> I oppose Bill HB 3063. Whatever my stance on vaccines, the government has no business telling me what I can and can't do in terms of medical practices!

>

> My son is vaccine injured, though no doctor will admit it. He also has a fragile immune system thanks to a allergy condition called FPIES. This bill would make it so his immune system is put at risk because the CDC schedule for vaccines is ridiculous! No ones body is meant to handle that many vaccines at once!

>

> We get one vaccine a visit, no more. And this bill takes away that right to protect my son from further injury!

>

> That is NOT ok!

>

> And shame on you for fast tracking this bill so people have a hard time showing up in person for this!
