

The cap and trade is another way Oregon can lead the country in to poverty. There is no way that raising prices on everything will be a benefit to anyone in Oregon. I know it will create more government jobs. But, Oregon can't pay for the government jobs with retirements it is committed to now.

I want you to keep my address so you can get me on the top of the list for food box deliveries.

If it doesn't work out you know I can move to another state.

This Warming is just another way to screw the people of Oregon. Quit it!
