred maintenance work requiring a State match.

The Army National Guard Facilities Operations and Maintenance Program continues to function with the mission of operating our under-funded facilities in the most cost-effective manner. The Operations and Maintenance Program has taken advantage of every opportunity to obtain federal funding to support the efficient operation of State of Oregon owned facilities and land. The Oregon Military Department participated in the yearly National Guard's Facilities Programs Personnel Allocation Standard (FP-PAS) to determine the current manpower requirement for the state of Oregon. The comprehensive study determined that the Oregon National Guard Facilities Operations and Maintenance Program requires 250 full-time equivalent (FTE) employees to operate the current 38 Armories and Training Facilities, 7 Maintenance Facilities, and 496 other Facilities. According to this study the Oregon Military Departments Facilities Operations and Maintenance Program is severely understaffed.

In the 2019-21 Base Budget the Oregon Military Department has 102 FTE positions that support the Facilities Operations and Maintenance Program.

Maintenance Management System: The primary computer program supporting the Facilities Operations and Maintenance Program is the Army National Guard's Planning Resource for Infrastructure Development and Evaluation (PRIDE) program. This federally funded program provides federal budget guidance and is our real property database and programming module for federal project funding. The Oregon Military Department is currently populating a computerized maintenance management system called Integrated Engineering Management System to generate preventive maintenance work orders. OMD is also working with the Department of Administrative Services (DAS) for contracted facility cost assessments, which will be loaded into two separate database systems, Iplan and BUILDER. These systems will become the agency's databases of record for reporting to DAS, the Oregon Legislature and National Guard Bureau for information on facility needs. Together these systems will provide a clearer picture of our deferred maintenance backlog and forecast future requirements.

Operations and Maintenance Focus for the Future: The Oregon Military Department dedicates a great deal of staff time to meeting the ever increasing federal reporting requirements as well as the DAS reporting requirements. Currently our dedicated staff spends an increased amount of time

Agency Request Governor's Budget Legislatively Adopted

2019-2021

BUDGET NARRATIVE

completing the reporting requirements and therefore has minimal time for planning. An identified planning priority is to calculate the life-cycle replacement cost and schedule. The calculation of the equipment, systems and component replacement schedule will allow OMD to be proactive in preparing for future costs by biennium. A primary concern for OMD is the ability to sustain the current infrastructure with a field staff that in many cases maintain two and in some cases three Armories. These employees then travel between two or three communities. These are the same employees who operate the Rental Program for their armories.

Facilities Operations and Maintenance and Deferred Maintenance Report

2019-21 Biennium

**Facility Plan - Facility O&M/DM Report 107B16b
2019-21 Biennium**

<p>Process/Software for routine maintenance (O&M)</p>	<p>The Oregon Military Department is currently utilizing a computerized maintenance management system called iEMS (Integrated Engineering Management System) to generate preventive maintenance work orders. Deferred maintenance will be tracked through IPLAN and Builder. The Oregon Military Department has also been working with Faithful and Gould who has been contracted to conduct a facility cost indexing which is in process, this data will be provided in IPLAN. Together these three systems will provide a clearer picture of our deferred maintenance backlog and forecast our future requirements.</p>
<p>Process/Software for deferred maintenance/renewal</p>	<p>Oregon Military Department Operations and Maintenance staff also conducts an annual inspection to validate / update deferred maintenance needs. The backlog of maintenance and repair within the Army National Guard Facilities Operations and Maintenance Program is currently estimated at \$150 million. This includes \$75 million in seismic upgrades, and \$8 million in lead and asbestos removal. Reductions in the deferred maintenance amount is primarily from federal and state stimulus funding coupled with Armory Service Life Extension (ASLEP) projects. The current calculated deferred maintenance resulted from a thorough inspection completed over the last several months as well as assessments done by Faithful and Gould. When deficiencies or needs are identified we utilize multiple sources to calculate costs. The Operations and Maintenance Branch has in-house staff trained to utilize RS Means estimating resources. Manual methods also include Internet research to price materials and BOLI labor rates to complete cost calculations.</p>
<p>Process for funding facilities maintenance</p>	<p>The facilities maintenance budget is a derivative of both the State and Federal budgets. In both cases facilities maintenance budget becomes whatever is left over after Personnel and Utilities are funded. Any increases in facilities maintenance are accomplished through either mid-year plus-ups to the federal budget or Legislatively adopted Policy Packages in the state budget. As described below there is a reliance on our Other Fund revenue generation to pay our way through each biennium. Requirements unable to be funded become deferred maintenance or repair requirements.</p>

Annual Performance Progress Report

Reporting Year 2018

Published: 9/26/2018 11:35:10 AM

KPM #	Approved Key Performance Measures (KPMs)
1	RECRUITING - Percent of soldiers and airmen recruited vs. recruiting goal.
2	ARMORY CONDITION - Percent of statewide armories in adequate or better condition.
3	REVENUE GENERATION - Percent of available armory time rented.
4	EQUIPMENT AVAILABILITY - Percent of equipment on hand in Oregon vs. equipment authorized.
5	YOUTH CHALLENGE - Percent of youth who complete the academic phase of the program with a GED, high school diploma, or credit recovery at graduation
6	REINTEGRATION - Percent of members successfully referred for reintegration services.
7	DOMESTIC PREPAREDNESS PLANS - Percentage of counties with National Incident Management System (NIMS) compliant Emergency Operations Plans (EOFS).
8	HAZARD MITIGATION PLANS - Percentage of state population covered by a FEMA approved local hazard mitigation plan.
9	CUSTOMER SATISFACTION - Percent of customers rating their satisfaction with Military Department customer service as "good" or "excellent": overall customer service, timeliness, accuracy, helpfulness, expertise and availability of information.

Performance Summary	Green	Yellow	Red
	= Target to -5%	= Target -5% to -15%	= Target > -15%
Summary Stats:	44.44%	22.22%	33.33%

KPM #1	RECRUITING - Percent of soldiers and airmen recruited vs. recruiting goal.
	Data Collection Period: Oct 01 - Sep 30

* Upward Trend = positive result

Report Year	2014	2015	2016	2017	2018
Percent Index (actual number of soldiers recruited vs. recruiting goal)					
Actual	95%	77%	75%	95%	90%
Target	100%	100%	100%	100%	100%

How Are We Doing

Recruiting goals have proven to be challenging during the past 15 years of conflict, but Oregon has enjoyed relative success for a number of years. FY 2015 through 2016 actuals indicate a decline from prior years. In FY 2013 Recruiting Command experienced the retirement of several highly productive recruiters. New recruiters hired to fill these vacancies then had to complete a Military Occupational Specialty (MOS) training program in Arkansas. This transition reduced the number of knowledgeable recruiters available. It is a lengthy process to hire, school and train a recruiter to become highly proficient. Fiscal Years 2017 and 2018 trended upward compared to 2015-2016. For Federal Fiscal Year 2018 the Oregon National Guard's combined recruiting target was 989 soldiers and airmen, with actual recruitments totalling 888. This equates to the Oregon National Guard meeting 90% of its combined target. Nationwide, the National Guard Bureau reports meeting 83% of its combined recruiting goal for both Army and Air National Guard. In Oregon Army National Guard recruiting, by meeting 83% of its recruiting target goal Oregon placed 31st out of 54 (states, territories and the District of Columbia). In Oregon Air National Guard recruiting, by meeting 112% of its recruiting target goal Oregon placed 21st out of 54 (states, territories and the District of Columbia).

Factors Affecting Results

The Oregon Legislature has enacted several bills in prior biennia supporting soldiers and airmen, their families and veterans. Legislative support has provided modification to property tax exemptions for Guard members ordered to federal active duty, continuation of emergency relief assistance through the Emergency Financial Assistance Fund for Guard members and their families, delegation of parental powers by parents serving in active military service, an increase in the Oregon state deduction for military pay and exemption of Tri-Care health care expenses from federal taxable income for two years. Federally funded recruitment and retention bonuses coupled with programs to reward Guard members who sponsor new enlistees, hiring additional recruiters and new marketing initiatives have all contributed to successful recruiting efforts. In the 2009-11 biennium, State lawmakers provided a \$500,000 supplemental contribution to the Emergency Financial Assistance Fund created during the 2005-07 biennium. During the February 2018 Legislative Session, HB 4035 appropriated \$2,500,000 in scholarship funding for qualified Oregon Army

and Air National Guard members to obtain an associates degree or bachelor's from a community college or public university. This is expected to positively influence recruiting figures in subsequent reporting years.

KPM #2	ARMORY CONDITION - Percent of statewide armories in adequate or better condition.
	Data Collection Period: Oct 01 - Sep 30

* Upward Trend = positive result

Report Year	2014	2015	2016	2017	2018
Percent of statewide Armories in adequate condition readiness					
Actual	79%	66%	53%	53%	55%
Target	50%	50%	80%	80%	80%

How Are We Doing

At federal fiscal year end 2017, the percentage of Oregon Army National Guard facilities in adequate or better condition is 55.2%. This follows a downward trend between federal fiscal years 2013 through 2014 and trending flat between fiscal years 2015 and 2017. In years prior to 2013, the State funded Army Service Life Extension Program (ASLEP) begun by Governor Kulongoski and funded by the Legislature helped improve armory condition. Additionally, the Military Department has completed a number of federally funded capital improvement and capital construction projects, federally and state funded stimulus projects, as well as Legislatively approved COP and bond funded projects. A series of deferred maintenance projects funded in the 2007-09 budget provided a temporary improvement in conditions of some facilities as reflected in 2011-13 actuals. However, budget reductions in the 2009-11, 2011-13 and 2013-15 budgets resulted in the elimination of maintenance staff positions responsible for the upkeep of facilities. The loss of these positions is a contributory factor to the current decline in facility condition and increased deferred maintenance.

Factors Affecting Results

The Oregon Military Department operates and maintains an inventory of 925 Army National Guard buildings totaling 4,400,010 square feet on 78,294 acres owned, leased or under a use agreement. In 2017 the license of Umatilla Chemical Depot to OMD added approximately 400 buildings & structures on 7,500 federally owned acres. This facility portfolio comprises the fourth largest inventory by square footage within Oregon state government. Deferred maintenance needs have increased from approximately \$5 million fourteen years ago to approximately \$135 million at State fiscal year end 2018. The maintenance and readiness of Oregon's military facilities are dependent upon state funding. Budget reductions during the 2009-11, 2011-13 and 2013-15 biennia resulted in the loss of operational funding and maintenance staff positions. The loss of funding coupled with loss of maintenance staff positions and increases in utility costs has resulted in a significant increase in the deferred maintenance backlog. State funding match becomes particularly critical when viewed through the lens of political and economic turbulence at the federal level. This turbulence manifests itself in government shutdowns, continuing resolutions and budgetary sequestration.

KPM #3	REVENUE GENERATION - Percent of available armory time rented.
	Data Collection Period: Oct 01 - Sep 30

* Upward Trend = positive result

Report Year	2014	2015	2016	2017	2018
Percent of available armory time rented					
Actual	27%	22%	23%	20%	22%
Target	40%	60%	40%	40%	40%

How Are We Doing

This performance measure was established by the suggestion of the Legislative Fiscal Office during and nearing the end of the 2005 extended session. The actual data suggests an overly aggressive target was originally established but subsequently revised after consultation with Legislative Fiscal Office. Competition is greater in armories located near populated areas because alternate rental venues are in close proximity to each other. Gains in rental activity in rural locations are dependent upon community growth, new business and local businesses that need space to hold meetings and community competition. Rural communities customarily prefer to patronize privately owned facilities for their business or social needs. Increasing rental activity in heavily used facilities is a challenge because there are fewer dates available for additional rental activity. The Oregon Military Department operates and maintains one of the largest inventory of facilities by square footage within state government. Of that inventory only 33 armories and few other land areas are available for rent. During Federal fiscal year 2017, armories located in populated areas were rented an average of 29% of available time. Armories located in rural areas were rented an average of 18% of available time. Overall the average of populated and rural armories combined were rented 22% of available time.

Factors Affecting Results

The maintenance and readiness of Oregon's armories is dependent upon adequate funding. The agency's rental revenue has historically mirrored that of the state budget and the economy. When Oregon's economy is in decline, rental customers reduce their spending. However, Oregon's positive economic conditions have not resulted in a corresponding increase in rental activity. This is due to several reasons. Budget reductions and corresponding staff cuts incurred in prior biennia have adversely affected the agency's ability to generate revenue through the rental program. Because of reduced staff in our facilities, we miss out on rental opportunities when customers come in and no one is on site to greet them. The absence of staff marketing the armories statewide, no advertising budget and event overhead (labor & utilities) puts the rental program at a competitive disadvantage. Rising energy costs also impact availability of limited operations & maintenance funds. Rental revenues are programmed to partially offset energy costs. Another factor which has significantly constrained the ability to generate rental revenue is the closure of some armories to

rental events due to lead dust contamination from indoor firing ranges. Remediation efforts are underway but several facilities in key markets are not currently generating any revenue. Two armories that were closed for rental activities have since re-opened in late FY 2017, Lane County Armed Forces Reserve Center in Springfield and Anderson Readiness Center in Salem. Forest Grove was formerly a significant revenue producer before its closure. After lead remediation testing was completed, a clearance letter was provided for building re-occupancy relating to lead hazards. Forest Grove subsequently reclosed in early FY18 due to a positive re-test for lead contamination, but reopened one month later after the contamination was remediated. State matching funds for federally funded projects are necessary to modernize, reduce deferred maintenance backlog, maintain and repair armories at levels that will entice potential rental customers. Past history has shown armory improvements enhance our ability to market armories for rental activity. The 2017 Legislative Assembly appropriated \$8.5 million in construction bond funding for Regional Armory Emergency Enhancement projects for the Newport, Coos Bay armories and the Anderson Readiness Center facility in Salem. The 2017 Legislative Assembly also appropriated \$3.3 million in construction bond funding for Armory Service Life Extension Program (ASLEP) improvements to the Grants Pass armory. While this funding will help finance desperately needed improvements to these facilities, a far greater level of state government participation is required to alleviate deferred maintenance backlog and make other armories competitive in the rental market. Policy Package 204 in the 2019-21 Agency Request Budget (ARB) requests \$24.8 million for deferred maintenance backlog to comply with SB-1067 passed during the 2017 Legislative Session. SB-1067 requires the Governor's Budget to include a deferred maintenance request equal to at least 2% of the current replacement value of state-owned buildings and infrastructure.

KPM #4	EQUIPMENT AVAILABILITY - Percent of equipment on hand in Oregon vs. equipment authorized.
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = positive result

Report Year	2014	2015	2016	2017	2018
Percent of equipment on hand in Oregon vs. equipment authorized					
Actual	129%	96%	139%	117%	126%
Target	95%	95%	95%	95%	95%

How Are We Doing

For the purposes of this measure we analyzed certain types of equipment utilized in disaster recovery situations: High Mobility Multipurpose Wheeled Vehicle (HMMWV); 5-Ton Cargo Trucks and HEMTT Fueler Vehicles. The result of this analysis shows for HMMWV the state of Oregon is authorized 589 vehicles with 716 on hand for 122% of authorized level. For 5-Ton Cargo Trucks the state of Oregon is authorized 180 vehicles with 233 on hand for 129% of authorized level. For Hemmitt Fueler Vehicles the state of Oregon is authorized 14 vehicles with 34 on hand for 243% of authorized level. In total for fiscal year 2018, the state of Oregon was authorized a total of 783 pieces of equipment with 983 pieces on hand for 126% of authorized level. The primary reason for percentage of equipment on hand exceeding authorized is ongoing unit reorganization where certain items of authorized equipment in process of replacement and formerly authorized equipment items not yet returned to the federal supply system.

Factors Affecting Results

The major factors affecting availability of equipment on hand include disaster recovery situations the Oregon National Guard is called upon to assist with and overseas deployments of Oregon National Guard soldiers and equipment. For example, the December 2007 and December 2008 winter storms that hit the coastal region of Oregon were major actions for the Oregon National Guard. Hundreds of soldiers and dozens of equipment items were utilized to effectively mitigate the damage inflicted upon this region. Upon completion of the Oregon National Guard's duties during the December storms, much of the equipment needed repair and refurbishment before it could be placed back into active service. Also, changes in unit force structure directly affect the availability of equipment. For example, the acquisition of a Stryker Brigade brought in multi-wheeled armored combat vehicles that do not serve a state emergency function. Another factor affecting equipment availability levels are deployments of Oregon National Guard units and equipment although the tempo of deployment has trended downward in recent years.

KPM #5	YOUTH CHALLENGE - Percent of youth who complete the academic phase of the program with a GED, high school diploma, or credit recovery at graduation
	Data Collection Period: Jan 01 - Dec 31

* Upward Trend = positive result

Report Year	2014	2015	2016	2017	2018
Percent of youth who complete the academic phase of the program with a GED, high school diploma, or credit recovery at graduation					
Actual	90%	90%	93%	93%	91%
Target	85%	85%	85%	85%	85%

How Are We Doing

The Youth Challenge curriculum successfully prepares students to pass General Education Diploma (GED) and High School diploma requirements, whereas these same students were failing in the traditional setting. All students not earning academic credentials who graduate the program earn 8 accredited High School credits towards acquiring diplomas. Of the 254 students graduated in the 2017 reporting cycle, 12 earned a GED and 23 earned High School diplomas, a total of 14%. 219 of the 254 graduating students earned 8 High School credits and chose to return to their home High School and pursue their diploma. Of the 279 students entering the academic phase of the program in 2017, 254 graduated for a total of 91%. We consistently exceed the National graduation target number for our program of 250. These figures are provided by staff within the Oregon Youth Challenge Program and are reflected in the National Guard Bureau Annual Youth Challenge Report.

Factors Affecting Results

Applicants who are enrolled in Youth Challenge are 16-18 year olds who were not successful in the traditional High School setting and have dropped out or were failing. Challenge offers these youth an alternative for success. The military setting and the curriculum combines classroom work, community service and challenging individual and team activities into one experience. The students learn how to work with others, set personal goals and plan their direction for life. Their personal goals and motivations to succeed provide a base for them to become positive, productive, taxpaying and contributing citizens in their respective communities. Youth Challenge is Oregon's only statewide public alternative high school. The Youth Challenge Program accepts students from all 36 counties in Oregon making the program available to all dropouts and school districts with students who are failing academically. In 2017, students attending the Challenge program came from 133 different high schools throughout the state with a GPA of 1.34 when entering the program. 100% of the students who graduated earned either an accredited high school diploma, a General Education Diploma (GED), or Oregon certified high school credits to take back to their communities to reenroll in high school. The Youth Challenge program is certified by the Oregon Department of Education and is accredited by the Northwest Accreditation Commission. The work skills portion of the program involves training in conjunction with public works and community

service projects such as: the American Red Cross, Equine Research, Habitat for Humanity, Humane Society of Oregon, Oregon Hunters Association, Oregon State Parks & Recreation Department and Special Olympics Oregon. In 2017, students provided 23,484 hours of volunteer community service. At minimum wage of \$10.25 per hour this equates to \$240,711 of benefit to these agencies and organizations.

KPM #6	REINTEGRATION - Percent of members successfully referred for reintegration services.
	Data Collection Period: Oct 01 - Sep 30

* Upward Trend = positive result

Report Year	2014	2015	2016	2017	2018
Percent of members successfully referred for reintegration services.					
Actual	100	100	100	100	100
Target	98	98	98	98	98

How Are We Doing

The Service Member Family Support Program (SMFS) has successfully referred or provided reintegration services to 100% of Oregon National Guard (ORNG) service members returning from deployment since federal fiscal year 2009. This has been accomplished by providing Yellow Ribbon Reintegration Program training, conducting seminars and workshops during unit training assemblies and establishing a network of public and private sector organizations located throughout Oregon communities available to support service members and their families. The SMFS accomplishes its Deployment Cycle Support mission by encompassing programs of the SMFS focused mainly by the Transition Assistance Team. The National Guard Bureau (NGB) considers Oregon's SMFS a nationwide best practice for other states to emulate. During the most recent twelve month reporting period (October 1, 2016 - September 30, 2017), the Transition Support Services (TSS) team conducted 357 official interactions with service members and their families throughout Oregon. The employment outreach resulted in 27 confirmed hires. The Department of Defense calculates that each confirmed hire could potentially save the government \$13,988 in unemployment compensation for a total potential savings of \$377,676. The family assistance specialists provided 1,169 family interactions during this period which includes 715 cases; 556 outreach and 8,312 in resources.

Factors Affecting Results

The execution of an Employment and Education Coordinator (EEC) has provided coverage statewide. As there are no active duty installations in Oregon to support service members and their families, Oregon relies upon local resources. The closest active duty installations are Joint Base Lewis-McChord located 130 miles north of Portland, Mountain Home Air Force Base located 500 miles east of the Willamette Valley population centers; and Travis Air Force Base located 500 miles south of Willamette Valley population centers. The lack of active duty military installations in Oregon limits resources available to service members and their families who then seek assistance from the SMFS to avoid the expense and long travel to active duty installations in neighboring states. Federal fund reductions will reduce support available to service members and their families in Oregon. The large geographic dispersion of service members and their families in Oregon creates challenges in providing support to individuals living in rural areas. The most critical factor affecting the Service Member and Family Support TSS/EEC is the projected federal budget

reduction. The program's approximately \$1.2 million federal fiscal year budget is funded 100% by the National Guard Bureau with \$0 dollars by the State of Oregon. The reliance upon federal funding of the Beyond The Yellow Ribbon Program is currently set to end with Federal Fiscal Year 2018. Due to the previous non-execution of a federal service contract, we do not have long-term secure funding projected past 30 September 2018 and the TSS/EEC program will be lost entirely. An investment in State funding would provide a secure basis for the critical continuation of a viable TSS in supporting the mission of the Service Member and Family Support Program Deployment Cycle.

KPM #7	DOMESTIC PREPAREDNESS PLANS - Percentage of counties with National Incident Management System (NIMS) compliant Emergency Operations Plans (EOPS).
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = positive result

Report Year	2014	2015	2016	2017	2018
Percent of Oregon counties with domestic preparedness plans.					
Actual	100%	100%	100%	100%	100%
Target	100%	100%	100%	100%	100%

How Are We Doing

Currently 100% of Oregon's counties have a National Incident Management System compliant Emergency Operations Plan on file with the Office of Emergency Management (OEM). Currently comparable information is not readily available regarding this particular measure in other states or the national level. The link provided below will take the reader to the NIMS homepage where more information is available regarding the component pieces of NIMS, FAQ's, and the relationship between NIMS and the National Response Framework: <http://www.fema.gov/national-incident-management-system>.

Factors Affecting Results

A primary issue affecting the results of this measure is available resources at both the state and local levels. Economic conditions have required state and county governments to find new, more efficient ways to conduct business without hampering service delivery. To date, OEM has been able to maintain the records showing when local governments need to update and re-submit their Emergency Operation Plans. In addition, OEM has been able to continue to offer support services to local governments as they work to refine these plans. That said, the support services provided to local governments are the responsibility of one or two key staff members within OEM and there are no readily available resources to help provide back-up or support. At the county level it is taking a longer period of time for plans to be modified and re-submitted due to lack of qualified personnel and other resources. OEM is anticipating a major reduction in the level of Homeland Security Grant funding in future years. This grant is the primary funding source for the development of Emergency Operations Plans. A significant reduction may cause several local jurisdictions to fall behind in the ongoing development and maintenance of these plans. The importance of continued support for OEM to increase staff to assist county governments with ongoing requirements associated with Emergency Operations and Preparedness planning is difficult to overstate. OEM has submitted several policy option packages in the 2019-21 Agency Requested Budget that if approved will significantly contribute to emergency planning for county governments.

KPM #8	HAZARD MITIGATION PLANS - Percentage of state population covered by a FEMA approved local hazard mitigation plan.
	Data Collection Period: Jul 01 - Jun 30

* Upward Trend = positive result

Report Year	2014	2015	2016	2017	2018
Percentage of state population covered by a FEMA approved local hazard mitigation plan.					
Actual	81%	73%	47%	69%	73%
Target	90%	90%	90%	90%	90%

How Are We Doing

OEM has set the target for 90% of Oregon's population to be continually covered by a FEMA approved hazard mitigation plan. This target was deemed appropriate as hazard mitigation plans, per Code of Federal Regulation (CFR), Title 44, Chapter 1, Part 201 have a life cycle of five years. Every five years a local jurisdiction must review and revise its plan to reflect changes in development, progress in local mitigation efforts and changes in priorities. The plan must then be re-submitted to the Office of Emergency Management for review, which then submits these plans to FEMA for review and approval. Meeting this five year deadline is a requirement for a local community to be eligible to apply for federal hazard mitigation grant project funding. At Fiscal Year End 2018, 73% of Oregon's population was covered by a FEMA approved hazard mitigation plan. In Fiscal Year 2018, the Federal Emergency Management Agency (FEMA) reported that 45% of the United States total population was covered through community and/or tribal hazard mitigation plans. As of June 29, 2018, Oregon is 1 of 12 states to have received FEMA approval of an enhanced state mitigation plan. With enhanced status, these states are eligible for increased funding under the Hazard Mitigation Grant Program (HMGP) following a Presidential major disaster declaration.

Factors Affecting Results

Local governments must begin the process of obtaining FEMA recertification earlier inside the five year window. As of 2018, certain cities within Clackamas, Jackson and Washington counties have FEMA approved plans that lapsed during Fiscal Year 2018. Total population within these three counties is approximately 1,225,760 according to a 2015 Portland State University population estimate. These three counties hold approximately 30% of Oregon's total population. Of the 1,225,760 total residents, 737,534 reside in cities with lapsed FEMA approved plans. FEMA re-approval of hazard mitigation plans for all cities within Clackamas, Jackson and Washington counties during Fiscal Year 2019 not currently covered by a FEMA approved plan would result in an 18% increase of total Oregon population covered from 2018 to 2019. This increase would result in actual percentage exceeding the 90% target by 1%. OEM will prospectively emphasize notifying local governments further in advance of the date their plans lose FEMA approved status. Past practice has been to provide a one year notice. An 18-month or 24-month advance notice should help prompt local governments to begin the process earlier.

KPM #9 CUSTOMER SATISFACTION - Percent of customers rating their satisfaction with Military Department customer service as "good" or "excellent": overall customer service, timeliness, accuracy, helpfulness, expertise and availability of information.
 Data Collection Period: Oct 01 - Sep 30

Report Year	2014	2015	2016	2017	2018
Overall					
Actual	82%	67%	74%	86%	71%
Target	55%	55%	55%	75%	75%
Accuracy					
Actual	79%	71%	74%	80%	72%
Target	55%	55%	55%	75%	75%
Timeliness					
Actual	75%	67%	68%	78%	69%
Target	55%	55%	55%	75%	75%
Availability of Information					
Actual	75%	66%	71%	68%	68%
Target	55%	55%	55%	75%	75%
Helpfulness					
Actual	78%	68%	74%	83%	70%
Target	55%	55%	55%	75%	75%
Expertise					
Actual	79%	74%	74%	84%	75%
Target	55%	55%	55%	75%	75%

2018 APPR Customer Satisfaction survey results indicated Expertise was the highest rated category with 75% of respondents rating it as good or excellent. Each category trended downward from the prior year's report except for Availability of Information which remained unchanged at 68%. There is a data population disparity due to very few respondents to the Oregon Military and Oregon National Guard segments of the survey. Oregon Office of Emergency Management (OEM) accounted for 90% of all survey responses. While other state and federal agencies do customer satisfaction surveys, there is no known comparable agency that aligns with the Oregon Military Department's mission, goals and customer pool. The Oregon Military Department operates and maintains the 4th largest inventory of facilities by square footage within state government. These facilities are critical to maintaining force structure as well as providing our citizen soldiers with a home base in which to prepare for deployments. OEM works with city and county governments to ensure that proper hazard mitigation and emergency operations plans are in place. OEM also works with communities to help them recover from natural or human made disasters. The Community Support Program operates the only statewide alternative high school for students aged 16-18 who are failing in the traditional high school environment.

Factors Affecting Results

The maintenance and readiness of Oregon Military Department facilities is dependent upon state funding. Federal funding is leveraged to the maximum extent. Declines in armory condition are due in part to reductions in appropriated General Fund for personal services and services & supplies. Limited state funding does attribute to timeliness in responding to facilities issues unless major mechanical or structural failures occur, and expenses for non-critical repairs for one armory give way to critical repairs required at another armory. Staffing levels are insufficient to provide a maintenance technician at each facility so a regional system is in place wherein maintenance technicians travel distances to address service needs. The Office of Emergency Management is affected by limited General Fund support and reductions to Federal Grant monies which are critical for hiring and retaining staff members. Limited staffing does have a major impact on the timeliness of responding to customer requests for assistance post disasters. Staff time is directed towards the most critical situations first and then follow-ups are conducted to ensure that all customer needs are met.

BUDGET NARRATIVE

OREGON MILITARY DEPARTMENT SPECIAL REPORT AUDIT RESPONSE REPORT

The Oregon Military Department has received three completed audits by the Secretary of State Audits Division during the 2015-2017 biennium and two for the 2017-19 biennium to date.

2015-17 biennium

Selected Financial Accounts for the year ended June 30, 2016

This audit was to express an opinion on whether the financial statements contained in the State of Oregon's Comprehensive Annual Financial Report were fairly presented, in all material respects, in conformity with generally accepted accounting principles. The accounts selected for fair presentation in accordance with generally accepted accounting principles were SFMA general ledger account 0852 - Buildings and Building Improvements and SFMA general ledger account 0875 - Accumulated Depreciation. The audit did not identify any reportable findings or deficiencies in internal control over financial reporting. The report mentioned two projects as completed and placed in service during fiscal year 2014 but misclassified in the financial records as construction in process, resulting in a misstatement to the buildings account for \$412,000 at June 30, 2016.

Statewide Single Audit of Selected Federal Programs for the year ending June 30, 2016

This audit was conducted in accordance with the Single Audit Act and OMB Circular A-133, which has two components: federal compliance and effective internal controls over federal compliance. Catalog of Federal Domestic Assistance number 12.401 National Guard Military Operations & Maintenance Projects was selected. The audit objectives were to determine whether the state has complied with laws, regulations, and the provisions of contracts or grant agreements pertaining to federal awards, whether the schedule of expenditures is presented fairly in relation to the state's financial statements as a whole and to obtain an understanding of internal controls over compliance and test those controls. The audit did not identify any reportable deficiencies or findings.

Selected Financial Accounts for the year ended June 30, 2017

This audit was to express an opinion on whether the financial statements contained in the State of Oregon's Comprehensive Annual Financial Report were fairly presented, in all material respects, in conformity with generally accepted accounting principles. The account selected for fair presentation in accordance with generally accepted accounting principles was Federal revenues. The audit identified certain deficiencies in internal control over financial reporting considered to be a significant. Military Department was found to have federal revenues not reported in the same fund as federal expenditures, accounting records that did not identify a grant number with federal revenues & expenditures, prior year-end revenue accruals that resulted in current year overstatement and federal revenue transactions were not properly documented. The audit recommended Military Department to ensure federal revenues and expenditures, including year-end accruals are recorded accurately, timely and in the appropriate fund. The audit also

_____ Agency Request X Governor's Budget _____ Legislatively Adopted

2019-2021

107BF02

BUDGET NARRATIVE

recommended that management ensure accounting records and documentation contain sufficient detail to support transactions recorded in the accounting system.

2017-19 biennium

Oregon Secretary of State Report No. 2018-03 “Office of Emergency Management: The State Must Do More to Prepare Oregon for a Catastrophic Disaster”

The purpose of this audit was to determine the status of state agency and local emergency management efforts to prepare for a catastrophic event, such as a Cascadia earthquake and tsunami. The audit identified four key findings: (1) Oregon does not meet key emergency management program standards; (2) Planning efforts across all levels of Oregon’s emergency management system are lacking; (3) Current statewide staffing is inadequate to reduce Oregon’s vulnerability to disasters, and (4) More accountability such as public reporting and tracking is needed to ensure progress on long-term resilience goals and projects and to enhance public awareness. The audit includes eleven recommendations, five to the Office of Emergency Management and six to the Governor’s Office. These recommendations include such actions as completing, implementing and exercising emergency and continuity plans; meeting minimum emergency management program standards; reporting on efforts to improve state resilience; defining roles and responsibilities and assessing and filling resource gaps.

Selected Financial Accounts for the year ended June 30, 2018

This audit was to express an opinion on whether the financial statements contained in the State of Oregon’s Comprehensive Annual Financial Report were fairly presented, in all material respects, in conformity with generally accepted accounting principles. The accounts selected for fair presentation in accordance with generally accepted accounting principles were Buildings, Accumulated Depreciation and Federal Revenue. The audit also included a review of a prior year finding of a significant deficiency related to the department’s accounting for federal revenues. Due to some federal revenue and expenditure accounting records not including a grant number, the status of the prior year finding for the fiscal year ended June 30, 2018 was reported as partial corrective action taken. This audit did not identify any reportable findings or deficiencies in internal control over financial reporting.

Review of cash management processes

The Secretary of State Audits Division conducted a review of OMD’s cash management processes. The review included gaining an understanding of the nature and cause of cash shortages and reviewing the actions taken by management to address the issue. The review found that OMD management is taking appropriate actions to address cash shortages.

Budget Page 416

**Oregon Military Department
Affirmative Action Statistics: 2017-19 Biennium**

This report is submitted to provide an update of the Oregon Military Department's progress toward the 2017-19 biennium goals and programs for the agency's six year plan.

The Oregon Military Department has 478 total positions, including temps, limited duration and seasonal, the majority of which are full time. Over 60 positions are part-time. Some positions have multiple employees who work less than quarter time and share positions. The State uses the Civilian Labor Force (CLF) as the comparison for hiring outcomes. DAS CHRO reports show the agency having 430 filled positions. The summary of percentages as displayed by DAS show: Caucasian (373) 87%; People of Color (POC) (46) 10.7%; African American (5) 1.7%; Hispanic (29) 7%; Asian Pacific (6) 1.4%; Native American (6) 1.4%; Disabled 10 2.23% and Women (121) 28%.

Historically, positions in the Oregon Military Department have been male dominated work groups. The Oregon Military Department continues to reach out to attract qualified minorities and women as vacancies occur. The percentage of women in our workforce increased by .8 %. The percentage of People of Color stayed the same. The percentage of African Americans increased by .36%; Hispanic increased by 1.38%. Asian Pacific Islanders, Native Americans and people who have reported disabilities decreased slightly. The percentage of Caucasians decreased by 1.8%. As part of our six year plan, we hope to increase by 2% overall for minority and disability populations.

Our paramount goal however, is to employ as many returning veterans as possible and a mission clearly relating to mobilization and deployment of soldiers in the event of State and National Emergencies. Our outreach efforts, including providing quality service and recruitment to that group is occasionally limited due to budget constraints. We have an expansive distribution list for our job postings and research hard-to-fill positions to locate areas for advertisement. These efforts increased our applicant pool of qualified minority candidates and we continue to look for ways to reach more minority applicants. We contact colleges, related associated fields, the Employment Department and Tribes. We use the Neo-Gov software to post announcements on the State of Oregon jobs page. We are actively involved with the ever changing E-Recruit process and stay current and updated on new and improved ways to take advantage of networking opportunities with other State agencies, recruiters, job fairs and events. We also place recruitment announcements on the federal Oregon National Guard website and other veteran assistance programs. We will be changing to a new recruiting tool called Workday, which will simplify the job application process, thus eliminating the barriers imposed by the current recruitment system. The new tool is promised to increase our applicant pool exponentially. Our goals continue to be finding a variety of ways to expand our outreach efforts in bringing a diverse workforce to the Oregon Military Department.

J:\21 Budget\Gov Rec\Special Reports\17-19 Biennium Affirmative Action Report.docx

SUPERVISORY SPAN OF CONTROL REPORT

In accordance with the requirements of ORS 291.227, (Oregon Military Department) presents this report to the Joint Ways and Means Committee regarding the agency's Proposed Maximum Supervisory Ratio for the 2019-2021 biennium.

Supervisory Ratio for the last quarter of 2017-2019 biennium

The agency actual supervisory ratio as of 12/1/2017 is 1: 10
 (Date) (Enter ratio from last Published DAS CHRO Supervisory Ratio)

The Agency actual supervisory ratio is calculated using the following calculation;

$$\begin{array}{rclcl}
 \underline{45} & = & \underline{42} & + & \underline{4} & - & (\underline{1}) \\
 \text{(Total supervisors)} & & \text{(Employee in a supervisory role)} & & \text{(Vacancies that if filled would perform a supervisory role)} & & \text{(Agency head)} \\
 \\
 \underline{439} & = & \underline{337} & + & \underline{102} \\
 \text{(Total non-supervisors)} & & \text{(Employee in a non-supervisory role)} & & \text{(Vacancies that if filled would perform a non-supervisory role)}
 \end{array}$$

The agency has a current actual supervisory ratio of-

$$\begin{array}{rclcl}
 1: \underline{9.76} & = & \underline{439} & / & \underline{45} \\
 \text{(Actual span of control)} & & \text{(Total non - Supervisors)} & & \text{(Total Supervisors)}
 \end{array}$$

When determining an agency maximum supervisory ratio all agencies shall begin of a baseline supervisory ratio of 1:11, and based upon some or all of the following factors may adjust the ratio up or down to fit the needs of the agency.

← Narrow Span		Wide Span →	
High	RISK TO PUBLIC/EMPLOYEE SAFETY		Low
Dispersed	GEOGRAPHIC LOCATION(s) OF SUBORDINATES		Assembled
Complex	COMPLEXITY OF DUTIES/MISSION		Not complex
Low	BEST PRACTICES/INDUSTRY STANDARDS		High
Small	AGENCY SIZE/HOURS OF OPERATION		Large
Many	NON AGENCY STAFF/TEMPORARY EMPLOYEES		Few
High	FINANCIAL RESPONSIBILITY		Low
← More Supervisors		Fewer Supervisors →	

Ratio Adjustment Factors

SUPERVISORY SPAN OF CONTROL REPORT

Is *safety of the public or of State employees* a factor to be considered in determining the agency maximum supervisory ratio?

Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11-

The Office of Emergency Management (OEM), within the Oregon Military Department, coordinates and maintains a statewide emergency services system for emergency and disaster communications. OEM is made up of four sections: Director's Office, Technology and Response, Operations and Preparedness, and Mitigation and Recovery Services. OEM awards grant funding to local governments, coordinates search and rescue efforts, and the State 9-1-1 Program. The Drought Council and Oregon Seismic Safety Advisory Commission (OSSPAC) also operate out of OEM. Our responsibilities are defined and authorized in ORS 401. Response to emergencies or disasters that affect all or part of the state takes place at the local level, in the city or county in which the emergency or disaster occurs. In a large incident or one that affects multiple jurisdictions, OEM may support a coordinated response. The State Emergency Coordination Center (ECC) may be activated in a multi-jurisdictional emergency or disaster, and serve as a communications hub to ensure all participating response agencies are coordinated. OEM supports 18 Emergency Support Functions (ESFs) and more than 50 county, city and tribal local emergency management offices around the state. The mission of the Office of Emergency Management is to lead statewide efforts to develop and enhance preparedness, response, recovery and mitigation capabilities to protect the lives, property and environment of the whole community. This program manages hazards and preparedness by identifying factors and risks to the community, providing information to the public, and developing emergency plans in cooperation with multi-jurisdictions. The Oregon Emergency Response System (OERS) coordinates and manages state resources in response to natural and technological emergencies and civil unrest involving multi-jurisdictional cooperation between all levels of government and the private sector. OEM offers emergency management resources through avenues such as trainings, toolkits, and news releases to the public. Since statewide emergencies leads to geographical dispersion of OEM staff performing emergency support functions, a lower supervisor to non-supervisory employee ratio is justified.

Force Protection Programs at Portland Air National Guard Base and Kingsley Field Air National Guard Base. These Security Programs provide security police protection at the Air Bases. Security personnel are instrumental in protecting aircraft and facilities against sabotage, theft, vandalism, and trespass. The primary purpose of this position is to provide law enforcement and security services to the Portland Air National Guard Base (PANG) and Kingsley Field Air National Guard Base to effectively secure and protect mission essential and non-essential resources, the overall security of the installation, its personnel and others. This position works under the direction of a SRT Leader as a member of a Force Protection Response Team. In the event of hostile threats, this position works effectively as part of a team to ensure the protection and security of mission essential resources. Employees in these positions are required to be armed with an M-4 Carbine weapon carrying 120 rounds of ammunition, M-9 9mm personal protection weapon carrying 30 rounds of ammunition, may be armed with an M-870 12 gauge shotgun with 20 rounds of ammunition. Incumbent may be subject to hostile conditions requiring capability of eliminating potential threats of hostile and/or life-threatening incidents initiated by armed/unarmed individuals. Employees work a variety of shifts/days off and are subject to overtime with little or no notice due to mission requirements or support of organizational meetings, subject to immediate recall when threats warrant action. Work is typically outside in all types of weather with potential exposure to noxious fumes, such as, vehicle and aircraft exhaust, extreme noise area (aircraft flight line) and hazardous material, fires and medical emergencies. Due to the 24-7 hours of operations, omnipresent and potential threats to the security and safety of the airbase assets and staff, a lower ratio of supervisor to non-supervisory staff is justified.

SUPERVISORY SPAN OF CONTROL REPORT

Is **geographical location** of the agency's employees a factor to be considered in determining the agency maximum supervisory ratio? Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11-

The Oregon Military Department has 56 sites broadly situated throughout the state. These include two air bases, two aviation facilities, two training and logistic sites, and 39 readiness centers spanning the length and width of the state.

The Oregon Military Department (OMD) is responsible for administration of the Oregon Army National Guard, the Oregon Air National Guard, the Oregon Civil Defense Force, the Office of Emergency Management, and the Oregon Youth Challenge Program. The Department is overseen by an Adjutant General, appointed by the Governor to a four-year term of office. The Adjutant General also serves as the homeland security advisor to the Governor and chief of staff of the Governor's Military Council. The National Guard is a federal-state partnership with a dual mission: (a) provide combat-ready units and equipment in support of national defense, and (b) provide units and equipment to protect life and property during natural disasters and civil unrest, and for backup support to law enforcement. The National Guard serves on a day-to-day basis under the command of the Governor, but is available to the federal government upon order of the President of the United States. A responsibility unrelated to the Department's primary mission is youth education. The Youth Challenge Program provides at-risk high school dropouts an opportunity to complete educational credit with a goal of reintegrating into high school to earn a diploma or prepare for the General Education Development (GED) examination. Other youth educational opportunities also exist at Oregon's two airbases. The Oregon Military Department has a physical presence in facilities and in a wide variety of programs over the entire breadth of the State of Oregon.

Within the OMD exists the Adjutant General's Installation Division (AGI). The Division include the Operations and Maintenance, Planning & Programming, Construction, Environmental and Support Branches. This Division is responsible for the operation, maintenance, repair, alteration, rental, and leasing of Oregon Army National Guard (ORARNG) facilities; design and construction of new facilities; acquisition and disposal of land and facilities; and environmental conservation and compliance. The Division also constructs, maintains, and operates joint facilities with other federal, state and local agencies. AGI Branch is responsible for 925 buildings with 4,400,010 square feet of space situated on 78,924 acres either owned, leased or under a use agreement throughout the state of Oregon. The AGI Branch supports 38 armories, 10 logistical facilities, 6 training sites, and 2 aviation support facilities. Supervisors within this division manage employees divided into eight regions within the entire state of Oregon. OMD participates in a yearly National Guard study to determine manpower requirements for facilities operations and maintenance. The most recent study concluded 251 full-time equivalent (FTE) were required to provide adequate operations and maintenance services to OMD's facilities. OMD currently has 109 positions that support OMD's facilities. Due to position budget cuts in the 2009-11 through the 2013-15 biennium, AGI lost 27 positions, mostly maintenance staff. These position cuts forced AGI to re-assign remaining maintenance staff to provide coverage to multiple facilities. Maintenance staff are forced to travel between facilities resulting in lower productivity and an increased maintenance backlog. These unique conditions require greater levels of management oversight and coordination of effort which serves to justify a lower ratio of supervisory to non-supervisory employees.

SUPERVISORY SPAN OF CONTROL REPORT

Is the **complexity of the agency's duties** a factor to be considered in determining the agency maximum supervisory ratio?

Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11-

The Oregon Military Department has a large number of non-agency personnel and a unique structure within the agency.

The mission of the Oregon Military Department is to administer and support the Oregon National Guard by providing the State of Oregon and the United States a ready force of Citizen-Soldiers, Airmen and Civilians, trained and equipped to respond to any contingency, natural or man-made. The Oregon Military Department is required to operate 24 hours a day seven days a week. The agency head, The Adjutant General, has overall responsibility to direct, manage, and supervise all matters pertaining to the administration, discipline, organization, training, and mobilization of the Oregon National Guard, the Oregon Civil Defense Force, Oregon State Homeland Security and the Oregon Military Department. The Adjutant General directly responds to the Governor of the State and to the President of the United States through the National Guard Bureau for homeland defense and security. The Adjutant General supports over 7,000 Oregon National Guard Soldiers and Airmen of whom, 2,540 occupy year-round, full-time positions. The Civil Defense Force has 250 individuals assigned, and the State of Oregon Military Department has over 478 state funded positions. During emergencies, the agency has activated at its peaks 1,400 (2002 Wildfires) and 1,945 (2005 Hurricane Katrina) State Active Duty members. There were 744 in the year 2018.

Within the Oregon Military Department, the Armory Rental Program exists with 42 positions that are 25% filled positions utilizing four individuals for each position number. The Rental Program manages contracts for use of the Readiness Centers (Armories) for public in addition to military personnel.

The Oregon National Guard Youth Challenge Program is an Alternative High School. It is a residential school where cadets (160 students) live on site for 5 months while attending the military model school. This period is followed by a mandatory 12 month mentor phase back in the community. Eligible individuals are accepted from all 36 counties in Oregon. The school is a non-traditional model that operates similar to a military academy. The program is guided by military principles, structure and discipline. Staff utilize a "Hands Off", tough love, caring, disciplined approach to instill values, train, and instruct cadets. Students are eligible to earn a high school diploma, GED or credit recovery of 8 certified credits if they complete the required class work. The school is accredited by the Northwest Accreditation Commission, approved by the Oregon Department of Education, and an approved sponsor for the National School Lunch Program, providing meals to students at no cost. The Youth Challenge Program's mission is to provide opportunities for personal growth, self-improvement and academic achievement among Oregon high school drop outs, teens no longer attending and those failing in school, through a highly structured non-traditional environment; integrating training, mentoring and diverse educational activities.

The STARBASE Program is a Department of Defense program with the goal of raising awareness, interest, knowledge and skills of at-risk youth in Science, Technology, Engineering and Mathematics (STEM) by exposing them to the STEM environment and positive role models found on military bases and installations. AT present, there are 65 Academies in 40 states that operate STARBASE Programs. Oregon has three academies located at Portland Air National Guard Base, Kingsley Field, and Camp Rilea with a minimum of 28 classes of fifth graders throughout the school year. This program includes an afterschool program aimed at middle school students as a 20-hour project based STEM program.

The Oregon Office of Emergency Management is the leader in collaborative state-wide efforts, inclusive of all partners and the communities, ensuring capability of resources and opportunities to get help in an emergency and to protect, mitigate, prepare for, respond to, and recover from emergencies or disasters regardless of cause. Taken together the organizational complexity, breadth and depth of mission oriented requirements and 24-7 operational responsibilities provides the onus for a lower supervisory to non-supervisor staff ratio.

SUPERVISORY SPAN OF CONTROL REPORT

Are there *industry best practices and standards* that should be a factor when determining the agency maximum supervisory ratio? Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11-

To the best of our knowledge and research, there are no national standards for supervisory spans of control at the other states' military departments. The only comparator is other Oregon state agencies in the Span of Control Ratios reported to the Department of Administrative Services. While OMD's mission and activities are not comparable to other state agencies, our ratio of 1: 9.86 nearly matches the statewide average of 1: 9.84 in the report dated 12-01-2017. Therefore, OMD's span of control is not unusual when compared to other state agencies.

SUPERVISORY SPAN OF CONTROL REPORT

Is **size and hours of operation** of the agency a factor to be considered in determining the agency maximum supervisory ratio?
Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11-

The Oregon Military Department (OMD) has within its workforce non-exempt employees that are: seasonal employees that work longer shifts and extended hours during fire season; Military Lease Agents that work during events that are generally evenings and weekends; temporary employees that work nights to deliver customer service for billeting purposes; and the Youth Challenge Program houses 160 youth at a time that live at the facility for 5 months at a time throughout the year.

Armories may be rented for use by a person, firm, association or corporation, not specified elsewhere in this section, for such purposes and upon such terms as may be approved by the officer in charge of the armory and by military superiors as prescribed by military department regulations issued pursuant to this chapter and ORS chapters 398 and 399 and provided that such use will not, and only so long as such use does not, interfere with the use of the armory by the members and units of the organized militia stationed therein.

The Armory Rental Program's function is to utilize the armories as rental facilities for the general public, for events such as business meetings, wedding receptions, trade shows, concerts, cultural events, Red Cross blood drives, and sporting events, all of which generate Other Funds Revenue. Other Funds rental revenue is essential for maintaining these facilities. Budgetary constraints on General Fund require OMD to earn a substantial portion of its budget through revenues derived from rental of facilities and equipment, vending machine commissions, and recycling. Oregon Revised Statute (ORS) 396.540 defines authorized use/rentals of armories by veteran's organizations, federal, state, county, and municipal organizations, persons, firms, associations or corporations. ORS 396.545 defines requirement for written agreements, approval authority, restrictions on subleasing and requirement for revenues received to be deposited in the OMD Miscellaneous Receipts Account. Armories are rented primarily in the evenings and on weekends, causing the OMD to employ persons outside of normal working hours to provide service before, during, and after the events. The hours of operation are 24/7. The agency has 42 positions assigned to the program to provide service for these times. These positions are unique due to the fact that they require four persons per position number with an allowance of working only ¼ time so that they remain as unrepresented, permanent, part-time, and on-call positions. This increases the 42 positions to actually represent 168 employees throughout the state with only one Regional Supervisor for the entire state with an additional supervisory role as a Marketing Manager within the entire program.

The Billeting office has in the past been understaffed and not able to handle the busiest lodging days due to this deficit. Hiring temporary staff to cover the evenings and weekend periods outside of normal workday hours has alleviated this concern to provide customer service and reducing the backlog of work. Other temporary employees are hired to fill in when there is a workload or special project need.

When the governor activates the National Guard in response to wildfires, floods or other natural disasters, the Emergency Command Center is activated and is expected to operate and function on a 24-7 basis, depending upon the size and scope of the disaster. Events of this magnitude requires the state workforce to in-process the guard personnel into a temporary state employee status, provide logistical support and interaction with Federal Emergency Management Agency (FEMA). Mission coordination and operations do not cease until the governor orders an end to the mission. Due to the variety of 24-7 operations and after-hours requirements, a lower ratio of supervisor to non-supervisory staff is warranted.

The Oregon National Guard Youth ChalleNGe Program as a residential high school, houses up to 160 cadets operates on a 24/7 time frame year-round. Adequate staffing levels are required 24 hours per day to ensure the safety of the cadets.

SUPERVISORY SPAN OF CONTROL REPORT

Are there unique personnel needs of the agency, including the agency's use of **volunteers or seasonal or temporary employees**, or exercise of supervisory authority by agency **supervisory employees over personnel who are not agency employees** a factor to be considered in determining the agency maximum supervisory ratio? Yes.

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11-

Volunteers: Oregon Emergency Management (OEM) Federal Emergency Management Agency (FEMA) National Radio System (NRS) Volunteers Program is found under FEMA's National Continuity Programs Directorate (NCP), in accordance with Presidential Policy Directive 40 (PPD 40), National Continuity Policy, maintains the FEMA High Frequency Continuity System (FHFCS), a suite of unclassified High Frequency (HF) radio communications systems designed to provide resilient capabilities across the full spectrum of potential hazards. The FEMA National Radio System (FNARS) is a key component of the FHFCS portfolio, and is supported with commercial-off-the-belt (COTS) equipment installed at the Mount Weather Emergency Operations Center (MWEOC), Federal Regional Centers (FRCs), Regional Offices (R.Os), the Mobile Emergency Response Support (MERS) detachments, as well as the emergency operations centers (EOCs) of the 50 states, the District of Columbia, and the U.S. Territories. FNARS provides the FEMA Administrator and executive leadership with resilient voice and messaging capabilities for command, control, and communications (C3); continuity of operations (COOP) of FEMA assets and resources; and communication, coordination, and collaboration with Regional Administrators and state/territorial emergency management partners in response to all hazards.

Oregon Civil Defense Force is defined in ORS 399.035 (6) as volunteers that possess and demonstrate experience or training in the military, law enforcement, communications, rescue operations or logistical support. The Oregon Civil Defense Force is the official state defense force of Oregon and one of the three components of Oregon State's organized militia, with Oregon's Army and Air National Guard (ORNG) making up the other two. It serves as a state-level military and emergency services reserve force. On the military side, the Oregon Civil Defense Force assists, augments or replaces the National Guard as ordered by the Governor (e.g., during times of crisis or when the ORNG is deployed elsewhere). During emergency or disaster incidents, the Oregon Civil Defense Force assists requesting civil or military authorities with rapidly deployable emergency communications, coordination, and incident command system expertise and support compliant with Federal Emergency Management Agency (FEMA) rules.

Seasonal Employees: The Oregon Army National Guard requirement to provide wildland fire protection is derived from three core sources: Department of Defense Instruction (DoD) 6055.06 along with Chapter 25 of Army Regulation (AR) 420-1; Oregon Revised Statutes (ORS) 477.066 and 477.095; and Oregon Military Department land use agreements. In accomplishing this fire protection function, the Oregon Military Department works cooperatively with other Federal, State and local fire protection agencies, districts, or departments, such as the US Navy, the Bureau of Land Management, and the Oregon Department of Forestry. In performing wildland fire protection functions, the Oregon Military Department's Wildland Fire Management Program complies with national wildland fire standards such as those promulgated by the National Wildfire Coordinating Group (NWCG) and/or the National Fire Protection Association (NFPA). The Oregon Military Department has 9 position numbers assigned to this program. Based intensity of seasonal needs the agency may double fill these positions in order to regulate fires depending on year and weather conditions. Twelve additional positions have been requested for the next budget due to past year experiences of not having enough permanent positions to control fires throughout the state.

Temporary Employees: Camp Rilea is a military training center managed by the Oregon National Guard (ORNG) and Oregon Military Department (OMD). As a training center, Camp Rilea provides lodging for military and non-military training groups, official visitors, and recreational guests. "Billeting" describes the barracks-like accommodations for training groups, and "lodging" describes the hotel-like accommodations for official visitors and recreational guests. All accommodations are managed by the Billeting office, with payments and charges flowing through the Post Accountant. The Billeting office has in the past been understaffed and not able to handle the busiest lodging days due to this deficit. Hiring temporary staff to cover the evenings and weekend periods outside of normal workday hours has alleviated this concern to provide customer service and reducing the backlog of work. Other temporary employees are hired to fill in when there is a workload or special project need.

Federal Supervisors/Employees: In order to meet staffing needs and due to the alignment between program funding, full time employee authorizations, and a legacy component, the Oregon Military Department balances the management of both state and federal employees based on which entity has available personnel. This creates the unique situation of State and Federal employees being supervised and managed in a way that is exclusive to the agency. There are currently 15 Federal supervisors that manage 29 of our State employees and an additional 7 Federal employees that are managed by State supervisors.

Taken together, the scope and diversity of volunteers, seasonal and temporary employees provides the onus for a lower supervisory to non-supervisor employee ratio.

SUPERVISORY SPAN OF CONTROL REPORT

Is the **financial scope and responsibility** of the agency a factor to be considered in determining the agency maximum supervisory ratio? Yes.

The Oregon Military Department is funded with mix of State and Federal funds. Federal revenue sources include the National Guard Bureau, Department of Homeland Security (DHS) and Federal Emergency Management Agency (FEMA) grants. Other Funds are primarily derived from 9-1-1 taxes and facility rentals. The all funds budget for the 2017-19 legislatively adopted budget (LAB) excluding capital construction and capital improvements is \$398.4 million.

Federal Funds (excluding Capital Construction program) is \$266.9 million constituting 67% of OMD's 2017-19 LAB all funds budget. Other Funds is \$106.9 million constituting 27% of OMD's 2017-19 LAB all funds budget. General Fund is \$24.6 million, constituting 6% of OMD's 2017-19 LAB all funds budget. The principal use of General Fund is state match to federal funds for day-to-day operations of armories, readiness centers and training sites located throughout the state, and state match for FEMA and DHS grants. However, General Fund debt service is OMD's single largest General Fund expenditure, accounting for \$10 million of total General Fund in the 2017-19 biennium LAB.

The OMD Operations Program supports the mission of the Oregon National Guard through the ongoing maintenance and support of National Guard facilities. The 2017-19 LAB for Operations Program is \$6.9 million General Fund, \$4.4 million Other Funds and \$86.5 million Federal Funds. There are 14 major programs within the Operations Program. The Operations Program includes the Oregon National Guard Counterdrug Program, Oregon Army National Guard's Wildland Fire Management Program, Oregon National Guard Distributed Learning Program, Army National Guard Telecommunications Program, Army National Guard Environmental Program, Electronic Security Program, Counterdrug Program, Anti-Terrorism Program, Recruiting Program and Air Guard Environmental Programs at both airbases. Facilities maintenance and support is primarily accomplished through the work of the Real Property Operations and Maintenance Program (RPOM) for Army Guard facilities and the Civil Engineering Programs (CE) for the Air Guard facilities. RPOM is responsible for 417 buildings totaling 3.4 million square feet. The majority of army installations operate under a 50/50 funding split between state and federal funds. The CE program is responsible for 164 buildings totaling 1.25 million square feet. CE is also responsible for airfield maintenance which includes snow removal, mowing and sweeping. The Portland Air National Guard airbase CE program functions with an 80/20 fund split between federal and state funds. The CE program at Kingsley Field Air National Guard Base in Klamath Falls functions with an 85/15 fund split between federal and state funds. 24-7 security services are provided at both airbases. Security personnel protect 48 F-15 fighter jets worth \$1.7 billion and the facilities housing them from sabotage, theft vandalism and trespass.

The OMD Capital Construction program is responsible for planning, design and construction of all OMD construction projects of \$1 million or more. \$13.5 million in Article Q bonds were sold in the 2017-19 biennium to finance projects to completely remodel one armory, seismically retrofit three key facilities and purchase land for future construction. Since 1986, the Capital Construction program has executed 49 building projects with a combined funding total of \$330 million. 18 more projects are scheduled on a long range construction plan through 2050.

Within OMD is the Office of Emergency Management (OEM). The 2017-19 LAB for OEM is \$169.3 million Federal Funds, \$96.5 million Other Funds and \$3.4 million General Fund. OEM has a very complex and multi-layered mission. OEM coordinates statewide emergency services and maintains emergency communications systems used for public warnings, emergency notifications and emergency support. OEM also provides city, county and tribal governments throughout Oregon with planning, training, exercise and technical assistance as it relates to disaster preparedness, emergency response recovery services and hazard mitigation. The Plans and Training Program (PTP) executes planning, training and exercise programs with the goal of raising awareness. The Technology and Response Program (TRP) is responsible for seamless operation of the statewide 9-1-1 system. This includes responsibility for coordination and management of the network that delivers 9-1-1 calls to Public Safety Answering Points across the state. The Mitigation and Recovery Program leads the coordination among state, local and federal agencies in development, planning and adoption of hazard mitigation plans. OEM administers a variety of federal grants from the U.S. Department of Homeland Security, most of which are passed through to local and tribal government subrecipients. These grants have numerous programmatic, monitoring and reporting requirements that necessitate continuous oversight by OEM staff.

OMD's Community Support Program offers a full spectrum of educational opportunities for the at-risk youth of Oregon. These opportunities are provided by the Oregon Youth Challenge Program (OYCP) in Bend and the Science and Technology Academies Reinforcing Basic Aviation and Space Exploration (STARBASE) programs at Portland and Klamath Falls airbases as well as Camp Rilea on the northwest coast. The 2017-19 LAB for Community Support Program is \$10.7 million Federal Funds, \$3.0 million Other Funds and \$0.2 million General Fund. OYCP serves 16-18 year old male and female dropouts who struggle to succeed in a traditional high school environment. OYCP is Oregon's only public statewide quasi-military based high school which includes supervised work experience in community service and conservation projects. Educational services of the OYCP are implemented through using an accredited high school curriculum taught by certified teachers approved by Oregon Department of Education. The STARBASE program exposes third through eighth graders to the fields of Science, Technology, Engineering and Mathematics (STEM) with the hopes of inspiring them to pursue a career in these fields. This is done by using a highly acclaimed 25-hour curriculum taught by the programs teaching staff. The STARBASE program hosts approximately 2,100 students each year.

The financial breadth, depth and complexity of programs administered and provided by OMD touches the lives of every citizen of Oregon, directly or indirectly. To provide sound financial administration and program delivery of funds expended by OMD, a lower ratio of supervisory to non-supervisor employee is certainly justifiable.

SUPERVISORY SPAN OF CONTROL REPORT

Based upon the described factors above the agency proposes a Maximum Supervisory Ratio of 1: 10.
