

I am for supporting SB 608:

I am almost 80. I have been target by a horrible neighbor for more than 5 years. GSL does nothing to stop the abuse of this man. I live in terror and can not find an affordable place to move too. I did not think in my golden years I would have to stand in lines for food boxes, be terrorized by sicko neighbors and not be able to move to an affordable place. In school 30% of your income for rent. That information is out dated.

I did not think in my golden years I would have to go and Get help paying my electric heat bill. Thank you Low income energy assistance for the help.

I remember 4 years ago or so there was a public out cry for renters relief and protections and 4 years later this is still nothing. Why? I am so glad the 51 unit owner is gone from Salem. ^{OUT} Rod Monroe is gone. It is too bad I do not live in a few others district to vote the no votes and the ones who murder HB 2004 in 2017 This is the your failure. 40% renters, the other 60% of Oregonians are NOT LAND LORDS.

• The 2017 Senate is responsible for causing more houselessness. Of the 3,000 houseless school kids in Gresham 1,700 are now housed. Too bad my neighbors had to move to Washington State for a roof over their head. Shameful. 1,700.

For 3 years I did not get a cost of living raise on my SSI and This year a measly 2% Shame on you all. Shameful.

Nursing home or Bust. Well at least I will have a 150. 00 spending cash each month and the Land Lord can not steal that money.

One angry renter in East County with no bus service to get anywhere.

Dp J.
