

Hello,

I am asking, pleading, as a momma with 4 children, please keep vaccine exemptions in the state of Oregon. Based on all our family has seen and been through, we believe wholeheartedly that vaccines are not just a one-sized fits all thing for every single child, person. Please don't take away our freedoms in this. Please don't allow the Pharmaceutical companies to dictate what goes into our sweet little ones' bodies. Please don't make it so that we must go against our convictions to inject aborted fetal tissues into our children's bodies. Our bodies are sacred and we have a strong conviction against this. We are pleading as mothers and fathers 

Thank you

Crystal Gray
