

We are a small family owned logging company in the SW coastal region of Oregon. We just starting out on our own with 25 yrs experience in the industry. We are proud to be OPL certified and stay current on forestry standards, regulations, and strive to protect the environment of this beautiful state. Should this pass, it would be devastating to so many small businesses in so many rural communities statewide, not just our region. Please protect Oregon families from further economic disaster... do not let this go through.

Sincerely,

Jeff Martindale, Kerri Huntley and family of:

J & K Logging Services, LLC

Coquille, OR
