

Are you people nuts? I know of several businesses that are leaving Oregon because of the tax and spend policies of the Oregon Legislature. And I know of a couple who are thinking of leaving us. Talk about killing the Goose that lays the golden egg. Think it through. And think about the purpose of government as established in the first place. Right now you are an enemy of the people. Under some circumstances, it's called treason.

Count me a loud "No" to the proposed Cap and Trade bill.

Rod Collins
