

I remember the first date of the Cannabis Cafe on N Dekum, several years ago. We met so many nice people, of diverse backgrounds. We shared one thing, a mutual liking for cannabis.

We have SO missed the gatherings, events, and people.

We were always cautious of driving, making sure there was enough time for the driver to be safe. BUT none of us drank. Cannabis is a social substance, causes a sense of calm. But I meander .. Do the right thing.
