

Joint Carbon Reduction Committee
CO Oregon St Representative Cliff Bentz
900 Court St. NE, S-403
Salem, Oregon 97301

Dear Cliff,

I hope that you can convey to this subcommittee that this Carbon Pricing will most certainly harm this East side of the State of Oregon.

As a best-case scenario, I see major damage to the economic foundation to this area. If this passage does not bankrupt this area, it will have no positive benefits that I can see.

We are doing much in this area with lowering the emissions from our ag equipment and transportation equipment and being good stewards of our environment. The environment is our life blood.

We do not need to have them dictating how business is done more so than they already are.

This is a really bad idea with no upside that I can see from here.

Thank you for your support of our area.
