Subject: I respectfully request your support of HB2314.
Date: Monday, February 18, 2019 2:37:58 PM

Good afternoon I am writing to ask for your support of HB2314. I have been a part of the motorcycle community in Portland for fifteen years. Over these years I have witnessed our cities traffic issues triple and with our new technologies drivers become more distracted. I personally have two acquaintances that have been injured in rear end motorcycle accidents one of whom a woman came close to loosing her reproductive ability. I recognize that motorcycles are dangerous. I am an absolute supporter of all available safety gear and responsible riding.

Living in a city that supports bicycle safety I believe we can move in a positive direction to support motorcycle safety. I choose to ride a motorcycle and know that I still have to follow all vehicle laws and regulations. I believe safe lane filtering on freeways and highways will relieve some congestion and add to the safety of riders.

Thank you for time sincerely
Robert C Addison.
