

I emphatically oppose HB 3063!!

It is critical parents can work with their doctors to tailor the correct vaccine schedule. I believe we all deserve the right to choose. So, I oppose HB3063.

I have had extensive appointments with my doctor studying the genetic history of both sides of our families. Fathers & Mothers side. We deserve the right to choose what we believe is the best fit for our children.

Please hear our voices. I oppose HB3063!

Thank you for reading!!
