Subject: Opposition to H.B. 2747!
Date: Monday, February 18, 2019 6:23:18 PM

Dear Chair Witt and Members of the Committee:

I'm writing to express my adamant **opposition to H.B. 2747**, which will have the effect of further minimizing the voice of the vast majority of Oregonians who value wildlife for its own sake.

As written, the bill causes an imbalance of interest!

It would ensure hunters, fishermen, agriculture, and timber have an outsized influence on setting wildlife policy, while also ensuring those of us who want wildlife managed with decency and respect are effectively silenced, leading to biased choices driven by profit and desire to kill wildlife.

The bill takes us in the wrong direction!

The Commission must mirror the demographics of Oregon, so the majority who are NOT "consumptive users" have a greater voice in wildlife management policy.

If this bill passes, we can expect more support for abusive wildlife management practices like trapping and trophy hunting, and for allowing the agriculture and timber industries to kill more and more wild animals in the interest of private profits!

Please stand for ALL Oregonians and vote **NO on H.B. 2747**. Thank you for your service and for considering my views.

Respectfully,

Jenny Siebert
Voter in Newport
