

I will never vote Democrat again

My friends and network have left the Democrat Party over this issue.

The same party that is institutionally responsible for the promulgation of slavery and segregation and Jim Crow now wants to make my Democrat friends slaves to some environmental fog about a gas we all exhale thousands of times daily...

You've lost our "collective" vote...

Good luck with diminishing results.

Liberty is an intrinsic part of being a true Democrat Not morphed slavery.

Bye..
