

**Dear sirs:**

**I am an 80 year old native Oregonian and have lived my entire life in RURAL Eastern Oregon.**

**I believe this "CAP & TRADE" legislation (HB2020) will do nothing of value to effect climate change and**

**will grow our Oregon government that is already out of control.**

**I urge the legislature to REJECT this ridiculous bill (HB2020) and get on with some common sense business.**

**Thank you for hearing me,**

**Larry G Hammond**
