BACKGROUND:

In 2018, House Bill 4087 was enacted to require vehicle repair shops to carry a bond of at least \$20,000 in order to properly attach a lien on a motor vehicle for cost of work performed, storage, and transportation. The bond requirement went into effect January 1, 2019. Repair shops indicate their inability to secure such bond. House Bill 2913 removes the bond requirement upon passage and reinstates the requirement on July 1, 2020.
