

What is SCYP?

The UO Sustainable City Year Program harnesses the innovation and talent of University of Oregon students and faculty to strengthen Oregon communities.

- Learning that inspires action
- Engagement that is unprecedented
- Scalable to a community's size
- Significant impact for all involved

O UNIVERSITY OF
OREGON

What People are Saying About SCYP:

"The SCYP program has been an excellent collaboration between the City of Redmond and the University of Oregon professors and students. The quality of work contributed and the enthusiasm shown has led to some outstanding results. The money invested by Redmond is what I consider funds well spent, and I would do it again."

Mayor George Endicott
City of Redmond

"It has really been successful – beyond my wildest dreams. I know we will be using this work for years and years to come; we are going to make as many of these projects reality as we can."

Linda Norris
Salem City Manager

"The ideas proposed are beautiful, inspiring, and incredibly forward thinking; they are illustrations of what is possible without compromising what is necessary."

Mayor Christine Lundberg
City of Springfield

"Needs are identified in transportation plans, but resources are not always available to develop and analyze a full range of alternative solutions. The students brought energy, focus, and imagination to several long-standing transportation needs that impact livability, particularly in downtown Salem. Some of the best ideas generated by the students have since been refined and are now in design with construction anticipated in the next couple of years!"

Julie Warncke,
Transportation Planning Manager,
City of Salem Public Works Department

"Mission accomplished. I was just impressed how they came back with so much. You just saw so many possibilities, your brain was spinning. From a citizen engagement point of view, it's the best thing I've seen in the three years I've been on the City Council."

Councilor Richard Strathern
City of Gresham

"What the Sustainable City Year Program did for us is that it fast forwarded many of the action items we had included in our strategic plan."

Eric Swanson
City of Medford City Manager

"There are some shrewd, forward-thinking people working for the City of Salem. Here's the deal they brokered with the University of Oregon and Portland State: We'll invest just over \$300,000 to support a one year research and design project that will leave Salem \$12 million richer!"

**"Graduate Students
Nurture Salem's Sustainable Future,"**
Salem Business Journal
