I'd like to respectfully ask your support of HP2314. As a lifelong motorcycle enthusiast and motorcycle commuter I feel like HB 2314 is a step towards better motorcycle safety in the state of Oregon.

The ability to remove yourself from danger is a key component to this bill. With the increased population and heavier traffic in the Portland area I have had many close calls while out riding, most of which could've been avoided had I been able to move freely and get out of harms way.

Thank you for your consideration,

Chad Cook
